

## Megawide voted as Best IR and among Philippines' Best Managed Companies in 2019

Engineering and infrastructure conglomerate Megawide ranks among top companies in Finance Asia's 2019 Best Companies Poll. The annual poll, now in its 19<sup>th</sup> year, surveys portfolio managers and buy-side analysts on their top company picks in each country and sector.

Megawide was voted first place in the Best Investor Relations category, a first in the company's history. It was also voted 2<sup>nd</sup> Best Mid Cap company, and 4<sup>th</sup> Best ESG this year.

It was also the only mid-cap company, with a market capitalization of around P40 billion, to make this year's Best Managed Companies list, ranking 7<sup>th</sup> among a roster of blue-chip companies and other more established conglomerates with an average market capitalization of more than P500 billion.

"We thank our investors and financial partners in their continued trust in Megawide," said Edgar Saavedra, Megawide Chairman and Chief Executive Officer. "These rankings signify our commitment to the sustainable growth of the company in line with our drive to help engineer a First-World Philippines."

In 2018, Megawide opened two flagship infrastructure projects of the government, the Mactan-Cebu International Airport (MCIA) Terminal 2 and the Parañaque Integrated Terminal Exchange (PITX). Transport infrastructure now contributes more than 50% to the company's consolidated net income, with the recent opening of MCIA Terminal 2 boosting airport operations 30% higher year-on year.

Saavedra also remains optimistic about the company's continued construction prospects, with Megawide securing an all-time high outstanding order book of Php50.9 billion at the end of 2018.
