

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

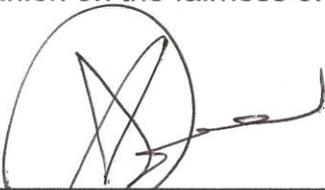

The management of **Megawide Construction Corp. and its subsidiaries** (the Group) is responsible for the preparation and fair presentation of the financial statements for the years ended December 31, 2019, 2018 and 2017, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative to do so.

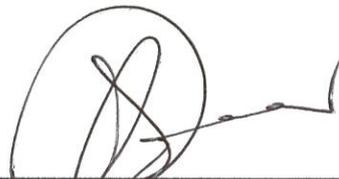

The Board of Directors is responsible for overseeing the Group's financial reporting process.

The Board of Directors reviews and approves the financial statements, including the schedules attached therein, and submits the same to the stockholders.

Punongbayan and Araullo, the independent auditors appointed by the stockholders, has audited the financial statements of the Group in accordance with Philippine Standards on Auditing, and in their report to the stockholders, have expressed their opinion on the fairness of presentation upon completion of such audit.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Megawide Construction Corporation and Subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2019 and 2018, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2019, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2019 and 2018, and their consolidated financial performance and their consolidated cash flows for each of the three years in the period ended December 31, 2019 in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Certified Public Accountants

Punongbayan & Araullo (P&A) is the Philippine member firm of Grant Thornton International Ltd (GTIL).

granthornton.com.ph

Emphasis of a Matter

We draw attention to Note 31 to the consolidated financial statements, which describes the likely negative impact of the business disruption as a result of the coronavirus outbreak to the Group's financial condition and performance after the end of the reporting period. Our opinion is not modified with respect to this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

(a) Revenue and Cost Recognition on Construction Contracts

Description of the Matter

The Group's revenue from construction contracts amounting to P14,401.9 million represents 72% of its total revenues in 2019. The Group uses the percentage of completion method to determine the appropriate amount of contract revenues to be recognized for the reporting period. It uses the input method (i.e., based on the Group's efforts or inputs to the satisfaction of a performance obligation) in determining the percentage-of-completion based on the PFRS 15, *Revenue from Contracts with Customers*, which was initially adopted by the Group as of January 1, 2018.

In our view, the revenue and cost recognition of construction contracts is significant to our audit due to the materiality of the contract revenues to the total revenues of the Group, the complexity of the application of PFRS 15 in construction contracts, and the application of significant management judgment in determining when to recognize construction revenue and proper recognition of costs in estimating the stage of completion of the construction. An error in the application of the requirements of PFRS 15 and of management judgment and estimate could cause a material misstatement in the consolidated financial statements.

The Group's disclosures on the impact of the adoption of PFRS 15, new accounting policy on revenue recognition of construction contracts, and basis of significant judgment and estimates are included in Notes 2 and 3 to the consolidated financial statements. In addition, the details of construction contract revenues and costs are disclosed in Notes 21 and 22 to the consolidated financial statements, respectively.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to revenue and cost recognition on construction contracts, which was considered to be a significant risk, included the following:

- Testing the design and operating effectiveness of the Group's processes and controls over the recognition and measurement of contract revenues and costs;
- Evaluating the appropriateness of the Group's revenue recognition on construction contracts based on the requirements of PFRS 15 which include the following:
 - reviewing and discussing with management significant construction contracts, including contractual terms and conditions to ensure these contracts are appropriately accounted for in accordance with PFRS 15;
 - evaluating whether the methodology by which management determines the percentage of completion (i.e., input method) is appropriate and consistent with the Group's satisfaction of its performance obligation;
 - determining proper accounting for contract costs whether these are considered as incremental costs of obtaining a contract, costs to fulfil the contract or mobilization costs; and,
 - determining whether performance obligation is distinct for proper allocation of transaction price.
- Testing the schedules of contracts completed and on-going projects as of the end of the reporting period such as, but not limited to, verifying the mathematical accuracy of the schedules, agreeing beginning balances on a per project basis, recalculating ending balances based on incurred contract costs for the current period; and agreeing contract prices, on a sample basis, to construction contracts;
- Examining, on a sample basis, contract costs incurred during the period by tracing these costs to supporting documents such as bill of materials, billing invoices and receipts;
- Performing cut-off procedures to determine whether contract revenues and costs are recognized in the correct period by examining billing and supplier invoices near the end of the reporting period;
- Testing completeness of costs recognized by agreeing costs incurred during the period to the trial balance and searching for unrecorded costs by examining subsequent disbursements related to the projects;
- Comparing the percentage of completion used by the Group to the percentage of total costs incurred to date over the total estimated costs on the project and following up variances;
- Recomputing total estimated cost as the product of total contract price and cost ratio derived from the examined contracts and comparing with project cost estimate certified by the Group's engineers;

- 4 -

- Performing analytical review procedures on contract revenues and costs, prior period estimates and consistency with the developments during the current period, stage of completion, and final forecast project results based on our expectations, and following up variances from our expectations; and
- Evaluating the sufficiency and appropriateness of disclosures in the Group's consolidated financial statements in accordance with PFRS 15.

(b) Impairment Assessment of Concession Assets

Description of the Matter

The Group identified that its Concession Agreement in relation to its Mactan Cebu International Airport (MCIA) Project is within the scope of IFRIC 12, *Service Concession Arrangements*, and shall be accounted under the intangible asset model as it receives the right (license) to charge users of the public service. As of December 31, 2019, the carrying values of the concession assets amounted to P29,436.6 million. As disclosed in Note 2 to the consolidated financial statements, the concession asset is recognized initially at cost and subsequently carried at cost less any accumulated amortization and accumulated impairment losses.

Under Philippine Accounting Standards (PAS) 36, *Impairment of Assets*, the Group is required to test for impairment intangible assets with finite useful life when there is an indication that the asset maybe impaired while intangible assets not yet available for use are tested at least annually for impairment.

In our view, this matter is significant to our audit because the amount of concession assets is material to the consolidated financial statements representing 36% of the Group's consolidated total assets. In addition, management's assessment process is highly judgmental and is based on significant assumptions, specifically in determining the recoverable amount of concession assets based on the value-in-use. The assumptions used by management are generally affected by expected future market and economic conditions.

The Group's accounting policies relating to the measurement of concession assets are disclosed in Note 2 while the carrying values of the concession assets are disclosed in Note 13 to the consolidated financial statements.

How the Matter was Addressed in the Audit

Our procedures related to the impairment assessment of Concession Assets included the following:

- Understanding the Group's process in making accounting estimates and determining whether there has been or ought to have been a change from the prior period in the method, judgment and assumptions used by the Group relating to the measurement of the concession assets;
- Involving the work of firm experts in testing the appropriateness of the assumptions and methodology used in determining the value-in-use of concession assets, which include the appropriateness of the pre-tax discount rate and growth rates, and reasonableness of the cash flow projections prepared by management with the assistance of third party consultants;

- 5 -

- Evaluating the qualification and competency of the third party consultants engaged by management to determine whether the results of their work can be relied upon; and
- Assessing the appropriateness and reasonableness of the underlying data and assumptions used by the Group in the sensitivity analysis performed on the calculation to determine whether a reasonably possible change in assumptions could cause the carrying amount of the concession assets to exceed the recoverable amount.

(c) Performing Significant Portion of Audit Remotely

Description of the Matter

As disclosed in Note 31 of the financial statements, a novel strain of coronavirus (COVID-19) started to become widespread in the Philippines in early March 2020 causing the government to declare the country in a state of public health emergency followed by implementation of enhanced community quarantine (ECQ) and social distancing measures and restrictions within the Luzon area with other cities and provinces in the country enacting similar measures thereafter. The ECQ and social distancing measures implemented by the government resulted in performing a significant portion of the engagement remotely.

The change in working conditions is relevant and significant to our audit since it creates an increased risk of misstatement due to less in-person access to the Group's management and personnel, and lack of access to the physical records and original documents. Given the changes in how the audit was performed, the audit required exercising enhanced professional skepticism.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of performing the audit remotely included the following:

- Considering the nature of the engagement and the engagement team's knowledge of the entity and its environment when determining whether it is possible to perform a significant portion, if not all of the engagement remotely;
- Following the requirements of the PSA including providing proper supervision and review, even when working remotely;
- Obtaining information through electronic means, which includes sending and receiving of confirmation electronically, obtaining calculations in electronic form to check the mathematical accuracy, scanning of hard-copy items for review and using real-time inspection technology such as video and screen-sharing;
- Determining the reliability of audit evidence provided electronically using enhanced professional skepticism;
- Used video conferencing in performing inquiries on areas where such procedure is appropriate in addition to other procedures to ensure more interactive and visible discussion with management and other personnel within the entity;
- Reviewing of workpapers of component auditors remotely through screen sharing and constant communication; and
- Examining critical hard copy documents (e.g., contracts, progress billings, billing invoices, purchases invoices and official receipts) physically in response to the risk in revenues and costs, which is considered to be significant.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Group's Securities and Exchange Commission (SEC) Form 20-IS (Definitive Information Statement), SEC Form 17-A, and Annual Report for the year ended December 31, 2019, but does not include the consolidated financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report for the year ended December 31, 2019 are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

- 7 -

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

- 8 -

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audits resulting in this independent auditors' report is Ms. Mailene Sigue-Bisnar.

We have audited, in accordance with Philippine Standards on Auditing, the consolidated financial statements of Megawide Construction Corporation and Subsidiaries (the Group) for the year ended December 31, 2019, on which we have rendered our report dated May 26, 2020. Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The applicable supplementary information (see List of Supplementary Information) is presented for purposes of additional analysis in compliance with the requirements of the Revised Securities Regulation Code Rule 68 of the Philippine Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with Philippine Financial Reporting Standards. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

Supplemental Information on Non-cash Investing and Financing Activities:

- 1) On January 1, 2019, the Group recognized additional right-of-use assets and lease liabilities amounting to P34.3 million, in relation to the adoption of PFRS 16, *Leases* (see Notes 2, 14 and 16).
- 2) In 2019, certain computer software license were reclassified from Other Current Assets to Property, Plant and Equipment amounting to P2.3 million in relation to the construction of the new T2 building and structural design (see Notes 12 and 14).
- 3) The Parent Company declared dividends in 2019 amounting to P528.6 million, of which P239.9 million remained unpaid as of year-end and are presented as dividends payable under Trade and Other Payables in the 2019 consolidated statement of financial position (see Note 17).
- 4) In 2019, GMI declared dividends to its non-controlling interests amounting to P50.0 million, of which P25.0 million remained unpaid as of year-end and are presented as non-trade payable under Trade and Other Payables in the 2019 consolidated statement of financial position (see Note 17).

See Notes to Consolidated Financial Statements.

MEGAWIDE CONSTRUCTION CORPORATION AND SUBSIDIARIES
(A Subsidiary of Citicore Holdings Investment, Inc.)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2019, 2018 AND 2017
(Amounts in Philippine Pesos)

1. CORPORATE INFORMATION

1.1 Incorporation and Operations

Megawide Construction Corporation (the Parent Company) was incorporated in the Philippines on July 28, 2004 and is engaged in the general construction business, including constructing, enlarging, repairing, or engaging in any work upon buildings, houses and condominium, roads, plants, bridges, piers, waterworks, railroads and other structures. It performs other allied construction business like the construction and sale of precast items, concrete production, and purchase sale and/or lease of formworks system and construction equipment.

On January 28, 2011, the Philippine Stock Exchange (PSE) and the Securities Exchange Commission (SEC) approved the Parent Company's application for the listing of its common stock. The approval covered the initial public offering (IPO) of 292.0 million unissued common shares of the Parent Company at P7.84 offer price per share and the listing of those shares in PSE's main board on February 18, 2012. On December 3, 2014, the Parent Company made a primary offer of 40.0 million preferred shares at an offer price of P100.0 per share. These preferred shares are also listed in the PSE (see Note 27.1).

On September 22, 2014, the SEC approved the Parent Company's amendment of articles of incorporation, which includes: (i) the Parent Company's power to extend corporate guarantees to its subsidiaries and affiliates; and, (ii) the increase in its authorized capital stock of P5,000.0 million divided into 4,930.0 million common shares and 70.0 million cumulative, non-voting, non-participating, non-convertible to common shares and redeemable, at the option of the Parent Company, perpetual preferred shares (see Note 27.1). Both common and preferred shares have a par value of P1.0 per share.

On August 16, 2017, Megacore Holdings, Inc. (Megacore) acquired 313,786,575 shares representing 14.7% ownership over the Parent Company from Citicore Holdings Investment, Inc. (Citicore). This resulted in a decrease in Citicore's ownership from 66.7% to 51.0%.

On December 22, 2017, Megacore further acquired additional shares from Citicore which resulted in an increase in Megacore's equity interest to the Parent Company equivalent to 28.9% or 617,709,197 as of December 31, 2017.

The Parent Company remains a subsidiary of Citicore which owns and controls 33.3% of the issued and outstanding capital stock of the Parent Company as of December 31, 2019 and 2018 because Citicore still directs the overall business operations of the Parent Company through its Chief Executive Officer and President, who is also the President of Citicore.

On December 20, 2017, the state-owned Social Security System acquired a total of 110,532,500 shares or equivalent to 5.2% interest of the Parent Company through purchase of 3.45% stake held by Megacore and the remaining interest from the public.

Citicore is a company incorporated in the Philippines and is engaged in the business of a holding company through buying and holding shares of other companies. The registered address of Citicore and the Parent Company, which is also their principal place of business, is at 20 N. Domingo Street, Brgy. Valencia, Quezon City.

1.2 Subsidiaries, Associates and Joint Arrangements

The Parent Company holds ownership interest in the following subsidiaries, associates and joint arrangements (together with the Parent Company, collectively hereinafter referred to as the Group):

a) GMCAC

GMCAC was incorporated in the Philippines and registered in the SEC in 2014. GMCAC's primary purpose is to construct, develop, operate and maintain the Mactan Cebu International Airport (MCIA), including the commercial assets thereof and all allied businesses for the operation and maintenance of said airport facility (MCIA Project). GMCAC started commercial operations on November 1, 2014.

GMCAC was established for the purpose of implementing the provisions of the Concession Agreement (see Note 13) that was signed on April 22, 2014 between the Parent Company and GMR Infrastructure Limited (GIL), and the Department of Transportation and Communications (currently, the Philippine Department of Transportation or DOTr) and Mactan-Cebu International Airport Authority (MCIAA) (collectively, the Grantors).

GIL is an entity duly organized and registered in India. DOTr and MCIAA are the agencies of the Philippine Government vested with the power and authority to develop dependable and coordinated transportation systems and to principally undertake the economical, efficient, and effective control, management, and supervision of the MCIA Project. GMCAC's registered address, which is also its principal place of business, is located at Mactan-Cebu International Airport Passenger Terminal Building, Airport Terminal, Lapu-Lapu City.

b) MCEI

MCEI was incorporated in 2014 to engage in the development of clean or renewable energy sources for power generation. Its registered address, which is also its principal place of business, is located at 20 N. Domingo St. Brgy. Valencia, Quezon City. As of December 31, 2019, MCEI has not yet started operations.

c) GMI

GMI was incorporated in the Philippines in 2016 and is primarily engaged in general merchandise operations. GMI's registered address, which is also its principal place of business, is located at Mactan-Cebu International Airport Passenger Terminal Building, Airport Terminal, Lapu-Lapu City. GMI started its commercial operations in March 2017.

On March 15, 2017, the Parent Company sold 2,000,000 shares or 10% interest of GMI to GMR Holdings Overseas (Singapore) Pte. Ltd. (GHOSPL). As of December 31, 2017, GMI is 50% owned by the Parent Company. The Parent Company still consolidates its ownership in GMI after the sale as the management considers that the Group has de facto control over GMI even though it effectively holds 50% ownership interest [see Note 3.1(i)].

d) MLI

MLI was incorporated in 2016 primarily to engage in real estate and related business. MLI's registered address, which is also its principal place of business, is located at 20 N. Domingo St. Brgy. Valencia, Quezon City. MLI has not commenced its operations as of December 31, 2019.

MLI has a 60% ownership interest in MCLI, a company incorporated in the Philippines and was established to engage in cold and dry storage business. The registered office address of MCLI, which is also its principal place of business, is located at No. 20 N. Domingo Street, Brgy. Valencia, Quezon City.

e) MCBVI

On June 20, 2017, the Parent Company acquired 100% ownership interest in MCBVI, an entity incorporated in the territory of British Virgin Islands to primarily engage in buying and holding shares of other companies. MCBVI's registered address, which is also its principal place of business, is Marcy Building, 2nd floor, Purcell Estate, Road Town Tortola, British Virgin Islands. In 2018, MCBVI has commenced business operations.

MCBVI has a wholly owned subsidiary, DMCC, which was registered on December 10, 2017 is an infrastructure conglomerate. Its registered office is located at Unit 4401-05, Mazaya Business Avenue BB2, Jumeriah Lake Towers, Dubai UAE.

f) *Altria*

The Parent Company's acquisition of Altria is accounted for as an asset acquisition since it does not constitute an acquisition of business (see Note 11.2).

g) *MWCCI and CMCI*

The Group's investments in MWCCI and CMCI are accounted for as investments in associates since the ownership of the Parent Company does not result to control over the entities' relevant activities [see Notes 3.1(e), 3.1(j) and 11.1].

h) *MIL*

MIL, whose registered office is at Marcy Building, 2nd Floor, Purcell Estate, P.O. Box 2416, Road Town Tortola, British Virgin Islands, was incorporated on July 26, 2019. MIL has a 100% owned subsidiary, MC-SG, which was registered on March 1, 2019 as a general building engineering design and consultancy services. Its registered office is located at 8 Cross St. #24-03/04 Manulife Tower Singapore.

i) *MTI*

On August 9, 2018, the Parent Company acquired 344.5 million shares or 100% ownership interest in MTI from existing shareholders of MTI for P344.1 million. MTI owns 49% interest over MWMTI.

MTI (previously WM Property Management, Inc.) is an entity incorporated and registered on November 11, 2011 to establish, own, manage, administer, operate, maintain, and carry the business of providing property management services, either directly or through third parties, but not limited to the services of rent collection, tenant and lease management, marketing and advertising, repair and maintenance, liaison and other similar services. MTI's registered address and principal place of business is at 20 N. Domingo St. Brgy. Valencia, Quezon City.

j) *MWMTI*

MWMTI is a joint venture arrangement formed on February 10, 2015 by the Parent Company and MTI, both exercising joint control to direct the relevant activities of MWMTI. The joint venture undertakes the development and implementation of the Parañaque Integrated Terminal Exchange (PITX) Project (formerly Southwest Integrated Transport System Project) granted by the Philippine Government to MWMTI under a Build-Operate-Transfer Agreement (BOT Agreement) through the DOTr (see Note 29.3.2). In November 2018, MWMTI commenced commercial operations.

With the Parent Company's acquisition of 100% ownership interest in MTI in 2018 [see Note 1.2(i)], the Parent Company's effective ownership interest in MWMTI increased from 51% to 100% as of December 31, 2018. Accordingly, the Parent Company consolidates its interest in MWMTI from the acquisition date. Prior to the acquisition, the Group's interest in MWMTI is accounted for as a joint venture as the Group exercises joint control over the joint venture's relevant activities [see Notes 3.1(j)].

k) *MGCJV*

MGCJV is an unincorporated joint venture formed in 2014 by the Parent Company and GMR Infrastructure (Singapore) PTE Limited – Philippines Branch (GISPL) each owning 50% interest and exercising joint control. MGCJV was established to provide construction of works for the renovation and expansion of the MCIA Project and other airport related construction projects of the Group (see Note 11.4).

l) *MGCJVI*

MGCJVI is an incorporated joint arrangement formed in January 2018 by the Parent Company owning 50% interest and GMR Infrastructure (Singapore) PTE Limited with 45% interest and GMR Holdings Overseas (Singapore) PTE Limited owning the remaining 5%. The Parent Company and GMR both exercising joint control. MGCJVI was established to provide general construction business including construction, improvement and repair of Clark Airport project (see Note 11.4). MGCJVI began to operate in the same year it was formed.

m) *MTRGC*

MTRGC was incorporated and registered under the laws of the Republic of the Philippines with the SEC on March 21, 2018 to develop, set-up, operate, maintain and manage the duty paid outlets at the locations in the Mactan Cebu International Airport (see Note 11.3). It started operations in the same year of incorporation.

n) *SSPPC*

SSPPC was incorporated and registered under the laws of the Republic of the Philippines with the SEC on March 13, 2018 to develop, set-up, operate, maintain and manage food and beverage outlets at specified locations in Terminal 1 and Terminal 2 of Mactan Cebu International Airport and the provision of related services thereto (see Note 11.3). It started operations in the same year of incorporation.

1.3 *Approval of the Consolidated Financial Statements*

The consolidated financial statements of the Group as of and for the year ended December 31, 2019 (including the comparative consolidated financial statements as of December 31, 2018 and for the years ended December 31, 2018 and 2017) were authorized for issue by the Parent Company's Board of Directors (BOD) on May 26, 2020, as endorsed by its Audit and Compliance Committee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarized below and in the succeeding pages. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 *Basis of Preparation of Consolidated Financial Statements*

(a) *Statement of Compliance with Philippine Financial Reporting Standards*

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board, and approved by the Philippine Board of Accountancy.

The consolidated financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. The measurement bases are fully described in the accounting policies below and in the succeeding pages.

(b) *Presentation of Consolidated Financial Statements*

The consolidated financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The Group opted to present a separate consolidated statement of income and consolidated statement of comprehensive income.

The Group presents a third consolidated statement of financial position as at the beginning of the preceding period when it applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the consolidated statement of financial position at the beginning of the preceding period. The related notes to the third consolidated statement of financial position are not required to be disclosed.

The Group reclassified the following prior period accounts to conform with the 2019 consolidated financial statement presentation and account classification:

- (i) Other Operating Expenses including repairs and maintenance, outside services, supplies, and utilities amounting to P207.5 million and P80.2 million in 2018 and 2017, respectively, were reclassified to Direct Costs of airport operations (see Notes 22.2 and 23); and,
- (ii) Advances from Customers in 2018 amounting to P3,485.0 million was reclassified to Contract Liabilities account (see Note 19).

The prior period reclassifications on expenses only represent 1.6% and 0.5% of the consolidated total operating expenses for the years ended December 31, 2018 and 2017, respectively, while the reclassification of the advances to customers represents only 7.3% of the total consolidated liabilities as of December 31, 2018. As such reclassifications did not have any material impact on the Group's consolidated financial statements, a third consolidated statement of financial position is not required to be presented.

(c) *Functional and Presentation Currency*

These consolidated financial statements are presented in Philippine pesos, the Group's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the consolidated financial statements are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Group operates.

2.2 Adoption of New and Amended PFRS

(a) *Effective in 2019 that are Relevant to the Group*

The Group adopted for the first time the following PFRS, amendments, interpretations, and annual improvements to PFRS, which are mandatorily effective for annual periods beginning on or after January 1, 2019:

PAS 19 (Amendments)	:	Employee Benefits – Plan Amendment, Curtailment or Settlement
PAS 28 (Amendments)	:	Investment in Associates and Joint Ventures – Long-term Interests in Associates and Joint Ventures
PFRS 9 (Amendments)	:	Financial Instruments – Prepayment Features with Negative Compensation
PFRS 16	:	Leases
International Financial Reporting Interpretations Committee (IFRIC) 23	:	Uncertainty over Income Tax Treatments
Annual Improvements to PFRS (2015-2017 Cycle)	:	
PAS 12 (Amendments)	:	Income Taxes – Tax Consequences of Dividends
PAS 23 (Amendments)	:	Borrowing Costs – Eligibility for Capitalization
PFRS 3 and PFRS 11 (Amendments)	:	Business Combination and Joint Arrangements – Remeasurement of Previously Held Interests in a Joint Operation

Discussed below and in the succeeding pages are the relevant information about these pronouncements.

- (i) PAS 19 (Amendments), *Employee Benefits – Plan Amendment, Curtailment or Settlement*. The amendments clarify that past service cost and gain or loss on settlement is calculated by measuring the net defined benefit liability or asset using updated actuarial assumptions and comparing the benefits offered and plan assets before and after the plan amendment, curtailment or settlement but ignoring the effect of the asset ceiling that may arise when the defined benefit plan is in a surplus position. Further, the amendments now require that if an entity remeasures its net defined benefit liability or asset after a plan amendment, curtailment or settlement, it should also use updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after the change to the plan. The application of these amendments had no significant impact on the Group’s consolidated financial statements.
- (ii) PAS 28 (Amendments), *Investment in Associates and Joint Ventures – Long-term Interest in Associates and Joint Ventures*. The amendments clarify that the scope exclusion in PFRS 9 applies only to ownership interests accounted for using the equity method. Thus, the amendments further clarify that long-term interests in an associate or joint venture – to which the equity method is not applied – must be accounted for under PFRS 9, which shall also include long-term interests that, in substance, form part of the entity’s net investment in an associate or joint venture. The application of these amendments had no significant impact on the Group’s consolidated financial statements.
- (iii) PFRS 9 (Amendments), *Financial Instruments – Prepayment Features with Negative Compensation*. The amendments clarify that prepayment features with negative compensation attached to financial assets may still qualify under the “solely payments of principal and interests” (SPPI) test. As such, the financial assets containing prepayment features with negative compensation may still be classified at amortized cost or at fair value through other comprehensive income (FVOCI). The application of these amendments had no significant impact on the Group’s consolidated financial statements.
- (iv) PFRS 16, *Leases*. The new standard replaced PAS 17, *Leases*, and its related interpretation IFRIC 4, *Determining Whether an Arrangement Contains a Lease*, Standard Interpretations Committee (SIC) 15, *Operating Leases – Incentives* and SIC 27, *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. For lessees, it requires an entity to account for leases “on-balance sheet” by recognizing a “right-of-use” asset and lease liability arising from contract that is, or contains, a lease.

For lessors, the definitions of the type of lease (i.e., finance and operating leases) and the supporting indicators of a finance lease are substantially the same with the provisions under PAS 17. In addition, basic accounting mechanics are also similar but with some different or more explicit guidance related to variable payments, sub-leases, lease modifications, the treatment of initial direct costs and lessor disclosures

Relative to the adoption of PFRS 16 in the Philippines, the FRSC also approved the issuance of the following:

- Philippine Interpretations Committee (PIC) Q&A 2019-11, *Determining the Current Portion of an Amortizing Lease Liability*. This Q&A provides guidance on determining the current portion of an amortizing lease liability for proper classification/presentation between current and non-current in the consolidated statement of financial position.
- PIC Q&A 2019-12, *Determining the Lease Term under PFRS 16*. This Q&A provides guidance in determining the lease term under the new leases standard. Such exercise may require significant judgment especially when the lease agreement contains an option to either extend or terminate the lease.
- PIC Q&A 2019-13, *Determining the Lease Term of Leases that are Renewable Subject to Mutual Agreement of the Lessor and the Lessee*. This Q&A is a supplement to PIC Q&A 2019-12, providing guidance on determining the lease term under PFRS 16. This focuses on lease contracts that are renewable subject to mutual agreement of the parties.

The Group has adopted PFRS 16 using the modified retrospective approach as allowed under the transitional provisions of the standard. The adoption of the standard has resulted in adjustments to the amounts recognized in the consolidated financial statements as at January 1, 2019, with no adjustment to the opening balance of the retained earnings. Accordingly, comparative information were not restated.

The effects of the adoption of PFRS 16 resulted in the recognition of right-of-use asset and lease liability amounting to P32.5 million on January 1, 2019. In addition, transportation and construction equipment amounting to P177.9 million as of January 1, 2019 that were previously presented under precast and construction equipment and transportation equipment under property, plant and equipment account in the consolidated statement of financial position were reclassified to right-of-use assets and are still presented under property, plant and equipment account in the 2019 consolidated statement of financial position. For Group's accounting policies as a lessor, PFRS 16 does not provide for any substantial change, as the lessor still recognizes its lease contracts as either an operating or finance lease.

The new accounting policies of the Group as a lessee are disclosed in Note 2.18(a), while the accounting policies of the Group as a lessor, as described in Note 2.18(b), were not significantly affected.

Discussed below and in the succeeding pages are the relevant information arising from the Group's adoption of PFRS 16 and how the related accounts are measured and presented on the Group's consolidated financial statements as at January 1, 2019.

- a. For contracts in place at the date of initial application, the Group has elected to apply the definition of a lease from PAS 17 and IFRIC 4 and has not applied PFRS 16 to arrangements that were previously not identified as leases under PAS 17 and IFRIC 4.

- b. The Group recognized lease liabilities in relation to leases which had previously been classified as operating leases under PAS 17. These liabilities were measured at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate as of January 1, 2019. The Group's weighted average incremental borrowing rate applied to the lease liabilities on January 1, 2019 was 6.98%.
- c. The Group has elected not to include initial direct costs in the measurement of right-of-use assets at the date of initial application. The Group also elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid lease payments and estimated cost to restore the leased asset that existed as at January 1, 2019.
- d. For leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets, the Group has applied the optional exemptions to not recognize right-of-use assets but to account for the lease expense on a straight-line basis over the remaining lease term.
- e. For those leases previously classified as finance leases, the Group recognized the related right-of-use asset and lease liability at the date of initial application at the same amounts as the carrying amount of the capitalized asset and finance lease obligation under PAS 17 immediately before transition.
- f. The Group has also used the following practical expedients, apart from those already mentioned above, as permitted by the standard:
 - i. application of a single discount rate to a portfolio of leases with reasonably similar characteristics;
 - ii. reliance on its historical assessments on whether leases are onerous as an alternative to performing an impairment review on right-of-use assets. As at January 1, 2019, the Group has no onerous contracts; and,
 - iii. use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The following table shows the effects of the adoption of PFRS 16 in the carrying amounts and presentation of certain accounts in the consolidated statement of financial position as at January 1, 2019.

	Note	Carrying Amount (PAS 17) December 31, 2018	Remeasurement	Carrying Amount (PFRS 16) January 1, 2019
<i>Assets –</i>				
Property, plant and equipment	c	P5,496,096,2019	P 34,277,641	P 5,530,373,850
<i>Liabilities:</i>				
Interest-bearing loans and borrowings – current	b	(6,408,573,493)	(10,270,039)	(6,418,843,532)
Interest-bearing loans and borrowings – non-current	b	(30,371,690,492)	(24,007,602)	(30,395,698,094)
Impact on net assets			<u>P -</u>	

A reconciliation of the opening lease liabilities recognized at January 1, 2019 and the total operating lease commitments determined under PAS 17 at December 31, 2018 is shown below.

	<u>Notes</u>		
Operating lease commitments, December 31, 2018 (PAS 17)	29.1	P	40,737,545
Leases with remaining term of less than 12 months	2.2(a)(iv)(d)		<u>(2,381,991)</u>
Operating lease liabilities before discounting			38,355,554
Discount using incremental borrowing rate	2.2(a)(iv)(b)		<u>(4,077,913)</u>
Operating lease liabilities			34,277,641
Obligation from finance leases	2.2(a)(iv)(c)		<u>157,923,257</u>
Lease liabilities, January 1, 2019 (PFRS 16)		P	<u>192,200,898</u>

- (v) IFRIC 23, *Uncertainty over Income Tax Treatments*. This interpretation provides clarification on the determination of taxable profit, tax bases, unused tax losses, unused tax credits, and tax rates when there is uncertainty over income tax treatments. The core principle of the interpretation requires the Group to consider the probability of the tax treatment being accepted by the taxation authority. When it is probable that the tax treatment will be accepted, the determination of the taxable profit, tax bases, unused tax losses, unused tax credits, and tax rates shall be on the basis of the accepted tax treatment. Otherwise, the Group has to use the most likely amount or the expected value, depending on the surrounding circumstances, in determining the tax accounts identified immediately above. The application of this interpretation had no significant impact on the Group's consolidated financial statements.
- (vi) Annual Improvements to PFRS 2015-2017 Cycle. Among the improvements, the following amendments, which are effective from January 1, 2019, are relevant to the Group but had no material impact on the Group's consolidated financial statements:
- PAS 12 (Amendments), *Income Taxes – Tax Consequences of Dividends*. The amendments clarify that an entity should recognize the income tax consequence of dividend payments in profit or loss, other comprehensive income or equity according to where the entity originally recognized the transactions that generated the distributable profits.
 - PAS 23 (Amendments), *Borrowing Costs – Eligibility for Capitalization*. The amendments clarify that if any specific borrowing remains outstanding after the related qualifying asset is ready for its intended use or sale, such borrowing is treated as part of the entity's general borrowings when calculating the capitalization rate

- PFRS 3 (Amendments), *Business Combinations*, and PFRS 11 (Amendments), *Joint Arrangements – Remeasurement of Previously Held Interests in a Joint Operation*. The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.

(b) *Effective Subsequent to 2019 but not Adopted Early*

There are amendments to existing standards effective for annual periods subsequent to 2019, which are adopted by the FRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have significant impact on the Group's consolidated financial statements:

- (i) PAS 1 (Amendments), *Presentation of Financial Statements* and PAS 8 (Amendments), *Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Material* (effective from January 1, 2020). The amendments provide a clearer definition of 'material' in PAS 1 by including the concept of 'obscuring' material information with immaterial information as part of the new definition, and clarifying the assessment threshold (i.e., misstatement of information is material if it could reasonably be expected to influence decisions made by primary users, which consider the characteristic of those users as well as the entity's own circumstances).

The definition of material in PAS 8 has been accordingly replaced by reference to the new definition in PAS 1. In addition, amendment has also been made in other Standards that contain definition of material or refer to the term 'material' to ensure consistency.

- (ii) Revised Conceptual Framework for Financial Reporting (effective from January 1, 2020). The revised conceptual framework will be used in standard-setting decisions with immediate effect. Key changes include (a) increasing the prominence of stewardship in the objective of financial reporting, (b) reinstating prudence as a component of neutrality, (c) defining a reporting entity, which may be a legal entity, or a portion of an entity, (d) revising the definitions of an asset and a liability, (e) removing the probability threshold for recognition and adding guidance on derecognition, (f) adding guidance on different measurement basis, and, (g) stating that profit or loss is the primary performance indicator and that, in principle, income and expenses in other comprehensive income should be recycled where this enhances the relevance or faithful representation of the financial statements.

No changes will be made to any of the current accounting standards. However, entities that rely on the framework in determining their accounting policies for transactions, events or conditions that are not otherwise dealt with under the accounting standards will need to apply the revised framework from January 1, 2020. These entities will need to consider whether their accounting policies are still appropriate under the revised framework.

- (iii) PFRS 10 (Amendments), *Consolidated Financial Statements*, and PAS 28 (Amendments), *Investments in Associates and Joint Ventures – Sale or Contribution of Assets Between an Investor and its Associates or Joint Venture* (effective date deferred indefinitely). The amendments to PFRS 10 require full recognition in the investor's financial statements of gains or losses arising on the sale or contribution of assets that constitute a business as defined in PFRS 3, *Business Combinations*, between an investor and its associate or joint venture. Accordingly, the partial recognition of gains or losses (i.e., to the extent of the unrelated investor's interests in an associate or joint venture) only applies to those sale of contribution of assets that do not constitute a business. Corresponding amendments have been made to PAS 28 to reflect these changes. In addition, PAS 28 has been amended to clarify that when determining whether assets that are sold or contributed constitute a business, an entity shall consider whether the sale or contribution of those assets is part of multiple arrangements that should be accounted for as a single transaction.

2.3 Basis of Consolidation, Investments in Subsidiaries and Associates, and Interests in Joint Arrangements

The Group's consolidated financial statements comprise the accounts of the Parent Company, its subsidiaries, associates and joint arrangements, as discussed in Note 1.2, after elimination of material intercompany transactions. All intercompany assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities under the Group, are eliminated in full on consolidation. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the consolidated financial statements.

The financial statements of subsidiaries, associates and joint arrangements are prepared for the same reporting period as the Parent Company, using consistent accounting principles.

The Parent Company accounts for its investments in subsidiaries, associates, interests in joint arrangements and non-controlling interests as follows:

(a) Investments in Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it is exposed, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date the Parent Company obtains control.

The Parent Company reassesses whether or not it controls an entity if facts and circumstances indicate that there are changes to one or more of the three elements of controls indicated above. Accordingly, entities are deconsolidated from the date that control ceases.

Distributions from subsidiaries are accounted for as dividend income which are eliminated at consolidation.

i) *Accounting for Business Combination Using the Acquisition Method*

The acquisition method is applied to account for acquired subsidiaries. This requires recognizing and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group, if any. The consideration transferred also includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred and subsequent change in the fair value of contingent consideration is recognized directly in profit or loss.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognizes any non-controlling interest in the acquiree, either at fair value or at the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any existing equity interest in the acquiree over the acquisition-date fair value of identifiable net assets acquired is recognized as goodwill. If the consideration transferred is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly as gain in profit or loss (see Note 2.12).

ii) *Accounting for Business Combination Using the Pooling-of-interests Method*

Business combinations arising from transfers of interests in entities that are under the common control of the principal shareholder are accounted for under the pooling-of-interests method. Transfers of assets between commonly-controlled entities are accounted for under historical cost accounting. Under this method, the financial information of the acquired entities are included as if the acquisition occurred in the earliest period presented. The assets and liabilities of the acquired entities are combined using their respective carrying values and any difference is accounted for and recognized in Other Reserves account presented under the consolidated statement of changes in equity.

(b) *Investments in Associates*

Associates are those entities over which the Parent Company is able to exert significant influence but which are neither subsidiaries nor interests in a joint venture. Investments in associates are initially recognized at cost and subsequently accounted for using the equity method.

Acquired investment in associates is subject to the purchase method. The purchase method involves the recognition of the acquiree's identifiable assets and liabilities, including contingent liabilities, regardless of whether they were recorded in the financial statements prior to acquisition. Goodwill represents the excess of acquisition cost over the fair value of the Parent Company's share of the identifiable net assets of the acquiree at the date of acquisition. Any goodwill or fair value adjustment attributable to the Parent Company's share in the associate is included in the amount recognized as investment in an associate.

All subsequent changes to the ownership interest in the equity of the associates are recognized in the Parent Company's carrying amount of the investments. Changes resulting from the profit or loss generated by the associates are credited or charged against the Equity in net profit (losses) of associates and joint venture as part of Others – net account under Other Income (Charges) section of the consolidated statement of income.

Impairment loss is provided when there is objective evidence that the investment in an associate will not be recovered (see Note 2.20).

Changes resulting from other comprehensive income of the associate or items recognized directly in the associate's equity are recognized in other comprehensive income or equity of the Parent Company, as applicable. However, when the Parent Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Parent Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the investor resumes recognizing its share of those profits only after its share of the profits exceeds the accumulated share of losses that has previously not been recognized.

Distributions received from the associates are accounted for as a reduction of the carrying value of the investment.

(c) *Interests in Joint Arrangement*

(i) *Joint Operation*

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint control arises from a contractually agreed sharing of control in an arrangement, which exist only when decisions about the relevant activities require unanimous consent of the parties sharing control. For interests in joint operation, the Group recognizes in its consolidated financial statements its assets including its share of any assets held jointly; its liabilities including its share of any liabilities incurred jointly; its revenue from sale of its share of the output arising from the joint operation; its expenses including its share of any expenses incurred jointly; and its share in the income from the sale of goods or services by the joint operation. The amounts of these related accounts are presented as part of the regular asset and liability accounts and income and expense accounts of the Group and are measured and recognized in accordance with the relevant financial reporting standards.

(ii) *Joint Venture*

A jointly controlled entity is a corporation, partnership, or other entity in which two or more venturers have an interest, under a contractual arrangement that establishes joint control over the entity. Each venturer usually contributes cash or other resources to the jointly controlled entity. Those contributions are included in the accounting records of the venturer and recognised in the venturer's financial statements as an investment in the jointly controlled entity.

Investments in joint venture are initially recognized at cost and subsequently accounted for using the equity method.

Acquired investment in a jointly controlled entity is subject to the purchase method. The purchase method involves the recognition of the jointly controlled entity's identifiable assets and liabilities, including contingent liabilities, regardless of whether they were recorded in the financial statements prior to acquisition. Goodwill represents the excess of acquisition cost over the fair value of the venturer's share of the identifiable net assets of the joint venture at the date of acquisition. Any goodwill or fair value adjustment attributable to the venturer's share in the joint venture is included in the amount recognized as investment in joint venture.

All subsequent changes to the ownership interest in the equity of the joint venture are recognized in the venturer's carrying amount of the investments. Changes resulting from the profit or loss generated by the joint venture are credited or charged against the Equity in net profit (losses) of associates and joint venture as part of Others – net account under Other Income (Charges) section of the consolidated statement of income.

Impairment loss is provided when there is objective evidence that the investments in joint venture will not be recovered (see Note 2.20).

Changes resulting from other comprehensive income of the jointly controlled entity or items recognized directly in the jointly controlled entity's equity are recognized in other comprehensive income or equity of the venturer, as applicable. However, when the venturer's share of losses in a joint venture equals or exceeds its interest in the joint venture, including any other unsecured receivables, the venturer does not recognize further losses, unless it has incurred obligations or made payments on behalf of the jointly controlled entity. If the jointly controlled entity subsequently reports profits, the venturer resumes recognizing its share of those profits only after its share of the profits exceeds the accumulated share of losses that has previously not been recognized.

Distributions received from the jointly controlled entity are accounted for as a reduction of the carrying value of the investments.

(d) *Transactions with Non-controlling Interests*

The Group's transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions, that is, as transaction with the owners of the Group in their capacity as owners. The difference between the fair value of any consideration paid and the relevant share acquired of the carrying value of the net assets of the subsidiary is recognized as Other Reserves in equity. Disposals of equity investments to non-controlling interests result in gains and losses for the Group that are also recognized in equity.

When the Group ceases to have control over a subsidiary, any retained interest in the entity is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purpose of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

The Parent Company holds interests in various subsidiaries, associates, and joint arrangements as presented in Notes 1.2 and 11.

2.4 Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual terms of the financial instrument. For purposes of classifying financial assets, an instrument is considered as an equity instrument if it is non-derivative and meets the definition of equity for the issuer in accordance with the criteria of PAS 32, *Financial Instruments: Presentation*. All other non-derivative financial instruments are treated as debt instruments.

(a) *Classification, Measurement and Reclassification of Financial Assets*

The classification and measurement of financial assets is driven by the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The classification and measurement of financial assets are described below and in the succeeding pages.

(i) *Financial Assets at Amortized Cost*

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Group's business model whose objective is to hold financial assets in order to collect contractual cash flows ("hold to collect"); and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are SPPI on the principal amount outstanding.

Except for trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with PFRS 15, *Revenue from Contracts with Customers*, all financial assets meeting these criteria are measured initially at fair value plus transaction costs. These are subsequently measured at amortized cost using the effective interest method, less any impairment in value.

The Group's financial assets at amortized cost are presented as Cash and Cash Equivalents, Trade and Other Receivables (excluding Advances to officers and employees), Refundable security and bond deposits (presented under Other Current Assets account) and Investment in Trust fund (which pertains solely to cash) and Refundable security deposits (presented under Other Current and Non-current Assets account) in the consolidated statement of financial position.

Financial assets measured at amortized cost are included in current assets, except for those with maturities greater than 12 months after the end of reporting period, which are classified as non-current assets.

For purposes of cash flows reporting and presentation, cash and cash equivalents comprise accounts with original maturities of three months or less, including cash. These generally include cash on hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of the financial assets except for those that are subsequently identified as credit-impaired. For credit-impaired financial assets at amortized cost, the effective interest rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance). The interest earned is recognized in the consolidated statement of income as part of Finance Income.

(ii) *Financial Assets at Fair Value Through Other Comprehensive Income*

The Group accounts for financial assets at FVOCI if the assets meet the following conditions:

- they are held under a business model whose objective is to hold to collect the associated cash flows and sell ("hold to collect and sell"); and
- the contractual terms of the financial assets give rise to cash flows that are SPPI on the principal amount outstanding.

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI; however, such designation is not permitted if the equity investment is held by the Group for trading or as mandatorily required to be classified as fair value through profit or loss (FVTPL). The Group has designated certain equity instruments as at FVOCI on initial recognition.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value are recognized in other comprehensive income, net of any effects arising from income taxes, and are reported as part of Revaluation Reserves account in equity. When the asset is disposed of, the cumulative gain or loss previously recognized in the Revaluation Reserves account is not reclassified to profit or loss but is reclassified directly to Retained Earnings account, except for those debt securities classified as FVOCI wherein cumulative fair value gains or losses are recycled to profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of the financial assets except for those that are subsequently identified as credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance). The interest earned is recognized in the consolidated statement of income as part of Finance Income.

Any dividends earned on holding equity instruments are recognized in profit or loss as part of Other Income (Charges) account, when the Group's right to receive dividends is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and, the amount of the dividend can be measured reliably, unless the dividends clearly represent recovery of a part of the cost of the investment.

(iii) *Financial Assets at Fair Value Through Profit or Loss*

Financial assets that are held within a different business model other than "hold to collect" or "hold to collect and sell" are categorized at FVTPL. Further, irrespective of business model, financial assets whose contractual cash flows are not SPPI are accounted for at FVTPL. Also, equity securities are classified as financial assets at FVTPL, unless the Group designates an equity investment that is not held for trading as at FVOCI at initial recognition. The Group's financial assets at FVTPL include debt securities which are held for trading purposes or designated as at FVTPL (see Note 7). Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments as defined by PFRS 9 (see Note 2.16).

Financial assets at FVTPL are measured at fair value with gains or losses recognized in profit or loss as part of Finance Income in the consolidated statement of income. The fair values of these financial assets are determined by reference to active market transactions or using a valuation technique where no active market exists.

Interest earned on these investments is included in the net fair value gains (losses) on these assets presented as part of Finance Income in the consolidated statement of income.

The Group can only reclassify financial assets if the objective of its business model for managing those financial assets changes. Accordingly, the Group is required to reclassify financial assets: (i) from amortized cost to FVTPL, if the objective of the business model changes so that the amortized cost criteria are no longer met; and, (ii) from FVTPL to amortized cost, if the objective of the business model changes so that the amortized cost criteria start to be met and the characteristic of the instrument's contractual cash flows meet the amortized cost criteria.

A change in the objective of the Group's business model will take effect only at the beginning of the next reporting period following the change in the business model.

(b) *Impairment of Financial Assets*

At the end of the reporting period, the Group assesses its ECL on a forward-looking basis associated with its financial assets carried at amortized cost and debt instruments measured at FVOCI. The measurement of ECL involves consideration of broader range of information that is available without undue cost or effort at the reporting date about past events, current conditions, and reasonable and supportable forecasts of future economic conditions (i.e., forward-looking information) that may affect the collectability of the future cash flows of the financial assets. Measurement of the ECL is determined by a probability-weighted estimate of credit losses over the expected life of the financial instruments evaluated based on a range of possible outcome.

The Group elected the simplified approach in measuring ECL, which uses a lifetime expected loss allowance for all trade and other receivables and contract assets. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial assets. To calculate the ECL, the Group uses its historical experience, external indicators and forward-looking information to calculate the ECL using a provision matrix. The Group also assesses impairment of trade receivables on a collective basis as they possess shared credit risk characteristics, and have been grouped based on the days past due [see Note 32.2(b)].

On the other hand, the Group applies a general approach in relation to advances to and receivables from related parties. The maximum period over which ECL should be measured is the longest contractual period where an entity is exposed to credit risk. In the case of these receivables from related parties, which are repayable on demand, the contractual period is the very short period needed to transfer the cash once demanded. Management determines possible impairment based on the sufficiency of the related parties' highly liquid assets in order to repay the Group's receivables if demanded at the reporting date taking into consideration the historical defaults of the related parties. If the Group cannot immediately collect its receivables, management considers the expected manner of recovery to measure ECL. If the recovery strategies indicate that the outstanding balance of advances to related parties can be collected, the ECL is limited to the effect of discounting the amount due over the period until cash is realized.

For debt instruments measured at amortized cost and at FVOCI, the Group recognizes lifetime ECL when there has been a significant increase in credit risk on a financial asset since initial recognition. Lifetime ECL represents the expected credit loss that will result from all possible default events over the expected life of a financial asset, irrespective of the timing of the default. However, if the credit risk on a financial asset has not increased significantly since initial recognition, the Group measures and provides for credit losses that are expected to result from default events that are possible within 12-months after the end of the reporting period.

The Group determines whether there has been a significant increase in credit risk for financial asset since initial recognition by comparing the risk of default occurring over the expected life of the financial asset between the reporting date and the date of the initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that may indicate an actual or expected deterioration of the credit quality of the financial assets.

The key elements used in the calculation of ECL are as follows:

- *Probability of default* – It is an estimate of likelihood of a counterparty defaulting at its financial obligation over a given time horizon, either over the next 12 months or the remaining lifetime of the obligation.
- *Loss given default* – It is an estimate of loss arising in case where a default occurs at a given time. It is based on the difference between the contractual cash flows of a financial instrument due from a counterparty and those that the Group would expect to receive, including the realization of any collateral or effect of any credit enhancement.
- *Exposure at default* – It represents the gross carrying amount of the financial instruments in the event of default which pertains to its amortized cost.

The Group recognizes an impairment loss in profit or loss for all financial instruments subjected to impairment assessment with a corresponding adjustment to their carrying amount through a loss allowance account, except for debt instruments measured at FVOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in Revaluation Reserves account, and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

(c) *Derecognition of Financial Assets*

The financial assets (or where applicable, a part of a financial asset or part of a group of financial assets) are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

2.5 Construction Materials

Construction materials are valued at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of construction materials includes all costs directly attributable to acquisition such as the purchase price, import duties and other taxes that are not subsequently recoverable from taxing authorities.

The net realizable value of construction materials is the current replacement cost.

2.6 Other Assets

Other current assets pertain to other resources controlled by the Group as a result of past events. They are recognized in the consolidated financial statements when it is probable that the future economic benefits will flow to the Group and the asset has a cost or value that can be measured reliably.

Other recognized assets of similar nature, where future economic benefits are expected to flow to the Group beyond one year after the end of the reporting period, are classified as non-current assets.

2.7 Property, Plant and Equipment

Property, plant and equipment, except land and construction in progress, are carried at acquisition cost or construction cost less subsequent depreciation and any impairment losses. Land held for use in operations or administration is stated at cost less any impairment losses.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred.

Depreciation is computed on straight-line basis over the estimated useful lives of the assets as follows:

Building	25 years
Precast factory	25 years
Precast and construction equipment	3-15 years
Office furniture, fixtures and equipment	3-10 years
Transportation equipment	5-8 years

Construction in progress represents properties under construction and is stated at cost. This includes cost of construction of the Group's building, batching plant and precast factory, and any applicable borrowing costs (see Note 2.22). The account is not depreciated until such time that the assets are completed and available for use.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.20).

The residual values and estimated useful lives of property, plant and equipment are reviewed, and adjusted if appropriate, at the end of each reporting period.

Fully depreciated assets are retained in the accounts until these are no longer in use and no further charge in depreciation is made in respect of these assets.

An item of property, plant and equipment, including the related accumulated depreciation and impairment losses, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the year the item is derecognized.

2.8 Acquisition of Asset

Acquisition of interest in an entity that holds investment property which does not constitute a business is accounted for as an asset acquisition. A business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs or other economic benefits directly to investors or other owners, members and participant. Under the asset purchase accounting, the purchase cost is allocated to identifiable assets and liabilities based on relative fair values of individual items; goodwill or gain on bargain purchase is not recognized; and, transaction costs are capitalized.

2.9 Investment Properties

Investment properties are properties held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Pursuant to the Concession Agreement for the PITX Project, the Group is granted the exclusive right and obligation to construct and develop the commercial area of the PITX Project (see Notes 1.2 and 29.3.2), which shall be held for rentals and rendering of any incidental service or facility from the use of commercial areas. Accordingly, the Group accounts for the construction and development of commercial area as Investment Property.

Investment property comprising of asset under construction and development are measured initially at acquisition cost, including transaction costs. This includes cost of construction, any applicable borrowing costs (see Note 2.22) and other direct costs. The account is not depreciated until such time that the assets are completed and available for use.

Following initial recognition, investment properties are carried at cost less accumulated depreciation and any impairment in value (see Note 2.20).

In 2019, the Group started to depreciate the investment property using straight-line method as the asset is already readily available for its intended use. Depreciation is computed over the remaining concession period of 33 years.

The Group's investment properties also include land which is carried at cost less any impairment in value.

The carrying value of the investment properties are reviewed for impairment when changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying value exceeds the estimated recoverable amount, the asset is written down to its recoverable amount and impairment losses are recognized in the consolidated statement of income.

Investment properties are derecognized upon disposal or when permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the consolidated statement of income in the year of retirement or disposal.

2.10 Intangible Assets

The Group's intangible assets currently include acquired software licenses and concession assets as described in more detail as follows:

(a) Concession Assets

The Group accounts for its Concession Agreement in relation to the MCIA Project [see Notes 1.2(a) and 13] under the intangible asset model as it receives the right (license) to charge users of the public service.

The concession asset is recognized initially at cost. It consists of:

- (i) Upfront fees payments on the Concession Agreement, including the related borrowing costs;
- (ii) Directly attributable costs related to the acquisition of the concession assets; and,
- (iii) Cost of infrastructure constructed and under construction in accordance with the terms and conditions of the Concession Agreement. These are not recognized as property, plant and equipment of the Group but as an intangible asset.

Following initial recognition, concession assets are carried at cost less any accumulated amortization and any accumulated impairment losses. The service concession asset is amortized using the unit-of-production method which reflects the asset's usage based on passenger volume and usage of their airport activities over the concession period. Management believes that usage-based method best reflects the pattern of consumption of the concession asset.

The period and method of amortization are reviewed at least at the end of each financial reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization expense on the concession asset is recognized in the consolidated statement of income in the expense category consistent with the function of the concession asset.

Subsequent costs and expenditures related to infrastructures arising from the Group's commitments to the Concession Agreement are recognized as additions to the concession asset and are stated at cost. Capital expenditures necessary to support the Group's operation as a whole are recognized as property, plant and equipment and accounted for in accordance with the Group's accounting policy on Property, Plant and Equipment.

The concession asset will be derecognized upon turnover to the Grantors. There will be no gain or loss upon derecognition as the concession asset, which is expected to be fully amortized by then, will be handed over to the Grantors with no consideration.

Concession assets not yet in use are initially recognized at cost and assessed for impairment at least annually based on the asset's value-in-use. Amortization of the assets will commence only when it becomes available for use.

The Group's concession asset's available for use are tested for impairment if there are any indications of impairment. The related carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.20).

(b) *Acquired Computer Software Licenses*

Acquired computer software license (shown as part of Other Non-current Assets) is accounted for under the cost model. The cost of the asset is the amount of cash or cash equivalents paid or the fair value of the other considerations given up to acquire an asset at the time of its acquisition or production. Capitalized costs are amortized on a straight-line basis over the estimated useful lives of three to five years as the lives of these intangible assets are considered finite. In addition, this is subject to impairment testing as described in Note 2.20.

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and install the specific software. Costs associated with maintaining computer software and those costs associated with research activities are recognized as expense in profit or loss as incurred.

Costs that are directly attributable to the development phase of new customized software for information technology are recognized as intangible assets if, and only if, the Group can demonstrate all of the following recognition requirements:

- (i) technical feasibility of completing the prospective product for internal use or sale;
- (ii) the intangible asset will generate probable economic benefits through internal use or sale;
- (iii) intention and ability to complete, i.e., availability of sufficient technical, financial and other resources necessary for completion, and use or sell the asset; and,
- (iv) ability to measure reliably the expenditure attributable to the intangible asset during development.

Acquired computer software license is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from derecognition of an intangible asset is determined as the difference between the net disposal proceeds and carrying value of the asset, and is charged to profit or loss for the period.

2.11 Financial Liabilities

Financial liabilities, which include interest-bearing loans and borrowings, trade and other payables [except output value-added tax (VAT) and other taxes payable], security deposits and retention payable (under Other Non-current Liabilities) are recognized when the Group becomes a party to the contractual terms of the instrument. All interest-related charges incurred on a financial liability are recognized as an expense in profit or loss as part of Finance Costs in the consolidated statement of income.

Interest-bearing loans and borrowings are raised for support of funding of operations. Finance charges, including direct costs, are charged to profit or loss on an accrual basis using the effective interest method and are added to the carrying amount of the instrument to the extent that these are not settled in the period in which they arise.

Trade and other payables are initially recognized at their fair value and subsequently measured at amortized cost, using effective interest method for maturities beyond one year, less settlement payments.

Lease liabilities and obligations under finance lease (included as part of Interest-bearing Loans and Borrowings account) are recognized at amounts equal to the fair value of the leased property or, if lower, at the present value of minimum lease payments, at the inception of the lease (see Note 2.18).

Dividend distributions to shareholders are recognized as financial liabilities upon declaration by the BOD.

Financial liabilities are classified as current liabilities if payment is due to be settled within one year or less after the end of the reporting period (or in the normal operating cycle of the business, if longer), or the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after end of the reporting period. Otherwise, these are presented as non-current liabilities.

Financial liabilities are derecognized from the consolidated statement of financial position only when the obligations are extinguished either through discharge, cancellation or expiration. The difference between the carrying amount of the financial liability derecognized and the consideration paid or payable is recognized in profit or loss.

2.12 Business Combinations

Business acquisitions are accounted for using the acquisition method of accounting.

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition, except for lease liabilities which are measured based on the present value of the remaining lease payments as if the acquired lease were a new lease at acquisition date and right-of-use assets which are measured at an amount equal to the recognized lease liability, adjusted to reflect favorable or unfavorable lease terms compared with market terms. Subsequent to initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed (see Note 2.20).

Negative goodwill which is the excess of the Group's interest in the net fair value of net identifiable assets acquired over acquisition cost is charged directly to income.

For the purpose of impairment testing, goodwill is allocated to cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The cash-generating units or groups of cash-generating units are identified according to operating segment.

Gains and losses on the disposal of an interest in a subsidiary include the carrying amount of goodwill relating to it.

If the business combination is achieved in stages, the acquirer is required to remeasure its previously held equity interest in the acquiree at its acquisition-date fair value and recognize the resulting gain or loss, if any, in profit or loss or other comprehensive income, as appropriate.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

2.13 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Group's executive committee; its chief operating decision-maker. The executive committee is responsible for allocating resources and assessing performance of the operating segments.

In identifying its operating segments, management generally follows the Group's products and service lines as disclosed in Note 4, which represent the main products and services provided by the Group.

Each of these operating segments is managed separately as each of these service lines requires different technologies and other resources as well as marketing approaches. All inter-segment transfers are carried out at arm's length prices.

The measurement policies the Group uses for segment reporting under PFRS 8, *Operating Segments*, are the same as those used in its consolidated financial statements, except that the following are not included in arriving at the operating profit of the operating segments:

- post-employment benefit expenses;
- expenses relating to share-based payments, if any;
- research costs relating to new business activities; and,
- revenue, costs and fair value gains from investment property, if any.

In addition, corporate assets which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

2.14 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the resulting net amount, considered as a single financial asset or financial liability, is reported in the consolidated statement of financial position when there is a legally enforceable right to set-off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously. The right of set-off must be available at the end of the reporting period, that is, it is not contingent on future event. It must also be enforceable in the normal course of business, in the event of default, and in the event of insolvency or bankruptcy; and, must be legally enforceable for both entity and all counterparties to the financial instruments.

2.15 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. When time value of money is material, long-term provisions are discounted to their present values using a pretax rate that reflects market assessments and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases, where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements. Similarly, possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the consolidated financial statements. On the other hand, any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.16 Derivative Financial Instruments and Hedging

Derivative financial instruments are initially recognized at fair value on the date in which a derivative transaction is entered into or bifurcated, and are subsequently re-measured and accounted for in the consolidated statement of financial position at fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedge of an identified risk and qualifies for hedge accounting treatment or accounted for as derivative not designated for hedges.

The objective of hedge accounting is to match the impact of the hedged item and the hedging instrument in the consolidated statement of comprehensive income. To qualify for hedge accounting, the hedging relationship must comply with strict requirements such as the designation of the derivative as a hedge of an identified risk exposure, hedge documentation, probability of occurrence of the forecasted transaction in a cash flow hedge, assessment and measurement of hedge effectiveness, and reliability of the measurement bases of the derivative instruments.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an on-going basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

The Group's derivative financial instruments are accounted for transactions not designated as hedges. Certain freestanding derivative instruments that provide economic hedges under the Group's policies either do not qualify for hedge accounting or are not designated as accounting hedges. Changes in the fair values of derivative instruments not designated as hedges are recognized immediately in the consolidated statement of income. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative. For bifurcated embedded derivatives in financial and non-financial contracts that are not designated or do not qualify as hedges, changes in the fair value of such transactions are recognized in the consolidated statement of income.

2.17 Revenue and Expense Recognition

Revenue arises mainly from rendering of construction services, airport operations, airport merchandising operations and terminal operations, above others.

To determine whether to recognize revenue, the Group follows a five-step process:

- 1) identifying the contract with a customer;
- 2) identifying the performance obligation;
- 3) determining the transaction price;
- 4) allocating the transaction price to the performance obligations; and,
- 5) recognizing revenue when/as performance obligations are satisfied.

The Group determines whether a contract with customer exists by evaluating whether the following gating criteria are present:

- (a) the parties to the contract have approved the contract either in writing, orally or in accordance with other customary business practices;
- (b) each party's rights regarding the goods or services to be transferred or performed can be identified;
- (c) the payment terms for the goods or services to be transferred or performed can be identified;
- (d) the contract has commercial substance (i.e., the risk, timing or amount of the future cash flows is expected to change as a result of the contract); and,
- (e) collection of the consideration in exchange of the goods and services is probable.

Revenue is recognized only when (or as) the Group satisfies a performance obligation by transferring control of the promised goods or services to a customer. The transfer of control can occur over time or at a point in time.

A performance obligation is satisfied at a point in time unless it meets one of the following criteria, in which case it is satisfied over time:

- (a) the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- (b) the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; and,
- (c) the Group's performance does not create an asset with an alternative use to the Group and the entity has an enforceable right to payment for performance completed to date.

The Group often enters into transactions involving construction services, airport operations, airport merchandising operations, terminal operations, and other contracts containing performance obligations with counterparties. The significant judgments used in determining the transaction price and the amounts allocated to the performance obligations are disclosed in Note 3.1(c). The transaction price allocated to performance obligations satisfied at a point in time is recognized as revenue when control of the asset or services transfers to the customer. If the performance obligation is satisfied over time, the transaction price allocated to that performance obligation is recognized as revenue as the performance obligation is satisfied. The Group's normal credit terms ranges from 35 to 60 days after billing.

In addition, the following specific recognition criteria for each identified performance obligation must also be met before revenue is recognized:

- (a) *Construction operations revenue* – Revenue from construction activities such as construction works, sale of construction materials, management fee and rental of construction equipment.
 - i. *Contract revenues* – Revenue from construction services is recognized over time as the service is provided. The Group uses the percentage of completion method to determine the appropriate amount to recognize as contract revenue in a given period. The stage of completion is measured by reference to the contract costs incurred up to the end of the reporting period as a percentage of total estimated costs for each contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion.
 - ii. *Sale of construction materials* – is recognized at a point in time when the risks and rewards of ownership of the goods have been passed to the buyer. i.e., generally when the customer has acknowledged the delivery of goods.
 - iii. *Management fee* – This is recognized on a time-and-materials basis as the services are provided. Customers are invoiced monthly as work progresses, which are due upon receipt by the customers. Any amounts remaining unbilled at the end of a reporting period are presented in the consolidated statement of financial position as receivables as only the passage of time is required before payment of these amounts will be due.

- (b) *Airport operations revenue* – Revenue from airport operations pertains to revenue from services related to aeronautical and non-aeronautical activities in the MCIA, which are further classified as follows:
- i. *Aeronautical revenue* – Aeronautical revenues pertain mainly to passenger service charges which are recognized as revenue over time when the related airport services have been rendered, the rates for such fees are provided under Administrative Order (AO) No. 2, Series of 2011, issued by MCIAA. On the other hand, revenues from ancillary services such as parking, tacking, and lighting services are recognized at a point in time upon availment of service.
 - ii. *Concession revenue* – Concession revenues are generated through terminal concessionaires, tenants or airport service providers who pay monthly fees for the right to use or access airport facilities to offer their goods and services to the general public and air traveling community. Airport facilities and parking spaces are not specific in the license agreement and the Group still has control over which are available for rental. Payments are in accordance with the negotiated agreements with these parties, and are based on either a minimum monthly guarantee or on gross receipts as applicable. Concession revenue is recognized over time when the related sale of concessionaire is earned.
 - iii. *Commercial revenue* – Commercial revenues comprise advertising charges, car parking and car rental revenues. Car parking revenue comprises time-based charges from the operation of car parking services. Car rental revenue comprises concession charges from car rental companies. Revenue is recognized over time when the related services are provided.
- (c) *Airport merchandising operations revenue* – Airport merchandising operations revenues relates to sale of food and non-food items within the premise of MCIA. Airport merchandising operations revenues are recognized at a point in time when the control over the goods have passed to the buyer.
- (d) *Terminal operations revenue* – Terminal operations revenue is recognized under the cost-recovery method in accordance with PFRS 15. Rendering of operating services is one of the Group’s performance obligations under the Concession Agreement. After the recovery of construction costs, revenues are recognized based on the terminal operations of the PITX Project up to the extent of the annual grantor payment (AGP).
- (e) *Check-in counter revenue* – This comprises rental of check-in counter charged to airline companies and space rental charged to tenants. The Group bills the airlines based on the number of passengers. The rate per passenger varies on the annual number of passengers reached by each airline per cycle. Revenue from check-in counters is recognized over the period when the related services have been rendered.
- (f) *Sale of goods* – is recognized at a point in time upon transferring control of the promised goods or services to a customer

The Group presents a contract asset when it transfers control of goods or performs services before the customer pays consideration or before payment is due. A contract asset is the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer.

The Group presents a contract liability when a customer pays the consideration, or the Group has the right to an amount of consideration that is unconditional (i.e., a receivable), before the Group transfers goods or performs services to the customer. A contract liability is the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Contract liability also includes cash received from customers which are applied to subsequent progress billings for construction contracts. The Group considers the effect of significant financing component in the contract which is recognized as part of Contract Revenues and Finance Cost in the consolidated statement of income [see Note 3.1(c)].

The Group incurs incremental costs in obtaining customer contracts (i.e., biddings costs on construction contracts). These costs are expensed when incurred as these are incurred regardless whether the contract is obtained.

The Group also incurs costs in fulfilling contracts with customers. These costs are divided into: (i) costs that give rise to an asset; and, (ii) costs that are expensed as incurred.

When determining the appropriate accounting treatment for such costs, the Group first considers any other applicable standards (see Notes 2.5 and 2.7). If other standards preclude capitalization of a particular cost, then an asset is not recognized under PFRS 15. If other standards are not applicable to deferred fulfillment costs, the Group applies the following criteria, which, if met, result in capitalization:

- (a) the costs directly relate to a contract or to a specifically identifiable anticipated contract;
- (b) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- (c) the costs are expected to be recovered.

Deferred fulfillment costs recognized as part of Other Current Assets in the consolidated statement of financial position are amortized using percentage of completion method consistent with construction revenue recognition policy of the Group. Furthermore, these are derecognized either upon disposal or when no further economic benefits are expected to flow from its use or disposal.

At each reporting date, the Group determines whether there is an indication that deferred fulfillment costs may be impaired. An impairment loss is recognized when the carrying amount of the assets exceeds the remaining amount of consideration that the Group expects to receive, less the costs of providing the services under the relevant contract (see Note 2.20).

In 2017 and prior periods, the Group recognized revenues based on the provisions of PAS 11, *Construction Contracts*, and PAS 18, *Revenue*, which is to the extent that such revenues and the related costs incurred or to be incurred can be measured reliably and it is probable that future economic benefits will flow to the Group. Generally, revenues are recognized when the customer has accepted the services that have been provided and the risks and rewards of ownership of the goods has been transferred to the customer. Where the outcome of the contract cannot be measured reliably, revenue is recognized only to the extent of the expenses recognized that are recoverable.

In addition, the following specific recognition criteria must also be met before revenue is recognized:

- (a) *Contract revenue* – Revenue from construction of buildings is recognized using the percentage of completion method based on the physical completion of the project, while revenues relating to construction or upgrade services of the concession assets is made by reference to the stage of completion of the contract.
- (b) *Aeronautical revenue* – Aeronautical revenues comprise passenger service charges, tacking fees, parking fees, and lighting fees. Aeronautical revenues are recognized as revenue when the related airport services have been rendered, the rates for such fees are currently provided under Administrative Order (AO) No. 2, Series of 2011, issued by MCIAA.
- (c) *Airport merchandising operations revenue* – Airport merchandising operations revenues relates to sale of food and non-food items within the premise of MCIA. Airport merchandising operations revenues are recognized when the risks and rewards of ownership of the goods have passed to the buyer.
- (d) *Concession revenue* – Concession revenues are generated through terminal concessionaires, tenants or airport service providers who pay monthly fees for using or accessing airport facilities to offer their goods and services to the general public and air traveling community. Payments are based on negotiated agreements with these parties, or are based on either a minimum monthly guarantee or on gross receipts. Concession revenue is recorded as it is earned. Some tenant agreements require self-reporting of concession operations and/or sales. The timing of concessionaire reporting and when revenue earned is recorded will determine when accruals are required for each tenant.
- (e) *Rental revenue* – Rental revenue comprise rental of check-in counter charged to airline companies and space rental charged to tenants. Rental from check-in counters is recognized when the related service have been rendered. Space rental is recognized on a straight-line basis over the lease term. Contingent revenue is recognized in the period in which the contingent event occurs.
- (f) *Commercial revenue* – Commercial revenues comprise advertising charges, car parking and car rental revenues. Car parking revenue comprises time-based charges from the operation of car parking services. Car rental revenue comprises concession charges from car rental companies. Revenue is recognized when the related services are provided.
- (g) *Management fee* – Fees are recognized when services are rendered.
- (h) *Interest income* – Income is recognized as the interest accrues taking into account the effective yield on the asset.

Costs and expenses are recognized in profit or loss upon utilization of goods or services or at the date they are incurred. All finance costs are reported in profit or loss on an accrual basis, except for capitalized borrowing costs which are included as part of the cost of the related qualifying asset.

2.18 Leases

The Group accounts for its leases as follows:

(a) *Group as Lessee*

(i) *Accounting for Leases in Accordance with PFRS 16 (2019)*

For any new contracts entered into on or after January 1, 2019, the Group considers whether a contract is, or contains, a lease. A lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group;
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and,
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At lease commencement date, the Group recognizes a right-of-use asset and a lease liability in the consolidated statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received). Subsequently, the Group depreciates the right-of-use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist (see Note 2.20).

On the other hand, the Group measures the lease liability at the present value of the lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments include fixed payments (including in-substance fixed) less lease incentives receivable, if any, variable lease payments based on an index or rate, amounts expected to be payable under a residual value guarantee, and payments arising from options (either renewal or termination) reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss on a straight-line basis over the lease term.

On the consolidated statement of financial position, right-of-use assets and lease liabilities have been presented as part of Property, Plant and Equipment and Interest-bearing Loans and borrowings, account respectively.

(ii) Accounting for Leases in Accordance with PAS 17 (2018 and 2017)

Leases, which transfer to the Group substantially all risks and benefits incidental to ownership of the leased item, are classified as finance leases and are recognized as assets and liabilities in the consolidated statement of financial position at the inception of the lease at amounts equal to the fair value of the leased property or, if lower, at the present value of minimum lease payments. Lease payments are apportioned between the finance costs and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability.

Finance costs are recognized in profit or loss. Capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Finance lease obligations, net of finance charges, are included in Interest-bearing Loans and Borrowings account in the consolidated statement of financial position.

For sale and leaseback transactions resulting in a finance lease, any excess of sales proceeds over the carrying amount of the asset is not immediately recognized as income by the Group (as seller-lessee) but deferred and amortized over the lease term. However, if the carrying amount of the asset exceeds the sales proceeds, the loss is immediately charged to profit or loss in the consolidated statement of income.

Leases, which do not transfer to the Group substantially all the risks and benefits of ownership of the asset, are classified as operating leases. Operating lease payments (net of any incentive received from lessor) are recognized as expense in the consolidated statement of comprehensive income on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

The Group determines whether an arrangement is, or contains, a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific or identified asset or assets and the arrangement conveys a right to use the asset for a period of time in exchange for consideration.

(b) Group as Lessor

Leases wherein the Group substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented as receivable at an amount equal to the Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Group's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized in profit or loss on a straight-line basis over the lease term.

Revenue from rentals also include revenue from lease of the Group's office and commercial spaces and various equipment which is recognized on the straight-line basis over the lease term based on the provision of the covering lease contracts, including any minimum rent free period therein, plus additional rent free period as mutually agreed by the contracting parties.

The Group determines whether an arrangement is, or contains, a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

2.19 Foreign Currency Transactions and Translation

(a) Transactions and Balances

Foreign currency transactions during the year are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign currency gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of income.

(b) Translation of Financial Statements of Foreign Subsidiaries

The consolidated operating results and financial position of offshore subsidiaries (see Note 1), which are measured using the United States ("U.S.") dollar, are translated to Philippine pesos, the Parent Company's functional currency, as follows:

- (i) Assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting period;

Income and expenses for each profit or loss account are translated at the monthly average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and,

- (ii) All resulting translation adjustments are recognized in other comprehensive income and as part of Revaluation Reserves in the consolidated statement of changes in equity

When a foreign operation is partially disposed of or sold, such exchange differences are recognized in the consolidated statement of income as part of the Other Income (Charges).

The translation of the financial statements into Philippine peso should not be construed as a representation that the foreign currency amounts could be converted into Philippine peso amounts at the translation rates or at any other rates of exchange.

2.20 Impairment of Non-financial Assets

The Group's investments in associates and joint ventures, property, plant and equipment, intangible assets, concession assets, investment properties, deferred fulfilment costs and other non-financial assets are subject to impairment testing. All non-financial assets, except intangible assets not yet available for use which are tested for impairment at least annually, are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, assets are tested for impairment either individually or at the cash-generating unit level.

Impairment loss is recognized for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from each cash-generating unit and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. Discount factors are determined individually for each cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

Except for intangible assets not yet available for use, all assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or cash generating unit's recoverable amount exceeds its carrying amount.

2.21 Employee Benefits

The Group provides post-employment benefits to employees through a defined benefit plan and defined contribution plans, and other employee benefits which are recognized as follows:

(a) Post-employment Defined Benefit Plan

A defined benefit plan is a post-employment plan that defines an amount of post-employment benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of post-employment plan remains with the Group, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Group's post-employment defined benefit plan covers all regular full-time employees. The pension plan is tax-qualified, non-contributory and administered by a trustee.

The liability recognized in the consolidated statement of financial position for a defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows for expected benefit payment using a discount rate derived from the interest rates of a zero coupon government bonds [using the reference rates published by Bloomberg using its valuation technology, Bloomberg Valuation (BVAL)] that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related post-employment liability. BVAL provides evaluated prices that are based on market observations from contributed sources.

Remeasurements, comprising of actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions and the return on plan assets (excluding amount included in net interest) are reflected immediately in the consolidated statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they arise.

Net interest is calculated by applying the discount rate at the beginning of the period, unless there is a plan amendment, curtailment or settlement during the reporting period. The calculation also takes into account any changes in the net defined benefit liability or asset during the period as a result of contributions to the plan or benefit payments. Net interest is reported as part of Finance Costs or Finance Income account in the consolidated statement income.

Past service costs are recognized immediately in profit or loss in the period of a plan amendment or curtailment.

(b) Post-employment Defined Contribution Plans

A defined contribution plan is a post-employment plan under which the Group pays fixed contributions into an independent entity. The Group has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due. Liabilities or assets may be recognized if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short-term nature.

(c) Bonus Plans

The Group recognizes a liability and an expense for bonuses based on a formula that takes into consideration the employees' performance evaluation attributable to a calendar year. The Group recognizes a provision where it is contractually obliged to pay the benefits, or where there is a past practice that has created a constructive obligation.

(d) Compensated Absences

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of each reporting period. They are included in Trade and Other Payables account in the consolidated statement of financial position at the undiscounted amount that the Group expects to pay as a result of the unused entitlement.

2.22 Borrowing Costs

Borrowing costs are recognized as expenses in the period in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (i.e., an asset that takes a substantial period of time to get ready for its intended use or sale) are capitalized as part of cost of such asset. The capitalization of borrowing costs commences when expenditures for the asset and borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization ceases when substantially all such activities are complete.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

2.23 Income Taxes

Tax expense recognized in profit or loss comprises the sum of current tax and deferred tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of the reporting period. They are calculated using the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in profit or loss.

Deferred tax is accounted for, using the liability method, on temporary differences at the end of the reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes. Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carryforward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Unrecognized deferred tax assets are reassessed at the end of each reporting period and are recognized to the extent that it has become probable that future taxable profit will be available to allow such deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled provided such tax rates have been enacted or substantively enacted at the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in profit or loss. Only changes in deferred tax assets or liabilities that relate to items recognized in other comprehensive income or directly in equity are recognized in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if the Group has a legally enforceable right to set-off current tax assets against current tax liabilities and the deferred taxes relate to the same entity and the same taxation authority.

2.24 Related Party Relationships and Transactions

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless of whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates and joint ventures; (c) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group and close members of the family of any such individual; and, (d) the Group's funded retirement plan.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

All material related party transactions and related party transactions involving directors and/or officers shall be approved by at least two-thirds vote of the BOD, with at least a majority of the independent directors voting to approve the material related party transactions and related party transactions involving directors and/or officers. In case that a majority of the independent directors' vote is not secured, the material related party transactions and related party transactions involving directors and/or officers may be ratified by the vote of the stockholders representing at least two-third of the outstanding capital stock. For aggregate related party transactions within a 12-month period that breaches the materiality threshold of 1% of the Group's total consolidated assets, the same BOD approval would be required for the transaction/s that meet and exceeds the materiality threshold covering the same related party. Under SEC Memorandum Circular No. 10, Series of 2019, *Rules on Material Related Party Transactions for Publicly-listed Companies*, the minimum threshold to be considered as a material related party transaction is 10% of the total assets based on the latest audited consolidated financial statements.

Directors with personal interest in a certain related party transaction should abstain from participating in the discussions and voting on the same. In case they refuse to abstain, their attendance shall not be counted for the purposes of assessing the quorum and their votes shall not be counted for purposes of determining approval.

2.25 Equity

Capital stock represents the nominal value of common and preferred shares that have been issued.

Additional paid-in capital includes any premium received on the issuance of capital stock or reissuance of treasury shares. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Treasury shares are stated at the cost of reacquiring such shares and are deducted from equity attributable to the Parent Company's equity holders until the shares are cancelled, reissued or disposed of.

Revaluation reserves comprise actuarial gains and losses due to remeasurements of post-employment defined benefit plan, foreign currency translation of financial statements of foreign subsidiaries, and the mark-to-market valuation of its financial assets at FVOCI.

Other reserves represent GMCAC's equity transaction costs arising from the subscriptions to its shares of stocks.

Retained earnings, the appropriated portion of which is not available for dividend declaration, represent all current and prior period results of operations as reported in the consolidated statement of income, reduced by the amounts of dividends declared.

2.26 Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net profit attributable to shareholders of the Parent Company by the weighted average number of common shares issued and outstanding, adjusted retroactively for any stock dividend, stock split or reverse stock split declared in the current year.

Diluted EPS is computed by adjusting the weighted average number of common shares outstanding to assume conversion of dilutive potential shares. Currently, the Group does not have dilutive potential shares outstanding, hence, the diluted EPS is equal to the basic EPS.

2.27 Events After the End of the Reporting Period

Any post-year-end event that provides additional information about the Group's consolidated financial position at the end of the reporting period (adjusting event) is reflected in the consolidated financial statements. Post-year-end events that are not adjusting events, if any, are disclosed when material to the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the consolidated financial statements in accordance with PFRS requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates.

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying the Group's accounting policies, management has made the judgments in the succeeding pages, apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements.

(a) *Determination of Lease Term of Contracts with Renewal and Termination Options (2019)*

In determining the lease term, management considers all relevant factors and circumstances that create an economic incentive to exercise a renewal option or not exercise a termination option. Renewal options and/or periods after termination options are only included in the lease term if the lease is reasonably certain to be extended or not terminated. If the renewal options and/or periods are not enforceable (i.e., if the lessee cannot enforce the extension without the agreement of the lessor), it would not be considered in determining the lease term.

For leases of precast and construction equipment and transportation equipment, the factors that are normally the most relevant are (a) if there are significant penalties should the Group pre-terminate the contract, and (b) if any leasehold improvements are expected to have a significant remaining value, the Group is reasonably certain to extend and not to terminate the lease contract. Otherwise, the Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

The Group included the renewal period as part of the lease term for of precast and construction equipment and transportation equipment, due to the significance of these assets to its operations. These leases have a short, non-cancellable lease period (i.e., four to ten years) and there will be a significant negative effect on production if a replacement is not readily available. However, the renewal options for leases of transportation equipment were not included as part of the lease term because the Group has historically exercises its option to buy these transportation equipment at the end of the lease term.

The lease term is reassessed if an option is actually exercised or not exercised or the Group becomes obliged to exercise or not exercise it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the Group.

(b) *Determination of timing of Satisfaction of Performance Obligations*

(i) *Construction Operations Revenue*

The Group determined that its revenue from construction services shall be recognized over time in accordance with the percentage-of-completion method. In making its judgment, the Group considers the timing of receipt and consumption of benefits provided by the Group to the customers. The Group provides the construction services that create or enhance an asset that the customer controls as the asset is created or enhanced. This demonstrates that the customer obtains the benefits of the Group's rendering of construction service as it performs.

In determining the best method of measuring the progress of the Group's rendering of construction services, management considers the input method (i.e., based on the Group's inputs to the satisfaction of a performance obligation) under PFRS 15 because of the direct relationship between the Group's effort, in terms of incurred labor hours, and the transfer of service to the customer.

(ii) *Airport Operations Revenues*

The Group determined that its revenue from airport services shall be recognized over time as the services are being rendered and a point in time for ancillary services (e.g., parking, tacking, and lighting services) that are provided for a short span of time. In making its judgment, the Group considers the timing of receipt and consumption of benefits provided by the Group to the customers. The Group provides the services without the need of reperformance of other entities. This demonstrates that the customers simultaneously receive and consume the benefits of the Group's rendering of aeronautical and non-aeronautical services as it performs.

(iii) *Airport Merchandising Operations Revenues*

In determining the appropriate method to use in recognizing the Group's revenues from airport merchandising operation revenues, which include sale of food and non-food items in the premises of MCIA, management determines that revenue is recognized at a point in time when the control of the goods has passed to the customer, i.e. generally when the customer acknowledged delivery of goods.

(iv) *Terminals Operation Revenues*

The Group has the control over the terminal area and the right to collect concessionaire revenue. The Group determined that its revenue from terminal operation services shall be recognized using the cost-recovery method in accordance with PFRS 15 since services rendered is one of the Group's performance obligations under Concession Agreement. After the recovery of construction costs, revenues are recognized based on the terminal operations costs of the PITX Project (see Note 29.3.2) up to the extent of the AGP.

(c) *Determination of Transaction Price and Amounts Allocated to Performance Obligations*

The transaction price for a contract is allocated amongst the material right and other performance obligations identified in the contract based on their stand-alone contract prices. The transaction price for a contract excludes any amounts collected on behalf of third parties [e.g., value-added taxes (VAT)].

In determining the transaction price, the Group adjusts the amount of consideration for the effects of time value of money for payments received prior to rendering construction services when the construction period is more than one year. This circumstance indicates that the contract contains significant financing component. The Group uses the prevailing interest rate at the time of receipt of advance payments, which approximates the Group's borrowing rate.

(d) *Determination of ECL on Trade and Other Receivables, Refundable Security and Bond Deposits, Equity advances and Contract Assets*

The Group uses a provision matrix to calculate ECL for trade and other receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is based on the Group's historical observed default rates. The Group's management intends to regularly calibrate (i.e., on an annual basis) the matrix to consider the historical credit loss experience with forward-looking information (i.e., forecast economic conditions). Details about the ECL on the Group's trade and other receivables and contract assets are disclosed in Note 32.2.

On the other hand, the Group applies a general approach in relation to equity advances. The maximum period over which ECL should be measured is the longest contractual period where an entity is exposed to credit risk. Management determines possible impairment based on the assessment of the recoverability of the investment based on the eventual conversion of these advances to shares (see Note 11.1).

With respect to refundable security and bond deposits, management does not expect significant risks of collectibility since the same can be applied to the last period rentals at the option of the Group.

(e) *Evaluation of Business Model Applied in Managing Financial Instruments*

The Group developed business models which reflect how it manages its portfolio of financial instruments. The Group's business models need not be assessed at entity level or as a whole but shall be applied at the level of a portfolio of financial instruments (i.e., group of financial instruments that are managed together by the Group) and not on an instrument-by-instrument basis (i.e., not based on intention or specific characteristics of individual financial instrument).

In determining the classification of a financial instrument under PFRS 9, the Group evaluates in which business model a financial instrument or a portfolio of financial instruments belong to taking into consideration the objectives of each business model established by the Group (e.g., held-for-trading, generating accrual income, direct matching to a specific liability) as those relate to the Group's investment and trading strategies.

(f) *Testing the Cash Flow Characteristics of Financial Assets and Continuing Evaluation of the Business Model*

In determining the classification of financial assets under PFRS 9, the Group assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are SPPI on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortized cost criteria.

In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Group assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Group considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

In addition, PFRS 9 emphasizes that if more than an infrequent sale is made out of a portfolio of financial assets carried at amortized cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Group considers certain circumstances documented in its business model manual to assess that an increase in the frequency or value of sales of financial instruments in a particular period is not necessary inconsistent with a held-to-collect business model if the Group can explain the reasons for those sales and why those sales do not reflect a change in the Group's objective for the business model.

(g) Distinction Between Business Acquisition and Asset Acquisition

The Group determines whether the acquisition of an entity constitute a business acquisition or an asset acquisition. The accounting treatment for the acquisition is determined by assessing whether the transaction involved a purchase of a "business" taking into consideration the substance of the transaction. Failure to make the right judgment will result in misstatement of assets.

Management has assessed that the acquisition of ownership in Altria is to be accounted for as asset acquisition (see Note 11.2) since it does not constitute a purchase of business. Conversely, the equity ownership in GMCAC, MCEI, GMI, MLI, MCBVI, MWMTI, MTI, and MIL are accounted for as investment in subsidiaries.

(h) Distinction Between Operating and Finance Leases for Contracts where the Group is the Lessor

The Group has entered into various lease agreements for check-in counters and space rental. Critical judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer or retention of significant risks and rewards of ownership of the properties covered by the agreements. Failure to make the right judgment will result in either overstatement or understatement of assets and liabilities.

(i) Recognition of Provisions and Contingencies

Judgment is exercised by management to distinguish between provisions and contingencies. Accounting policies on recognition of provisions and contingencies are discussed in Note 2.15 and relevant disclosures are presented in Note 29.

(j) *Determination of Control, Joint Control and Significant Influence*

Judgment is exercised in determining whether the Group has joint control of an arrangement or significant influence over an entity. In assessing each interest over an entity, the Group considers voting rights, representation on the BOD or equivalent governing body of the investee, participation in policy-making process and all other facts and circumstances, including terms of any contractual arrangement.

Management considers that the Group has de facto control over GMI even though it effectively holds 50% of the ordinary shares. The Parent Company exercises control over the entity because major decisions involving entering and negotiating Supply and Delivery Agreements with Duty Free Philippines Corporation still rests with the Parent Company. In line with this, the Parent Company retains control over GMI's operations [see Note 1.2(c)].

The Group believes that it does not have a control over MWCCI and CMCI but significant influence due to the ability to participate over the entity's relevant activities. Hence, the investees are treated as associates (see Note 11.1). In addition, the Group has determined that it does not have a significant influence, but has joint a control over MGCJV, MGCJVI, MTRGC and SSPPC due to the contractually agreed sharing of control over these investees wherein decision on relevant activities require unanimous consent between the Group and its co-venturers. The Group recognizes its interest in MTRGC and SSPPC as joint ventures, while its interests in MGCJV and MGCJVI are recognized as joint operations [see Notes 2.3(c) and 11.4]. On the other hand, the Group has determined that its ownership interest in Silar Solar Power Inc. (SSPI) does not result in control or significant influence over SSPI (see Note 10).

The related key assumptions on the estimation uncertainty of certain interests in MWCCI, CMCI, and SSPI are discussed in Note 3.2(e).

(k) *Capitalization of Borrowing Costs*

The Group determines whether the amount of borrowing costs qualify for capitalization as part of the cost of the qualifying asset, or expensed outright. The accounting treatment for the borrowing costs is determined by assessing whether the asset is a qualifying asset taking into consideration the period of time to get the asset ready for its intended use. Failure to make the right judgment will result in misstatement of assets and net profit.

(l) *Accounting for Service Concession Arrangement*

IFRIC 12 outlines an approach to account for contractual arrangements arising from entities providing public services. It provides that the operator or concessionaire should not account for the infrastructure under PAS 16 as property, plant and equipment, but recognized a financial asset and/or an intangible asset if the following conditions are met:

- The Grantor controls or regulates what services the operator or concessionaire must provide with the infrastructure, to whom it must provide them, and at what price; and

- The Grantor controls through ownership, beneficial entitlement or otherwise, any significant residual interest in the infrastructure at the end of the term of the arrangement.

Mactan-Cebu International Airport Project

As discussed in Note 1.2(a), the Philippine Government, acting through the DOTr and MCIAA, executed a Concession Agreement with GMCAC whereby GMCAC was given an exclusive right to design, develop, and undertake the MCIA Project; and, enjoy complete and uninterrupted possession of the MCIA Project Assets for the purpose of implementing the MCIA Project.

At the end of the concession period, GMCAC shall hand-over the MCIA Project and the Project Assets to the Grantors without cost, free from any liens and encumbrances, including all improvements made to the airport facilities, commercial assets, works in progress, and right to receive revenues. In addition, GMCAC shall be entitled to collect and receive concession revenue consisting of revenues on account of passenger service charge, airport parking fees, and tacking fees; other apron charges; and, revenues from commercial charges. GMCAC may apply for an increase of such fees following the procedures as set forth in the Concession Agreement.

The Group has identified that the Concession Agreement is within the scope of IFRIC 12 and shall be accounted for using the intangible asset model, wherein the service concession asset is recognized as an intangible asset in accordance with PAS 38, *Intangible Assets*. The intangible asset is amortized using the usage based method over the life of the concession agreement as management believes that straight-line method best reflects the pattern of consumption of the concession asset.

In April 2014, GMCAC paid upfront fees to the Philippine Government amounting to P14,404.6 million to undertake the implementation and operation of the MCIA Project in accordance with the Concession Agreement (see Note 13). The Group identified certain significant and key activities related to the MCIA Project, as also set forth in the Concession Agreement. As such, the upfront fees were allocated among these key activities using proportionate rates based on the expected construction/renovation costs as follows: (i) existing Terminal 1 infrastructure; (ii) construction of new passenger Terminal; (iii) renovation and expansion of Terminal; and, (iv) capacity augmentation. Subsequent project development costs will be capitalized as incurred on the specific key activities related to the Project.

Parañaque Integrated Terminal Exchange Project

As discussed in Note 29.3.2, the Philippine Government acting through the DOTr executed a Concession Agreement on February 25, 2015 with MWMTI whereby the latter was given an exclusive right to design, develop, and undertake the PITX Project and enjoy complete and uninterrupted possession of the Project Assets for the purpose of implementing the PITX Project. At the end of the concession period, MWMTI shall hand over the PITX Project and Project Assets to the Grantor without cost, free from any liens and encumbrances, including all improvements made to the terminal facilities, commercial assets, works in progress, and right to receive revenue.

The PITX Project is composed of separately identifiable terminal and commercial areas under a certain development plan with different degrees of control between the Grantor and MWMTI. The terminal area is controlled by the Grantor while the commercial area is controlled by MWMTI. In addition, MWMTI shall be entitled to collect and receive the concessionaire revenue from the commercial area while it will be receiving fixed payments from the Grantor for the terminal area.

Consequently, MWMTI has identified that the Concession Arrangement with respect to the terminal area of the PITX Project is within the scope of Philippine Interpretation IFRIC 12 and shall be accounted for using the financial asset model, wherein the concession asset arising from the component of terminal area is recognized as financial asset in accordance with PFRS 9.

On the other hand, the Group determined that the component with respect to the commercial area of the PITX Project is not within the scope of IFRIC 12, and therefore, shall be accounted for using the applicable accounting standard based on the control and purpose of the operation, hence, PAS 40, *Investment Property* (see Notes 2.9 and 15).

The related concession asset accounted for under the financial asset model is presented as part of Contract Receivables in the consolidated statement of financial position, which includes the recoverable accumulated costs incurred for the development and construction of the PITX Project as determined in accordance with PFRS 15 and equivalent to the fair value of construction services and other considerations provided (see Notes 2.4 and 13).

(m) Non-consolidation of Entities in which the Group Holds More than 50% Ownership

The Parent Company's ownership interest in MWCCI was accounted for as an associate even though it holds 51% ownership interest. In making the assessment of whether the Parent Company has control over the relevant activities of MWCCI, management considers that Citicore has the ultimate control since it effectively owns 66% of MWCCI as of December 31, 2019 and 2018. Moreover, Citicore entered into a management agreement with MWCCI, whereby Citicore shall provide management services to MWCCI for the administration of its activities under the Modernization of the Philippine Orthopedic Center (MPOC) Project [see Note 11.1(a)].

The Parent Company's ownership interest in MWMTI in 2017 and prior years was accounted for as a joint venture even though it holds 51% ownership interest. In making the assessment of whether the Parent Company has control over the relevant activities of MWMTI, management considers that it has joint control with the other venturer, which holds 49% ownership, since both venturers have equal representations to MWMTI's BOD and all significant decisions and approvals to direct the relevant activities of MWMTI for the construction and eventual operation of the PITX Project with the DOTr require consensus of both parties (see Note 11.3). However, in 2018, MWMTI became a subsidiary of the Parent Company due to acquisition by the Parent Company of MTI.

(n) *Distinction Between Investment Property and Owner Occupied Property*

The Group determines whether a property qualifies as investment property. In making its judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to the property but also to other assets used in the performance of the Group's construction activities and its supply process.

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period:

(a) *Determination of Appropriate Discount Rate in Measuring Lease Liabilities (2019)*

The Group measures its lease liabilities at present value of the lease payments that are not paid at the commencement date of the lease contract. The lease payments were discounted using a reasonable rate deemed by management equal to the Group's incremental borrowing rate. In determining a reasonable discount rate, management considers the term of the leases, the underlying asset and the economic environment. Actual results, however, may vary due to changes in estimates brought about by changes in such factors.

(b) *Estimation of Allowance for ECL*

The measurement of the allowance for ECL on financial assets at amortized cost is an area that requires the use of significant assumptions about the future economic conditions and credit behavior (e.g., likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 32.2.

(c) *Fair Value Measurement for Financial Instruments*

Management applies valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the end of the reporting period.

The carrying values of the Group's financial assets carried at FVTPL, investment in SSPI and other non-current financial assets, and the amounts of applicable fair value changes recognized on those assets are disclosed in Notes 7 and 10, respectively.

(d) *Determination of Net Realizable Value of Construction Materials*

In determining the net realizable value of construction materials, management takes into account the most reliable evidence available at the time the estimates are made. The Group periodically reviews its construction materials for possible damaged and obsolete items. Items identified as obsolete are provided with impairment allowance.

Management has assessed that no allowance for obsolescence is required to be recognized on construction materials in 2019, 2018 and 2017.

(e) *Accounting for Business Combinations*

On initial recognition, the assets and liabilities of the acquired business and the consideration paid for them are included in the consolidated financial statements at their fair values. In measuring fair value, management uses estimates of future cash flows and discount rates. Any subsequent change in these estimates would affect the amount of goodwill if the change qualifies as a measurement period adjustment. Any other change would be recognized in profit or loss in the subsequent period.

(f) *Estimation of Useful Lives of Intangible Assets, Property, Plant and Equipment, and Investment Property*

The Group estimates the useful lives of intangible assets (other than service concession assets) and property, plant and equipment based on the period over which the assets are expected to be available for use. The related estimated useful lives are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above.

The carrying amount of intangible assets is analyzed in Notes 12.5 and 13. The carrying amount of property, plant and equipment is analyzed in Note 14.

There were no changes in the estimated useful lives of property, plant and equipment and intangible assets in 2019 and 2018. Actual results, however, may vary due to changes in estimates brought about by the changes in factors mentioned above.

The service concession asset was previously amortized on a straight-line basis over the useful life of 25 years following the period covered by the Concession Agreement. In 2018, the Group changed its method of amortization from straight-line method to usage based method. The change of amortization method was accounted for prospectively as change in accounting estimate. The Group's new amortization policy is determined on the method reflecting the asset's usage based on passenger volume and usage of the airport activities over the concession period.

The Group believes that the usage-based method reflected the pattern in which the concession's future economic benefits are expected to be consumed by the Group and will be applied consistently from period to period, unless there is a change in the expected pattern of consumption of those future economic benefits [see Note 2.10(a)]. The change in amortization method resulted in a decrease in amortization expense of P730.0 million for 2018. In 2019 and 2018, amortization expense recognized relating to concession assets amounted to P738.6 million and P380.2 million, respectively.

(g) *Principal Assumption for Estimation of Fair Value of Investment Properties*

The Group's investment properties composed of land and commercial area of the PITX Project comprising of asset under construction and development are carried at cost less accumulated depreciation and any impairment in value. Although investment properties are measured using the cost model, the financial reporting standard requires the disclosure of its fair value.

The Group determined the fair value of the building through the cost approach, which is based on consideration of the cost to reproduce or replace the asset to its service capacity in accordance with current market prices for similar assets, for its investment property more appropriately reflects the highest and best use of the property based on market conditions and development. The Group uses assumption that are mainly based on market conditions existing at each reporting period.

The fair value of the investment property determined using the cost approach reflects the cost to a market participant to construct an asset of comparable usage, construction standards, design and layout, adjusted for obsolescence. The more significant inputs used in the valuation include direct and indirect costs of construction such as but not limited to, labor and contractor's profit, materials and equipment, surveying and permit costs, electricity and utility costs, architectural and engineering fees, insurance and legal fees. These inputs were derived from various suppliers and contractor's quotes, price catalogues, and construction price indices.

On the other hand, the Group determines the fair value of the land through appraisals by independent valuation specialists using market-based valuation approach where prices of comparable properties are adequate for specific market factors such as location and condition of the property.

As of December 31, 2019 and 2018, the management assessed that the cost of the Group's investment properties approximates its fair values.

(h) *Determination of Realizable Amount of Deferred Tax Assets*

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Management assessed that the deferred tax assets recognized as at December 31, 2019 and 2018 will be fully utilized in the coming years. The carrying value of deferred tax assets as of those dates is disclosed in Note 26.3.

(i) *Impairment of Non-financial Assets*

In assessing impairment, management estimates the recoverable amount of each asset or a cash-generating unit based on expected future cash flows and uses an interest rate to calculate the present value of those cash flows. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate (see Note 2.20). Though management believes that the assumptions used in the estimation of fair values reflected in the consolidated financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

PFRS requires non-financial assets to be assessed for any indication of impairment annually, especially those that have not been brought into use. The recoverable amount of the concession assets, including those not yet in use, has been determined based on a value in use calculation using cash flow projections from financial model approved by senior management covering a 21-year period, the remaining life of the concession period.

The pre-tax discount rate applied to cash flow projections is 10.9% and 9.9% as of December 31, 2019 and 2018. Pre-tax discount rate is based on weighted average cost of capital, adjusted for company-specific risks and reflects prevailing or current market conditions at year-end.

The growth rate applied after the completion of Airport Terminal 2 Building ranges from 5% to 10% with an increasing rate after completion of the required capacity augmentation.

The calculation of value in use of the concession assets is most sensitive to the following assumptions:

- Passenger traffic volume
- Discount rate
- Growth rates

The carrying value of the concession assets not yet available for use amounted to P8.7 billion and P10.0 billion as at December 31, 2019 and 2018, respectively (see Note 13).

Management has assessed that no impairment losses are required to be recognized on the Group's non-financial assets in 2019, 2018 and 2017.

(j) *Valuation of Post-employment Defined Benefit*

The determination of the Group's obligation and cost of post-employment defined benefit is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, discount rates and salary rate increase. A significant change in any of these actuarial assumptions may generally affect the recognized expense and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment defined benefit obligation and expense and an analysis of the movements in the estimated present value of DBO, as well as the significant assumptions used in estimating such obligation are presented in Note 24.2.

4. SEGMENT REPORTING

The Group's operating businesses are recognized and managed separately according to the nature of services provided with a segment representing a strategic business unit. The Group's business segments follow:

4.1 Business Segments

- (a) *Construction Operations*— principally refers to general construction business, including constructing and sale of precast items and concrete production and rental of construction equipment.
- (b) *Airport Operations* – mainly relate to the business of building, rehabilitating, renovating, constructing, developing, operating, and maintaining the MCLA, including the commercial assets thereof and all allied businesses for the operation and maintenance of said airport facility. The Group also has merchandising operations of food and non-food items.
- (c) *Landport Operations* – principally relates to the development and implementation of the Southwest Integrated Transport System Project (ITS Project), now known as PITX.

Other operations of the Group comprise the operations and financial control groups. These segments are also the basis of the Group in reporting to its executive committee for its strategic decision-making activities. Transactions between segments are conducted at estimated market rates on an arm's length basis.

Segment revenues and expenses that are directly attributable to business segment and the relevant portions of the Group's revenues and expenses that can be allocated to that business segment are accordingly reflected as revenues and expenses of that business segment.

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash, receivables, inventories and property, plant and equipment, net of allowances and provisions. Similar to segment assets, segment liabilities are also allocated based on their use or direct association with a specific segment. Segment liabilities include all operating liabilities and consist principally of accounts, wages, taxes currently payable and accrued liabilities. Segment assets and liabilities do not include deferred taxes.

4.3 Analysis of Segment Information

Presented below are the relevant operating segment information about the results of operations and financial position of the Group's business segments as of December 31, 2019, 2018 and 2017, and for the years ended December 31, 2019, 2018 and 2017 (amounts in thousands).

	Construction			Airport			Landport			Total		
	2019	2018	2017	2019	2018	2017	2019	2018	2017	2018	2017	
Result of operations

4.4 Reconciliation

Presented below is a reconciliation of the Group's segment information to the key financial information presented in its consolidated financial statements (amounts in thousands).

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Profit or loss			
Segment net profit	P 1,240,917	P 1,818,927	P 3,992,859
Other unallocated income (expense)	(129,882)	75,247	(1,745,050)
Net profit as reported in the consolidated statements of income	<u>P 1,111,035</u>	<u>P 1,894,174</u>	<u>P 2,247,809</u>
Assets			
Total segment assets	P 87,263,189	P 72,662,349	P 58,859,546
Elimination of intercompany accounts	(9,031,919)	(8,391,125)	(4,805,314)
Other unallocated assets	<u>2,533,056</u>	<u>1,634,486</u>	<u>362,584</u>
Total assets as reported in the consolidated statements of financial position	<u>P 80,764,326</u>	<u>P 65,905,710</u>	<u>P 54,417,816</u>
Liabilities			
Total segment liabilities	P 64,973,208	P 50,407,072	P 37,258,672
Elimination of intercompany accounts	(4,083,754)	(3,605,142)	(1,479,178)
Other unallocated liabilities	<u>1,876,360</u>	<u>1,099,679</u>	<u>502,878</u>
Total liabilities as reported in the consolidated statements of financial position	<u>P 62,765,814</u>	<u>P 47,901,609</u>	<u>P 36,282,372</u>

4.5 Other Segment Information

The Group has not identified any segment based on geographical location since the Group's operation is concentrated in one country of location.

Revenues from three major customers in 2019 and 2018 and two major customers in 2017 accounted for 35%, 28% and 31% of the total revenues as presented in the consolidated statements of income, respectively.

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are as follows:

	Note	<u>2019</u>	<u>2018</u>
Cash on hand		P 8,010,339	P 13,539,520
Cash in banks	11.2	4,047,584,897	3,527,325,055
Short-term placements		<u>2,463,004,625</u>	<u>2,193,856,073</u>
		<u>P 6,518,599,861</u>	<u>P5,734,720,648</u>

Cash in banks generally earn interest based on daily bank deposit rates.

Short-term placements are made for varying periods from 14 to 90 days and earn annual effective interest of 2.0% to 6.0% in 2019 and 2018, and 1.0% to 2.0% in 2017.

In 2018, certain financial assets previously classified as FVTPL was reclassified as part of cash equivalent (see Note 7). There was no similar transaction in 2019.

The interest income earned from these financial assets amounted to P110.6 million, P77.8 million and P66.1 million in 2019, 2018 and 2017, respectively, and is presented as part of Finance income under Other Income (Charges) account in the consolidated statements of income (see Note 25.2).

6. TRADE AND OTHER RECEIVABLES

This account consists of the following:

	Notes	<u>2019</u>	<u>2018</u>
Contract receivables:			
Third parties		P 5,769,575,204	P 2,598,635,628
Related parties	28.1	<u>498,607,908</u>	<u>400,493,319</u>
		<u>6,268,183,112</u>	<u>2,999,128,947</u>
Retention receivables:			
Third parties		1,750,053,759	2,740,820,924
Related parties	28.1	<u>835,195,022</u>	<u>772,113,457</u>
		<u>2,585,248,781</u>	<u>3,512,934,381</u>
Advances to:			
Related parties	28.4	6,267,546,499	3,292,608,712
Officers and employees	28.3	<u>51,503,789</u>	<u>34,271,539</u>
		<u>6,319,050,288</u>	<u>3,326,880,251</u>
Receivables from airport operations	21.2	<u>814,927,327</u>	<u>522,312,868</u>
Rental receivables:	21.4		
Lease receivable – effect of straight-line method		382,476,437	-
Lease receivable – per contract		<u>142,092,645</u>	<u>-</u>
		<u>524,569,082</u>	<u>-</u>
<i>Balance carried forward</i>		<u>P16,511,978,590</u>	<u>P10,361,256,447</u>

	<u>Notes</u>	<u>2019</u>	<u>2018</u>
<i>Balance brought forward</i>		<u>P16,511,978,590</u>	<u>P10,361,256,447</u>
Receivables from sale of goods	21.3	<u>60,380,697</u>	<u>-</u>
Accrued interest receivables	28.4	<u>577,950,645</u>	<u>-</u>
Other receivables	28.2	<u>234,122,687</u>	<u>267,403,113</u>
		17,384,432,619	10,628,659,560
Allowance for impairment		<u>(10,956,072)</u>	<u>(416,532,310)</u>
		<u>P17,373,476,547</u>	<u>P10,212,127,250</u>

Contract receivable amounting to P3.3 billion and P0.7 billion, respectively, includes 50% share in MGCJVI's receivable from Bases Conversion and Development Authority (BCDA) representing amount billed for the completion of a certain billing milestone as of December 31, 2019 and 2018, respectively.

Retention receivables pertain to progress billings which are withheld by the project owners equivalent to 5.0% or 10.0% as provided in the respective construction contract of each project. These will only be collected after a certain period of time upon acceptance by project owners of the certificate of completion.

Receivables from airport operations pertain to the Group's accrual of aeronautical, concession, rental and commercial revenues as authorized under the Concession Agreement (see Note 21.2).

Rental receivables include those uncollected from third party tenants of the Group, and the related rent receivables arising from the difference between the cash basis rent income and the straight-line rent income of all lease contracts with fixed payments as of the end of the reporting period. As of December 31, 2019, rent receivables arising from the effect of straight-lining method amounted to P382.5 million (see Note 21.4).

Certain advances to related parties are earmarked for potential investment opportunities being pursued by the said related party in line with the Parent Company's expansion and diversification plans (see Note 28.4).

Trade and other receivables except certain advances to related parties do not bear any interest.

All receivables, except advances to officers and employees, are subject to credit risk exposure [see Note 32.2(b)].

Allowance for Impairment

The Parent Company has been negotiating with a certain client in relation to its long outstanding receivable being disputed by such client. The Parent Company has observed the slowdown of its collections from the said client starting 2015 and has received its last collection in November of the same year and has not subsequently collected any of its receivables since then.

As early as 2013, the Parent Company has started the turn-over process until 2015 including time extensions but only two out of its seven projects were issued with actual related Certificates of Completion and Acceptance (COCA's). Notwithstanding the issuance of COCA's on these two projects, the related receivables have remained outstanding as of the end of 2018 and 2017. Further, despite numerous reconciliations and follow-ups made by the Parent Company in 2015 up to the end of 2017, no final settlement arrangement has been agreed with customer.

In 2018, the Parent Company had more clarity on the recoverability of the receivables based on ongoing negotiations. Hence, it provided additional estimated credit losses amounting to P305.5 million in 2018. In 2019, the Parent Company executed settlement agreement with the said customer and collected portion of the agreed amount in accordance to the provision of the settlement agreement. Consequently, uncollectible portion of the receivable and the related allowance provided in the previous years were fully written-off in 2019. The settlement agreement has been approved by the Parent Company's BOD.

All of the Group's trade and other receivables have been reviewed for impairment using the provision matrix as determined by the management [see Note 32.2(b)]. Total impairment losses recognized by the Group amounted to P38,591, P305,839,093 and P96,652,067 in 2019, 2018 and 2017, respectively.

Total allowance for impairment for long outstanding contract, retention and airport receivables provided by the Parent Company and GMCAC amounted to P11.0 million and P416.5 million as of December 31, 2019 and 2018, respectively.

A reconciliation of the allowance for impairment at the beginning and end of 2019 and 2018 is shown below.

	Note	<u>2019</u>	<u>2018</u>
Balance at beginning of year		P 416,532,310	P 110,693,217
Impairment losses	23	38,591	305,839,093
Write off		(405,614,829)	<u>-</u>
Balance at end of year		<u>P 10,956,072</u>	<u>P 416,532,310</u>

7. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

In November 2015, GMCAC entered into an interest rate swap transaction to hedge the interest rate exposure on its floating rate US dollar-denominated loan maturing in June 2022, start date is on December 15, 2017. A notional amount of US\$75.0 million floating rate loan was swapped to fixed rate. Under the interest rate swap agreement, GMCAC pays annual fixed interest rate of a range of 1.79% to 2.65% and receives floating rate of six-month US\$ LIBOR rate on Bloomberg Page on the notional amount.

As at December 31, 2019 and 2018, GMCAC recognized P78.6 million derivative liability shown under Trade and Other Payables (see Note 17) and P26.3 million derivative asset, respectively. GMCAC recognized in the consolidated statements of income under Other Income (Charges) unrecognized loss from change in fair value of the interest rate swap amounting to US\$1.6 million or P104.8 million in 2019, unrecognized gain of US\$0.5 million or P45.2 million in 2018 and unrecognized loss amounting to US\$0.4 million or P18.9 million in 2017 (see Note 25.3). GMCAC entered into interest rate swap as economic hedges of underlying exposure arising from its foreign currency-denominated loan. Such interest swap agreement is accounted for as a derivative instrument not designated for hedges.

Prior to 2019, FVTPL also includes short-term commercial papers are unsecured, short-term debt instruments issued by a private corporation with high-quality debt ratings with interest rate of 1.2% to 1.8% in 2018 and 2017. These investments are designated by the Group to be carried at FVTPL upon initial recognition. Total interest income earned from these debt securities amounted to nil, P72.4 million and P94.1 million in 2019, 2018 and 2017, respectively, are presented under Other Income (Charges) in the consolidated statements of income (see Note 25.2). In 2018, the remaining financial asset whose fair value is P254.7 million was reclassified as part of cash equivalents (see Note 5). There was no similar transaction in 2019.

The fair value changes in 2018 and 2017 are not significant, hence, not recognized during the reporting periods.

8. CONSTRUCTION MATERIALS

At the end of 2019 and 2018, construction materials were stated at cost. This account consists of the following:

	<u>2019</u>	<u>2018</u>
Work in progress	P 457,942,166	P -
Consumables and spare parts	297,630,728	223,651,350
Mechanical electrical plumbing and fireproof materials	221,448,225	174,511,914
Hardware	77,832,491	98,926,621
Rebars	52,724,034	140,277,314
Precast	38,330,842	59,850,388
Others	<u>141,219,046</u>	<u>167,817,442</u>
	<u>P 1,287,127,532</u>	<u>P 865,035,029</u>

Certain scrap construction materials were sold for P7.3 million, P3.4 million and P0.6 million in 2019, 2018 and 2017, respectively. Proceeds from the sale are presented as part of Others – net account under the Other Income (Charges) section in the consolidated statements of income (see Note 25.3).

Work in progress pertains to precast and rebars inventories which are already issued in the project sites but are not yet installed or used for the respective projects.

Others pertain to construction materials which include painting materials, nails and adhesive items.

9. CONTRACT ASSET

The balance of contract assets presented in the consolidated statements of financial position as of December 31, 2019 and 2018 is P3.5 billion and P3.1 billion, respectively, which is net of allowance for impairment amounting to P288.2 million (see Note 32.2).

The significant changes in the contract asset balances during the reporting periods are as follows:

	<u>2019</u>	<u>2018</u>
Balance at beginning of year	P 3,060,770,976	P 2,095,587,099
Increase as a result of changes in measurement of progress	16,207,809,210	7,517,707,672
Decrease as a result of reversal to trade receivables	(15,292,846,089)	(6,552,523,795)
Balance at end of year	<u>P 3,975,734,097</u>	<u>P 3,060,770,976</u>

Contract asset pertain to the gross amount due from customers for contract works of all contracts in progress which are not yet billed (see Note 2.17). Contract assets in 2019 and 2018 also include the cost of the terminal area of the PITX Project amounting to P510.1 million and P456.9 million, respectively, which is to be recovered through the Grantor payments [see Notes 3.1(l) and 15].

The Group satisfies its performance obligation when the full completion of the project and benefit therefrom can be derived by the customers. Invoices are due once related accomplishments for the month is complete.

The Group recognizes contract assets, due to timing difference of billings and satisfaction of performance obligation, to the extent of satisfied performance obligation on all open contracts as of the end of the reporting period. Changes in the contract assets are recognized by the Group when a right to receive payment is already established.

10. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

These financial assets pertain to the Group's investments in medium to long term retail treasury bond (RTB) in 2017, certain equity investment acquired in 2015 wherein the Parent Company does not exercise control or significant influence and golf club shares.

The details of the financial assets at FVOCI are shown below.

Investment securities at FVOCI:	
Investment in SSPI	P 2,500,000
Golf club shares	<u>1,044,472</u>
	<u>P 3,544,472</u>

The reconciliation of the carrying amounts of financial assets at FVOCI are as follows:

	<u>2019</u>	<u>2018</u>
Balance at beginning of year	P 3,544,472	P 933,317,631
Disposal of RTB	<u>-</u>	<u>(929,773,159)</u>
Balance at end of year	<u>P 3,544,472</u>	<u>P 3,544,472</u>

In 2018 and 2017, the Group sold RTBs with original face values of P921.5 million and P1,000.0 million for P913.3 million and P921.5 million, respectively. Consequently, the Group recognized a loss amounting to P8.2 million and P78.5 million, respectively, which is presented as Loss on sale of financial assets at FVOCI under Finance Costs in the consolidated statements of income (see Note 25.1).

The Group recognized gain amounting to P8.3 million in 2017 due to changes in fair value of AFS financial assets, which is recognized under Other Comprehensive Income in the 2017 statement of comprehensive income. The gain was reclassified to profit and loss in 2018 upon disposal (see Note 25.2).

The Group has equity interest of 1% in SSPI as of December 31, 2019 and 2018. SSPI was incorporated in the Philippines on August 7, 2015 and established for the operation of solar power and other clean or renewable energy infrastructure. SSPI has started commercial operations in 2016. Its registered office, which is also its principal place of business, is located at 20 N. Domingo Street, Barangay Valencia, Quezon City.

As of December 31, 2019 and 2018, the amounts of the Group's non-current financial assets approximate its fair values. Furthermore, in 2017, management has assessed that the carrying value of these investments is recoverable and that there is no indication or permanent decline in fair value; hence, no impairment loss is required. Starting 2018, upon adoption of PFRS 9, impairment assessment for equities is no longer applicable.

11. EQUITY ADVANCES AND INVESTMENTS IN ASSOCIATES AND JOINT VENTURE AND ACQUISITION OF ASSETS

The carrying values of Investments in Associates and Joint Venture account are shown below:

	<u>Notes</u>	<u>2019</u>	<u>2018</u>
Investments in:			
Associates	11.1	P 813,771,562	P 807,345,146
Joint ventures	11.3	<u>145,734,993</u>	<u>119,486,966</u>
		<u>P 959,506,555</u>	<u>P 926,832,112</u>

The significant commitments related to the associates and joint venture are discussed in Note 29.

These associates and joint venture are not listed in the local stock exchange; hence, the fair value of the shares cannot be determined reliably. However, management believes that the carrying amounts of the investments are fully recoverable based on either the prospect of the business or the recoverable amount from the net assets of these associates and joint ventures.

11.1 Equity Advances and Investments in Associates

The components of the carrying values of this account are as follows:

	<u>Note</u>	<u>2019</u>	<u>2018</u>
Acquisition cost:			
MWCCI		P 580,890,000	P 580,890,000
CMCI		<u>200,000,000</u>	<u>200,000,000</u>
		<u>780,890,000</u>	<u>780,890,000</u>
Equity advances in MWCCI		<u>23,572,864</u>	<u>23,572,864</u>
Equity share in net profit (losses):			
Balance at beginning of year		2,882,282	(4,488,123)
Equity in net profit for the year	25.3	<u>6,426,416</u>	<u>7,370,405</u>
Balance at end of year		<u>9,308,698</u>	<u>2,882,282</u>
		<u>P 813,771,562</u>	<u>P 807,345,146</u>

These associates do not have any other comprehensive income (losses) both in 2019 and 2018.

(a) MWCCI

MWCCI was incorporated in the Philippines on January 16, 2014 and is primarily established to undertake and implement the construction of a 700-bed capacity super-specialty tertiary orthopedic hospital (New Hospital Facility), under the MPOC Project. MWCCI's registered office, which is also its principal place of business, is at 20 N. Domingo Street, 1112 Valencia, Quezon City.

As of December 31, 2019 and 2018, the Parent Company has 51% ownership interest in MWCCI.

MWCCI sent a Notice of termination of its BOT Agreement with the Department of Health (DOH), which was accepted by DOH in 2016. MWCCI is undertaking measures to recover compensation costs from DOH and believes that that it will ultimately recover in full the costs it incurred relative to the MPOC Project. Accordingly, the Parent Company has not recognized any impairment losses for its investment in MWCCI.

(b) CMCI

The Parent Company, together with Citicore, formed CMCI as a consortium for the construction of classrooms in Regions 3 and 4 under the build-lease-transfer Public Private Partnership (PPP) agreement with the Philippine Department of Education (DepEd) ownership interest (see Note 29.2). CMCI was incorporated in the Philippines on October 15, 2012 and is primarily engaged in general construction business. CMCI's registered address, which is also its principal place of business, is located at 20 N. Domingo Street, Brgy. Valencia, Quezon City.

As of December 31, 2019 and 2018, the Parent Company owns 10% interest in CMCI as a joint venture partner. The rights and powers of the Parent Company over the management and control of CMCI are exercised through a seat in the BOD of CMCI. Taking this into consideration, the Group concluded that it has significant influence over the investee; accordingly, the investment is accounted for as an investment in an associate.

The table below presents the unaudited and audited financial information of MWCCI and CMCI, respectively, as of and for years ended December 31, 2019 and 2018 of the associates (amounts in thousands of PHP).

		<u>Current Assets</u>	<u>Non-current Assets</u>	<u>Current Liabilities</u>	<u>Non-current Liabilities</u>	<u>Revenues</u>	<u>Net Income (Loss)</u>
2019							
MWCCI	P	1,186,343	P -	P 87,447	P -	P -	(P 6,000)
CMCI		3,977,412	P 3,090,155	P 2,188,642	P 2,581,309	P 408,764	(P 100,438)
2018							
MWCCI	P	1,192,459	P -	P 87,522	P -	P -	(P 1,840)
CMCI		4,118,657	P 3,737,556	P 2,109,372	P 3,631,097	P 467,932	(P 89,885)

A reconciliation of the above summarized financial information to the carrying amount of the investments in associates is shown below (amounts in thousands of PHP).

	<u>Notes</u>	<u>% Interest Held</u>	<u>Net Asset Value</u>	<u>Share in Net Asset</u>	<u>Carrying Value of Investments</u>
2019					
MWCCI	a	51%	P 1,098,896	P 560,437	P 584,010
CMCI	b	10%	2,297,616	<u>229,762</u>	<u>229,762</u>
Total				<u>P 790,199</u>	<u>P 813,772</u>
2018					
MWCCI	a	51%	P 1,104,937	P 563,518	P 584,840
CMCI	b	10%	2,115,744	<u>211,574</u>	<u>222,505</u>
Total				<u>P 775,092</u>	<u>P 807,345</u>

Management determined that the difference between the respective share in the net assets of the associates and the carrying amount of the investment in CMCI is not material to the consolidated financial statements. The Group has not recognized any impairment of the investment in MWCCI as the associate expects to collect all its remaining receivables both from the Ultimate Parent Company and from DOH, a third party [see Note 11.1(a)].

As of December 31, 2019 and 2018, the Parent Company did not receive any dividends from its associates.

11.2 Acquisition of Assets of Altria

On December 26, 2012, pursuant to a memorandum of agreement dated December 17, 2012, the Parent Company acquired 100% ownership interest in Altria. Altria is a company incorporated in the Philippines and holds an investment property in the form of land. The registered office of Altria, which is also its principal place of business, is located at Coastal Road Bangiad, San Juan, Taytay, Rizal.

As of December 31, 2019 and 2018, Altria has no operations and its assets mainly pertain to the land where the Parent Company's precast and batching facilities are constructed (see Note 14). In accordance with Group's policy (see Note 2.8), the transaction is treated by the Group as an asset acquisition since the transaction does not constitute a business combination.

The purchase price upon acquisition was allocated among the following accounts based on their relative fair values:

	<u>Notes</u>		
Cash in bank	5	P	486,426
Bond deposits	12		1,500,958
Land	14		303,468,569
Accrued expenses	17		(<u>100,000</u>)
			<u>P305,355,953</u>

Subsequent to the date of acquisition, any changes in the carrying value of the net assets acquired in the books of Altria, including the expenses incurred in administering the property (i.e, property taxes), shall be updated in the books of the Parent Company on a line-by-line basis, as if they are consolidated into a single entity. The difference shall be charged directly to profit or loss as part of Others – net account under the Other Income (Charges) section in the consolidated statements of income (see Note 25.3). In 2019, 2018 and 2017, the Parent Company charged P0.05 million, P0.1 million and P1.1 million, respectively, to profit or loss to account for the expenses incurred by Altria, net of changes in cash in bank, bond deposits and accrued expenses.

11.3 Interest in Joint Ventures

This account includes the carrying values of the following components:

	<u>Notes</u>	<u>2019</u>	<u>2018</u>
Acquisition costs:			
MTRGC		P 58,324,000	P 58,324,000
SSPPC		<u>58,324,000</u>	<u>58,324,000</u>
		<u>116,648,000</u>	<u>116,648,000</u>
Equity share in net profit (losses):			
Balance at beginning of year		2,838,966	(5,723,264)
Equity in net profit			
for the year	25.3	26,248,027	2,838,966
Reclassification to investment			
in subsidiary	15	<u>-</u>	<u>5,723,264</u>
Balance at end of year		<u>29,086,993</u>	<u>2,838,966</u>
		<u>P 145,734,993</u>	<u>P 119,486,966</u>

These joint ventures do not have any other comprehensive income (losses) both in 2019 and 2018.

GMCAC has 41.66% interest in MTRGC and SSPPC, which are primarily engaged in the set-up, operation and management of duty paid retail, food and beverage outlets and provision of related services thereto in the airport terminals (T1 and T2).

The following are the summary of financial information related to the Group's interest in the joint ventures as of December 31, 2019 and 2018 (amounts in thousands of PHP):

		<u>Current Assets</u>		<u>Non-current Assets</u>		<u>Current Liabilities</u>		<u>Non-current Liabilities</u>		<u>Revenues</u>		<u>Net Income (Loss)</u>
2019												
MTRGC	P	184,489	P	97,359	P	139,996	P	-	P	176,202	P	4,603
SSPPC		118,609		383,711		239,667		714		654,764		63,042
2018												
MTRGC	P	131,438	P	55,783	P	45,280	P	-	P	73,507	P	1,888
SSPPC		131,146		134,833		120,337		714		180,651		4,927

A reconciliation of the above summarized financial information to the carrying amount of the investments in associates is shown below (amounts in thousands of PHP).

		<u>Net Asset Value</u>		<u>Share in Net Assets</u>		<u>Carrying Value of Investments</u>
2019						
MTRGC	P	141,852	P	59,096	P	59,107
SSPPC		207,939		86,627		86,627
Total				<u>P 145,723</u>		<u>P 145,734</u>
2018						
MTRGC	P	141,941	P	59,133	P	59,110
SSPPC		144,928		60,377		60,377
Total				<u>P 119,510</u>		<u>P 119,487</u>

11.4 Interest in Joint Operations

As discussed in Notes 1.2(k) and 1.2(l), MGCJV shall undertake the construction works for the renovation and expansion of the MCIA Project in Cebu, while, MGCJVI shall undertake the construction works of the Clark Airport. Also, as discussed Note 2.3(c)(i), the Parent Company's interests in MGCJV and MGCJVI are accounted for as joint arrangement – joint operation and, as such, the Parent Company accounts for its interest in the relevant assets, liabilities, revenues and expenses of MGCJV and MGCJVI.

As of and for the years ended December 31, 2019 and 2018, the relevant financial information of the Group's interest in MGCJV and MGCJVI which are included in the appropriate accounts in the Group's consolidated statements of financial position and consolidated statements of income is as follows:

	<u>Before Elimination</u>	<u>Elimination</u>	<u>After Elimination</u>
<i>December 31, 2019</i>			
<i>Assets:</i>			
Cash and cash equivalents	P 1,167,163,906	P -	P 1,167,163,906
Trade and other receivables	3,962,343,717	(224,587,759)	3,737,755,958

Advances to contractors and suppliers	12.1	13,316,709	-
Deferred transaction cost	12.7	-	20,783,591
Miscellaneous		-	857,167
		<u>3,001,997,171</u>	<u>2,941,723,207</u>
		<u>P 9,312,721,248</u>	<u>P 7,833,264,091</u>

12.1 Advances to Contractors and Suppliers

Current portion of advances to contractors and suppliers pertain to down payments made by the Group based on a certain percentage of the contract price. The initial payment will eventually be recouped or deducted from the amount payable of the Group either in a pro-rated basis or in full once billed by the contractors and supplier. These advances are classified as current since it would be applied as payments for subcontractors. This also includes materials and supplies provided by the Group to subcontractors which will be deducted to the progress billings of the subcontractors upon installation. The risk of loss on these materials and supplies are borne by the subcontractors.

On the other hand, non-current portion of this is related to the down payments made by the Group for the construction of airport terminal building and acquisitions of property, plant and equipment.

12.2 Input VAT

Input VAT under other current assets pertains to the payment of VAT on purchases of services and goods that is recoverable within 12 months. Deferred input VAT pertains to the unamortized input VAT on purchases of capital goods exceeding P1.0 million. Deferred input VAT arising from purchase of capital goods exceeding P1.0 million is to be amortized and credited against output tax evenly over five years or the life of the asset, whichever is shorter.

Non-current portion of deferred input VAT amounting to P1,809.4 million and P2,022.0 million as of December 31, 2019 and 2018, respectively, represents GMCAC's deferred input VAT arising mainly from the acquisition of goods and equipment and payment of services in relation to the construction activities in the airport. The balance is to be transferred to input VAT under Other Current Assets systematically on the basis of the Group's projected output VAT payments over the term of the Concession Agreement (see Note 13).

12.3 Deposits for Condominium Units

Deposits for condominium units represent initial downpayments made for the purchase of condominium units. These will be reclassified to investment property upon execution of contract to sell and deed of sale.

12.4 Prepaid Taxes

Prepaid taxes pertain to the excess of quarterly income tax payments over the current tax due during the year and creditable withholding taxes.

12.5 Computer Software License

The details of this account are presented below.

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Cost	P 129,596,424	P 104,219,678	P 100,211,532
Accumulated amortization	(82,280,584)	(67,238,882)	(56,298,746)
	<u>P 47,315,840</u>	<u>P 36,980,796</u>	<u>P 43,912,786</u>

A reconciliation of the carrying amounts of computer software license at the beginning and end of the reporting periods is shown below.

	<u>Notes</u>	<u>2019</u>	<u>2018</u>
Balance at beginning of year		P 36,980,796	P 43,912,786
Additions		27,538,033	2,066,511
Reclassification	14	(2,264,142)	-
Amortization expense for the year	23	(14,938,847)	(8,998,501)
Balance at end of year		<u>P 47,315,840</u>	<u>P 36,980,796</u>

In 2019, certain computer software license were reclassified under property, plant, and equipment in relation to the construction of the new T2 building and structural designs (see Note 13).

The related amortization charges were recorded as part of Depreciation and amortization under Other Operating Expenses account in the consolidated statements of income.

12.6 Investment in Trust Fund

On November 28, 2015, GMCAC’s BOD authorized GMCAC to establish, maintain and operate trust and investment accounts with a local universal bank (Security Trustee). The investment in trust fund constitutes (i) Revenue Accounts; (ii) Future Major Maintenance Fund Account; (iii) Debt Service Reserve Accounts; (iv) Debt Service Payment Account; and, (v) Distribution Accounts, collectively referred to as “Cash Flow Waterfall Accounts” and Loan Disbursement Accounts under a certain Omnibus Loan and Security Agreement (OLSA) to ensure the prompt payment of the required amortization, interest and principal of the long-term loan. As of December 31, 2019 and 2018, the investment in trust fund is composed only of cash.

The OLSA provided that the Security Trustee shall invest and reinvest the monies in the collateral accounts [see Note 18.2(a)].

12.7 Deferred Transaction Cost

Deferred transaction cost represents legal and documentary stamp taxes paid and amount attributable to the undrawn borrowing facility scheduled for drawdown in the subsequent reporting periods. Upon drawdown, the deferred transaction cost will be accounted for as debt issuance cost which is treated as a discount on the related debt and amortized using the effective interest method over the term of the related debt (see Note 18.2).

12.8 Deferred Fulfilment Cost

Deferred fulfillment cost pertains to costs that are directly related to a specific contract, generate or enhance resources that will be used to fulfill a performance obligations of the Group in the future, and are recoverable under the contract. Such costs include, but are not limited to, mobilization costs of equipment and labor, engineering and design costs, insurance and depreciation of equipment related to a specific contract.

These costs are incurred prior to the transfer of control of goods or services to the customer. Hence, costs and revenues must be deferred. Amortization is based on a systematic and consistent basis, such as the percentage of completion.

The movement of deferred fulfillment costs is shown below:

	<u>2019</u>	<u>2018</u>
Balance at beginning of year	P 1,633,221,503	P 718,562,734
Additions	2,691,241,931	914,658,769
Amortization	(3,745,374,113)	<u>-</u>
Balance at end of year	<u>P 579,089,321</u>	<u>P 1,633,221,503</u>

13. CONCESSION ASSETS

Concession Agreement refers to the agreement entered into by the Parent Company and GIL with DOTr and MCIA by virtue of Revised Implementing Rules and Regulations of Republic Act (R.A.) No. 6957, “*An Act Authorizing the Financing, Construction, Operation and Maintenance of Infrastructure Projects by the Private Sector and for Other Purposes*”, as amended by R.A. No. 7718 (referred to as the “*BOT Law*”). Under the said agreement, GMCAC was granted by DOTr and MCIA an exclusive right to design, develop, and undertake the MCIA Project; and, enjoy complete and uninterrupted possession of all movable and immovable assets for purposes of implementing the Project, whether tangible or intangible pertaining to concessionaire Operations and Maintenance (O&M) Facilities such as the existing assets, project land, assets produced, installed, built and created pursuant to the Concession Agreement, commercial assets, among others, (collectively referred as Project Assets) [see Note 1.2(a)]. The Concession Agreement is for a period of 25 years commencing on O&M start date unless further extended pursuant to the Concession Agreement.

The MCIA Project comprises the following undertaking:

- Construction of Terminal 2 (T2), along with all Associated Facilities;
- Renovation and expansion, but not the demolition of Terminal 1 (T1) and Associated Facilities;
- Complete reconstruction of Terminal 2 Apron (T2 Apron);
- Capacity Augmentation;
- Development of Commercial Assets; and,
- Operation and Maintenance of the Concessionaire O&M Facilities and Commercial Assets.

As of December 31, the breakdown of the capitalized concession assets is as follows:

	<u>Airport</u>		
	<u>Upfront Fees</u>	<u>Infrastructure</u>	<u>Total</u>
December 31, 2019			
Cost			
Balance at beginning of year	P 17,899,920,545	P 11,165,494,142	P 29,065,414,687
Additions	<u>399,758,404</u>	<u>1,486,111,560</u>	<u>1,885,869,964</u>
Balance at end of year	<u>18,299,678,949</u>	<u>12,651,605,702</u>	<u>30,951,284,651</u>
Accumulated amortization

	Airport Upfront Fees	Infrastructure	Total
December 31, 2018			
Cost			
Balance at beginning of year	P 17,253,208,359	P 8,750,994,313	P 26,004,202,672
Additions	<u>646,712,186</u>	<u>2,414,499,829</u>	<u>3,061,212,015</u>
Balance at end of year	<u>17,899,920,545</u>	<u>11,165,494,142</u>	<u>29,065,414,687</u>
Accumulated amortization			
Balance at beginning of year	(318,597,798)	(77,309,411)	(395,907,209)
Amortization for the year	<u>(182,566,078)</u>	<u>(197,628,321)</u>	<u>(380,194,399)</u>
Balance at end of year	<u>(501,163,876)</u>	<u>(274,937,732)</u>	<u>(776,101,608)</u>
Net carrying amount	<u>P 17,398,756,669</u>	<u>P 10,890,556,410</u>	<u>P 28,289,313,079</u>
January 1, 2018			
Cost	P 17,253,208,359	P 8,750,994,313	P 26,004,202,672
Accumulated amortization	<u>(318,597,798)</u>	<u>(77,309,411)</u>	<u>(395,907,209)</u>
Net carrying amount	<u>P 16,934,610,561</u>	<u>P 8,673,684,902</u>	<u>P 25,608,295,463</u>

Upfront fees include P14,404.6 million bid premium paid by GMCAC to the Philippine Government for the MCIA Project. In addition, the capitalized borrowing costs amounted to P684.6 million and P870.0 million as at December 31, 2019 and 2018, respectively, at a capitalization rate of 4.99% to 9.69% in 2019 and 4.29% to 9.33% in 2018.

Cost of airport infrastructure pertains mainly to the design and renovation of passenger terminals and development works of the MCIA Project. Additions to airport infrastructure, include, among others, the rehabilitation of the existing T1, construction of the new T2 building, and structural design.

As of December 31, 2019 and 2018, concession assets not yet available for use amounted to P8,670.7 million and P9,970.1 million, respectively. The decrease is attributable to the completion of rehabilitation of the existing T1 in August 2019. The breakdown of concession assets not yet available for use are shown below.

	<u>2019</u>	<u>2018</u>
Capacity augmentation	P 7,350,467,193	P 6,806,805,734
Fuel hydrant	808,000,392	701,070,381
Variation order 4	289,063,263	-
Link bridge	223,214,286	223,214,286
Terminal 1 renovation	<u>-</u>	<u>2,239,006,119</u>
	<u>P 8,670,745,134</u>	<u>P 9,970,096,520</u>

Concession assets not yet available for use are not amortized but tested for impairment at December 31, 2019 and 2018 in accordance with GMCAC's accounting policy. The recoverable amounts of these were determined based on a value in use calculation using cash flow projections from financial model approved by the management covering a 21-year period, the remaining life of the concession. The pre-tax discount rate applied to cash flow projections is 10.9% and 9.9% as of December 31, 2019 and 2018. The growth rate applied after the completion of Airport Terminal 2 Building ranges from 5% to 10% with an increasing rate after completion of the required capacity augmentation. As a result of this analysis, management concluded that the concession assets not yet in use are not impaired.

14. PROPERTY, PLANT AND EQUIPMENT

The gross carrying amounts and accumulated depreciation at the beginning and end of December 31, 2019 and 2018 are shown below.

Balance at December 31, 2018, net of accumulated depreciation	<u>P 1,005,320,584</u>	<u>P 204,857,408</u>	<u>P 383,801,073</u>	<u>P 299,147,986</u>	<u>P 247,832,325</u>	<u>P 3,204,229,722</u>	<u>P 150,907,111</u>	<u>P -</u>	<u>P 5,496,096,209</u>

Construction in progress pertains to accumulated costs incurred in constructing a new precast warehouse, workers barracks and logistics department facility which are located in Taytay, Rizal.

In 2019, 2018 and 2017, certain property, plant and equipment were sold for P22.2 million, P30.1 million, and P16.0 million, respectively. As a result, the Group recognized gains amounting to P9.6 million, P2.9 million and P5.2 million in 2019, 2018 and 2017, respectively, and are presented as Gain (loss) on disposals of property and equipment as part of Others – net under Other Income (Charges) account in the consolidated statements of income (see Note 25.3).

As of December 31, 2019 and 2018, the gross carrying amounts of the Group's fully-depreciated property, plant and equipment that are still in use are P596.1 million and P468.1 million respectively. The Group has no idle properties in any of the years presented.

Depreciation expense is charged to the following accounts in the consolidated statements of income:

	Notes	2019	2018	2017
Contract costs	22.1	P 773,562,002	P 552,073,867	P 483,038,875
Cost of terminal operations	22.4	56,627,495	-	-
Other operating expenses		<u>130,351,293</u>	<u>82,184,444</u>	<u>49,118,753</u>
		<u>P 960,540,790</u>	<u>P 634,258,311</u>	<u>P 532,157,628</u>

15. INVESTMENT PROPERTIES

The gross carrying amounts and the accumulated depreciation of investment properties at the beginning and end of the reporting periods are shown below.

	Land	Commercial Area	Total
December 31, 2019			
Cost	P 160,270,935	P 3,767,853,349	P 3,928,124,284
Accumulated depreciation	<u>-</u>	<u>(43,549,003)</u>	<u>(43,549,003)</u>
Net carrying amount	<u>P 160,270,935</u>	<u>P 3,724,304,346</u>	<u>P 3,884,575,281</u>
December 31, 2018			
Cost	P 135,610,000	P 3,322,105,588	P 3,457,715,588
Accumulated depreciation	<u>-</u>	<u>-</u>	<u>-</u>
Net carrying amount	<u>P 135,610,000</u>	<u>P 3,322,105,588</u>	<u>P 3,457,715,588</u>
January 1, 2018			
Cost	P 135,610,000	P -	P 135,610,000
Accumulated depreciation	<u>-</u>	<u>-</u>	<u>-</u>
Net carrying amount	<u>P 135,610,000</u>	<u>P -</u>	<u>P 135,610,000</u>

Investment properties account includes parcels of land that are not used by the Group in the ordinary course of the business amounting to P160.3 million and P135.6 million as of December 31, 2019 and 2018, respectively. Based on management's assessment, the carrying amounts of these assets are fully recoverable, hence, no impairment loss is required in both years.

As discussed in Note 3.1(l), MWMTI was granted an exclusive right and obligation under the Concession Agreement. Relative to the arrangement, MWMTI incurred costs necessary to construct the facility. The separately identifiable accumulated costs incurred in the development of the PITX Project are allocated based on development and implementation plan for the terminal and commercial areas. Any change in the allocation arising from the necessary revisions in the implementation plan is accounted for prospectively in the consolidated financial statements.

The allocation of cost as of the end of the reporting periods are as follows:

	<u>2019</u>	<u>2018</u>
Terminal area (see Note 9)	P 510,141,518	P 456,867,131
Commercial area	<u>3,724,304,346</u>	<u>3,322,115,588</u>
	<u>P4,234,445,864</u>	<u>P3,778,982,719</u>

Costs incurred for the terminal area are presented as unbilled receivables under Contract Assets account in the consolidated statements of financial position (see Note 9). Unbilled receivable is recognized to the extent of actual cost incurred for the period. Meanwhile, cost incurred for the commercial area are presented as part of Investment Properties in the 2019 consolidated statement of financial position.

Also, in 2018, the Group identified that the increase in fair value of MWMTI by P307.4 million is attributed to its investment property. Accordingly, the Group recognized gain or bargain purchase from the acquisition of MTI of the same amount [see Notes 3.2(g) and 25.3]. The Group considers the entire portfolio which comprise the Contract Assets and Investment Property in determining the recoverability of the carrying amounts of these assets taking into consideration the potential cash flow earnings, discounted to its present value of the property.

In March 2019, the Group started to depreciate the investment property using straight-line method as the asset is already readily available for its intended use. Depreciation is computed over the concession period of 33 years.

A reconciliation of the carrying amounts of investment property at the beginning and end of the reporting periods is shown below.

	<u>Land</u>	<u>Commercial Area</u>	<u>Total</u>
Balance at January 1, 2019, net of accumulated depreciation and amortization	P 135,610,000	P 3,322,105,588	P 3,457,715,588
Additions	24,660,935	445,747,761	470,408,696

Additions	<u>-</u>	<u>1,868,851,065</u>	<u>1,868,851,065</u>
Balance at December 31, 2018, net of accumulated depreciation and amortization	<u>P 135,610,000</u>	<u>P 3,322,105,588</u>	<u>P 3,457,715,588</u>

16. LEASES

The Group has leases for construction equipment and transportation equipment. With the exception of short-term leases and leases of low-value underlying assets, each right-of-use asset and lease liability from leases are reflected on the 2019 consolidated statement of financial position as part of property, plant and equipment and interest-bearing loans and borrowings, respectively. Variable lease payments which do not depend on an index or a rate are excluded from the initial measurement of the lease liability and asset.

Each lease generally imposes a restriction that, unless there is a contractual right for the Group to sublet the asset to another party, the right-of-use asset can only be used by the Group. Leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee. Some leases contain an option to purchase the underlying lease asset outright at the end of the lease, or to extend the lease for a further term. The Group is prohibited from selling or pledging the underlying leased assets as security. For leases over warehouses and offices, the Group must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Further, the Group must insure the leased assets and incur maintenance fees on such items in accordance with the lease contracts.

The table below describes the nature of the Group's leasing activities by type of right-of-use asset recognized in the consolidated statement of financial position.

	<u>Number of right-of-use assets leased</u>	<u>Range of remaining term</u>	<u>Number of average remaining lease term</u>	<u>Number of leases with extension options</u>	<u>Number of leases with options to purchase</u>	<u>Number of leases with termination options</u>
Transportation equipment	140	1 – 5 years	3 years	-	49	-
Precast and construction equipment	54	2 – 10 years	6 years	-	54	-

16.1 *Right-of-use Assets*

The carrying amounts of the Group's right-of-use assets (see Note 14) as at December 31, 2019 and the movements during the period are shown below.

	<u>Precast and Construction Equipment</u>	<u>Transportation Equipment</u>	<u>Total</u>
Balance as of January 1, 2019	P 134,891,630	P 77,291,818	P 212,183,448
Additions	272,329,885	152,201,629	424,531,514
Depreciation and amortization	(30,589,786)	(37,680,704)	(68,270,490)
Balance at end of year	<u>P 376,631,729</u>	<u>P 191,812,743</u>	<u>P 568,444,472</u>

16.2 Lease Liabilities

Lease liabilities are presented in the 2019 consolidated statement of financial position as part of Interest-bearing Loans and Borrowings (see Note 18) as at December 31, 2019 as follows:

Current	P 139,443,656
Non-current	<u>334,907,047</u>
	<u>P 474,350,703</u>

The use of extension and termination options gives the Group added flexibility in the event it has identified more suitable premises in terms of cost and/or location or determined that it is advantageous to remain in a location beyond the original lease term. An option is only exercised when consistent with the Group's business strategy and the economic benefits of exercising the option exceeds the expected overall cost.

As of December 31, 2019, the Group has not committed to any leases which had not commenced.

16.3 Lease Payments Not Recognized as Liabilities

The Group has elected not to recognize a lease liability for short-term leases or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. In addition, certain variable lease payments are not permitted to be recognized as lease liabilities and are expensed as incurred.

The expenses relating short-term leases and low-value assets amounted to P47.4 million is presented as Rentals as part of Administrative expenses under Other Operating Expenses (Income) in the 2019 consolidated statement of income (see Note 23).

16.4 Additional Profit or Loss and Cash Flow Information

The total cash outflow in respect of leases amounted to P102.1 million in 2019. Interest expense in relation to lease liabilities amounted to P22.1 million and is presented as part of Finance costs under Finance Income (Costs) in the 2019 consolidated statement of income (see Note 25.1).

The lease liabilities are secured by the related underlying assets. The undiscounted maturity analysis of lease liabilities at December 31, 2019 is as follows :

	<u>Within 1 year</u>	<u>1 to 2 years</u>	<u>2 to 3 years</u>	<u>3 to 4 years</u>	<u>4 to 5 years</u>	<u>Total</u>
Lease payments	P 173,754,977	P 154,811,019	P 118,511,190	P 71,505,203	P 33,525,354	P 552,107,743
Finance charges	(<u>34,311,321</u>)	(<u>23,107,246</u>)	(<u>13,427,038</u>)	(<u>6,162,507</u>)	(<u>748,928</u>)	(<u>77,757,040</u>)
Net present value	<u>P 139,443,656</u>	<u>P 131,703,773</u>	<u>P 105,084,152</u>	<u>P 65,342,696</u>	<u>P 32,776,426</u>	<u>P 474,350,703</u>

17. TRADE AND OTHER PAYABLES

This account consists of the following:

	Notes	<u>2019</u>	<u>2018</u>
Trade payables		P 3,954,928,198	P 2,532,212,397
Retention payable		2,166,300,006	1,833,586,935
Accrued expenses	11.2	1,235,331,916	506,694,982
Dividends payables	27.2	239,937,858	-
Security deposits	29.1.3	149,921,652	142,147,175
Interest payable	18	119,628,207	126,709,868
Derivative liability	7	78,552,254	-
Non-trade payables	27.5	25,000,000	-
Due to stockholders and related parties	28.5	20,000,000	59,566,827
Others		<u>177,989,354</u>	<u>51,484,140</u>
		<u>P 8,167,589,445</u>	<u>P 5,252,402,324</u>

Retention payable pertains to amounts withheld from payments made to subcontractors to ensure compliance and completion of contracted projects ranging from 5% to 10% of every billing made by the contractor. Upon completion of the subcontracted projects, the amounts are returned to the subcontractors.

Non-trade payables pertains to dividends payable to non-controlling interests. On the other hand, dividends payables relates solely to the dividends declared by the Parent Company's.

Accrued expenses include unreleased checks and unpaid utilities.

Others include accrued salaries, government-related payables and other non-trade payables.

18. INTEREST-BEARING LOANS AND BORROWINGS

The details of short-term and long-term interest-bearing loans and borrowings are as follows:

	Notes	<u>2019</u>	<u>2018</u>
Current:			
Bank loans	18.2, 29.4	P 10,791,617,597	P 5,651,033,175
Notes payable	18.1, 29.4	3,750,000,000	693,711,241
Lease liability	16.2	139,443,656	-
Obligations under finance lease	14, 18.3, 29.1.2	-	63,829,077
		<u>14,681,061,253</u>	<u>6,408,573,493</u>
<i>Balance carried forward</i>		<u>P 14,681,061,253</u>	<u>P 6,408,573,493</u>

	<u>Notes</u>	<u>2019</u>	<u>2018</u>
<i>Balance brought forward</i>		<u>P 14,681,061,253</u>	<u>P 6,408,573,493</u>
Non-current:			
Bank loans	18.2, 29.4	27,634,014,387	25,124,805,081
Notes payable	18.1, 29.4	5,102,929,990	5,152,791,231
Lease liability	16.2	334,907,047	-
Obligations under finance lease	14, 18.3, 29.1.2	-	94,094,180
		<u>33,071,851,424</u>	<u>30,371,690,492</u>
		<u>P 47,752,912,677</u>	<u>P 36,780,263,985</u>

The total unpaid interest from the foregoing interest-bearing loans and borrowings as of December 31, 2019 and 2018 amounted to P119.6 million and P126.7 million, respectively, and is presented as Interest payable under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

18.1 Notes Payable

(a) Notes Payable – Current

As of December 31, 2019 and 2018, current portion of Notes Payables pertains to 50% share in loans availed by MGCJVI. On March 22, 2018, MGCJVI entered into a P7.50 billion Omnibus Loan and Security Agreement (OLSA) with Metropolitan Bank & Trust Company (MBTC) and Philippine National Bank (PNB) as Lenders, PNB Trust Banking Group as Facility Agent and Security Trustee, and PNB Capital and Investment Corp. and First Metro Investment Corp. as Lead Arrangers.

The proceeds from the loan shall be used to partially finance the capital expenditures and costs in relation to the Project.

Details of the loan follow:

- 1) Interest: Interest is the sum of the benchmark rate plus 100 basis points. Benchmark rate is the PDST-R2 benchmark tenor for three (3) months as published on the Philippine Dealing & Exchange Corp. page (or such successor page) of Bloomberg (or such successor electronic service provider) under the heading "PDST-R2" at approximately 4:15 pm on the Interest Rate Setting Date; provided, that, in the event that a new benchmark rate will be adopted by the Bankers' Association of the Philippines or the existing benchmark rate is no longer reflective of the prevailing market rates, as may be reasonably determined by the Lenders together with the MGCJVI, all parties shall adopt a new benchmark rate appropriate for the Loan. Such interest shall accrue from and including the first day of each interest period and excluding the last day of such interest period.
- 2) Repayment: The principal amount shall be paid in the following instalments, within three (3) banking days from the MGCJVI's receipt of the relevant milestone payments from BCDA for the construction services rendered.

<u>Principal Repayment Schedule</u>	<u>Milestone payment from BCDA - at 100% (in Bn)</u>	<u>Principal repayment of the Loan amount</u>
First	P5.58	85% of milestone payment
Second	1.66	100% of milestone payment
Third	2.12	remaining balance of loan

As of January 23, 2020, the MGCJVI paid the first milestone payment to MBTC and PNB amounting to P4,785 million. The full repayment of the Loan shall be made not later than the maturity date which is May 18, 2021. However, the management expects that the second and third milestone payments would be on March 31, 2020 and June 21, 2020, respectively.

- 3) Security: As security for timely payment of the loan and prompt observance of all provisions of the OLSA, the following are assigned as collateral on the Loan:
- Project receivables and all monies standing in the MGCJVI's Payment Accounts amounting to P365.0 million
 - Project documents (EPC Contract, Notice of Award Certificate of Funds Availability and Bid Proposal)
- 4) Covenants: The OLSA provide certain restrictions and requirements which include among others, maintaining and preserving its corporate existence, complying with all of its material obligations under the project arrangements, restrictions on granting of loans or advances and disposal of major properties and restrictions on payment of dividends. The OLSA also provide financial covenants which include maintaining at each testing date a maximum debt-to-equity ratio of 80:20 after the first principal repayment date.

The total current portion of notes payable, which pertains to 50% share in loans availed by MGCJVI, amounted to P3,750.0 million in 2019 and P693.7 million in 2018.

(b) 2013 Notes Facility

On February 19, 2013, the Parent Company executed a notes facility agreement with a local universal bank. In this agreement, the Parent Company desired to offer and issue fixed-rate corporate notes in the aggregate principal amount of P4,000.0 million. The net proceeds of the notes after deducting direct issue costs, such as underwriting fees and commissions, documentary stamp tax and other expenses associated with the issuance, amounted to P3,957.3 million.

The notes constitute direct, unconditional, unsubordinated, general and unsecured obligation ranking at least pari passu with all other present and future direct, unconditional, unsubordinated and unsecured obligations of the Parent Company.

The notes are issued in three tranches with the following details:

	<u>Principal</u>	<u>Term in Years</u>	<u>Interest Rate</u>
Tranche A	P 650,000,000	5	5%
Tranche B	3,250,000,000	7	6%
Tranche C	<u>100,000,000</u>	10	6%
	<u>P 4,000,000,000</u>		

The nominal rates refer to the Philippine Dealing System Treasury (PDST) Fixing rates with respect to the term of each tranche plus an interest spread of 1.75% for Tranche A and B and 1.50% for Tranche C.

The notes, among other things, restrict the Parent Company's ability to:

- 1) incur any indebtedness to be secured by or to benefit from any lien, in favor of any creditor on, or in respect of any present or future assets or revenues or the right to receive income;
- 2) make any material change in the nature of its business from that being carried on as of the signing date;
- 3) enter into any merger or consolidation except if the issuer retains control of the surviving corporation, such merger or consolidation is required by law, and such merger does not result in material adverse effect;
- 4) amend its articles of incorporation and/or by-laws except as required by law;
- 5) declare or pay any cash dividend to its stockholders (other than dividends payable solely in shares of its capital stock and cash dividends due on its outstanding preferred shares) or retain, retire, purchase or otherwise acquire any class of its capital stock, or make any other capital or other asset distribution to its stockholders, unless all payments due under the notes are current and updated and provided that any such payment is made out of retained earnings and the debt to equity ratio of 2:1 are maintained;
- 6) sell, assign, lease, transfer, and/or dispose all or substantially all of its properties;
- 7) assign, transfer or otherwise convey any right to receive any of its income or revenues;
- 8) voluntarily suspend its business operations in a manner that will result in a material adverse effect;
- 9) extend any loan, advance or subsidy to any person (other than to its subsidiaries or affiliates, or transactions in the ordinary course of business, or financing or guarantees for the direct or indirect purchase or sale of the assets of the issuer, its subsidiaries or affiliates). Neither shall the issuer make any deposit, credit to, or investment in, any person, except for bank deposit, credit placements, and other transactions in the ordinary course of business;
- 10) permit its financial debt to equity ratio to exceed 2:1; and,
- 11) voluntarily prepay any indebtedness.

The Parent Company has complied with all the debt covenants set forth in the notes facility agreement as the transactions during the intervening periods are under the ordinary course of business.

In 2018, Tranche A has matured already, leaving tranche B and C outstanding, with a carrying value of P3,162.9 million and P3,192.8 million as at December 31, 2019 and 2018, respectively. The whole carrying amount is presented under non-current portion of notes payable.

(c) 2016 Various Notes Facility

In 2016, the Parent Company entered into various notes facility arrangement with a local bank to refinance the corporate note issued in 2011 and to finance its capital expenditure and general corporate requirements.

The notes are issued with the following details:

<u>Date Issued</u>	<u>Principal</u>	<u>Term in years</u>	<u>Interest Rate</u>
September 16, 2016	P 650,000,000	10	5.5%
December 5, 2016	350,000,000	10	6.37%
December 16, 2016	<u>1,000,000,000</u>	10	6.37%

P 2,000,000,000

These 10-year corporate notes bear an interest rate based on the closing per annum rates of a ten (10)-year PDST-R2 rate on the PDS Group website plus a certain spread. The Parent Company has to maintain a debt-to-equity ratio of not more than 2.33 and a debt service coverage ratio of at least 1.1.

The notes, among other things, restrict the Parent Company's ability to:

- 1) Engage in any business or make or permit any material change in the character of its business from that authorized on its amended articles of incorporation and by-laws;
- 2) Amendment of articles of incorporation and by-laws which would cause a material adverse effect or be inconsistent with the provisions of the finance document;
- 3) Change of ownership and management if as a result the stockholdings of Citicore Investments Holdings Inc. will fall below 51% or enter into profit sharing, partnership or joint venture whereby its profits are shared with any other person that may have a material adverse effect;
- 4) Sale of asset, transfer or dispose of all or substantially all of its properties and assets except in the ordinary course of business;
- 5) Declaration of dividends or retirement of capital if the issuer shall not be in compliance with the financial covenants or would result to an event of default;
- 6) Loans and advances to its directors, officers and stockholders (other than to its subsidiaries or affiliates, or transactions in the ordinary course of business, or financing or guarantees for the direct or indirect purchase or sale of the assets of the issuer, its subsidiaries or affiliates). Neither shall the issuer make any deposit, credit to, or investment in, any person, except for bank deposit, credit placements, and other transactions in the ordinary course of business;
- 7) Make a capital expenditure not in the ordinary course of business;
- 8) Incur additional debt or act as surety on behalf of third parties or incur monetary obligation which shall cause the issuer to breach the financial covenants;
- 9) Loans and advances to any person (other than to its subsidiaries or affiliates, or transactions in the ordinary course of business, or financing or guarantees for the direct or indirect purchase or sale of the assets of the issuer, its subsidiaries or affiliates). Neither shall the issuer make any deposit, credit to, or investment in, any person, except for bank deposit, credit placements, and other transactions in the ordinary course of business;
- 10) Directly or indirectly incur or suffer to exist any lien upon any assets and revenues, present and future of the issuer or enter into any loan facility agreement secured by or to be secured by a lien upon any assets and revenues, present and future whether registered or unregistered of the issuer;
- 11) Except for permitted investments, invest in or acquire any (i) share in or any security issued by any person, (ii) acquire directly or indirectly the business or going concern or all substantially all the properties and assets or business of any other corporation or entity or invest in a controlling entity therein; and,
- 12) It will not voluntarily suspend or discontinue its entire or a substantial portion of its business operation.

In 2018, all of the three tranches of the second corporate note remained outstanding, with a carrying value of P1,940.0 million and P1,960.0 million as at December 31, 2019 and 2018, respectively. The whole carrying amount is presented under non-current portion of notes payable.

As of December 31, 2019 and 2018, the carrying amount of all the corporate notes are P8,852.9 million and P5,846.5 million, respectively.

Total interest on these notes payable amounted to P304.8 million, P341.7 million and P354.2 million in 2019, 2018 and 2017, respectively, and is presented as part of Interest expense from notes payable under Finance Costs account (see Note 25.1). Unpaid interest as of December 31, 2019 and 2018 amounting to P29.8 million and P26.0 million, respectively, and is presented as part of Interest payable under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

On August 10, 2017, the Parent Company sent a letter to the bank requesting the waiver of one of the loan negative covenants that prohibits the stockholdings of Citicore in the Parent Company to fall below 51% or enter into profit sharing, partnership or joint venture whereby its profits are shared with any other person that may have a material adverse effect (see Note 1.1). In September 2017, the request was granted by the bank. The Parent Company is in compliance with all other covenants required to be observed under the loan facility agreement as of December 31, 2019 and 2018.

18.2 Bank Loans

(a) Omnibus Loan and Security Agreement – December 17, 2014

On December 17, 2014, GMCAC entered into a P20,000.0 million (which at GMCAC's option may be increased up to P23,300.0 million) OLSA with various local universal banks, as onshore lenders. On January 26, 2015, the parties amended the facility to include another universal bank as offshore lender to contribute US \$75.0 million (or equivalent to P3,500.0 million) into the facility.

The facility has a term of 15 years, the repayment of which starts in 2019 and shall continue every year thereafter until 2030; and, interest requirements that are payable annually based on the following:

	First 7 Years	Last 8 Years
P20,000.0 million onshore loan	Sum of Base Rate 1 (PDST-R2 benchmark yield) and credit spread	Sum of Base Rate 2 (PDST-R2 benchmark yield) and credit spread
US\$75.0 million offshore loan	LIBOR plus credit spread	LIBOR plus credit spread

As security for timely payment of the loan and prompt observance of all provision of the Omnibus Agreement, the following are pledge as collateral on this loan:

- all monies deposited and from time to time standing in the Cash Flow Waterfall Accounts;
- the Project receivables;
- the proceeds of any asset and business insurance obtained, except for the proceeds of insurance policies arising from damage of any Project Assets;

- the Project Documents (Accession Agreement, Technical Service Agreement and Engineering and Procurement Contract); and,
- the 100% of the total issued and outstanding capital stock of GMCAC.

As of December 31, 2019 and 2018, the carrying amount of the assets pledged as collateral amounted to P862.7 million and P680.4 million, respectively (see Note 12.6).

In addition, the OLSA provides certain restrictions and requirements which include, among others, maintaining and preserving its corporate existence, complying with all of its material obligations under the project arrangements, restrictions on granting of loans or advances and disposal of major properties and restrictions on payment of dividends. The OLSA also provides financial covenants which include maintaining a maximum debt to equity ratio of 70:30 and a debt service coverage ratio of at least 1.1 times following the Project completion date. As of December 31, 2019 and 2018, GMCAC has complied with the financial and non-financial covenants.

Moreover, GMCAC's BOD authorized GMCAC to establish, maintain and operate trust and investment accounts with a Security Trustee to ensure the prompt payment of the required amortization, interest and principal of the long-term loan, which was established and maintained by GMCAC during the reporting period (see Note 12.6).

The total drawdowns to date made for the onshore loan amounted to P20,850.0 million while drawdowns on the offshore loan amounted to US\$75.0 million (or equivalent to P3.8 billion). As of December 31, 2019, the carrying amount of the total onshore and offshore loans amounted to P24,277.9 million, of which current and non-current portion are P543.9 million and P23,734.0 million, respectively. As of December 31, 2018, the carrying amount amounted to P24,299.8 million which is presented under non-current portion of bank loans.

The movements of debt issuance cost relating to drawn amounts follows:

	<u>2019</u>	<u>2018</u>
Beginning balance	P 293,695,919	P 264,384,563
Additions	3,411,467	44,064,887
Amortization during the year	(<u>30,747,898</u>)	(<u>14,754,531</u>)
Ending balance	<u>P 266,359,488</u>	<u>P 293,694,919</u>

The portion of the debt issue costs pertaining to the undrawn amount of the borrowing facility is recognized as part of Deferred transaction cost under Other Non-current Assets in the consolidated statements of financial position (see Note 12.7).

Total interest expense on these loans, including the amortization of debt issue costs, amounted to P946.2 million, P552.9 million and P213.1 million in 2019, 2018 and 2017, respectively, and is presented as part of Interest expense from bank loans under Finance costs under Other Income (Charges) account in the consolidated statements of income (see Note 25.1). Total accrued interest amounting to P71.2 million and P83.8 million as of December 31, 2019 and 2018, respectively, is presented as part of Interest payable under Trade and Other Payables in the consolidated statements of financial position (see Note 17).

Provision in the loan indicates that the borrower shall pay to the lenders, a commitment fee equivalent to 0.3% per annum of the undrawn or uncanceled portion of the commitment that GMCAC does not draw in accordance with the drawdown schedule.

In order to hedge the interest rate exposure on this floating rate US dollar-denominated loan maturing in June 2022, GMCAC entered into an interest rate swap transaction. As at December 31, 2019 and 2018, GMCAC recognized P78.6 million derivative liability (see Note 17) and P26.3 million derivative asset (see Note 7), respectively.

The total amount of liability from bank loans of GMCAC as of December 31, 2019 is P24,277.9 million. The current and non-current portion of the liability on these bank loans are P543.9 million and P23,734.0 million, respectively.

(b) OLSA for PITX project

In 2015, the MWMTI entered into an Omnibus Loan and Security Agreement (OLSA) with a local universal bank for a loan facility amounting to P3,300.0 million to finance the construction of the ITS Project. In 2019, the MWMTI requested the lender to increase the loan by P600.0 million making the total principal loan to P3,900.0 million.

In 2017, the MWMTI made its first drawdown amounting to P825.0 million while the remaining loan facility was fully drawn in 2019 in tranches amounting to P3,075.0 million.

The loan principal shall be amortized quarterly over 15 years and the first principal repayment is due on January 16, 2021. The interest-bearing loan is secured by the Joint Venturers and bear annual interest of 4.62%-6.89% in 2019.

The interest-bearing loan requires the MWMTI to maintain a maximum debt-to-equity ratio of 70:30. In addition, the MWMTI is also required to observe at all times until full payment of the loan a debt service coverage ratio of at least 1.25.

With regard to the loans aforementioned, MWMTI has complied with affirmative and negative covenants, except that in 2019, MWMTI exceeded the agreed Debt-to-Equity Ratio and had lower than the stated Debt Service Coverage Ratio. Prior to December 31, 2019, MWMTI requested for the financial covenants not to be enforced during the grace period of the loan, which was conformed by one of the Bank's officers. MWMTI was also able to increase its credit line and drawdown such increase in 2019, has been up to date in its servicing of the loan and not received any written notice from the bank, as of the date of the issuance of the consolidated financial statements, that the loan is already due and demandable, which is provided in the loan agreement as basis to classify the loan as current.

The total carrying value of bank loans of MWMTI amounting to P3,900.0 million and P825.0 million as at December 31, 2019 and 2018 respectively are presented under the non-current portion of bank loans.

(c) *Other Bank Loans*

In addition, the Group also obtained various bank loans with total outstanding balance of P10,247.7 million and P5,651.0 million as of December 31, 2019 and 2018, respectively, representing unsecured short-term loans from other local banks. The loans bear fixed annual interest rates ranging from 5.13% to 7.0% in 2019, 2.6% to 2.8% in 2018, and 2.6% to 2.8% in 2017. Total interest on these bank loans amounted to P629.9 million, P160.9 million and P66.7 million in 2019, 2018 and 2017 respectively, and is presented as part of Interest expense from bank loans under Finance costs under Other Income (Charges) account in the consolidated statements of income (see Note 25.1). The unpaid portion of these interest amounted to P18.7 million and P18.9 million as of December 31, 2019 and 2018, respectively, and is presented as part of Interest payable under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

The total amount of various bank loans from the Parent Company amounting to P10,247.7 million and P5,651.0 million as at December 31, 2019 and 2018, respectively, are presented under the current portion of bank loans.

18.3 Lease Liabilities (previously Obligations under Finance Lease)

The obligations under finance lease have an effective interest rate of 6.0% both in 2018 and 2017. Lease payments are made on a monthly basis. Total interest from these obligations amounted to P11.0 million and P14.8 million in 2018 and 2017, respectively, and is presented as Interest expense from finance lease under Finance Costs account in the statements of income (see Note 25.1).

The Group's lease liabilities as at December 31, 2019 amounting to P474.2 million is further classified to the current and non-current portion amounting to P139.3 million and P334.9 million, respectively.

Obligations under finance lease as at December 31, 2018 amounting to P157.9 million pertain solely to leases of the Parent Company. Amounts of P63.8 million and P94.1 million, respectively, are presented under the current and non-current portion.

As at January 1, 2019, the Group reclassified obligations under finance leases amounting to P157.9 million to lease liabilities due to the adoption of PFRS 16 [see Note 2.2(a)(iv)].

19. CONTRACT LIABILITIES

The significant changes in the contract liability balances during the reporting periods are as follows:

	<u>2019</u>	<u>2018</u>
Balance at beginning of year	P 4,670,482,671	P 1,466,488,633
Increase due to billings excluding amount recognized as revenue during the year	3,931,138,000	3,976,398,693
Revenue recognized that was included in contract liability at the beginning of the year	(3,765,451,114)	(859,577,796)
Effect of financing component	<u>95,100,400</u>	<u>87,173,141</u>
Balance at end of year	<u>P 4,931,269,957</u>	<u>P 4,670,482,671</u>

20. OTHER LIABILITIES

The details of this account are as follows:

	<u>Notes</u>	<u>2019</u>	<u>2018</u>
Current:			
Withholding taxes		P 80,913,142	P 102,406,787
Deferred output VAT		70,994,272	38,907,666
Deferred revenue		12,147,113	25,928,897
Others		<u>56,007,237</u>	<u>66,574,224</u>
		<u>P 220,061,764</u>	<u>P 233,817,574</u>
Non-current:			
Security deposits	29.1.3	P 586,498,441	P 148,010,532
Unearned rent income		154,643,665	34,015,340
Retention payable	17	<u>-</u>	<u>186,140,105</u>
		<u>P 741,142,106</u>	<u>P 368,165,977</u>

Deferred revenue represents advance payments from customers and concessionaires that are subject to refund or future billing applications within 12 months from the end of the reporting period.

As of December 31, 2018, security deposits pertains mainly to the amounts received from lessees in relation to GMCAC's airport operations. In 2019, the Group received additional security deposits open full operations of MWMTI's PITX (see Note 29.1.3).

Unearned rent income pertains to the difference between the fair value and principal amount of security deposits received at the inception of the lease with concessionaires, which shall be amortized over the corresponding lease term.

Others under current liabilities significantly include government-related payables for employee benefits.

21. REVENUES

When the Group prepares its investor presentations and when the Group's Executive Committee evaluates the financial performance of the operating segments, it disaggregates revenue similar to its segment reporting as presented in Notes 2.13 and 4.

The Group determines that the categories used in the investor presentations and financial reports used by the Group's management can be used to meet the objective of the disaggregation disclosure requirement of PFRS 15, which is to disaggregate revenue from contracts with customers and other counterparties into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

A summary of additional disaggregation from the segment revenues and other unallocated income are shown below.

	Notes	Point in time	Over time	Short-term	Long-term	Total
2019:						
Construction revenues	21.1					
Contract revenues		P -	P 14,401,891,771	P -	P14,401,891,771	P 14,401,891,771

21.1 Contract Revenues

The details of this account for the years ended December 31, 2019, 2018 and 2017 are composed of the revenues from:

	2019	2018	2017
Contracts in progress	P 15,140,197,972	P12,097,586,683	P15,982,614,204
Completed contracts	168,871,411	590,875,527	730,024,389
	<u>P15,309,069,383</u>	<u>P12,688,462,210</u>	<u>P16,712,638,593</u>

About 7%, 3%, and 12% of the contract revenues for 2019, 2018 and 2017, respectively, were earned from contracts with an associate and certain related parties under common ownership (see Note 28.1).

21.2 Airport Operations Revenues

The details of this account are composed of the revenues from:

Note	2019	2018	2017
Aeronautical	P 2,017,492,164	P1,654,502,111	P1,279,592,220
Concession	606,495,158	506,752,023	373,227,479
Rental	29.1.3 514,492,251	445,114,709	303,230,474
Others	552,632,886	389,612,187	342,354,717
	<u>P 3,691,112,459</u>	<u>P2,995,981,030</u>	<u>P2,298,404,890</u>

Others include non-aero related services like taxi and bus ticket collection, service charges, advertising license and fees, and the likes.

21.3 Airport Merchandising Operations Revenue

The details of this account for the years ended December 31, 2019, 2018 and 2017 are as follow:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Sale of food	P 143,559,337	P 142,792,131	P 86,297,920
Sale of non-food items	112,473,557	45,193,644	1,739,128
Consignment	<u>70,188,285</u>	<u>101,909,020</u>	<u>60,062,491</u>
	<u>P 326,221,179</u>	<u>P 289,894,795</u>	<u>P 148,099,539</u>

21.4 Terminal Operations Revenue

The PITX Project undertaken by the Group with the DOTr gives the Group the control over the terminal area and the right to collect concessionaire revenue. As disclosed in Note 9, contract assets include unbilled receivable in 2019 which pertains to the cost of the terminal area which is to be recovered through the Grantor payments.

The construction of the PITX Project was completed in 2019 and the Group has no unsatisfied performance obligations as of year-end.

For 2019 and 2018, the details of terminal operations revenue (see Note 29.1.3) are composed of the revenues from:

	<u>2019</u>	<u>2018</u>
Rental revenue – effect of straight-line method	P 382,476,437	P -
Rental revenue – per contract	146,237,035	-
Construction revenue	<u>26,688,355</u>	<u>17,653,392</u>
	<u>P 555,401,827</u>	<u>P 17,653,392</u>

22. DIRECT COSTS

22.1 Contract Costs

The following is the breakdown of contract costs for the years ended December 31:

	<u>Notes</u>	<u>2019</u>	<u>2018</u>	<u>2017</u>
Materials		P 5,522,579,742	P 3,918,321,688	5,685,402,272
Outside services		4,731,572,291	4,273,853,758	6,210,374,440
Salaries and employee benefits	24.1	1,424,719,436	1,019,472,422	860,277,769
Depreciation	14	773,562,002	552,073,867	483,038,875
Project overhead		<u>839,364,144</u>	<u>1,020,454,120</u>	<u>845,008,197</u>
	23	<u>P 13,291,797,615</u>	<u>P 10,784,175,855</u>	<u>P 14,084,101,553</u>

Project overhead includes insurance, repairs and maintenance, gas and oil, travel and transportation, professional fees, utilities, municipal permits, taxes, security services, office supplies and various rental expenses of staging areas.

22.2 *Costs of Airport Operations*

The following is the breakdown of cost of airport operations:

	Notes	2019	2018	2017
Amortization of concession asset	13	P 738,596,573	P 380,194,399	P 154,337,821
Utilities		268,586,765	194,614,309	125,742,781
Outside services		147,038,962	114,570,441	50,111,681
Repairs and maintenance		133,298,432	62,582,204	24,713,999
Salaries and employee benefits	24.1	65,635,177	52,363,844	45,045,096
Airport operator's fee	23, 29.3.1(b)	47,585,582	38,774,762	26,910,779
Airline collection charges	23	44,826,143	28,667,430	23,025,228
Insurance		33,414,799	27,171,465	21,185,125
Technical service charge		29,567,996	26,617,230	15,812,217
Others		28,066,432	16,273,769	13,603,799
	23	<u>P 1,536,616,861</u>	<u>P 941,829,853</u>	<u>P 500,488,526</u>

22.3 *Costs of Airport Merchandising Operations*

The following is the breakdown of cost of airport merchandising operations for the years ended December 31, 2019, 2018, and 2017:

	Note	2019	2018	2017
Cost of goods sold:				
Food		P 37,059,400	P 40,586,331	P 23,683,025
Consignment		34,367,114	-	16,701,545
Non-food		16,474,013	29,820,697	299,837
Spoilage and pilferages		348,442	11,163	162,758
Purchase discounts		(34,705)	(59,931)	(50,056)
	23	<u>P 88,214,264</u>	<u>P 70,358,260</u>	<u>P 40,797,109</u>

22.4 *Cost of Terminal Operations*

For 2019 and 2018, the following is the breakdown of cost of terminal operations:

	Note	2019	2018
Terminal costs		P 176,099,593	P -
Depreciation and amortization		100,176,498	-
Construction cost		26,688,354	17,653,392
Cost of property maintenance		8,685,061	-
	23	<u>P 311,649,506</u>	<u>P 17,653,392</u>

23. OPERATING EXPENSES BY NATURE

The details of operating expenses by nature are shown below.

	Notes	2019	2018	2017
Materials, supplies and facilities		P 5,551,240,778	P 3,686,294,789	P5,696,914,274
Outside services		5,215,333,898	4,686,645,439	6,333,998,651
Salaries and employee benefits	24.1	1,991,316,155	1,477,935,003	1,371,232,087
Depreciation and amortization	12.5, 13, 14, 15	1,757,625,213	1,023,451,211	695,964,736
Project overhead		866,052,497	1,038,107,512	845,008,197
Utilities		363,250,340	229,536,350	153,923,584

Miscellaneous		189,511,554	93,921,889	244,163,727
		<u>P17,038,516,759</u>	<u>P13,093,671,860</u>	<u>P15,833,074,087</u>

Miscellaneous includes certain construction reworks and warranty cost for certain projects already completed.

These expenses are classified in the consolidated statements of income as follows:

	Notes	2019	2018	2017
Contract costs	22.1	P 13,291,797,615	P10,784,175,855	P14,084,101,553
Costs of airport operations	22.2	1,536,616,861	941,829,853	500,488,526
Cost of terminal operations	22.4	311,649,506	17,653,392	-
Costs of airport merchandising operations	22.3	88,214,264	70,358,260	40,797,109
Other operating expenses		<u>1,810,238,513</u>	<u>1,279,654,500</u>	<u>1,207,686,899</u>
		<u>P 17,038,516,759</u>	<u>P13,093,671,860</u>	<u>P15,833,074,087</u>

24. POST-EMPLOYMENT DEFINED BENEFIT OBLIGATION

24.1 Salaries and Employee Benefits Expense

Expenses recognized for salaries and employee benefits are presented below.

	Notes	2019	2018	2017
Short-term employee benefits		P 1,954,902,308	P1,443,324,841	P1,338,246,782
Post-employment benefit	24.2	<u>36,413,847</u>	<u>34,610,162</u>	<u>32,985,305</u>
	23	<u>P 1,991,316,155</u>	<u>P1,477,935,003</u>	<u>P1,371,232,087</u>

The expenses are allocated in the consolidated statements of income as follows:

	Notes	2019	2018	2017
Contract costs	22.1	P 1,424,719,436	P1,019,472,422	P 860,277,769
Costs of airport operations	22.2	65,635,177	52,363,844	45,045,096
Other operating expenses		<u>500,961,542</u>	<u>406,098,737</u>	<u>465,909,222</u>
	23	<u>P 1,991,316,155</u>	<u>P1,477,935,003</u>	<u>P1,371,232,087</u>

24.2 Post-employment Benefit

(a) Characteristics of Defined Benefit Plan

The Group maintains a partially funded and noncontributory post-employment defined benefit plan covering all regular full-time employees. The Group conforms to the minimum regulatory benefit under the R.A. No. 7641, *Retirement Pay Law*, which is of the defined benefit type and provides a retirement benefit in lump sum equal to 22.5-day pay for every year of credited service. The regulatory benefit is paid in a lump sum upon retirement. The normal retirement age is 60 with a minimum of 5 years of credited service.

(b) *Explanation of Amounts Presented in the Consolidated Financial Statements*

Actuarial valuations are made annually to update the retirement benefit costs and the amount of contributions. All amounts presented below and in the succeeding pages are based on the actuarial valuation report obtained from an independent actuary in 2019, 2018 and 2017.

The amounts of post-employment DBO in the consolidated statements of financial position are determined as follows:

	<u>2019</u>	<u>2018</u>
Present value of the DBO	P 344,592,331	P 180,733,570
Fair value of plan assets	(4,384,701)	(3,934,974)
	<u>P 340,207,630</u>	<u>P 176,798,596</u>

The movements in the present value of the DBO are as follows:

	<u>2019</u>	<u>2018</u>
Balance at beginning of year	P 180,733,570	P 177,245,984
Current service cost	36,413,847	34,610,162
Interest cost	12,772,283	10,111,154
Benefits paid directly from book reserve	(153,459)	-
Remeasurement/actuarial losses (gains) arising from:		
Changes in financial assumptions	104,497,013	(60,160,684)
Experience adjustments	10,329,077	20,082,761
Changes in demographic assumptions	-	(1,155,807)
Balance at end of year	<u>P 344,592,331</u>	<u>P 180,733,570</u>

Actuarial losses arising from experience adjustments pertain to the net effect of differences between previous actuarial assumptions and what actually incurred.

The movements in the fair value of plan assets are presented below.

	<u>2019</u>	<u>2018</u>
Balance at beginning of year	P 3,934,974	P 3,979,771
Interest income	295,909	226,848
Return on plan assets (excluding amounts included in net interest)	153,818	(271,645)
Balance at end of year	<u>P 4,384,701</u>	<u>P 3,934,974</u>

The plan assets as of December 31, 2019 and 2018 consist of the Unit Investment Trust Fund (UITF) amounting to P4.1 million and P3.9 million, respectively. The Group has 2,070 participation units on UITF managed by the trust department of a certain universal bank [see Note 32.2(c)]. Actual return on plan assets amounted to P0.45 million in 2019. Actual loss on plan assets amounted to P0.04 million in 2018 while actual return on plan assets amounted to P0.05 million in 2017.

The components of amounts recognized in consolidated income and in the consolidated comprehensive income (loss) in respect of the defined benefit post-employment plan are as follows [see Note 24.2(b)]:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
<i>Recognized in consolidated profit or loss:</i>			
Current service cost	P 36,413,847	P 34,610,162	P 32,985,305
Net interest expense	<u>12,476,374</u>	<u>9,884,306</u>	<u>6,069,457</u>
	<u>P 48,890,221</u>	<u>P 44,494,468</u>	<u>P 39,054,762</u>
<i>Recognized in consolidated other comprehensive income (loss):</i>			
Actuarial gains (losses) arising from:			
Changes in financial assumptions	(P 104,497,013)	P 60,160,684	(P 14,340,443)
Experience adjustments	(10,329,077)	(20,082,761)	(7,317,776)
Changes in demographic assumptions	-	1,155,807	112,241
Return on plan assets (excluding amounts included in net interest)	<u>153,818</u>	<u>(271,645)</u>	<u>(165,156)</u>
	<u>(P 114,672,272)</u>	<u>P 40,962,085</u>	<u>(P 21,711,134)</u>

Current service costs are included as part of Salaries and employee benefits under Other Operating Expenses account in the consolidated statements of income. The net interest expense is included as part of Finance Costs account in the consolidated statements of income (see Note 25.1).

Amounts recognized in other comprehensive income (loss) are presented under item that will not be reclassified subsequently to profit or loss.

In determining the amounts of the post-employment DBO, the following significant actuarial assumptions were used:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Discount rate	5.20%	7.62%	5.74%
Expected return on plan assets	5.00%	5.00%	5.00%
Employee turn-over rate	3.00%	3.00%	3.00%

Assumptions regarding future mortality experience are based on published statistics and mortality tables. The average remaining working lives of an individual retiring at the age of 60 is 23.8 years. These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of a zero coupon government bonds with terms to maturity approximating to the terms of the post-employment obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) *Risks Associated with the Defined Benefit Plan*

The plan exposes the Group to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.

(i) *Investment and Interest Risks*

The present value of the DBO is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bonds will increase the plan obligation. However, this will be partially offset by an increase in the return on the plan's investments in debt securities and if the return on plan asset falls below this rate, it will create a deficit in the plan. As of December 31, 2019 and 2018, the plan has short-term investments managed through UITF.

(ii) *Longevity and Salary Risks*

The present value of the DBO is calculated by reference to the best estimate of the mortality of the plan participants during their employment and to their future salaries. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the plan obligation.

(d) *Other Information*

The information on the sensitivity analysis for certain significant actuarial assumptions, the Group's asset-liability matching strategy, and the timing and uncertainty of future cash flows related to the post-employment defined benefit plan are described below and in the next page.

(i) *Sensitivity Analysis*

The following table summarizes the effects of changes in the significant actuarial assumptions used in the determination of the post-employment DBO as of December 31:

	Impact on Post-Employment Defined Benefit Obligation		
	<u>Change in Assumption</u>	<u>Increase in Assumption</u>	<u>Decrease in Assumption</u>
2019:			
Discount rate	+/- 1%	(P 48,502,483)	P 59,729,362
Salary growth rate	+/- 1%	58,622,237	(48,589,911)
2018:			
Discount rate	+/- 1%	(P 23,812,091)	P 28,914,418
Salary growth rate	+/- 1%	29,069,377	(24,329,729)

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the DBO as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the DBO has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the post-employment DBO recognized in the consolidated statements of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous years.

(ii) *Funding Arrangements and Expected Contributions*

The retirement plan trustee has no specific matching strategy between the plan assets and the plan liabilities.

The Group is not required to pre-fund the future defined benefits payable under the plan assets before they become due. For this reason, the amount and timing of contributions to the plan assets are at the Group's discretion. However, in the event a benefit claim, the shortfall will be due and payable from the Group to the plan assets.

The maturity profile of undiscounted expected benefit payments within 10 years from the end of the reporting periods follows:

	<u>2019</u>	<u>2018</u>
More than 1 year to 5 years	P 53,612,047	P 39,224,293
More than 5 years to 10 years	<u>122,066,472</u>	<u>97,939,503</u>
	<u>P 175,678,519</u>	<u>P 137,163,796</u>

The weighted average duration of the DBO at the end of the reporting period is 15.9 years.

25. OTHER INCOME (CHARGES)

25.1 *Finance Costs*

The breakdown of this account in is as follows:

	<u>Notes</u>	<u>2019</u>	<u>2018</u>	<u>2017</u>
Interest expense from:				
Bank loans	18.2	P 1,696,106,457	P 717,968,215	P 279,835,724
Notes payable	18.1	304,778,086	341,717,197	354,192,747
Lease liability	18.3	22,133,682	10,987,097	14,799,233
Accretion of security deposit		<u>2,164,623</u>	<u>-</u>	<u>-</u>
		<u>P 2,025,182,848</u>	<u>P 1,070,672,509</u>	<u>P 648,827,704</u>
<i>Balance carried forward</i>		<u>P 2,025,182,848</u>	<u>P 1,070,672,509</u>	<u>P 648,827,704</u>

	Notes	2019	2018	2017
<i>Balance brought forward</i>		P 2,025,182,848	P 1,070,672,509	P 648,827,704
Finance cost – PFRS 15	19	258,346,364	104,906,299	-
Interest expense on retirement obligation – net	24.2	12,476,374	9,884,306	6,069,457
Bank charges		9,501,226	4,381,750	8,399,117
Foreign currency losses – net		3,420,967	135,378,464	-
Loss on sale of financial assets at FVOCI (previously AFS financial assets)	10	-	8,203,815	78,487,134
		P 2,308,927,779	P 1,333,427,143	P 741,783,412

Finance cost – PFRS 15 pertains to the portion of the transaction price regarded as interest expense due to the significant financing components within contracts [see Notes 2.17 and 3.1(c)]. This is the adjustment to the transaction price due to the time value of money. A contract is considered to have a significant financing component if the timing of payments agreed to by the parties provides the customer or the entity with a significant benefit of financing the transfer of goods or services.

25.2 Finance Income

The details of finance income are the following:

	Notes	2019	2018	2017
Interest income from:				
Advances to related parties	28.4	P 441,000,000	P 70,429,966	P 8,263,465
Cash in banks	5	105,406,640	41,520,356	16,281,624
Short-term placements	5	5,152,906	36,258,500	49,786,941
Foreign currency gains – net	18.2(a)	137,098,221	-	16,418,553
Day one gain		79,180,145	-	-
Defaults		5,567	-	-
Financial assets at FVTPL	7	-	72,389,335	94,094,313
		P 767,843,479	P 220,598,157	P 184,844,896

Foreign currency gains – net resulted from the Group’s foreign currency-denominated transactions especially its off-shore loan [see Note 18.2(a)].

Day one gain pertains to interest earned on security deposits collected from leases recorded by MWMTI at amortized cost using effective interest method.

25.3 Others – net

This consists of the following:

	Notes	2019	2018	2017
Unrealized gain (loss)				
on interest rate swap	7	(P 104,842,394)	P 45,218,078	(P 18,927,939)
Consultancy fee		102,906,182	-	-
Rental of equipment		84,817,209	157,368,150	19,645,974
Equity in net profit				
of associates and	11.1,			
joint venture	11.3	32,674,443	10,209,371	3,606,389
Gain on disposals				
of property				
and equipment	14	9,603,796	2,876,025	5,248,792
Income from				
scrap sales	8	7,294,766	3,369,824	622,850
Gain on bargain				
purchase	15	-	307,365,622	-
Others	11.2,			
	28.2	579,745	75,120,679	47,531,914
		P 133,033,747	P 601,527,749	P 57,727,980

Consultancy fee pertains to fees charged by the Group to its clients for the engineering and design services rendered.

In August 2018, the Parent Company bought 344.5 million shares with par value of P1.00 per share from various stockholders of MTI with a total purchase price of P344.1 million. This business combination is part of the Parent Company's plan to totally take control of the business pertaining to terminal operations. As a result of the transaction, the Parent Company obtained 100% ownership interest in MTI and increased its effective ownership interest in MWMTI from 51% to 100% [see Note 1.2(i)]. This granted the Parent Company control over MTI, thereby the latter becoming a subsidiary from being a joint venture in 2017. Preacquisition loss amounted to P3.6 million.

The fair values of the identifiable assets acquired and liabilities assumed in 2018 are as follows:

Fair value of assets acquired:	
Cash and cash equivalents	P 199,791,025
Trade and other receivables	376,390,685
Investment property	1,461,141,676
Other assets	<u>164,847,111</u>
	<u>2,202,170,497</u>
Fair value of liabilities assumed:	
Interest-bearing loan	(825,000,000)
Trade and other payables	(<u>415,687,982</u>)
	(<u>1,240,687,982</u>)
Fair value of net assets acquired	<u>961,482,515</u>

<i>Balance brought forward</i>	<u>961,482,515</u>
Fair value of consideration transferred –	
Cash	344,149,804
Previously-held interest in MWMTI	<u>309,967,089</u>
	<u>654,116,893</u>
Gain on bargain purchase	<u>P 307,365,622</u>

Trade and other receivables at date of acquisition is based on MWMTI's terminal construction and operations using the cost recovery method [see Note 2.17(d)].

The total excess of the consideration transferred over the acquisition date-fair value of the net assets acquired amounting to P307.4 million is presented as Gain on bargain purchase under Other Income (Charges) account in the 2018 consolidated statement of income. The gain on bargain purchase is due to the acquisition at par.

In 2018, Others also include penalty charges on late collections from customers amounting to P17.3 million.

26. TAXES

26.1 Registration with the Board of Investments

On May 29, 2015, the BOI approved the Parent Company's application for registration of its projects as PPP for School Infrastructure Project Phase 2 – Contract Package A pursuant to Build-Lease-Transfer Agreement with the Philippine DepEd on a nonpioneer status under the Omnibus Investment Code of 1987. Under such registration, the Parent Company is entitled of the following incentives:

- (a) Income tax holiday (ITH) for a period of four years from May 30, 2015 or actual start of commercial operations, whichever is earlier;
- (b) Importation of capital equipment, spare parts and accessories at zero duty for a period of five years from May 30, 2015;
- (c) Additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment; and,
- (d) Employment of foreign nationals which will hold supervisory, technical or advisory positions for five years from May 30, 2015.

On June 13, 2019, the BOI has approved the Parent Company's request for extension of the ITH incentive from May 28, 2019 to February 28, 2021 in relation to its PPP for School Infrastructure Project Phase 2.

On February 22, 2019, the BOI approved the Parent Company's application for registration as New Producer of Housing Components (Hollow Core Precast Pre-Stressed Slab) on a Non-Pioneer Status under the Omnibus Investments Code of 1987 (Executive Order No. 226). As such, the Parent Company is entitled to the following incentives:

- (a) ITH for a period of four years from February 2019 or actual start of commercial operations, whichever is earlier;
- (b) Importation of capital equipment, spare parts and accessories at zero-duty under Executive Order No. 57 and its Implementing Rules and Regulations;
- (c) Additional deduction from taxable income of fifty percent (50%) of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment; and
- (d) Employment of foreign nationals which will hold supervisory, technical or advisory positions for five years from the date of registration.

On June 20, 2016, GMCAC was registered with the BOI as a PPP Project for the GMCAC Phase 2 – Operation and maintenance of Terminal 2 (Phase 2 O&M of T2) under the Concession Agreement with the DOTr and MCIAA as an expansion Project on a Non-pioneer status under the Omnibus Investment Code of 1987 (Executive Order No. 226).

Under the registration, GMCAC is entitled, among others, to ITH incentives for three years from December 2018 and July 2018 for Phase 1 and Phase 2, respectively, or actual start of commercial operations, whichever is earlier but in no case earlier than the date of registration. GMCAC has informed the BOI that the actual start of commercial operations of Phase I is on January 1, 2016 for ITH purposes.

Also, GMCAC is entitled to additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor in the year of availment as against the previous year, if the project meets the prescribed ratio of capital equipment to the number of workers set by the Board. This may be availed for the first five years from date of registration but not simultaneously with ITH.

GMCAC voluntarily waived the ITH incentives for Phase 2 O&M of T2 for the taxable period July 2018 to December 2018 and for the taxable year 2019. GMCAC subjected all revenues and expenses of Phase 2 O&M T2 to RCIT in 2019.

26.2 Registration with Clark Freeport Zone

MGCJVI was registered as Clark Freeport Zone (CFZ) enterprise on April 12, 2018 with registration number C2018-169. On April 26, 2007, R.A. 9400 or “An Act Amending R.A. 7227 as Amended, otherwise known as the Bases Conversion and Development Act of 1992 and for Other Purposes” was approved.

One of the major amendments to R.A. 7227, now embodied in R.A. 9400, is the official declaration of Clark, which used to be a Special Economic Zone, as a Freeport Zone that would cover 4,400 hectares of the former Clark Air Base. Under R.A. 9400, the CFZ shall be operated and managed as a separate customs territory ensuring free flow or movement of goods and capital equipment within, into and exported out of Clark, as well as provide incentives such as tax and duty-free importation of raw materials and capital equipment. However, exportation or removal of goods from the territory of Clark to other parts of the country will also be subjected to customs duties and taxes under the Tariff and Customs Code of the Philippines, as amended by the National Internal Revenue Code. As a CFZ-registered enterprise, in lieu of paying the regular corporate income tax rate of 30%, MGCJVI shall pay 5% tax on gross income earned, divided as follows: 3% to the national government and 2% to the municipality or city where the zone is located. In addition, it is exempt from other internal revenue tax dues for its registered activities within the Freeport Zone, such as business tax, VAT and excise tax.

Under Revenue Regulation No. 02-01, enterprises registered pursuant to the Bases Conversion and Development Act of 1992 under R.A. 7227, as well as other enterprises duly registered under special economic zones declared by law which enjoy payment of special tax rate on their registered operations or activities in lieu of other taxes, are not subject to improperly accumulated earnings tax.

26.3 Current and Deferred Taxes

The components of tax expense as reported in profit or loss and other comprehensive income in the consolidated statements of income and consolidated statements of comprehensive income are as follows:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
<i>Reported in consolidated profit or loss</i>			
Current tax expense:			
Regular corporate income tax (RCIT) at 30%	P 34,250,758	P 132,111,752	P 444,795,347

The Parent Company, GMCAC and MWMTI are subject to the minimum corporate income tax (MCIT), which is computed at 2% of gross income as defined under the tax regulations, or RCIT, whichever is higher. In 2019, only the Parent Company and GMCAC reported MCIT. GMI and MLI will be subjected to MCIT in 2020.

In 2016, GMI and MLI have unrecognized deferred tax asset of P0.9 million each arising from their respective NOLCO, which can be claimed as deduction against future taxable income up to 2019. In addition, MCEI incurred NOLCO amounting to P0.1 million in 2016 and P0.4 million in 2015, which can be claimed as deduction against future taxable income until 2019 and 2018, respectively.

In 2019, 2018 and 2017, the Group opted to claim itemized deductions in computing for its income tax due.

As of December 31, 2019 and 2018, the Parent Company has 26 and 23 holders of its common equity securities owning at least one board lot of 100 shares listed in the PSE, respectively, and its share price closed as of such dates at P16.40 and P18.50 per share in 2019 and 2018, respectively. The Parent Company has 2,399.4 million common shares traded in the PSE both as of December 31, 2019 and 2018.

As of December 31, 2019 and 2018, the Parent Company has 40.0 million preferred shares traded in the PSE. The preferred share price closed at P96.0 and P98.0 per share as of December 31, 2019 and 2018, respectively.

27.2 Dividends

In 2019 and 2018, the Parent Company's BOD approved the declaration cash dividends of P1.76 per share or equivalent to P70.3 million per quarter (total of P281.0 million) to holders of preferred shares, which were taken out of the unrestricted earnings of the Parent Company as of December 31, 2018 and 2017, respectively. The series of record dates and payments are as follows:

	<u>1st Quarter</u>	<u>2nd Quarter</u>	<u>3rd Quarter</u>	<u>4th Quarter</u>
<u>2019:</u>				
Approval dates	January 8, 2019	April 3, 2019	July 8, 2019	October 10, 2019
Record dates	February 13, 2019	May 16, 2019	August 14, 2019	November 15, 2019
Payment dates	March 3, 2019	June 3, 2019	September 3, 2019	December 3, 2019
<u>2018:</u>				
Approval dates	January 30, 2018	May 3, 2018	August 11, 2018	October 30, 2018
Record dates	February 15, 2018	May 18, 2018	August 16, 2018	November 16, 2018
Payment dates	March 3, 2018	June 3, 2018	September 3, 2018	December 3, 2018

The dividends on preferred shares bear cumulative, non-participating cash dividends based on the issue price, payable quarterly in arrears every dividend payment date, at the fixed rate of 7.025% per annum from listing date.

On December 26, 2019, the Parent Company's BOD approved the declaration of cash dividends for common shares in the amount of P0.12 per share or equivalent to P247.6 million to all stockholders of record as of January 15, 2020, payable on January 31, 2020. Outstanding dividend payable amounting to P239.9 million is presented as part of Dividend payable under the Trade and Other Payables account in the 2019 consolidated statement of financial position (see Note 17). The dividend payable was subsequently paid in January 2020.

On October 1, 2018 and December 11, 2017, the BOD approved the declaration of cash dividends for common shares at P0.12 per share and P0.05 per share or equivalent to P256.6 million and P106.9 million, respectively. The cash dividends were paid on November 12, 2018 and December 29, 2017, respectively, to all common stockholders of record as of October 15, 2018 and December 26, 2017, respectively. The dividends were paid out of the unrestricted retained earnings of the Corporation distributable as dividends as of December 31, 2017 and 2016, respectively.

27.3 Treasury Shares

On July 20, 2016, the Parent Company's BOD approved the buy-back of 410.8 million common shares held by Sybase Equity Investment Corporation at a price equal to the 7-trading day volume weighted average price ending on July 28, 2016 or equivalent to P10.03 per share. Total purchase price of the treasury shares including incidental cost of the buy-back amounted P4,138.8 million.

On October 20, 2016, the Parent Company's BOD approved the sale of its 150.0 million treasury shares at P14.90 per share. Net proceeds of the sale of treasury share amounted to P2,181.7 million, net of incidental cost of the transaction. Outstanding balance of the treasury shares after the sale is 260.8 million treasury shares at cost of P2,627.7 million.

On October 1, 2018, the Parent Company's BOD approved a share buyback program worth up to P2.0 billion over a period of two years. Total cost to acquire treasury shares in 2019 and 2018 amounted to P457.8 million and P827.1 million, respectively, which is equivalent to 26.1 million and 48.8 million shares, respectively.

27.4 Retained Earnings

On April 8, 2013, the BOD of the Parent Company approved the declaration of dividends and gave management the authority to decide the type (cash, stock or mixed) and amount of any dividends to be declared subsequently.

The Parent Company's retained earnings are restricted to the extent of the cost of treasury shares (see Note 27.3).

27.5 Non-controlling Interest

Upon incorporation, the Parent Company acquired 15.0 million shares of GMCAC. The purchase of the shares is part of the shareholders' agreement to execute, undertake, and implement the Project in accordance with the concession agreement. The shares acquired represent 60% of the total issued and outstanding shares of GMCAC (see Note 1.2). The non-controlling interest representing 38.24% ownership of GMR Infrastructure (Singapore) Pte. Ltd. (GISPL) and 1.66% ownership of GIL in GMCAC is presented as part of Non-controlling Interest account in the consolidated statements of financial position (see Note 11.5).

Another non-controlling interest representing 30% ownership of Philcarbon, Inc. in MCEI is presented as part of Non-controlling Interest account in the consolidated statements of financial position (see Note 11.5).

In 2016, the Parent Company acquired 12.0 million shares of GMI representing 60% of the total issued and outstanding shares of GMI. On March 15, 2017, the Parent Company sold 2,000,000 shares or 10% interest of GMI to GHOSPL. As of December 31, 2017, GMI is 50% owned by the Parent Company. In 2019, GMI declared P50.0 million dividends to non-controlling shareholders which resulted to a decrease in the equity attributable to the non-controlling interests (see Note 11.5).

Also in 2016, the Group's controlling 60% ownership in MCLI resulted in 40% non-controlling interest of the other stockholder. The non-controlling interest representing 50% ownership of GHOSPL in GMI and 40% of other stockholder in MCLI are presented as part of Non-controlling Interest account in the consolidated statements of financial position (see Note 11.5).

The Group determined that only the minority interest in GMCAC is considered as a material non-controlling interest, and accordingly, presented the relevant financial information in the next page (see Note 27.5).

	<u>2019</u>	<u>2018</u>
Current assets	P 2,484,974,268	P 2,914,185,736

Net profit	529,233,776	939,650,075
Net income allocated to NCI	211,693,510	375,860,030

In 2019, GMI declared dividends amounting to P50.0 million to non-controlling interests. Outstanding dividends payable of GMI amounting P25.0 million is presented as part of Non-trade payables under Trade and Other Payables in the 2019 consolidated statement of financial position (see Note 17). In 2018, GMCAC, MCEI, and GMI have not declared nor paid any dividends.

Key Management Personnel – Compensation	28.8	182,781,767	-	On demand	Unsecured; Unimpaired

28.1 Rendering of Services

In the normal course of business, the Group provides construction services to its associate, a certain previous shareholder and other related parties. The related revenue from these transactions amounted to P787.1 million, P1,110.5 million and P2,028.0 million in 2019, 2018 and 2017, respectively, and is recorded as part of Contract Revenues account in the consolidated statements of income (see Note 21.1). Services rendered to the above related parties are based on normal terms similar to terms that would be available to non-related parties.

The outstanding contract receivables from these transactions, which are generally unsecured and settled through cash within three to six months, and the related retention receivables, which can only be collected after a certain period of time upon acceptance by project owners of the certificate of completion, are presented as part of Contract and Retention receivables under Trade and Other Receivables account in the consolidated statements of financial position (see Note 6).

Through application of the ECL model based on the lifetime expected credit loss wherein the Group used its historical experience, external indicators and forward-looking information to calculate the ECL using the provision matrix, no significant amount of impairment losses was required to be recognized for the years 2019, 2018 and 2017.

28.2 Rental of Land and Building

The Group is a lessee of certain parcels of land and building owned by related parties under common ownership.

In 2019, 2018 and 2017, the Group recognized rent expense amounting P1.8 million, P2.8 million and P2.6 million, respectively, from the lease agreement with Megapolitan Realty and Development Corporation (Megapolitan) for the land where the Group's building is located (see Notes 23 and 29.1.1). The Group has no outstanding payables from the rental transaction with Megapolitan as of December 31, 2019 and 2018.

In 2019 and 2018, the Group also leases an office space where its registered address is located from Philwide Construction and Development Corporation (Philwide).

Megapolitan and Philwide are entities owned by the Group's stockholders and their close family members.

The Parent Company also leases out its office space to its associates and related parties under common ownership. As a result, the Group recognized rent income amounting to P3.7 million in 2019 and P0.3 in 2018 from the lease of its office building to several related parties. This is recorded as part of Other Income (Charges) – net account in the consolidated statements of income (see Note 25.3). The outstanding balances arising from these transactions are presented as part of Other receivables under the Trade and Other Receivables account in the consolidated statements of financial position (see Note 6).

28.3 Advances to Officers and Employees

Advances to officers and employees represent unsecured, noninterest-bearing cash advances for business-related expenditures that are to be liquidated 60 days from the date the cash advances were received. The outstanding receivables from these transactions are presented as part of Trade and Other Receivables (see Note 6).

No impairment losses were recognized in 2019, 2018 and 2017 for these advances.

28.4 Advances to and from Related Parties

In 2019 and 2018, the Group obtained unsecured, noninterest-bearing cash advances from certain related parties to finance portion of its working capital requirement payable upon demand. Advances obtained amounted to P20.0 million in 2019 and P58.1 million in 2018, while advances settled amounted to P59.6 million and P172.9 million, respectively. The outstanding balance from these transactions is shown under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

	<u>2019</u>	<u>2018</u>
<i>Due to stockholders and related parties</i>		
Associates	P 20,000,000	P -
Related party under common ownership	-	44,683,199
Joint arrangement	-	14,883,628
	<u>P 20,000,000</u>	<u>P 59,566,827</u>

The Group has provided unsecured, interest-bearing and noninterest-bearing cash advances to its associates and certain related parties under common ownership for their working capital requirements. In 2019 and 2018, the Parent Company also provided bridge financing to its parent and associates for the Group's business expansion and diversification program.

In 2019 and 2018, the Group granted advances totaling P2,976.2 million and P3,145.2 million, respectively, while advances collected amounted to P0.8 million and P145.7 million, respectively. The outstanding balance from these transactions is shown under Trade and Other Receivables account in the consolidated statements of financial position (see Note 6).

	<u>2019</u>	<u>2018</u>
<i>Advances to related parties</i>		
Related party under common ownership	P 3,186,770,507	P 3,144,370,721
Ultimate parent company	3,069,371,725	146,322,222
Associates	6,000,000	-
Joint arrangement	5,404,267	1,074,666
Minority shareholders and their affiliates	-	841,103
	<u>P 6,267,546,499</u>	<u>P 3,292,608,712</u>

Further, upon assessment of recoverability based on the capacity to pay and expected collectability of these advances, no impairment losses were recognized in 2019, 2018 and 2017.

The Group's outstanding receivables from and payables to the same related parties as presented can be potentially offset to the extent of their corresponding outstanding balances (see Note 32.2).

28.5 Advances to and from Minority Shareholders

The minority shareholders granted unsecured, noninterest-bearing cash advances to GMCAC to support its Project bid-related expenses. The minority interest shareholder also granted unsecured noninterest-bearing cash advances to MCEI to support its working capital operations. The outstanding balance from this transaction is shown under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

28.6 Others

The Parent Company's retirement plan is in the form of a bank-trustee managed account. The fair value of the retirement plan totalled P4.4 million and P3.9 million as of December 31, 2019 and 2018, respectively. The details of the retirement plan are presented in Note 24.2.

28.7 Key Management Compensation

The compensation of key management personnel is broken down as follows:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Short-term employee benefits	P 293,002,231	P 207,383,418	P 175,585,387
Post-employment benefits	<u>17,901,744</u>	<u>2,558,293</u>	<u>7,196,380</u>
	<u>P 310,903,975</u>	<u>P 209,941,711</u>	<u>P 182,781,767</u>

29. COMMITMENTS AND CONTINGENCIES

The following are the significant commitments and contingencies involving the Group:

29.1 Lease Commitments

29.1.1 Operating Lease Commitments - Group as Lessee (2018 & 2017)

The Group is a lessee under operating leases covering its office space, stockyards, and certain construction equipment with terms ranging from one year to two years subject to renewal options. Total rental expense from these operating leases, presented as Rentals under Other Operating Expenses amounted to P40.7 million and P21.1 million in 2018 and 2017, respectively (see Notes 23 and 28.2).

The related refundable security deposits amounting to P161.7 million as of December 31, 2018, are presented as part of Other Current Assets in the 2018 consolidated statement of financial position (see Note 12).

The future minimum lease payments under these non-cancellable operating lease as of December 31, 2018 are as follows:

Within one year	P 14,540,236
After one year but not more than five years	<u>26,197,309</u>
	<u>P 40,737,545</u>

29.1.2 Finance Lease Commitments – Group as Lessee (2018)

The Group has finance leases covering certain transportation and construction equipment with terms ranging from two to five years. Future minimum lease payments (MLP) under the finance leases together with the present value (PV) of the net minimum lease payments (NMLP) as of December 31 are as follows:

	<u>2018</u>	
	<u>Future MLP</u>	<u>PV of NMLP</u>
Within one year	P 146,602,196	P 138,983,535
After one year but not more than five years	<u>351,722,951</u>	<u>333,444,521</u>
Total MLP	498,325,147	472,428,056
Amounts representing finance charges	(<u>25,897,091</u>)	<u>-</u>
PV of MLP	<u>P 472,428,056</u>	<u>P 472,428,056</u>

The liabilities relating to the finance leases are shown as part of Interest-bearing Loans and Borrowings account (see Note 18.3).

29.1.3 Group as Lessor

The Group is also a lessor under operating leases covering rentals from lease of office and commercial spaces presented in the consolidated statements of financial position as Investment Properties. Rental income earned amounted to P468.4 million in 2019 which is recognized under Terminal Operations Revenues in the consolidated statements of income (see Note 21.2).

The future minimum lease receivables under the non-cancellable operating leases as of the end of 2019 are as follows:

Within one year	P 896,438,164
After one year but not more than five years	<u>4,351,175,835</u>
	<u>P5,247,613,999</u>

Variable rent, which pertains to a certain percentage share in the lessees' sales, is included as part of total rent income amounting to P40.0 million in 2019.

29.2 PPP with DepEd

On October 8, 2012, the Parent Company, together with Citicore (collectively referred to as proponent), executed a build-lease-transfer agreement with the Philippine Government, through DepEd under the PPP for school infrastructure project, which provides initiatives on the construction of classroom nationwide to address the current classroom backlog and future requirements for classrooms.

The agreement requires the construction, maintenance and lease of school buildings, whereby, the project proponent is authorized to finance and construct the school facility within 16 months from the execution date and upon its completion turns it over to the government agency or local government unit concerned on a lease agreement for a period of 10 years from the issuance of certificate of completion. After which, ownership of the facility is automatically transferred to the government agency or local government unit concerned.

During the lease period, the proponent shall be responsible for the maintenance works, which shall be performed twice, the first time at any point between the fourth and fifth years, and the second time at any point between the eighth and ninth years. At the end of the 10-year term, the proponent shall bear all costs incurred in connection with the transfer of rights to the Philippine Government.

Pursuant to the above agreements, the Parent Company and Citicore established CMCI (see Note 1) to handle the PPP school infrastructure project. In 2016, the construction of the school buildings has been maintained.

As of December 31, 2018 and 2017, the school infrastructure project is 100% complete for both Phases 1 and 2.

29.3 Build-Operate-Transfer Agreements

29.3.1 Mactan-Cebu International Airport Project

(a) BOT Agreement

In 2014, GMCAC entered into a BOT agreement with the Grantors relative to the MCIA Project. GMCAC was established to undertake the Project involving, among others, the construction of a world-class airport passenger terminal (along with associated infrastructure and facilities), the renovation and expansion of the existing airport terminal and the operation and maintenance of both airport passenger terminals for a period of 25 years.

On April 8, 2014, the Parent Company entered into Shareholders' Agreement with GMR setting forth the terms and conditions governing their participation in the share capital of GMCAC, their rights and obligations as shareholders in relation to GMCAC. Under the said Shareholders' Agreement, the parties defined the business of GMCAC, the required manpower support from each shareholder, the composition of the board, formation of committees and the management team for the orderly management of the Project, conduct of board and shareholder meetings as well as restrictions on the transfer rights of the stockholders and issuance of additional shares.

GMCAC is a pioneer in the privately operated airport space in the Philippines when it took over the Mactan Cebu International Airport on the scheduled take over date of November 1, 2014.

(b) Technical Service Agreement

On August 19, 2014, GMCAC entered into a Technical Services Agreement (the Agreement) with GIL to provide for the services in compliance with the Concession Agreement are described below.

- (i) The preparation of policies and procedures such as O&M Manual and the updating of such every January 30th of each calendar year, Fire Safety Manual, and any other additional systems, documentation and manuals to meet the Performance Standards under the Concession Agreement;
- (ii) Provide training or technical services to key personnel of GMCAC so that GMCAC may undertake the O&M of the facilities;
- (iii) Provide qualified experts, on a permanent or long-term basis; and,
- (iv) Provide other staff on non-permanent basis either based on GIL's location or seconded to GMCAC.

As stated in the Agreement and as agreed by the parties, GIL may provide services through any of its offices, subsidiaries, or branches where the qualified experts may be located, which shall include GISPL and/or GISPL's or GIL's branch to be incorporated in the Philippines. GMCAC also agreed to pay the relevant fees upon the invoice raised, directly and under the instructions of GIL, by such office, subsidiary or branch.

The service fee shall be 1.25% of the actual audited gross revenue. The Agreement is effective up to the expiry of the Concession Period unless terminated earlier upon mutual consent of the parties.

Airport operator's fee recognized for 2019, 2018 and 2017 amounted to P47.6 million, P38.8 million and P26.9 million, respectively (see Notes 22.2 and 23).

29.3.2 Parañaque Integrated Terminal Exchange Project

On February 25, 2015, MWMTI entered into a BOT agreement with the DOTr to undertake the PITX Project. Upon completion of the project, MWMTI shall operate and maintain the facility, which is divided into terminal and commercial areas, within the agreed concession period of 35 years from the date of the completion of the construction, which is equivalent to 18 months.

The development and implementation of the PITX Project is divided into terminal and commercial areas and related developments therein for a total lot area of 193.4 hectares (the Project Assets). Specifically, the PITX Project to be undertaken by MWMTI, as the concessionaire, consists of the following:

- The design, engineering and construction of the PITX Terminal, access road and the pedestrian connections between the PITX Terminal and Asia World Station concourse within 18 months from the construction date;
- From its completion until the end of the concession period, the operation and maintenance of the PITX Terminal in accordance with the Concession Agreement;
- The collection and remittance to the Grantor of terminal fee from users of the PITX Terminal;
- The financing of the above activities;

- The design, financing, engineering and construction of commercial assets, carrying out of the commercial business, and collection of any commercial revenue at the concessionaire's option; and,
- Turn-over of the Project Assets to the Grantor at the end of the Concession Period

Pursuant to the Concession Agreement, MWMTI shall be entitled to collect and receive the concessionaire revenue comprising of AGP, commercial revenue, and any applicable grantor compensation payments. The AGP is collectible from the Grantor at the end of every anniversary year from the construction completion date thereof. For commercial revenue, MWMTI is free to impose and collect commercial charges from the use of commercial areas. On the other hand, the Grantor shall be entitled to the terminal fee revenue from the users of the public service and other charges.

At the end of the concession period, MWMTI shall hand-over the PITX Project Assets to the Grantor without cost, free from any liens and encumbrances, including all improvements made to the terminal facilities, commercial assets, works in progress and right to receive commercial revenues.

On November 5, 2018, MWMTI opened the terminal while the construction of commercial areas and related developments were completed in 2019.

29.4 Credit Lines

The Group has existing credit lines with local banks totalling P45,400.0 million and \$75.0 million (P3,778.6 million) for 2019, and P48,170.0 million and \$75.0 million (P3,744.2 million) for 2018.

The Group availed of bank loans totalling P40,384.4 million and \$75.0 million (P3,778.6 million) for 2019, and P33,831.0 million and \$75.0 million (P3,877.5 million) for 2018 (see Note 18.2). Only the loan obtained by GMCAC was secured, as disclosed in Note 18.2. Unused credit lines as of December 31, 2019 amounted to P5,051.6 million.

29.5 Capital Commitments on Use of Proceeds

The Parent Company has capital commitments to utilize the proceeds from the issuance of its preferred shares amounting to P3,938.5 million for various PPP projects, development of renewable energy projects, and bid preparation and preliminary works for PPP projects that the Parent Company will bid for (see Note 29.2). As of December 31, 2019 and December 31, 2018, the balance of the unutilized proceeds amounted to nil and P309.3 million, respectively.

29.6 Legal Claims

There are pending claims, tax assessment, and other legal actions filed by the Group or against the Group arising from the normal course of business. There are no related provisions recognized in the consolidated financial statements as management believes that the Group has strong legal positions related to such claims. Moreover, management believes that the ultimate liability, if any, with respect to such litigations, claims and disputes will not materially affect the financial position and results of operations of the Group.

29.7 Others

Apart from the foregoing significant commitments, and the Group's construction commitments with various counterparties under the ordinary course of business, there are other commitments and contingent liabilities that arise in the normal course of the Group's operations which are not reflected in the consolidated financial statements. Management is of the opinion that losses, if any, from these commitments and contingencies will not have material effects on the Group's consolidated financial statements, taken as a whole.

30. EARNINGS PER SHARE

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Net profit attributable to shareholders of the Parent Company	P 859,487,439	P 1,469,434,495	P 1,781,192,210
Dividends on cumulative preferred shares	<u>(281,000,000)</u>	<u>(281,000,000)</u>	<u>(281,000,000)</u>
Net profit available to common shareholders of the Parent Company	578,487,439	1,188,434,495	1,500,192,210
Divided by weighted average number of outstanding common shares	<u>2,081,168,982</u>	<u>2,130,249,359</u>	<u>2,138,583,425</u>
Basic and diluted EPS	<u>P 0.28</u>	<u>P 0.56</u>	<u>P 0.70</u>

The Group does not have dilutive potential common shares outstanding as of December 31, 2019, 2018 and 2017; hence, diluted EPS is equal to the basic EPS.

31. EVENTS AFTER THE END OF THE REPORTING PERIOD

31.1 Declaration of Dividends

On January 8, 2020, the Company's BOD approved the declaration cash dividends of P1.76 per share or equivalent to P70.3 million to holders of preferred shares on record as of February 6, 2020. The dividends which is payable on March 3, 2020, shall be taken out of the unrestricted earnings of the Company as of December 31, 2019.

31.2 Share Buy-Back Program

In 2019, pursuant to the share buyback program, the Company acquired treasury cost amounted to P99.25 million (equivalent to 4.65 million shares).

On March 3, 2020, the BOD approved an additional P3 billion to its Share buyback program (the "Program"), making it a total of P5 billion and removal of the period within which to execute the Program, making it open-ended.

31.3 Execution of Corporate Note Facility

On February 19, 2020, the Company signed a P5.0 billion corporate note facility, the proceeds of which will be used by the Company to (a) retire maturing debt obligations (b) to fund growth projects and (c) for general corporate purposes.

31.4 COVID-19 Outbreak

In December 2019, a novel strain of corona virus (COVID-19) was reported to have surfaced in China. The World Health Organization has declared the outbreak as a 'public health emergency of international concern.' COVID-19 started to become widespread in the Philippines in early March 2020. This caused the government to declare the country in a state of public health emergency followed by implementation of enhanced quarantine and social distancing measures and restrictions within the Luzon area with other cities and provinces in the country enacting similar measures thereafter. This resulted in a wide-ranging business suspension - disrupting the supply chains, affecting production and sales across a range of industries, and weakening the stock market.

The Enhanced Community Quarantine (ECQ), which suspended construction activities and PITX and MCIA terminal operations, imposed by the government on March 17, 2020 were relaxed beginning May 16, 2020 placing Metro Manila and Laguna in Luzon under modified ECQ (MECQ) as these areas are categorized as high-risk while moderate risk places are placed under General Community Quarantine (GCQ) which includes MCIA.

Under MECQ, public works and private construction projects are now allowed to operate subject to minimum health standards and measures. Although public transportation is suspended in PITX, operation of its office towers and retail groceries are allowed whereas restaurants are allowed to operate at 50% capacity provided service shall be limited to delivery or takeout. MCIA, on the other hand, which is placed under GCQ beginning May 16 are allowed to operate domestic flights provided incoming or outgoing flights are from GCQ area.

These circumstances are expected to delay activities during the ECQ period or for two months from its expected original schedule of 12 months, translating to delayed revenue recognition for the year. Meanwhile, revenues from airport operations and merchandising activities will be affected by the expected drop in international tourist arrivals, estimated by the government to fall by 30-40% this year, and the restricted travel within the Philippines due to the nationwide imposition of the ECQ. Recovery in revenue is contingent upon the lifting of travel bans imposed by the government and nearby countries as well as confidence of people to travel. Terminal or landport operations, being a new segment and went full swing in January 2020, is expected to contribute significantly and compensate for the slowdown in the airport segment and delay in construction activities. Cost, on the other hand, are expected to follow the revenue trajectory.

The Group does not foresee any impairment of its assets nor breaches from its existing loan covenant given its measures to address risk of losses and its healthy balance sheet. The Group foresees that the New Normal emerging from the COVID-19 pandemic presents several challenges in the businesses yet unlocks exciting opportunities in construction and infrastructure development, which the Group is in a very strong position to line up for. In the construction segment, the government's infrastructure acceleration under the modified Build, Build, Build program will be very attractive, considering our fully-integrated EPC capabilities, engineering technologies like precast, and track record in PPPs. The precast technology, in particular, is adaptive to social distancing and safety standards requirements for construction sites post-quarantine. As such, Megawide's precast business unit is now ramping up its capacity to deliver external sales orders.

The Group has determined that these events are non-adjusting subsequent events. Accordingly, their impact was not reflected in the Group's consolidated financial statements as of and for the year ended December 31, 2019.

32. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risks in relation to its financial instruments. The Group's financial assets and financial liabilities by category are summarized in Note 33. The main types of risk are market risk, credit risk and liquidity risk.

The Group's risk management is coordinated with the Group's Parent Company, in close cooperation with the BOD, and focuses on actively securing the Group's short-to-medium term cash flows by minimizing the exposure to financial markets.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The relevant financial risks to which the Group is exposed to are described below and in the succeeding pages.

32.1 Market Risk

The Group is exposed to market risk through its use of financial instruments and specifically to foreign currency risk, interest rate risk and certain other price risk which result from its operating, investing and financing activities.

(a) Foreign Currency Risk

Most of the Group's transactions are carried out in Philippine pesos, its functional currency. Exposures to currency exchange rates arise from intercompany advances to and from foreign related parties, which are denominated in US dollars. The Group also holds US dollar-denominated cash.

Significant US dollar-denominated financial assets (liabilities), translated into Philippine pesos at the closing rates, are as follows:

	<u>2019</u>	<u>2018</u>
Cash in banks	P 854,304,390	P 960,840,991
Investment in trust fund	106,182,000	6,122,222
Trade and other payables	(693,575,565)	(2,507,534)
Long-term debt	(3,778,637,000)	(3,912,000,000)
	<u>(P3,511,726,175)</u>	<u>(P2,947,544,321)</u>

If the Philippine peso had strengthened by 12.93% and 11.16% in 2019 and 2018, respectively, against the US dollar, with all other variables held constant, profit before tax for the years ended December 31, 2019 and 2018 would have increased by P454.1 million and P328.9 million, respectively. If the Philippine peso had weakened by the same percentages against the US dollar, then profit before tax for 2019 and 2018 would have decreased by the same amounts, respectively. These percentages have been determined based on the average market volatility in exchange rates, using standard deviation, in the previous 12 months, estimated at 99% level of confidence. The sensitivity analysis is based on the Group's foreign currency financial instruments held as at December 31, 2019 and 2018, with effect estimated from the beginning of the year.

Exposures to foreign exchange rates vary during the period depending on the volume of foreign currency transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

(b) Interest Rate Risk

The Group's policy is to minimize interest rate cash flow risk exposures on long-term financing. Longer-term borrowings are therefore usually made at fixed rates.

As at December 31, 2019 and 2018, the Group is exposed to changes in market rates through its cash in banks and short-term placements which are subject to monthly repricing intervals (see Note 5) and certain short-term interest-bearing loans which is subject to variable interest rate (see Note 18). All other financial assets and financial liabilities have fixed rates or are noninterest-bearing.

The sensitivity of the profit before tax is analyzed based on a reasonably possible change in interest rates of +/-248.0, +/-291.0 and +/-90.0 basis points in 2019, 2018 and 2017, respectively, based on observation of current market conditions with effect from the beginning of the year. The changes in interest rates have been determined based on the average market volatility in interest rates for each period using standard deviation and the financial instruments held at the end of each reporting period that are sensitive to changes in interest rates.

All other variables held constant, if the interest rates increased by 248.0 basis points, 291.0 basis points and 90.0 basis points profit before tax in 2019, 2018 and 2017, respectively, would have decreased by P194.4 million in 2019 and increased by P108.3 million and P11.9 million in 2018 and 2017, respectively. Conversely, if the interest rates decreased by the same basis points, profit before tax would have been higher and lower by the same amounts.

32.2 Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments, such as the granting of loans and receivables to customers and related parties and placing deposits with local banks and investment in bonds and UITF.

The Group continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties.

The maximum credit risk exposure of financial assets and contract assets is the carrying amount of the related assets as shown in the consolidated statements of financial position or in the detailed analysis provided in the notes to the consolidated financial statements, as summarized in the below.

	Notes	<u>2019</u>	<u>2018</u>
Cash and cash equivalents	5	P 6,510,589,522	P 5,721,181,128
Trade and other receivables – net (<i>excluding advances to officers and employees</i>)	6	17,321,972,758	10,177,855,711
Refundable security and bond deposits	12	196,779,733	161,735,967
Investment in trust fund	12	862,704,457	680,421,727
Contract assets	9	<u>3,975,734,097</u>	<u>3,060,770,976</u>
		<u>P 28,867,780,567</u>	<u>P 19,801,965,509</u>

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash and cash equivalents and trade and other receivables as described below and in the succeeding page.

(a) *Cash and Cash Equivalents*

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Included in the cash and cash equivalents are cash in banks and short-term placements which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P0.5 million for every depositor per banking institution.

(b) *Trade and Other Receivables and Contract Asset*

The Group applies the PFRS 9 simplified approach in measuring ECL which uses a lifetime expected loss allowance for all trade receivables and other receivables and contract assets.

To measure the ECL, trade and other receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due (age buckets). The Group also concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the other receivables as it shares the same credit risk characteristics.

The expected loss rates are based on the payment and aging profiles over a period of 36 months before December 31, 2019 or January 1, 2019, respectively, and the corresponding historical credit losses experienced within such period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the inflation rate in the Philippines to be the most relevant factor, and accordingly adjusts the historical loss rates based on expected changes in this factor.

The Group identifies a default when the receivables become credit impaired or when the customer has not able to settle the receivables within the normal credit terms of 30 to 60 days, depending on the terms with customers; hence, these receivables were already considered as past due on its contractual payment. In addition, the Group considers qualitative assessment in determining default such as in instances where the customer is unlikely to pay its obligations and is deemed to be in significant financial difficulty.

On that basis, the loss allowance as at December 31, 2019 and January 1, 2019 (upon adoption of PFRS 9) was determined based on months past due, as follows for both trade and other receivables:

	Not more Than 3 months	More than 3 mos. but not more than 6 mos.	More than 6 mos. but not more than 1 year	More than 1 year	Total
December 31, 2019:					
<i>Expected credit loss rate</i>					
Receivables from airport operations	P 720,450,961	P 47,383,750	P 32,830,208	P 14,262,408	P 814,927,327

	P 2,662,010,490	P 74,436,937	P 136,168,354	P 856,229,147	P 3,728,844,928
Loss Allowance	-	-	-	416,532,310	416,532,310

(c) *Financial Assets at FVTPL and Investment in Trust Fund*

In 2018 and 2017, the Group is exposed to credit risk on its investments in UITF, short-term commercial papers and trust fund. However, the Group has assessed that such risk is minimal since the counterparties are reputable listed leasing company and financial institutions with high quality external credit ratings.

(d) *Refundable Security and Bond Deposits, and Investments in RTB*

The Group is not exposed to any significant credit risk exposures to its lessors as lease agreements were executed with reputable entities. The Group can negotiate, before the end of the lease term, to apply deposit to rentals due. Also, the investments in RTB and bond deposits are made with the Philippine Government, hence, the exposure on credit risk is assessed by the management to be not be significant.

32.3 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring cash outflows due in day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for six-month and one-year periods are identified monthly.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash is invested in time deposits or short-term placements. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

	2019		
	Current		Non-current
	Within 6 Months	6 to 12 Months	1 to 5 Years
Interest-bearing loans and borrowings	P 14,614,706,850	P 66,354,402	P33,882,124,037
Trade and other payables	8,167,589,445	-	-
Security deposits (gross of unearned income)	-	-	586,498,441
	<u>P 22,782,296,295</u>	<u>P 66,354,402</u>	<u>P34,468,622,478</u>
	2018		
	Current		Non-current
	Within 6 Months	6 to 12 Months	1 to 5 Years
Interest-bearing loans and borrowings	P 5,651,033,174	P 63,829,078	P31,065,401,733
Trade and other payables	5,252,402,324	-	-
Security deposits (gross of unearned income)	-	-	148,010,532
Retention payable (under other non-current liabilities)	-	-	186,140,105
	<u>P10,903,435,498</u>	<u>P 63,829,078</u>	<u>P31,399,552,370</u>

The above contractual maturities reflect the gross cash flows, which may differ from the carrying values of the financial liabilities at the end of reporting periods.

33. CATEGORIES, OFFSETTING AND FAIR VALUES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

33.1 Carrying Amounts and Fair Values by Category

The carrying amounts and fair values of the categories of financial assets and financial liabilities presented in the consolidated statements of financial position are shown below.

	Notes	2019		2018	
		Carrying Values	Fair Values	Carrying Values	Fair Values
Financial Assets					
At amortized cost:					
Cash and cash equivalents	5	P 6,518,599,861	P 6,518,599,861	P 5,734,720,648	P 5,734,720,648

*Under Other Non-current Liabilities

See Notes 2.4 and 2.11 for a description of the accounting policies for each category of financial instrument. A description of the Group's risk management objectives and policies for financial instruments is provided in Note 32.

33.2 Offsetting of Financial Assets and Financial Liabilities

The Group has not set-off financial instruments in 2019 and 2018 and does not have relevant offsetting arrangements except as disclosed in Notes 28.4 and 32.2(b). Currently, all other financial assets and financial liabilities are settled on a gross basis; however, each party to the financial instrument (particularly related parties) will have the option to settle all such amounts on a net basis in the event of default of the other party through approval by both parties' BOD and stockholders. As such, the Group's outstanding receivables from and payables to the same related parties as presented in Note 28 can be potentially offset to the extent of their corresponding outstanding balances.

33.3 Fair Value Hierarchy

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and financial liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Group uses valuation technique, it maximizes the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

33.4 Financial Instruments Measured at Fair Value

The short-term commercial papers amounting to P248.1 million as of December 31, 2017 (nil in 2018) are not quoted in an active market and are measured at amortized cost (see Note 33.5) since upon designation by the Group as financial assets at FVPTL and due to short term nature, approximates the fair value [see Note 32.1(c)]. This is classified under Level 3 of the fair value hierarchy.

Since the fair value of the Group's AFS financial assets approximates the cost amounting to P1.0 million as of December 31, 2017 (nil in 2018), the fair value change is deemed immaterial (see Note 10). The Group's AFS financial assets are under Level 2 of the fair value hierarchy. Moreover, certain equity investment classified as AFS financial asset is carried at cost (see Note 10); hence, such is no longer categorized in the fair value hierarchy.

The table below shows the fair value hierarchy of the Group's classes of financial assets and financial liabilities measured at fair value in the statements of financial position on a recurring basis as of December 31, 2019 and 2018.

	Notes	Level 1	Level 2	Level 3	Total
December 31, 2019					
<i>Financial assets:</i>					
Equity securities –					
Golf club shares	10	<u>P -</u>	<u>P 1,044,472</u>	<u>P -</u>	<u>P 1,044,472</u>
<i>Financial liabilities:</i>					
Derivative liability	17	<u>P -</u>	<u>P 78,552,254</u>	<u>P -</u>	<u>P 78,552,254</u>
December 31, 2018					
<i>Financial assets:</i>					
Derivative asset	7	P -	P 26,290,139	P -	P 26,290,139
Equity securities –					
Golf club shares	10	<u>-</u>	<u>1,044,472</u>	<u>-</u>	<u>1,044,472</u>
		<u>P -</u>	<u>P 27,334,611</u>	<u>P -</u>	<u>P 27,334,611</u>

The Group has no financial liabilities measured at fair value as of December 31, 2018.

There were neither transfers between Levels 1 and 2 nor changes in Level 3 instruments in both years.

Described below and in the succeeding page is the information about how the fair values of the Group's classes of financial assets are determined.

(a) Equity Securities

As of December 31, 2019 and 2018, instrument included in Level 2 comprise equity securities classified as financial assets at FVOCI. These securities were valued based on their fair market values by reference on published share prices of golf club shares and NAVPu for UITF investments as at December 31, 2019 and 2018, respectively. These are included in Level 2 as their prices are not derived from market considered as active due to lack of trading activities among market participants at the end or close to the end of the reporting period.

(b) *Debt Securities*

The fair value of the Group's debt securities which consist of government bonds is estimated by reference to prices quoted in BVAL for 2019 and 2018 representing the net clean closing prices for outstanding government bonds.

33.5 Financial Instruments Measured at Amortized Cost

The table below summarizes the fair value hierarchy of the Group's financial assets and financial liabilities which are not measured at fair value in the consolidated statements of financial position but for which fair value is disclosed. Short-term commercial papers are included since these financial instruments are measured at amortized cost, which approximate their fair values upon designation as financial assets at FVTPL (see Note 33.4).

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
2019:

33.6 Fair Value Measurement for Investment Property Carried at Cost

The table below shows the Levels within the hierarchy of non-financial assets measured at fair value on a recurring basis.

	Note	Level 1	Level 2	Level 3	Total
December 31, 2019	15				
Building for lease		P -	P -	P 3,724,304,346	P 3,724,304,346
Land		-	-	160,270,935	160,270,935
		<u>P -</u>	<u>P -</u>	<u>P 3,884,575,281</u>	<u>P 3,884,575,281</u>
December 31, 2018					
Building for lease		P -	P -	P 3,322,105,588	P 3,322,105,588
Land		-	-	135,610,000	135,610,000
		<u>P -</u>	<u>P -</u>	<u>P 3,457,715,588</u>	<u>P 3,457,715,588</u>

In estimating the fair value of investment property, management takes into account the market participant's ability to generate economic benefits by using the assets in their highest and best use. Based on management assessment, the best use of the Group's non-financial assets indicated above is their current use.

There has been no change to the valuation techniques used by the Group during the for its non-financial assets. Also, there were no transfers into or out of Level 3 fair value hierarchy in 2019.

34. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

Presented below and in the succeeding page is the reconciliation of the Group's liabilities arising from financing activities, which includes both cash and non-cash changes.

	Bank Loans (Note 18.2)	Notes Payable (Note 18.1)	Lease Liabilities (Note 18.3)	Total
Balance as of January 1, 2019	P 30,775,838,256	P 5,846,502,472	P 157,923,257	P 36,780,263,985
Cash flows from financing activities:				
Additional borrowings	17,552,773,199	3,056,288,759	397,446,210	21,006,508,168
Repayment of borrowings	(10,007,821,865)	(49,861,241)	(115,296,405)	(10,172,979,511)
Non-cash financing activities				
Unrealized loss on interest rate swap	104,842,394	-	-	104,842,394
Effect of adoption of PFRS 16	-	-	34,277,641	34,277,641

35. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return to shareholders by pricing services commensurate with the level of risk.

The Group monitors capital on the basis of the carrying amount of equity as presented on the face of the consolidated statements of financial position.

The Group sets the amount of capital in proportion to its overall financing structure, equity and liabilities. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares, re-issuance of treasury shares or sell assets to reduce debt.

	<u>Notes</u>	<u>2019</u>	<u>2018</u>

We have audited, in accordance with Philippine Standards on Auditing, the consolidated financial statements of Megawide Construction Corporation and Subsidiaries (the Group) for the year ended December 31, 2019, on which we have rendered our report dated May 26, 2020. Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The applicable supplementary information (see List of Supplementary Information) is presented for purposes of additional analysis in compliance with the requirements of the Revised Securities Regulation Code Rule 68 of the Philippine Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with Philippine Financial Reporting Standards. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

MEGAWIDE CONSTRUCTION CORPORATION AND SUBSIDIARIES
 MAP SHOWING THE RELATIONSHIP BETWEEN THE COMPANY AND ITS RELATED ENTITIES
 December 31, 2019

Supplementary information:

- (i) Megawide's acquisition of Atria is treated as an acquisition of asset and not a business acquisition. Hence, Atria is not considered a subsidiary of the Megawide.
- (ii) The rights and powers of Megawide over the management and control of the CMCI are exercised through a seat in the Board of Directors (BOD). Taking this into consideration, the Megawide concluded that it has significant influence over the investee; accordingly the investment is accounted for as an investment in associate.
- (iii) Megawide acquired 15.0 million shares of GMCAC which represent 60% of GMCAC's issued and outstanding capital stock, giving Megawide control over the financial and operations of GMCAC.
- (iv) Megawide acquired 51% ownership interest in MWCCI, but accounted for the investment as an associate since it does not have control over MWCCI's relevant activities. Citicore acquired 68% effective ownership interest over MWCCI, hence, obtained the control over MWCCI.
- (v) On September 4, 2014, the Company acquired 70% of the issued and outstanding capital stock of MCEI. The investment in MCEI is accounted for as an investment in subsidiary.
- (vi) MWMTI was accounted for as a subsidiary due to the acquisition of 100% ownership in MTI, resulting in the increase in effective ownership of Megawide in MWMTI from 51% to 100%.
- (vii) On October 28, 2016, the Parent Company acquired a 100% ownership interest in MLI, an entity incorporated in the Philippines. MLI is incorporated primarily to engage in real estate and related business.
- (viii) On May 5, 2016, the Parent Company acquired a 60% ownership interest in Globemercants, a company incorporated in the Philippines, primarily engaged in exporting, buying, selling, distributing, marketing at a wholesale in so far as may be permitted by law all kinds of goods, wares and merchandise of every kind and description.
- (ix) In February 2016, SSP's unissued shares of stock were acquired by CPI resulting in a 75% equity interest over SSP and diluting Megawide's equity interest over SSP from 100% to 25%. Hence, SSP ultimately became a subsidiary of CPI. In 2016, the Megawide's equity interest was reduced from 100% to 1% upon acquisition of a related party under common ownership.
- (x) In August 2018, Megawide acquired the outstanding shares of MTI representing 100% ownership, making it a wholly owned subsidiary of Megawide.
- (xi) In 2016, the following newly incorporated entities: HBPI, CESI, BGESSI, NGESSI, LGESSI and CGESSI, became wholly owned subsidiaries of the CPI upon subscription on their common shares. In 2015, CPI acquired NGPTC. CPI acquired additional shares of NGPTC through conversion of advances to equity investments. In November 2015, CPI entered into a share purchase agreement (SPA) for the acquisition of FTSEC for \$12.0 million. CPI paid the former stockholder of FTSEC, amounting to P40.1 million. The agreement was subsequently amended and reduced the purchase price to \$9.6 million. CPI gained control on FTSEC in May 2016 upon significant compliance of the parties to the SPA. CPI then reorganized FTSEC as its subsidiary.
- (xii) In March 2015, CHI acquired 100% ownership to CIII. CHI was established primarily to engage in buying and holding shares of other companies, either by subscribing to unissued shares of capital stock in public or private offering or by purchasing the shares of other stockholders by way of assignment in private sale.
- (xiii) In January 2012, upon execution of Deed of assignment between CHI and Myspace's stockholders, the 100% ownership of Myspace was transferred to CHI.
- (xiv) Globalcore is a foreign registered and domiciled in Hong Kong, which is primarily engaged in buying, selling, importing, and exporting of general equipment.
- (xv) On June 20, 2017, the Parent Company acquired a 100% ownership interest in MGBVL, an entity incorporated in the territory of British Virgin Islands, a primarily engage in buying and holding shares of other companies.
- (xvi) MLL, whose registered office is at Mary Building, 2nd Floor, Porell Estate, P.O. Box 2416, Road Town Tortola, British Virgin Islands, was incorporated on July 26, 2019.

We have audited, in accordance with Philippine Standards on Auditing, the consolidated financial statements of of Megawide Construction Corporation and Subsidiaries (the Group) for the year ended December 31, 2019 and 2018, on which we have rendered our report dated May 26, 2020. Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purposes of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with PFRS. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at December 31, 2019 and 2018 and for each of the two years in the period ended December 31, 2019 and no material exceptions were noted.
