PART I – BUSINESS AND GENERAL INFORMATION

Item 1. Business

Description of Business

Megawide Construction Corporation (Megawide or the Company) is the country's premier infrastructure innovator, with a portfolio in engineering, procurement and construction (EPC), airport operations and landport infrastructure. The Company's revolutionary construction and engineering solutions continue to shape the industry by integrating its comprehensive EPC capabilities with innovative construction solution technologies such as precast, formworks, concrete batching, and specialized logistics systems.

The Company was incorporated in the Philippines on July 28, 2004 as a general construction company and has then expanded its business by creating a strong partnership with the Philippine government through its participation in Public Private Partnership (PPP) programs, which began with Phases 1 and 2 of the School Infrastructure Project.

On January 28, 2011, the Philippine Stock Exchange, Inc. (PSE) and the Securities and Exchange Commission (SEC) approved the Company's application for the listing of its common stock. The approval covered the initial public offering (IPO) of two hundred ninety-two million (292,000,000) unissued common shares of the Company at an offer price of Seven and 84/100 Pesos (PhP 7.84) per share and the listing of those shares in PSE's main board on February 18, 2012. On December 03, 2014, the Company made a primary offer of forty million (40,000,000) preferred shares at an offer price of One Hundred Pesos (PhP 100.0) per share. These preferred shares are also listed in the PSE.

On September 22, 2014, the SEC approved the amendment of the Company's Articles of Incorporation, which included (a) the Company's power to extend corporate guarantees to its subsidiaries and affiliates, and (b) the increase in its authorized capital stock to Five Billion Pesos (PhP 5,000,000,000.00), divided into four billion nine hundred thirty million (4,930,000,000) common shares and seventy million (70,000,000) cumulative, non-voting, non-participating, non-convertible to common shares, and redeemable at the option of the Company, perpetual preferred shares (Series 1). Both common and preferred shares have a par value of One Peso (PhP 1.00) per share.

To further its involvement in PPP, the Company, together with its strategic partners, GMR Infrastructure (Singapore) Pte. Limited (GISPL) and GMR Infrastructure Limited (GIL), incorporated GMR Megawide Cebu Airport Corporation (GMCAC) for the purpose of constructing, developing, operating, and maintaining the Mactan Cebu International Airport (MCIA), in accordance with the Concession Agreement (CA) executed between GMCAC and the Department of Transportation (DOTr) on April 21, 2014.

Additionally, MWM Terminal, Inc. (MWMTI), the joint venture of Megawide and the then WM Property Management, Inc. (WMPMI) (which is now Megawide Terminals, Inc. [MTI]), was incorporated to develop and operationalize the Parañaque Integrated Terminal Exchange (PITx) project, pursuant to the CA signed with DOTr on April 24, 2015. PITx is designed to be the first (1st) intermodal terminal in the Philippines.

Meanwhile, on September 22, 2020, the SEC approved the amendment of the Company's Articles of Incorporation, which increased its authorized capital stock to Five Billion Fifty-Four Million Pesos (PhP 5,054,000,000.00), raising the Company's authorized capital stock by fifty-four million (54,000,000) preferred shares to a total of one hundred twenty-four million (124,000,000) preferred shares.

The SEC then issued the Certificate of Filing of Enabling Resolution approving the Company’s enabling resolution in relation to its offer and sale to the public of up to fifty million (50,000,000) Series 2 Preferred Shares, consisting of the following subseries: Series 2A Preferred Shares and Series 2B Preferred Shares, at an offer price of One Hundred Pesos (PhP 100.00) per share, on November 05, 2020. Thereafter, on November 06, 2020, the SEC issued the Order of Registration and the Certificate of Permit to Offer Securities for Sale for thirty million (30,000,000) non-voting perpetual Series 2 Preferred Shares, with an over subscription option of up to twenty million (20,000,000) non-voting perpetual Series 2 Preferred Shares. As a result of the offering of the Series 2A and 2B Preferred Shares, the Company raised a total of Four Billion Three Hundred Sixty Million Pesos (PhP 4,360,000,000.00). The said shares were listed in the PSE on November 27, 2020.

Subsequently, on February 26, 2021, the Board of Directors (Board) approved a resolution to amend the Company’s Articles of Incorporation to increase its authorized capital stock by twenty-six million (26,000,000) preferred shares, raising the Company’s authorized capital stock to Five Billion Eighty Million Pesos (PhP 5,080,000,000.00) divided into four billion nine hundred thirty million (4,930,000,000) common shares with a par value of One Peso (PhP 1.00) per share, and one hundred fifty million (150,000,000) preferred shares. The increase in Company’s authorized capital stock was approved by the SEC on September 09, 2021. After which, the SEC issued the Certificate of Filing of Enabling Resolution approving the Company’s enabling resolution in relation to its offer and sale to the public of up to forty million (40,000,000) Series 4 Preferred Shares, consisting of one (1) or more sub-series, at an offer price of One Hundred Pesos (PhP 100.00) per share. The SEC then issued the Order of Registration and the Certificate of Permit to Offer Securities for Sale for thirty million (30,000,000) cumulative, non-voting, non-participating, non-convertible, redeemable (non-reissuable) perpetual Series 4 Preferred Shares, with an over subscription option of up to ten million (10,000,000) cumulative, non-voting, non-participating, non-convertible, redeemable (non-reissuable) perpetual Series 4 Preferred Shares. The offer and sale of the Series 4 Preferred Shares led the Company to raise Four Billion Pesos (PhP 4,000,000,000.00). The said shares were listed in the PSE on October 29, 2021.

On October 19, 2021, the Board also approved the redemption of the Company’s Series 1 Preferred Shares, with stock symbol MWP, on December 03, 2021, which is the seventh (7th) anniversary of its listing date last December 03, 2014. The redemption of the said shares was completed on February 15, 2022. The following are the details of the redemption:

Ex- Date	November 04, 2021
Record Date	November 09, 2021
Redemption Date	December 03, 2021
Redemption Price	PhP 100.00 per share

Below are the other significant business developments of Megawide for the past three (3) fiscal years:

2019

Megawide continues on its journey to becoming a construction and transport-oriented infrastructure innovator with the completion of its infrastructure projects for MCIA and PITx.

GMCAC completed the renovation of MCIA Terminal 1, including the Airport Village, and the refurbished areas became operational on August 28, 2019. Post completion of the renovation, the gross commercial area in Terminal 1 increased from four thousand three hundred sixty-seven (4,367) square meters to nine thousand seven hundred seventy-two (9,772) square meters.

The airport segment continues to improve air traffic volume and passenger volume in 2019. MCIA had thirteen (13) new international destinations, which included China Southern's Guangzhou, Juneyao Airlines' Shanghai, Philippine AirAsia's Macau, Kaohsiung and Taipei, Philippine Airline PR's Nagoya, Cebu Pacific Air's Shanghai, Cathay Pacific's Hongkong, Xiamen Air's Chengdu and Quanzhou, Silk Air's Singapore, Jeju Air's Daegu, and Air Busan's Incheon.

Meanwhile, six (6) new domestic destinations were added in 2019 – Royal Air Philippines' Manila, Davao, Puerto Princesa, Cagayan and Boracay, and Cebu Pacific's Busuanga. Further, MCIA received various commendations and awards in 2019, such as "Winner of the Completed Buildings: Transport Category" in the 2019 World Architecture Festival, "Breastfeeding Friendly Public Place Award" from Philippine Pediatric Society, and "2019 International Architecture Awards, Airports and Transportation Centers Category" for Terminal 2 from Chicago Athenaeum: Museum of Architecture and Design, among others.

MWMTI completed the construction of its four (4), five (5)-storey, commercial/office towers with a gross leasable area of nineteen thousand two hundred twenty-five (19,225) square meters per tower, or a total of seventy-six thousand nine hundred three (76,903) square meters. All towers have been one percent (100%) contracted for a period of five (5) years each. As of end of 2019, seventy one percent (71%) of the total terminal retail area was leased out to concessionaires, of which thirty percent (30%) is operational. Foot traffic likewise started to peak, from a daily average of thirty thousand one hundred three (30,103) in January 2019 to sixty-seven thousand nine hundred sixty-three (67,963) in December 2019. In addition, MWMTI bagged the "Maynilad Golden Kubeta Awards for Terminal and Stations Category" in 2019.

The EPC segment ramped up its construction activities for the Clark International Airport, 8990's Housing Development's Ortigas and Tondo, Araneta's Gateway Mall, Megaworld's Worldwide Plaza, Albany Luxury Residences, One Fintech, 8 Sunset Boulevard, International Finance Center, and Double Dragon projects. Its order book remained to be at an all-time high level of Fifty-Two Billion Four Hundred Million Pesos (PhP 52,400,000,000.00), with new contracts at Nineteen Billion Four Hundred Twenty Million Pesos (PhP 19,420,000,000.00) at the end of December 2019, which will provide sufficient revenue stream for EPC in the next three (3) years. EPC continues to enter into partnerships with foreign entities in bidding for infrastructure related projects, such as Maynilad and Manila Water's sewage treatment plant (STP) and National Grid Corporation of the Philippines' (NGCP) transmission lines project, which are mostly under way in 2019. Meanwhile, the Malolos Clark Railway Project (MCRP), which is expected to boost the Company's technical capability and expertise in the horizontal infrastructure space, is awaiting official awarding.

In 2019, the EPC segment broke ground for the One Fintech, 8 Sunset, Suntrust Financial, Two Mcwest, Newport Link, International Finance Center, Plumera, Empire East Highland Mall, Mandani Bay Phase 2, Gentry Manor, The Hive Tower C, University Tower 5, and The Corner House projects. It also topped off the Albany Luxury Residences and Golden Bay Aspire projects.

The Company also received several prestigious awards from Finance Asia Best Managed Companies Poll in 2019 namely: (a) 1st place – "Best Investor Relations"; (b) 2nd place – "Best Mid Cap Company"; and (c) 4th place – "Best Environmental, Social, and Governance (ESG)".

2020

With the global outbreak of the coronavirus disease 2019 (COVID-19) pandemic last February 2020, which reached the Philippines officially on March 2020, the operations of all of Megawide's business segments (construction, airport, and landport) were severely affected resulting in unusually lower revenues. The construction and landport operations started to rebound by the third (3rd) quarter of 2020 and towards the end of the year upon the relaxation by the government of quarantine restrictions. However, due to domestic and international travel bans, the airport segment continued to struggle.

Despite limited mobility, Megawide was able to inaugurate the renovated MCI Terminal 1 on January 19, 2020, with no less than President Rodrigo Duterte as the guest of honor. Additionally, Megawide successfully completed the construction of CIA, as announced by DOTr on October 13, 2020.

At the height of the quarantine period, the Company focused its efforts on re-engineering its business processes, through automation and digitization, to improve the overall operational efficiencies across the organization. The construction segment continued to pursue its priority projects amidst the limitations on construction activities, which resulted in a record orderbook of Sixty-Eight Billion Four Hundred Million Pesos (PhP 68,400,000,000.00), at the end of year. Among the new contracts sealed by the construction segment are the Suntrust Home Developers' Suncity West Side City project, Megaworld's Newport Link project, and the DOTr's MCRP Phase 1 which is a joint venture project with Hyundai Engineering & Construction Co., Ltd. and Dong-ah Geological Engineering Company Ltd. The Company also fast-tracked negotiations with the local government of Cebu City for the modernization of the its Carbon Market. The new market will serve as Cebu City's heritage district and will be composed of a restored Compania Maritama, a refurbished Freedom Park, and a modernized Carbon Market.

In 2020, Megawide was the recipient of several prestigious awards and citations. It was recognized as the third (3rd) Best Managed Company by Finance Asia and its Series 2A and Series 2B Preferred Shares Offering received the Best Small Cap-Equity Deal of the Year in the Philippines during the 14th Annual Alpha Southeast Asia Best Deal & Solutions Awards 2020. Moreover, the Company was awarded the 2019 ASEAN Asset Class PLCs (Philippines) award in relation to its 2019 ASEAN Corporate Governance Scorecard (ACGS), where Megawide obtained a score of ninety-eight and 47/100 (98.47). The Company was also recognized by the Institute of Corporate Directors (ICD) with two (2) Golden Arrow Awards and was identified as the most improved publicly-listed Company in the Philippines in terms of corporate governance. Meanwhile, Mr. Edgar Saavedra, *Chairman of the Board, Chief Executive Officer (CEO), and President of the Company*, was awarded as Property Guru Real Estate's Personality of the Year Award. GMCAC also received the "Ani ng Dangal" Award for Architecture and Allied Arts (NCCA).

2021

The construction segment, which is a critical component in pump-priming the economy due to its significant multiplier effect, remains a bright spot in the Company's portfolio amid the ongoing COVID-19 pandemic, as activities were unhampered despite the various quarantine restrictions. From the previous year's order book of Sixty-Eight Billion Four Hundred Million Pesos (PhP 68,400,000,000.00), it was able to contract new projects such as The Coral Village project in Cebu and the Westside City Site A which involves the construction of a retail strip and theater mall to complement its hotel and casino complex.

The Company also forged its partnership with German concrete technology developer MultiCON to bring its patented mixing innovation into the country. The system can produce stronger concrete with better performance which could translate to improved margins and decreased emissions, given that it can help reduce raw material cost and minimize carbon dioxide emissions by up to thirty percent (30%) during production.

In 2021, Megawide also signed new contracts with PHirst Park Homes, Inc. for housing projects in Magalang, Pampanga and Batulao, Nasugbu, Batangas. The new contracts pertain to supply and build agreements for one thousand seventy-nine (1,079), in Pampanga, and one thousand nine hundred seventy-four (1,974), in Batangas, housing units using precast materials, resulting in almost twelve thousand (12,000) housing units being serviced through pre-cast supplied and assembled by Megawide's construction solutions unit. It also started the construction of the MCRP Phase 1, a project that is part of the seventeen (17)-kilometer North South Commuter Railway Project implemented by DOTr that will link the New Clark City and the Clark International Airport to Metro Manila and nearby cities.

On January 11, 2021, the Company and the City of Cebu entered into a Joint Venture Agreement (JVA) for the phased redevelopment of the Cebu Carbon Market, which includes the construction, development, and operation of mixed-use assets on the project site. The JVA is for fifty (50) years, extendible for another twenty-five (25) years upon mutual agreement of the parties. The total investment of the Company is Five Billion Five Hundred Million Pesos (PhP 5,500,000,000.00) while the Cebu City shall contribute the exclusive use and possession of the project site.

On February 24, 2021, the consortium between SUEZ and Megawide together with Manila Water, Inc. (Manila Water), the project proponent, broke ground for the Aglipay STP. The consortium will undertake the design and build of the STP which will treat wastewater in Mandaluyong City, southern Quezon City, and southern San Juan City, which will significantly enhance the health and sanitary conditions of more than six hundred fifty thousand (650,000) residents.

On May 6, 2021, GMCAC, together with its sponsors and its lenders executed the Second Amendment Agreement to the Amended and Restated Omnibus Loan and Security Agreement. The Agreement is for the purpose of restructuring GMCAC's existing Omnibus Loan and Security Agreement for the construction, development, renovation, expansion, and operation of MClA.

On October 12, 2021, the SEC then issued the Order of Registration and the Certificate of Permit to Offer Securities for Sale for thirty million (30,000,000) cumulative, non-voting, non-participating, non-convertible, redeemable (non-reissuable) perpetual Series 4 Preferred Shares, with an over subscription option of up to ten million (10,000,000) cumulative, non-voting, non-participating, non-convertible, redeemable (non-reissuable) perpetual Series 4 Preferred Shares, at an offer price of One Hundred Pesos (PhP 100.00) per share. The offer and sale of the Series 4 Preferred Shares led the Company to raise Four Billion Pesos (PhP 4,000,000,000.00). The said shares were listed in the PSE on 29 October 2021. The Series 4 Preferred Shares shall be subject to a dividend step-up rate unless the Company redeems the said shares three and a half years (3 ½) from its listing date. The proceeds from the offer was used to redeem the Company's Series 1 Preferred Shares. Moreover, the offering is part of the Company's financial plan to streamline its balance sheet to support its expansion programs, especially its pivot to infrastructure.

On October 19, 2021, the Board also approved the redemption of the Company's Series 1 Preferred Shares, with stock symbol MWP, on December 03, 2021, which is the seventh (7th) anniversary of its listing date on December 03, 2014, at a redemption price of One Hundred Pesos (PhP 100.00) per share. The redemption of the said shares was completed on February 15, 2022.

The Company received various awards from FinanceAsia, which included Best Managed Listed Company – Industrials (Southeast Asia), Best Managed Listed Company – Philippines, Most Committed to Environmental Stewardship, Most Committed to Social Causes, and Most Committed to the Highest Governance Best Standards. To top off, Mr. Edgar B. Saavedra, *Chairman of the Board, CEO, and President*, was also awarded as the Best CEO by FinanceAsia. The Company was further named as one (1) of Asia’s Most Outstanding Companies in Asiamoney’s Outstanding Companies Poll for 2021. The poll is designed to acknowledge listed companies that have excelled in areas such as financial performance, management team excellence, investor relation activities and corporate social responsibility (CSR) initiatives. Megawide was also voted as a Finalist in IR Magazine as Best in Sector: Industrials and won as the Most Innovative Company of the Year in the Asia CEO Awards, while belonging to the Circle of Excellence for the Executive Leadership Team of the Year.

Meanwhile, MCIA and PITx obtained the Best Infrastructure and Best Decorative Concrete award, respectively, from the Philippine Excellence in Concrete Construction Awards (PECCA).

GMR Megawide Cebu Airport Corporation (GMCAC)

GMCAC was incorporated on January 13, 2014 and is authorized to engage in the business of building, rehabilitating, renovating, constructing, developing, operating, and maintaining MCIA, including its commercial assets and all allied businesses for the operation and maintenance of said airport facility, pursuant to the concession granted to GMCAC and in accordance with Republic Act (R.A.) No. 7718 and other applicable laws, rules, and regulation.

GlobemERCHANTS, Inc. (GMI)

GMI was incorporated on May 5, 2016 to engage in, conduct, and carry on the business of importing, exporting, buying, selling, distributing, marketing at wholesale goods, wares, and merchandise of every kind as permitted by law. GMI's major shareholders are Megawide and GMR Holdings Overseas (Singapore) Pte Ltd. (GHOSPL) which each hold fifty percent (50%) ownership in the corporation.

Megawatt Clean Energy, Inc. (MCEI)

MCEI was incorporated on September 4, 2014 to engage in the development of clean or renewable energy sources for power generation, including the design, construction, and installation, purchase, importation, commissioning, owning, management, and operation of relevant machinery, facilities, and infrastructure therefor, the processing and commercialization of by-products in the operations, and generally the carrying out of contracts and transactions of every kind and character that may be necessary or conducive to the accomplishment of the purposes of MCEI.

Megawide Land, Inc. (MLI)

MLI was incorporated on October 28, 2016 to deal and engage in land or the real estate business, including housing projects, commercial, industrial, urban, and other kinds of real property.

MLI has sixty percent (60%) ownership interest in MCLI, a company incorporated in the Philippines on December 15, 2016, to engage in cold and dry storage business, to acquire, construct, own, lease, charter, establish, maintain, and operate factories, plants, cold storage, refrigerators, refrigerated vehicles, warehouses, and other machineries and equipment.

Megawide Construction (BVI) Corporation (MCBVI)

MCBVI was incorporated on June 20, 2017 in the British Virgin Islands, to primarily engage in buying and holding shares of foreign companies. MCBVI's registered address and principal place of business, is Marcy Building, 2nd floor, Purcell Estate, Road Town Tortola, British Virgin Islands.

MCBVI has a wholly owned subsidiary, DMCC, which was registered on December 10, 2017 and is an infrastructure company. Its registered office is located at Unit 4401-05, Mazaya Business Avenue BB2, Jumeriah Lake Towers, Dubai, UAE.

MWM Terminals, Inc. (MWMTI)

MWMTI was incorporated on February 3, 2015 to engage in the business of constructing, operating, and maintaining integrated transport system terminals, stations, hubs, and all allied business in relation thereto, including the construction, operations, and maintenance of the commercial assets and establishments of PITx, pursuant to the CA that was signed on April 24, 2015 between MWMTI and DOTr.

Megawide Terminals, Inc. (MTI)

MTI, previously WMPMI, is an entity incorporated and registered on November 11, 2011 to establish, own, manage, administer, operate, maintain, and carry the business of providing property management services, either directly or through third parties, but not limited to the services of rent collection, tenant and lease management, marketing and advertising, repair and maintenance, liaison, and other similar services.

Megawide International Limited (MIL)

MIL, whose registered office is at Marcy Building, 2nd Floor, Purcell Estate, P.O. Box 2416, Road Town Tortola, British Virgin Islands, was incorporated on July 26, 2019. MIL has one hundred percent (100%) owned subsidiary, MC-SG, which was registered on March 1, 2019 as a general building engineering design and consultancy services. Its registered office is located at 8 Cross St., #24-03/04 Manulife Tower, Singapore.

Cebu2World Development, Inc. (Cebu2World)

Cebu2World was incorporated on November 03, 2020 to engage in land or real estate business, as well as to develop, manage, operate, and administer all kinds of properties, including the Carbon Market project of the Company, which was granted to it pursuant to a Joint Venture Agreement with the City of Cebu on January 11, 2021.

Wide-Horizons Inc. (Wide-Horizons)

Wide-Horizons was incorporated on November 16, 2020 to invest in, purchase, or otherwise acquire and dispose of real and personal property of every kind and description. Wide-Horizons shall serve as the holding company for Megawide's airport businesses and other related projects.

Tiger Legend Holdings Limited (Tiger Legends)

Tiger Legends was incorporated on October 16, 2020 to primarily engage in buying and holding shares of other companies. Tiger Legend's registered address is at Vistra Corporate Services Centre, Wickhams Cay II, Road Town, Tortola, British Virgin Islands.

Altria East Land, Inc. (Altria)

Altria was incorporated on April 16, 2010 to deal and engage in land or real estate business, such as to hold, develop, manage, administer, sell, convey, encumber, purchase, acquire, rent or otherwise deal in and dispose of all kinds of housing projects, commercial, industrial, urban or other kinds of property.

Megawide World Citi Consortium, Inc. (MWCCI)

MWCCI was incorporated on January 16, 2014 to plan, construct, equip, operate, own, manage and maintain hospitals, medical facilities, clinical laboratories, and such other allied enterprises which may have similar or analogous undertakings or dedicated to services in connection with providing curative and rehabilitative care to sick, diseased or disabled persons; provided that purely professional medical and surgical services shall be performed by duly licensed physicians or surgeons who may or may not be connected with MWCCI and whose services shall be feely and individually contracted by the patients.

Citicore-Megawide Consortium, Inc. (CMCI)

CMCI was incorporated on October 15, 2012 to engage in the general construction business, including the construction, improvement, and repair of, or any other work upon, buildings, roads, bridges, plants, waterworks, and railroads.

Megawide – GISPL Construction Joint Venture (MGCJV)

MGCJV is an unincorporated joint venture engaged in the construction works related to the concession for MCIA. It is jointly owned and managed by the Company and GISPL.

Megawide GMR Construction JV, Inc. (MGCJVI)

MGCJVI is a joint venture arrangement incorporated on January 31, 2018 by the Company, GISPL, and GHOSPL, each holding fifty percent (50%), forty-five percent (45%), and five percent (5%) ownership, respectively, in the joint venture. MGCJVI was established to engage in the general construction business, including the construction, improvement, and repair of the Clark International Airport project.

HDEC- Megawide-Dongah JV (HMDJV)

HMDJV is an unincorporated joint venture formed on October 27, 2020 by the Company, Hyundai Engineering & Construction Co., Ltd. and Dong-Ah Geological Engineering Company Ltd., each holding thirty-five percent (35%), fifty-seven and 5/10 percent (57.5%), and seven and 5/10 percent (7.5%) ownership, respectively, in the joint venture and exercising joint control. HMDJV was established to provide construction works for the civil structures, viaducts, bridges and stations of MCRP. HMDJV began its operations in 2021.

Parent Company and Other Affiliates

Citicore Holdings Investment Inc. (Citicore)

Citicore was incorporated on December 03, 2011 and operates primarily as a holding company, with ownership interests in Megawide at thirty-five and 41/100 percent (35.41%), MWCCI at thirty nine percent (39%), PH1 World Developers, Inc. at one hundred percent (100%), and CMCI at ninety percent (90%).

Megacore Holdings, Inc. (Megacore)

Megacore was incorporated on July 20, 2017 and is primarily organized to invest in or purchase or otherwise acquire and own, hold, use, sell, assign, transfer, mortgage, pledge, exchange, or otherwise dispose real or personal property including shares of stocks, subscriptions, bonds, debentures, evidences of indebtedness, and any securities of any corporations. Megacore has twenty-nine and 93/100 percent (29.93%) ownership interest in Megawide.

PH1 World Developers, Inc. (PH1) (formerly, My Space Properties, Inc. [MySpace])

MySpace was incorporated on February 06, 2009, and is presently engaged in real estate development. Its current projects are The Hive, located at San Isidro Street, Ortigas Avenue Extension, Taytay, Rizal, and My Ensô Lofts, located at Timog Avenue, Quezon City. On November 18, 2020, the SEC approved MySpace's change of name to PH1. PH1 is a wholly-owned subsidiary of Citicore.

Future State Myspace, Inc. (FSMI)

FSMI was incorporated on January 27, 2012 to primarily engage in purchasing, acquiring, leasing and selling properties. FSMI is thirty-six percent (36%) owned by Mr. Edgar B. Saavedra, and has one hundred percent (100%) ownership interest over IRMO, Inc.

IRMO Inc. (IRMO)

IRMO was incorporated on August 13, 2008 to principally engage in the realty development business, including home building and development. Megawide constructed The Curve for IRMO which is a thirty-two (32)-storey office building in BGC designed by Skidmore, Owning & Merrill.

Citicore Power Inc. (CPI)

CPI was incorporated on March 11, 2015 to engage in the development of renewable and non-renewable energy sources for power generation, including the design, construction and installation, commissioning, owning, management and operation of relevant facilities and infrastructure thereof and the processing and commercialization of by-products in its operations.

Megawide OneMobility Corporation (OneMobility) (formerly, Citicore Infrastructure Holdings, Inc. [CIHI])

CIHI was incorporated on March 11, 2015 and was established primarily to engage in buying and holding shares of other companies, either by subscribing to unissued shares of capital stock in public or private offering, or by purchasing the shares of other stockholders by way of assignment in private sale. On November 17, 2021, the SEC approved CIHI's change of name to OneMobility.

Business Segments

Megawide and its subsidiaries, affiliates, and operating businesses are recognized and managed separately according to the nature of the services provided, with a segment representing the Company's strategic business unit. The following are the Company's business segments:

1. **Construction Operations** – principally refers to construction activities, such as construction works of residential, mix-used building, commercial, and infrastructure establishments, sale of construction materials, and rental of construction equipment.

2. **Airport Operations** – mainly relates to the business of building, rehabilitating, renovating, constructing, developing, operating, and maintaining MCI, including its commercial assets and all allied businesses for the operation and maintenance of said airport facility.
3. **Airport Merchandising** – mainly includes sale of food and non-food items in the premises of MCI.
4. **Landport Operations** – mainly relate to cost related to operation and maintenance of PITx as offset by the income stream from the lease of its concessionaire and commercial/office towers.

The other aspects of the Company's business are the operations and financial control areas. These segments are also the basis of the Company in reporting to its executive committees to assist in its strategic decision-making activities. The transactions between segments are conducted at estimated market rates and on an arm's length basis.

The revenues and expenses that are directly attributable to a business segment, along with the relevant portions of the Company's revenues and expenses that can be allocated to such business segment, are accordingly reflected as revenues and expenses of that business segment.

Additional significant information relating to each business segment are discussed below:

Construction Segment

Customer and Project Selection

Megawide is frequently being invited to bid for major domestic low to high-rise building and even horizontal property development projects. The scope of work on these projects generally include, among others, site development, earthworks, structural and civil works, masonry works, architectural finishes, electrical works, plumbing and sanitary works, fire protection works and mechanical works.

In line with its risk policies, Megawide, while frequently invited to bid on projects, carefully selects which projects to participate in, based on the following criteria:

1. creditworthiness of the project owner determined through background checks with banks and financial community, business and trade associations, standing with the Housing and Land Use Regulatory Board (HLURB), and credit record of major suppliers; and
2. liquidity of the project owner determined through financial ratios and financial performances for the past three (3) years.

In addition, Megawide also evaluates each potential project based on the following:

1. size of the over-all development blueprint of the project and its implementation timetable on phases;
2. complexities and limitations of the structural design of the high-rise building project;
3. project location, accessibility of heavy construction equipment, and proximity to clusters of on-going project sites;
4. logistics difficulties and limitations;
5. procurement of necessary permits; and
6. profitability.

Megawide negotiates the final construction price with the project owner. Upon being awarded the project, Megawide shall commence within seven (7) days from the latest upon receipt of the following:

1. issuance of the Notice to Proceed;
2. execution of the Construction Agreement/Contract;
3. release of the building permit;
4. completion of the construction drawings; or
5. full release of the downpayment.

Moreover, the Company prepares a project execution plan (PEP), which provides the details as to how the project will be executed by identifying all the necessary information. The parts of the PEP are the following:

1. **Project Overview** – contains general project information, such as the project name, location, scope of works, contract amount, and project duration. It also identifies third-party consultants that will be collaborating on each scope of works, if any. Moreover, it presents the number of towers that will be built, the level of each tower and the construction floor area.
2. **Table of Organization** – identifies the human resources needs of the project such as the assistant vice president in-charge, the project manager/s, area manager/s, site manager, the safety officer, structural and finishing employees, mechanical, electrical, plumbing and fire (MEPF) engineers, and others necessary personnel. It also provides the required headcount for the project from rank and file to executive level.
3. **Safety** – contains the plans on Health, Safety and Environment (HSE), specifically, Construction Safety and Health Programs (CSHP), usage of personal protective equipment, site ingress and egress during construction, evacuation plan, location of fire exits and fire extinguishers, waste management, fall protection plan, and procedures on emergency response, among others.
4. **Quality** – contains the project's quality policies, roles and responsibilities of each employee, work inspection process flow, material inspection process flow, punchlist and hand-over process, sequence and inspection of works, structural inspection test plan, among others.
5. **Schedule** – includes the milestone dates, project schedules, s-curve, deliverables per quarter, technical and revenue schedule, cycle per floor, and manpower and equipment loading. Further, it identifies the specific dates for the following: project commencement, topping off, structural works, push pile works, site development, handover and project completion.
6. **Methodology** – contains technical information on how the development plan will be carried out, including the use of technologies, tools, and equipment.
7. **Procurement** – contains the work package, or the list of all materials, tools, equipment, subcontracted works, and their procurement schedule.
8. **Engineering Designs and Drawings** – contains all the required architectural works and when are they required to be secured.
9. **Risk Assessments** – identifies the perceived risks on operation, as well as commercial, environmental, and social risks, and the proper responses to mitigate, resolve or eradicate such risks.

10. **Communication Plan** – contains dates of regular meetings (for construction coordination, operations, technical support, safety and quality, and monitoring of subcontractors) and other communication strategies.

Once the PEP is approved, Megawide immediately mobilizes the construction equipment, manpower, and materials needed for the project. Megawide secures the performance and surety bonds required in order to obtain the downpayment from the project owner, and contractor's all-risk insurance, and other necessary insurance policies and coverages. It also negotiates and finalizes the terms of its construction contract with the project owner. The responsibilities and warranties of Megawide under its construction contracts typically include on-time project turn-over and completion based on an agreed timetable, adherence to the agreed material specifications and construction methods, and warranty on workmanship and material defects. In the normal course of business, on a per project basis, Megawide sub-contracts to specialty or trade contractors the mechanical and electric works for its projects.

During construction, quality control procedures are strictly followed. The Quality Control Department is responsible for quality assurance and quality control during production and construction. The said department is composed of highly-trained inspectors and personnel who conduct on-site inspections to assure compliance with such quality control procedures. As standard procedure, concrete samples are tested by specialized laboratories to ensure compliance with the specifications of the American Society for Testing and Materials (ASTM), American National Standards Institute (ANSI), and Construction Specifications Institute (CSI).

To ensure that projects are on schedule, on-site project managers monitor and control the progress of projects, mindful of the completion date pursuant to the construction contract. The project managers are responsible for accomplishing project objectives, developing the project plan and managing the project team and budget.

Meanwhile, the Planning Department tracks the progress of the project (both physical and financial) through site inspections (checking the physical output- how many levels and agreed milestones were finished) and by conducting operations and management committee meetings (analyzing financial and nonfinancial targets and actual accomplishments).

Upon project completion, the following activities are conducted as a condition to project turnover to the owner:

1. Megawide submits a Notice of Turn-Over and Completion to the project owner;
2. Megawide and the project owner conduct a joint inspection and punch listing;
3. should there be no pending items for completion, the project owner issues a Certificate of Completion; and
4. the project owner releases retention monies upon submission by Megawide of a guarantee bond. The guarantee bond is typically valid for up to 1 year from the project's turnover date and is required by project owners to guarantee the quality of the materials used, the equipment installed, and the workmanship on the project.

Terms Granted to Customers

Bids for construction projects typically include the particular material specifications and the kinds of finish to be used on the projects. Deviations from the same are subject to variation orders. Consistent with industry practice, Megawide normally requires the following key terms of payment in its construction contracts:

1. a downpayment of fifteen percent (15%) to twenty percent (20%) of the contract price prior to commencement of construction activities. Customers usually require that Megawide obtain a performance bond to guarantee that it will execute the work in accordance with the contract;
2. monthly progress billing (or interim billings). Progress billings are subject to pro-rata recoupment of downpayments, and retention monies equivalent to ten percent (10%) of the billed amount, to be reduced to five percent (5%) upon fifty percent (50%) completion of the project; and
3. release of the ten percent (10%) retention money upon certification of the approval of the punch list of items. Customers usually require that Megawide obtain a guarantee bond to guarantee the quality of the materials provided, the equipment installed, and its workmanship.

The exposure of Megawide to credit risk on its receivables relates primarily to the inability of the customer to fully settle the unpaid balance of contract receivables and other claims owed to Megawide. Credit risk is managed in accordance with the Company's credit risk policy, which requires the evaluation of the creditworthiness of the customer.

Completed Projects

The notable projects that the Company has completed are:

1. **SM Jazz Residences (Phases 1 and 2)** – SM Jazz Residences is composed of 4, 40-storey, towers on top of a 5-level shopping mall and parking basement. It is located along Jupiter Street, Bel-Air Makati City. The project has a total floor area of 300,000 square meters in a lot area of 2-hectares.
2. **The Linear** – The Linear is an office and commercial building located in San Antonio, Makati City. Its total floor area is 7,400 square meters.
3. **IHUB 9 Building** – IHUB 9 is a business process outsourcing (BPO) building located in Northgate Cyberzone, FCC, Alabang, Muntinlupa City. Its total floor area is 28,898.04 square meters.
4. **IHUB 10 Building** – IHUB 10 is also a BPO building located in Northgate Cyberzone, FCC, Alabang, Muntinlupa City. Its total floor area is 28,898.04 square meters.
5. **BPO Complex Cebu** – BPO Complex Cebu is located in Phase 1 Lahug, Cebu City, which is a 14-storey commercial building for BPOs with lot area of 45,428.07 square meters.
6. **Dexterton** – A 15-storey commercial building with a floor area of 12,769.43 square meters, located in Fort Bonifacio, Taguig City.

7. **New Frontier Theater** – With a total floor area of approximately 10,813.23 square meters, over a lot of approximately 5,817.31 square meters, New Frontier Theater is a 2-storey commercial building owned by Araneta Center, Inc. and located at General Aguinaldo Avenue, Araneta Center, Cubao, Quezon City.
8. **B Hotel Quezon City** – A 10-storey hotel building located at Lot 5 and 6, Block S-31, No. 14 Scout Rallos Street, Barangay Laging Handa, Quezon City owned by Northbelle Properties, Inc. with a total lot area of 1,380 square meters and has a total floor area of 11,348 square meters.
9. **Camarin Project** – This is composed of 10, 5-storey, medium rise buildings with land development located in Camarin, Colocan City. This is a low-cost housing project of the National Housing Authority. Its total lot area is 3,823.98 square meters.
10. **Cyber Part Tower 1** – A 29-storey BPO building with 3 basement parking floors located in Araneta Center, Cubao, Quezon City, and owned by the Araneta Group. It has a total lot area of 4,072.65 square meters.
11. **One World Place** – A 34-storey commercial building with a floor area of 46,130.39 square meters, located in Fort Bonifacio, Taguig City.
12. **World Hotel & Residences** – A 38-storey hotel and condominium with total floor area of 44,011 square meters, located in Makati City.
13. **Rockwell Business Center** – A 15-storey building owned by Rockwell-Meralco BPO Venture, a joint venture between Rockwell Land Corporation and Manila Electric Company. The project is located in Meralco Compound, Ortigas Extension. This has a total leasable floor area of 30,287.91 square meters.
14. **SM Grass Residences Tower 4** – A 40-storey residential building owned by SM Development Corporation with a gross floor area of 135,000 square meters and a total lot area of 13,888.458 square meters, located at Nueva Viscaya corner Misamis and Nueva Ecija Streets, Sto. Cristo, Quezon City.
15. **Arthaland Tower Substructure** – A 6-level substructure owned by Arthaland Corporation with a total floor area of 12,000 square meters.
16. **Mactan Newtown STP** – A STP contract with Megaworld Corporation with a total lot area of 1,189.50 square meters and a gross floor area of 4,022.99 square meters.
17. **Landers Warehouse Balintawak** – A warehouse owned by Southeast Asia Retail, Inc. located at Balintawak, Calocan City. It has a total floor area of 8,360 square meters.
18. **Landers Warehouse Otis** – A mixed-use complex warehouse developed by Southeast Asia Retail, Inc. located at Otis, Sampaloc, Manila City, with a total floor area of 16,783.50 square meters.
19. **Bataan Solar Project** – This is for the construction and operation of an 8.986 MWdc and an expanded 9.018 MWdc ground-mounted photovoltaic power generation facility in Barangay Alas-Asin, Freeport Area of Bataan, Mariveles, Bataan, for a total generation capacity of 18 MWdc. The Bataan Solar Project is owned by Next Gen.

20. **Toledo Solar Project** – This involves the construction and operation of a 60 MWp ground-mounted photovoltaic power generation facility located in Toledo, Cebu Province. The project is owned by First Toledo.
21. **Silay Solar Project** – The construction and operation of an 18.3 MWdc and an expanded 6.7 MWdc ground-mounted photovoltaic power generation facility in Barangay Rizal, Silay City, Negros Occidental, for a total generation capacity of 25.0 MWdc, owned by SSPI.
22. **Le Grand Avenue ABC** – Composed of 2, 5-storey, office and commercial buildings developed by Megaworld Corporation. This is located at Lots 1-4, Mckinley West, Fort Bonifacio, Taguig City, with a gross floor area of 46,290.85 square meters and a total floor area of 13,500 square meters.
23. **Le Grand Avenue DEF** – Composed of 2, 5-storey, office and commercial buildings developed by Megaworld Corporation. With a total floor area of 46,324.18 square meters and a total lot area of 13,500 square meters, located at Lots 1-4, Mckinley West, Fort Bonifacio, Taguig City.
24. **Hampton M and N** – A 9-storey residential building owned by Dynamic Realty Resources Corporation with a total lot area of 1,600 square meters and a gross floor area of 8,971 square meters, located at C. Raymundo, Maybunga, Pasig City.
25. **Proscenium Substructure** – This composed of a 3-level basement for Phase 1A and a 2-level basement for Phase 1B owned by Rockwell Land Corporation, located in Estrella Corner J.P. Rizal St., Guadalupe Viejo, Makati City, with a total lot area of 35,995 square meters and gross floor area of 101,792.23 square meters.
26. **Plaza Magellan** – A 13-storey commercial building located in Mactan, Cebu City owned by Megaworld Corporation with a total lot area of 2,284.04 and a floor area of 28,890 square meters.
27. **Philam Life Center Cebu** – A 12-storey office building developed by The Philippine American Life and General Insurance Co. with a total floor area of 35,000 square meters and a total lot area of 3,427.11 square meters. The project is located at Cardinal Rosales Street, corner Samar Loop, Cebu Business Park, Cebu City.
28. **27 Annapolis** – A 44-storey residential building with 3 basements owned by Bayswater Realty and Development Corporation located at No. 27 Annapolis Street, Greenhills, San Juan City. 27 Annapolis has a total lot and floor areas of 1,129.60 square meters and 41,584.05 square meters, respectively.
29. **Southwoods Mall and Office Tower** – Developed by Southwoods Mall, Inc., with a gross floor area of 61,762.42 square meters and a total lot area of 18,984.71 square meters. A 52-storey mall and office with 1 basement located at Southwoods Eco-Centrum, Biñan, Laguna.
30. **One Town Square** – Owned by La Fuerza, Inc., One Town Square is 12-storey office building located at Alabang City with a gross floor area of 29,608.80 square meters and a total lot area of 3,729 square meters.
31. **Urban Deca Tower EDSA** – A 44-storey residential building located at Sierra Madre and EDSA, Barangay Highways Hills, Mandaluyong City, owned by Foghorn, Inc. with a total lot area of 866.25 square meters and a total gross area of 27,527.50 square meters.

32. **University Tower 4** – Located at P. Noval, Sampaloc, Manila City, a 46-storey condominium, with a roof deck and an estimated area of 43,320.21 square meters. This is another project of Prince Jun Development Corp.
33. **World Plaza** – A 27-storey office building owned by Real Property Innovative Solutions, Inc., located at 5th Avenue, Bonifacio Global City, Taguig, Metro Manila. World Plaza has a total lot area of 2,731 square meters and an approximate total floor area of 61,500 square meters.
34. **The Curve** – A 32-storey office building located at Lot 1, Block 7, Fort Bonifacio Global City, Taguig owned by IRMO. The Curve has a total floor area of 45,393.66 square meters and a total lot area of 1,585.20 square meters.
35. **Mareic Building** – Owned by Greenway Properties Realty Corporation, Mareic Building is a 40-storey office building, with 3 basement areas, located at 121 Tordesillas Street, Salcedo Village, Makati City and a total lot area of 911.26 square meters and a gross floor area of 29,422.74 square meters.
36. **Arthaland Tower Superstructure** – A 31-storey office building owned by Arthaland Corporation. The project is located at the 7th Street, Bonifacio Global City, Taguig with a total floor area of 56,652 square meters and a total combined lot area of 2,231.94 square meters.
37. **Landers Warehouse Arcovia** – A mixed-use complex warehouse with a basement developed by Southeast Asia Retail, Inc., located in Pasig City. It has a total floor area of 17,000 square meters and lot area of 14,000 square meters.
38. **Landers Warehouse Alabang** – A 2-storey building for mixed-use purposes owned by Southeast Asia Retail, Inc., located at Daang Hari Road, Almanza Dos Las Piñas City, with total floor area of 8,800 square meters and lot area of 20,926 square meters.
39. **Project Delta Phase 1** – A plant expansion project for Zenith Foods Corporation. This includes earthworks, substructure, superstructure, and roofing for the Red Ribbon Plant Expansion project located at Productivity Avenue, Camelray Industrial Park 1, Barangay Canlubang, Calamba City, Laguna with gross lot area of 5.0 hectares.
40. **The Hive Buildings** – A 4-block, 12-level, residential tower owned by PH1 located at San Isidro Street, Ortigas Avenue Extension, Taytay, Rizal. Buildings A and B have a combined total floor area of 24,101.55 square meters and a total lot area of 27,306.11 square meters.
41. **Mactan-Cebu Airport Structural Works** – This project pertains to the site development, earthworks, and structural works of MCIA Terminal 2, with a total gross floor area of 66,544 square meters and a total lot area of 65,865 square meters.
42. **Proscenium Superstructure (Lincoln and Lorraine)** – Developed by Rockwell Land Corporation, Proscenium Superstructure, Lincoln and Lorraine, are 42 and 44-storey residential buildings, respectively, with 4 parking floors located at Estrella corner JP Rizal Streets, Guadalupe Viejo, Makati City. The project has an estimated total lot area of 36,000 square meters and a combined gross floor area of 88,337.16 square meters.

43. **PITx** – The country’s 1st landport which is a 4.5-hectare development with transportation bays, commercial spaces, and office buildings. PITx has a capacity of 100,000 passengers daily and offers seamless connections to other modes of transportation from provincial to in-city buses, taxis, jeepneys, and UV express shuttles. It is located along Diosdado Macapagal Boulevard, and will be linked to the planned Light Rail Transit Line 1 (LRT1) Cavite extension.
44. **Double Dragon Plaza** – A 4-tower, 12-storey, office building with a mall and basement parking owned by DD-Meridian Park Development Corp. It has 230,130.58 square meters and 23,728.69 square meters gross floor area and total lot area, respectively, located at EDSA Extension corner Macapagal Avenue, Pasay City.
45. **Cyber Park Tower 2** – A 33-storey BPO building with 3 basements and a roof deck located in Araneta Center, Cubao, Quezon City and owned by the Araneta Group. It has a total gross floor area of 74,722.21 square meters and a total lot area of 3,678.63 square meters.
46. **Zenith Foods Plant Expansion 3** – A mixed-use complex owned by Zenith Foods Corporation composed of a bun line, warehouse, and 4 other buildings – cold storage, process line, and administrative offices, with an aggregate floor area of 45,387.27 square meters. It is located in a 4-hectare land at Integrity Avenue, Carmelray Industrial Park 1, Barangay Canlubang, Calamba City, Laguna.
47. **Project Delta Phase 2** – This pertains to the architectural and site development of Red Ribbon Plant Expansion project of Zenith Foods Corporation. It includes a 2-storey industrial building located in a 5-hectare lot inside the Zenith Foods Complex at Productivity Avenue, Carmelray Industrial Park 1, Barangay Canlubang, Calamba City, Laguna.
48. **Southeast Asian Campus** – A 12-storey office owned by Megaworld Corporation with a gross floor area of 84,410.85 square meters and a total lot area of 8,387.47 square meters, located at Campus Avenue, Mckinley Hills, Taguig City.
49. **St. Moritz Private Estate Residences Clusters 1 and 2** – A 2-cluster, 9-storey, residential buildings with lower grounds located at McKinley Hill, Fort Bonifacio, Taguig City. St. Moritz Private Estate Residences, is owned by Megaworld Corporation, with a total gross floor area of 35,384 square meters and lot area of 5,695 square meters.
50. **BGC 5th Avenue Apartments** – A 17-storey residential building of Fort Bonifacio Development Corp., located in a 2,235 square meter lot at 5th Ave. Cor. 34th Street, Bonifacio Global City, Taguig City, with total floor area of 16,441.94 square meters.
51. **Edades Suites** – A high-end residential development of Rockwell Land Corporation composed of an 18-storey residential area, 3-storey podium, and a 3-level basement parking. It is located in a 3,158 square meters lot at Rockwell Center, Makati City, with a total floor area of 25,769 square meters.
52. **10 West Campus** – An 18-storey office building developed by Megaworld Corporation located at Block 16, Lot 4 McKinley West, Fort Bonifacio, Taguig City. 10 West Campus has a total gross floor area and lot area of 34,200 square meters and 3,466 square meters, respectively.
53. **One Manchester Place** – An 18-storey residential construction owned by Megaworld Corporation with a total gross floor area of 55,580.02 square meters and a lot area of 6,880.20 square meters located at Mactan, Newtown, Cebu City.

54. **Double Dragon Center East and West** – An 11-storey office and commercial building with a basement and roof deck developed by DD-Meridian Park Development Corp., located at EDSA Extension corner Macapagal Avenue, Pasay City. It has a total gross floor area and lot area of 51,956.61 square meters and 5,452.26 square meters, respectively.
55. **Cold Storage Buildings** – An industrial complex project in Taguig and Caloocan which includes a cold storage warehouse and a 3-storey support building. Its total floor area is 11,276 square meters and lot area of 31,166.00 square meters.
56. **Clark International Airport** – Involves general construction, including construction, improvement, and repair of the existing Clark Airport in Pampanga. Clark Airport’s construction is a joint venture arrangement by Megawide, GISPL and GHOSPL.
57. **DEPED Phase 2** – Involves construction of school buildings in Regions I, II, III and the Cordillera Administrative Region (CAR) thru a direct contract with the Department of Education.
58. **Worldwide Plaza** – An addition to the Uptown Bonifacio complex is this commercial and office building developed by Megaworld Corporation. This 24-storey building with a 3-level basement parking which will stand at a 7,800 square meter lot with total floor area of 114,310 square meters.
59. **Aspire Corporate Plaza** – A 10-storey office building with a gross construction floor area of 35,172 square meters located in Macapagal Bay Area, Pasig City. Golden Bay Tower is owned by Golden Bay Fresh Land Holdings, Inc.

On-Going Projects

The following are the on-going projects of Megawide as of December 31, 2021:

1. **Urban Deca Tondo** – A mass housing contract with Fog Horn, Inc. which initially focused on Buildings 9,10,12, and 13. In 2016, Buildings 1 and 2 were added. These 6 buildings have a total combined lot area of 162,067.37 square meters. Ultimately, there will be 14 clusters of 13-storey buildings in the residential complex located in Tondo, Manila City. The project also includes a 2-storey commercial building located in the residential complex with floor area of 20,132.76 square meters.
2. **Urban Deca Ortigas** – A residential complex composed of 24 clusters of 13-storey buildings located at Ortigas Extension, Pasig City.
3. **Hampton O and P** – Developed by Dynamic Realty Resources Corporation, Hampton O and P is a 12-storey residential building inside the Hampton Gardens residential complex at C. Raymundo, Maybunga, Pasig City. It has a total lot area of 1,400 square meters and a gross floor area of 26,045.64 square meters.
4. **Double Dragon Tower** – An office building composed of 11-storeys with a basement parking. Its gross floor area is 61,859.05 square meters. Total lot area is 5,257 square meters.
5. **University Tower 5** – Owned by Prince Jun Development Corp., University Tower 5 is a 52-storey residential building located in Sampaloc, Manila City, with a total floor area of 56,871.14 square meters.

6. **International Finance Tower** – A 25-storey office building developed by Megaworld Corporation, with a gross construction floor area of 114,000 square meters, located in BGC, Taguig City.
7. **Mandani Bay Quay** – A premiere waterfront development in Mandaue City, Cebu, owned by HTLand, Inc., which is a joint venture company of Hongkong Land and Taft Properties. It has a total gross construction floor area of 328,581 square meters and consists of 3, 40-storey, residential towers and 1, 30-storey, office building.
8. **Taft East Gate** – A 4-tower mixed-use community, located in a 1.5-hectare property along Pope John Paul Avenue corner Cardinal Rosales Avenue in Mabolo, Cebu City. The development, which is owned by Taft Properties, consists of 2 high rise, mixed-use towers, housing commercial and residential units.
9. **Plumera Mactan** – The newest affordable project by Johndorf Ventures, strategically located at Basak, Lapu-lapu City. The project's size is 5 hectares and is composed of 20 buildings with around 4 to 10 floors each, for a total floor area of 98,338 square meters.
10. **Albany Luxury Suites** – A residential project of Megaworld Corporation, located at Mckinley West, Fort Bonifacio, Taguig City, with total floor area of 41,847.48 square meters for 2 buildings, which are 15-storeys each.
11. **Gentry Manor** – A residential project of Megaworld Corporation, located in South Beach District, Westside City, Parañaque City, whose 4 towers have a total floor area of 119,326.42 square meters.
12. **The Corner house Project** – A residential project of Emerald Rich Properties located at P. Guevarra Street, San Juan City, with total floor area of 16,020.79 square meters. The construction includes a 3-level basement, a 3-storey commercial area, and a roof deck.
13. **8990 Cubao** – A residential project of 8890 Holdings located in Cubao, Quezon City, with total floor area of 115,000 square meters. The construction includes a 2 level basement, a 45-storey residential area, and a roof deck
14. **Newport Link** – A commercial project of Megaworld Corporation located in Newport, Pasay City, which is a 7-storey building, with a total floor area of 50,174.27 square meters.
15. **Aglipay STP** – a STP in Mandaluyong City, with a treatment capacity of 60 million liters per day (MLD) of wastewater and using the Moving Bed Biofilm Reactor (MBBR) process with Biological Nutrient Removal (BNR) technology. The construction of the STP is expected to be completed by 2024 and the sewer network by 2025.
16. **Suncity** – A 5-star hotel and casino project with Suntrust Home Developers Inc, a subsidiary of Suncity Group Holdings Limited. The said project has a development timetable of 30 months and is located at the entertainment area of Parañaque City. The project is divided into 4 parts, as follows: Package 1- Substructure, Package 2- Superstructure, Supplementary Agreement, and Nominated Subcontractor (NSC).
17. **Malolos-Clark Railway Project** – A 17-kilometer rail line that includes stations in Calumpit and Apalit, together with consortium partners Hyundai Engineering & Construction Co., Ltd. and Dong-ah Geological Engineering Company Ltd.

18. **Cebu Carbon Market Redevelopment** – A public and commercial redevelopment project in Cebu City which includes the Sto Niño Chapel, Puso Village, interim market, and a multi-level parking which is set to be completed on March 28, 2022.
19. **Coral Village** – A project with 1,200 residential units, with a floor area of 192 square meters per unit, or total CFA of 230,400 square meters in Coral Village, Lapu-Lapu City, Cebu by Johndorf Venture Corp. The project is expected to be completed in 5 years.
20. **Suncity Westside** – Westside City Resorts World is a multi-billion project located at Bay Boulevard, Bagong Nayon Pilipino, Parañaque City, with a total building footprint of 113,628.15 square meters. Its facilities shall include 3 grand theaters, a shopping mall, and parking spaces.
21. **Clark Global City Phase 1 Project** – A modern, state-of-the-art, master planned mixed-use commercial and business center of excellence project by Global Gateway Corporation located at the Freeport Zone, Mabalacat, Pampanga. It covers an area of 177 hectares. Its future development includes mixed-use buildings, a hospital, a hotel, and a casino.
22. **National Capital Region Police Office (NCRPO) Medical Center & Administrative Processing Center** – A 4-storey Medical Center Project located at Lower Bicutan Taguig City, inside NCRPO. A donation project of the Resorts World Philippines Cultural Heritage Foundation Inc., with total floor area of 9,998 square meters.
23. **My Enso Tower (Timog) - Phase 1** – A mixed-use development that provides a customizable living experience by providing extra space for your needs, be living or storage space, and a smart and modern minimalist design concept, all located at the heart of Quezon City Central Business District.

Major Customers

Megawide is currently servicing the majority of high-rise residential, commercial, office, and mixed-use development projects in Metro Manila, for several major local developers. This is primarily due to the Company's use of High Technology Building Systems, and quality workmanship. While Megawide is constantly invited to bid for major domestic high-rise building projects, it opts to focus on a selected clientele that provides synergy in business operations and better risk management.

Suntrust Home Developers, Inc. (Suntrust)

Suntrust is a company engaged in real estate development, mass community housing, townhouses and rowhouses development, residential subdivision and other massive horizontal land development. It is a subsidiary of Suncity Group Holdings Limited (Suncity Group), a listed company on The Stock Exchange of Hong Kong Limited, which owns fifty-one percent (51%) of the outstanding capital stock of Suntrust. Suncity Group is principally engaged in property development in Guangdong and Anhui Provinces in the People's Republic of China; property leasing in Shenzhen in the People's Republic of China; provision of hotel and integrated resort general consultancy service in Vietnam; and provision of travel related products and services.

Megaworld Corporation (Megaworld)

Megaworld is one of the country's leading real estate developer, top BPO office developer, and one of the biggest landlords in the Philippines. Led by real estate magnate and visionary, Dr. Andrew L. Tan, Megaworld pioneered the LIVE-WORK-PLAY-LEARN township concept in the country. The company introduced the successful large-scale, master-planned, and mixed-use developments such as Eastwood City in Libis, Quezon City; Newport City in Pasay City; McKinley Hill, Forbes Town Center, McKinley West, and Uptown Bonifacio, all in Fort Bonifacio; Woodside City in Pasig City; Iloilo Business Park in Mandurriao, Iloilo City; the Mactan Newtown in Lapu-Lapu City, Cebu; and the Davao Park District in Davao City.

8990 Holdings, Inc. (8990)

8990 is the largest mass housing developer in the Philippines in terms of units licensed under Batasang Pambansa (B.P.) Blg. 220 from 2011 to 2013, according to HLURB. The company has been developing mass housing projects in high-growth areas across Luzon, Visayas, and Mindanao since 2003. 8990's "DECA Homes" and "Urban DECA Homes" have also gained a strong reputation in the market, resulting in 8990 garnering numerous awards such as Q Asia Magazine's "Best Housing Developer" for 2012 to 2013.

Double Dragon Properties Corp. (DD)

DD has undertaken several vertical and horizontal developments since it started its commercial operations in April 2010. DD's vision is to accumulate one million (1,000,000) square meters of leasable space by 2020 primarily through the rollout of one hundred (100) community malls across provincial cities in the Philippines through its community mall chain brand "CityMall" under its subsidiary CityMall Commercial Centers Inc. and through the development of two (2) major commercial office projects, DD Meridian Park and Jollibee Tower, both of which are located in prime properties in Metro Manila.

HTLand, Inc.

HTLand, Inc. is a joint venture company of Hongkong Land and Taft Properties. Hongkong Land is one of Asia's leading property investment, management, and development groups, which owns and manages prime offices and luxury retail properties in key Asian cities, principally in Hongkong and Singapore. Taft Properties, on the other hand, is one of the leading property developers in the country, a sister company of Metro Gaisano Retail. Mandani Bay is HTLand's first project in Cebu, a world-class twenty (20)-hectare water development with a stunning view of the coast and encompassing cityscape.

Competitors in the Industry

EI Corporation (EI) and D.M. Consunji, Inc. (DMCI) are the publicly-listed companies among Megaworld's major competitors. Both have on-going residential condominium projects in Metro Manila. DMCI dominates domestic infrastructure, while EI concentrates on heavy industry projects.

There are also other private companies which offer engineering, procurement, and construction (EPC) services as well as provide pre-cast products on a smaller scale that compete with Megaworld's business, such as Makati Development Corp., DATEM, Inc., Frey-Fil Corporation, and Pre-cast Products Phils, Inc. among others.

The principal areas of competition are pricing, service, and quality of construction. Megawide believes, however, that it has an advantage over its competitors in the high-rise residential condominium market because of its use of High Technology Building Systems, value-added engineering services, technical competence, and innovative ability. Furthermore, unit prices of Megawide's projects are competitive with those of EEI's and DMCI's.

Competitive Strengths

Megawide believes that its principal strengths are the following:

1. **Value Engineering Through Modern and Advanced Building Technologies**

- Megawide was the first to extensively utilize advanced, modern, and comprehensive European building systems that reduce construction time and allow for quicker project turn-over.
- Megawide employs Formworks in its on-going projects, purchased from German company, MEVA Schalungs-Systeme GmbH. Formworks are the temporary or permanent moulds, into which concrete or similar materials are poured into, to form the structural elements of a building. The traditional construction process utilizes timber or plywood formworks. Megawide's Formwork are one hundred percent (100%) wood-free, all plastic facing. These are nailable like plywood but are able to maintain structural rigidity. These are also re-usable, putting an end to plywood wastage, and do not swell or shrink like plywood. Megawide utilizes the following Formworks in its existing projects:
 - Slab Formworks
 - Wall Formworks
 - Column Formworks
 - Circular Formworks
 - Climbing Formworks
- Megawide also uses a Pre-Cast Concrete System purchased from Finnish company, Elematic. The European Pre-Cast Concrete System which Megawide employs in its current projects, has the inherent advantages of:
 - reducing cost;
 - shortening the construction period;
 - improving quality;
 - increasing project volume; and
 - being environmentally friendly.

- The following table is a summary of the advantages of Megawide’s High Technology Building Systems over traditional construction methods:

	Traditional Construction	Megawide	Advantages
Formworks	Plywood	Plastic Face Formworks	<ul style="list-style-type: none"> No swelling and shrinking Stable flexural rigidity Free from rippling and warping Quality in concrete pouring Fast cycle, simple assembly, early stripping, less manual labor employed Even surfaces Zero discoloration Fast on-site cleaning Zero waste Reusable
	Coco Lumber	Aluminum and Steel Scaffoldings	<ul style="list-style-type: none"> More stable and robust Longer lifespan Easy assembly lock and formwork clamp
Pre-Cast Concrete	Concrete Hollow Blocks	Pre-Cast Walls	<ul style="list-style-type: none"> Precise, smooth and even curing, high quality, energy saving and ecological
	Traditional Concrete Beams, Columns, Slabs	Pre-cast Beams, Columns, Slabs, Toilets, Parapets, Wheel Guards	<ul style="list-style-type: none"> Savings in steel and partition wall materials, extra-long spans for design flexibility, accurate dimensions and strand locations for less work-on site

- Megawide’s sixteen (16)-hectare industrial complex in Taytay houses its eight (8)-hectare automated pre-cast concrete manufacturing plant, which is the largest and most advanced in the country, and is among the top in Southeast Asia in terms of size and technology employed. The use of pre-cast concrete is environmentally friendly and allows Megawide to reduce construction costs, shorten the construction period, improve the overall quality of the work, and increase project volume.
- The Megawide corporate building in Quezon City obtained a gold certification from the Leadership in Energy and Environmental Design (LEED) of the United States Green Building Council. LEED is a third-party certification program for the design, construction and operation of high-performance green buildings. It is the predominant green building rating system in the United States and is used around the world.

2. **Business Synergies from Vertical Integrations**

Megawide's unique business model puts it in a league of its own, clearly differentiating it from among its peers. It is positioned as a construction company that has a manufacturing component through the use of a state-of-the-art pre-cast production facility and wide downstream integration such as a modern concrete batching plant, advanced formworks, and has its own fleet of vertical, earth-moving and construction equipment. Moreover, to ensure a sustainable business growth and to mitigate economic down cycles, Megawide has expanded and diversified into infrastructure development, an upstream integration that surely adds and creates greater value to Megawide in the short, medium, and long-term horizon. Not only will these infrastructure development projects provide construction revenues to its downstream business units, it will likewise become the source of future stable recurring income upon completion. The synergies in these vertical integrations will result to seamless operating efficiencies, optimal use of resources, and financial strength.

3. **Strong Brand Name and Proven Track Record**

Megawide has a well-established reputation in the construction industry for its excellent project execution and customer service. It has a proven track record of efficient operations, having successfully completed numerous low-rise to high-rise condominiums and industrial buildings.

4. **Organizational Capability and Flexibility**

Megawide has strengthened its organizational structure to be more technical, flexible, and proactive in adapting to clients' requirements and market changes. It has a diverse work force of young, dynamic, committed, and highly effective personnel, including experienced and well-trained professionals. It also has a disciplined and responsible management team that has effectively surpassed challenging business situations. Moreover, expatriates of different expertise are employed to help Megawide deliver quality service to its clients.

5. **Financial Strength and Ability to Raise Financing at Competitive Costs**

Megawide has a strong balance sheet that can support fund raising for its projects at very competitive costs.

6. **AAAA and Large B Contractor's License**

Megawide has an AAAA Contractor's License from the Philippine Contractors Association Board (PCAB). This is the highest classification and category for a construction company, which qualifies Megawide to bid for private projects with no limits on contract value. Likewise, Megawide obtained a Large B classification for government registration which allows Megawide to participate in large infrastructure projects such as highways, roads and bridges, piers and airports, railroads, waterworks, and power plants.

7. **Young, Modern, and Branded Fleet of Building Equipment**

Megawide owns and maintains a young, modern, and branded fleet of tower cranes and earthmoving equipment to ensure maximum efficiency and minimum down time during construction.

Suppliers

Megawide sources its raw materials, primarily steel, cement and aggregates from external suppliers who are reliable and known in the construction industry. In selecting its suppliers, it considers quality, pricing, and efficient delivery of raw materials. It also does not depend on a limited number of suppliers for raw materials and none of its major suppliers are its affiliates. Suppliers usually give Megawide a thirty (30) to one hundred (120) days payment period.

In order to mitigate the risk of price volatility in raw materials for its projects, Megawide, upon contract award, immediately purchases major materials such as steel and concrete for the entire project. All purchases are done centrally, at Megawide's head office, for all the requirements of its project sites.

Quality Control and Assurance

Megawide's quality of work are in accordance with applicable local and international standards such as PNS, ASTM, ANSI, ACI, or AASHTO. The general specifications are based on project requirements considering local conditions, policies, available materials, local regulations, and other special circumstances. In addition to on-site inspections, as a standard procedure, materials' samples are tested by specialized laboratories to verify compliance with applicable codes and standards.

Megawide's management system strictly adheres to the requirements of the ISO standards on Quality, Environmental, Safety and Health. As such, Megawide is committed to customer satisfaction, environmental protection, and prevention of injury or ill health.

Intellectual Property

Megawide has been issued Certificates of Registration for the following trademarks by the Intellectual Property Office (IPO):

1. for its typeface – dated May 9, 2019 and expiring on May 9, 2029;

MEGAWIDE

2. for its logo – dated October 13, 2019 and expiring on October 13, 2029;

3. for its logo with typeface – dated October 13, 2019 and expiring on October 13, 2029; and

 **MEGAWIDE**

4. for its tagline “Engineering A First-World Philippines” – dated February 15, 2020 and expiring on February 15, 2030.

However, Megawide strongly believes that its operations are not dependent on any patent, trademark, copyright, license, franchise, concession, or royalty agreement.

Research and Development

Megawide has an excellent Engineering Department that continuously adapts and responds to new inventions, standards, and quality assurance in construction. It is also constantly working with international consultants for value engineering to achieve more cost-efficient building structures and maximum space utilization.

Government Approvals and Permits

All government approvals and permits issued by the appropriate government agencies or bodies which are material and necessary to conduct the business and operations of Megawide, were obtained and are in full force and effect.

Megawide and its business operations are subject to various laws and regulatory agencies, including the Contractor's License Law, nationality restrictions, and environmental laws. Megawide complies with environmental laws and will keep abreast of any changes in such laws which may have an impact on its business.

Megawide complies with all local and national tax laws and regulations, and it shall continue to be so by diligently paying all taxes, including (but not limited to) income tax, withholding tax, real property tax, and such other taxes that are assessed against it and which Megawide understands to be due.

Employees

As of December 31, 2021, Megawide's manpower complement is as follows:

Division	Regular	Project Based*	Expatriates	Total
Operations	1,547	2,970	7	4,524
Head Office	184	8	4	196
Total	1,731	2,978	11	4,720

**Includes fixed-term employees*

The relationship and cooperation between the management and staff remain strong and expected to be maintained in the future. There has not been any incidence of work stoppages. Megawide complies with the minimum wage and employment benefits standards pursuant to Philippine labor laws. It adopts an incentive system that rewards and recognizes the employees who excel in their respective fields to foster the harmonious relationship between management and employees.

No single person is expected to make a significant contribution to the business, since Megawide considers the collective efforts of all its employees as instrumental to the overall success its performance.

Mr. Edgar B. Saavedra, *Chairman of the Board, CEO, and President*, and the other executives are the key decision makers of the Company. In relation to this, Megawide is continuously hiring experts to further strengthen and professionalize its organizational and management structure. Megawide continues to bolster its management positions in order to spread out responsibilities. It also provides various training programs for its employees to maintain competitiveness and efficiency.

Airport Operation Segment

MCIA, the gateway to the Visayas and Southern Philippines, is the second (2nd) largest airport facility in the country with a consistently growing number of passengers annually. Under the CA with DOTr, GMCAC has delivered its second (2nd) terminal and rehabilitated the existing terminal to reduce congestion as well as meet the growing passenger traffic into Cebu. GMCAC has taken this capital extensive project to provide a world-class terminal airport with a welcoming ambiance and warm hospitality that is distinctly Filipino.

MCIA is no longer just a secondary airport. It is a viable choice that connects Cebu to the rest of the Philippines and to the world.

GMCAC envisions MCIA to become the friendliest gateway destination, treating passengers as guests the moment they set foot in the airport. GMCAC's brand image is firmly tied to Cebu's global reputation as a warm and friendly resort destination.

Terminal 1

Upon turnover of MCIA's operations and management to GMCAC on November 01, 2014, which then has a combined rated capacity of four million five hundred thousand (4,500,000) passengers annually for both the domestic and international segments, the airport team has fast-tracked in-terminal developments to reduce congestion, improve ambiance, and enhance customer service.

To reduce congestion, GMCAC embarked on the installation of a passenger reconciliation system to immediately scan boarding passes, a first in any Philippines airport; installed self-service check-in kiosks; expandable check-in counters; new baggage handling system; installed four (4) x-ray machines at the final security check; new immigration counters; and swing gates or alternate gates for international or domestic boarding areas. These initiatives enabled Terminal 1 to accommodate as much as ten million (10,000,000) passengers annually prior to the construction of Terminal 2.

To improve the terminal's ambiance, there are now more retail and dining options from international and local brands; new seats were installed to offer comfort; and washrooms were expanded and refurbished to mirror those found in hotels.

To enhance customer service, there is now a premium lounge at the international departures; about one hundred (100) new flight information display monitors; more automated teller machines (ATMs); mobile charging stations; a water refilling station inside the boarding gates; fun and exciting in-terminal activities (like Sinulog, Valentine's Day, Summer Festival, Halloween, and Christmas); and the Cebu Connect Transfer Facility Desk, a transfer and early check-in facility that allows passengers with connecting flights to easily drop their baggage for check-in and have their boarding passes printed out. The said desk can process connecting passengers even as early as twelve (12) hours prior their onward connecting flight. Upon securing their boarding passes, they can leave the terminal and enjoy a short visit to nearby sites or taste the famous Cebu lechon.

The Company completed the renovation of Terminal 1 and the operations of the refurbished areas commenced on August 28, 2019, with the official inauguration held on January 2020. The gross retail area in Terminal 1 increased from four thousand three hundred sixty-seven (4,367) square meters to nine thousand seven hundred seventy-two (9,772) square meters.

Terminal 2

The new world-class Passenger Terminal Building or MCIA Terminal 2, specifically for the International Segment, opened in 2018, designed to accommodate higher passenger traffic, and drive a more robust tourism and business environment for the region. Terminal 2 will increase MCIA's combined annual rated passenger capacity to twelve million seven hundred thousand (12,700,000). The new terminal, spanning sixty-five thousand five hundred (65,500) square meters, will not only lessen congestion but will also offer an exciting and wide-ranging retail environment.

Hong Kong-based Integrated Design Associates (IDA), which has previously worked on projects at Beijing Capital, Delhi-Indira Gandhi, and Hong Kong airports, forms part of MCIA Terminal 2's design team. IDA worked in tandem with Budji Layug, Royal Pineda, and Kenneth Cobunpue – on the design, look and feel of the terminal's interior. Envisioned with a unique design that demonstrates the warmth and friendliness of the local culture, it is set to transform the local airport into a world-class facility and resort gateway that will welcome guests from almost anywhere in the world and the Philippines.

The most recognizable element of the terminal is the dynamic elegance of the external structure, featuring an array of glulam arches to serve as roof curvatures, which also define its geometry and modularity. The arches span every thirty (30) meters allowing Terminal 2 to be as column free as possible while the internal spaces are enclosed by a light and transparent glazed façade. Overall, the timber arches have become the main attraction and element in the creation of a dramatic interior, with sleek geometries and dynamic perspectives, symbolizing the waves of the beaches around Mactan and Cebu Islands.

A two (2)-level forecourt segregates both the arrivals and departures area that is fully integrated with the landside development. There are currently forty-eight (48) check-in counters expandable to seventy-two (72) as the need arises. It has provisions for seven (7) passenger boarding bridges, which can be expanded to twelve (12), serving both wide and narrow body aircrafts. It is also equipped with twelve (12) escalators and fifteen (15) elevators to facilitate smooth movement of passengers, especially for persons with disabilities.

A car parking facility will be constructed that can accommodate five hundred fifty (550) cars and expandable to seven hundred fifty (750) cars as necessary. There will also be an array of food and retail choices, including a future hotel, MICE, and strip mall development.

Route Development

In recent years, active route development enabled GMCAC to attract new destinations and partner airlines that helped boost passenger throughput in the airport. Moving forward, new routes connecting Cebu to Europe, Australia, and other Southeast Asian countries will be worked out to further expand connectivity. Discussions and meetings with airport operators in Sweden, Australia, and Japan were held to market Cebu to showcase MCIA as an ideal gateway to the Philippines as well as Cebu as a preferred tourist destination.

As GMCAC continues to improve the connectivity of MCIA as an alternative gateway into the Philippines, we have added new international flights to Fuzhou via Xiamen Airlines, Chengdu via PAL, Chongqing via Sichuan Airlines, Kunming via Lucky Air, Kuala Lumpur via Air Asia, Shanghai via China Eastern and Juneyao Airlines and Xi'an via Okay Airways. Beijing and Bangkok flights via Philippine Airlines (PAL) have also commenced. GMCAC has also added seven (7) destinations to China which are directly accessible to and from MCIA. Even during the pandemic, Turkish Airlines and Emirates started their maiden flights that will provide the gateway to Europe and Middle East.

In 2019, MCI A has twenty-four (24) international routes and thirty-three (33) domestic routes via PAL, Air Asia, Cebu Pacific and Air Juan. GMCAC has increased MCI A's partner airline operators from eleven (11) at the time of GMCAC's take over in November 2014, to twenty-six (26) operators in 2019. Passenger volume reached twelve million seven hundred thousand (12,700,000) in 2019 comprising of eight million four hundred thousand (8,400,000) domestic passengers and four million three hundred thousand (4,300,000) international passengers. However, in 2020, due to travel restrictions, active flight routes and their weekly frequency have been limited. By the end of 2021, routes were lived to twelve (12). The passenger volume fell to a fraction of 2019 levels as the COVID-19 pandemic dampened travel and tourism. As of the end of 2021, MCI A has eight (8) international routes through Cathay Pacific, Emirates, Jeju Air, Jin Air, Tiger Airways and Qatar Airways, and nineteen (19) domestic routes via PAL, PAL Express, Air Asia, Cebu Pacific, CebGo and AirSwift. The following are the international and domestic routes available at MCI A:

International Route Map		
Routes		Weekly Frequency
DXB	Dubai	4
DOH	Doha	11
HKG	Hong Kong	4
ICN	Incheon	1
LAX	Los Angeles (inbound only)	2
NRT	Narita	1
SFO	San Francisco (inbound only)	1
SIN	Singapore	4

Domestic Route Map					
Routes		Weekly Frequency	Routes		Weekly Frequency
BCD	Bacolod	1	ENI	El Nido	2
BXU	Butuan	7	GES	General Santos	2
USU	Busuanga	4	ILO	Iloilo	1
CGY	Cagayan De Oro	7	MNL	Manila	70
CGM	Camiguin	2	OZC	Ozamis	5
MPH	Caticlan	5	PAG	Pagadian	6
CEB	Cebu	8	IAO	Siargao	7
CRK	Clark	3	TAC	Tacloban	7
DPL	Dipolog	3	ZAM	Zamboanga	1
DVO	Davao	6			

The airport segment remains positive that pre-pandemic levels will be restored as soon as travel restrictions are lifted.

Revenues, Services, and Rates

1. **Aeronautical revenue** – Aeronautical revenue is comprised of passenger service charges, tacking fees, parking fees, and lighting fees. Aeronautical revenues are recognized as revenue when the related airport services have been rendered, the rates for such fees are currently provided under Administrative Order (A.O.) No. 2, Series of 2011 and A.O. No. 3, as amended, series of 2018, issued by the Mactan Cebu International Airport Authority (MCI A Authority).

2. **Concession revenue** – Concession revenue is generated through terminal concessionaires, tenants, or airport service providers who pay monthly fees for using or accessing airport facilities to offer their goods and services to the general public and air traveling community. Payments are based on negotiated agreements with these parties, or are based on either a minimum monthly guarantee or on gross receipts. Concession revenue is recorded as it is earned. Some tenant agreements require self-reporting of concession operations and/or sales. The timing of concessionaire reporting and when revenue earned is recorded will determine when accruals are required for each tenant.
3. **Rental revenue** – Rental revenue is comprised of rental of check-in counter charged to airline companies and space rental charged to tenants. Rental from check-in counters is recognized when the related service has been rendered. Space rental is recognized on a straight-line basis over the lease term. Contingent revenue is recognized in the period in which the contingent event occurs.
4. **Commercial revenue** – Commercial revenue is comprised of advertising charges, car parking, and car rental revenues. Car parking revenue comprises time-based charges from the operation of car parking services. Car rental revenue comprises concession charges from car rental companies. Revenue is recognized when the related services are provided.

MCIA Authority controls the rates of fees, charges, and regulations on the usage or enjoyment of MCIA facilities, services, or properties outside of the project land as well as the activity within the airport, such as passenger service charges, parking fees, lightning charges, tacking fees, and miscellaneous fees and charges. It issued A.O. No. 3 in 2018 to provide guidance on the revised approved rates of fees. All other fees and charges not mentioned in the said A.O. but are within the project land shall be determined by GMCAC including the setting of regulations and any increase and/or amendments thereon.

Customers

Airport segment's largest revenue stream comes from passenger service charges or terminal fees which is now fully integrated (since September 2019) in the airfare. It also derives income from airline companies and concessionaires within the airport. The following are among the significant customers of GMCAC:

1. **Cebu Pacific Air**

Cebu Pacific Air entered the aviation industry in March 1996 and pioneered the “low fare, great value” strategy. They have since then flown over one hundred fifty million (150,000,000) passengers and counting. It is the largest carrier in the Philippine air transport industry, offering low cost-services to more destinations and routes with higher flight frequency in the Philippines than any other airlines. It currently offers flights to thirty-seven (37) local and twenty-six (26) international destinations, spanning Asia, Australia, the Middle East, and USA.

2. **Philippine Airlines Inc. (PAL)**

Headquartered at the PNB Financial Center in Pasay City, the PAL was founded in 1941 and is the first and oldest commercial airline in Asia. PAL serves thirty-one (31) destinations in the Philippines and fifty-four (54) overseas destinations in Southeast Asia, East Asia, Middle East, Oceania, North America, and Europe. PAL operates a mixed fleet of airbus and Boeing aircrafts.

3. **Air Asia-Zest Airways, Inc.**

Zest Airways, Inc. operated as Air Asia Zest (formerly Asian Spirit and Zest Air), was a low-cost airline based at the Ninoy Aquino International Airport in Pasay City, Philippines. It operated and scheduled domestic and international tourist services, mainly feeder services linking Manila and Cebu with twenty-four (24) domestic destinations in support of the trunk route operations of other airlines.

4. **Jin Air Co., Ltd. (Jin Air)**

Jin Air is a South Korean low-cost airline and is the only widebody LCC operator in Korea. It began operations in July 2008 with routes to regional destinations in South Korea. In 2017, it was the third (3rd) and last company to join the Korea Exchange by way of IPO. It operates flights to six (6) domestic cities and twenty-six (26) international destinations.

5. **Jeju Air Co., Ltd. (Jeju Air)**

Jeju Air, named after the Jeju Island, is the first and largest South Korean low-cost airline. It offers domestic services between several cities in South Korea, as well as between Seoul and international destinations including Japan, China, Russia, the Mariana Islands, and various Southeast Asian countries. It is also a founding member of Value Alliance.

6. **SSP-Mactan Cebu Corporation**

Select Service Partner (SSP), a renowned UK Food Traveler expert with businesses in over thirty (30) countries in the last fifty-seven (57) years, made its way into Philippines under a joint partnership with a local company. With over fifty (50) years' experience in the travel market, SSP has a presence in over thirty (30) countries and have over four hundred fifty (450) brands in its portfolio. It has the capability to deliver world-class food and beverage outlet programs based on the highest levels of customer service, quality of food, and environment.

SSP was named as master concessionaire at MCI in 2018, with the group unveiling plans to launch twenty-seven (27) food and beverage units at the airport. The first (1st) phase of its plans began last July, which saw the opening of seven (7) outlets – The Coffee Bean & Tea Leaf, Ritazza, Burger King, Bon Chon, Cabin Bar, Camden Food Co., and Nippon Ramen.

7. **Duty Free Philippines Corp. (DFPC)**

In 2009, DFP was reorganized into DFPC with the signing of the Tourism Act of 2009 (R.A. No. 9593). As a government corporation, DFPC is tasked to operate the duty-and tax-free merchandising system in the Philippines to augment the service facilities for tourists and to generate foreign exchange and revenue for the government as mandated by Executive Order (E.O.) No. 46.

All customers (airlines, ground handlers, concessionaires, bank, etc.) are given a credit term of thirty (30) days from the date of the receipt of billings.

Suppliers

The airport segment has minimal purchases, consisting of materials and labor related purchases, to maintain the airport facility, janitorial services, security services, professional and consultancy services, and some utility services which include internet, power and utilities.

A purchase with a total value of Twenty Thousand Pesos (PhP 20,000.00) or more shall require a minimum of three (3) comparative quotes (not older than six [6] months). The quotations should indicate the vendor's name and should be attached at all times upon purchase order creation. In cases where the required number of comparable quotes cannot be observed, a written justification for the same has to be expressly indicated in the purchase approval form. In concluding payment conditions and terms with vendors, the minimum payment term is thirty (30) days. In unavoidable cases where vendors would require a downpayment, a maximum forty percent (40%) downpayment is allowed. A security bond is required for downpayments above ten percent (10%).

Employees

As of December 31, 2021, GMCAC's manpower complement is as follows:

Division	Regular	Expats	Total
Administrative	123	0	123
Managerial	21	4	25
Technical	37	0	37
Total	181	4	185

**Includes fixed-term employees*

Terminal Operations Segment

Dubbed as the Philippines' "first landport", PITx is a four and 5/10 (4.5) hectare development, which houses the transport terminal, commercial spaces, and office buildings under a single roof. With a rated capacity of one hundred thousand (100,000) passengers daily, PITx offers seamless connections to and from the Southwest portion of Metro Manila, via multiple modes of transportation, from provincial to in-city buses, taxis, jeepneys and UV Express shuttles.

PITx is a flagship project under the government's Build, Build, Build infrastructure program with the following competitive strengths:

1. State-of-the-Art Facilities

PITx has the look and feel of an airport, but instead of planes, the terminal is designed as a land transport, for buses, jeepneys, and UV express shuttles. The terminal houses an information center, bus ticketing counters, and bus boarding gates. At the counters, commuters can easily choose their preferred bus trips and seats from the terminal to any point in Metro Manila, Cavite, and Batangas. QR code-capable turnstiles are also installed at the boarding gate.

The terminal also includes an all-gender restroom and pay loungers that have shower rooms. There is also a breastfeeding station for mothers to use. For those who want moment of silences to pray, a prayer room is located at the third floor.

2. **Safe, Convenient, and Secure**

MWMTI aims to provide safe, secure, and convenient travel to the passengers of PITx. Its operations are twenty (24)/seven (7), with closed-circuit television cameras (CCTV) all-around, and free wi-fi at every floor. The CCTVs and sensors are also installed at the bus bays to monitor whether the trips are on schedule or not.

It is through continuous partnerships with various entities (government and non-government) that MWMTI is able to provide in PITx more services to the public, including satellite offices of a government agencies.

3. **Availability of Different Modes of Transport**

PITx's bus stands have ten (10) gates and fifty-nine (59) bays. Aside from the bus bays taking center stage, the terminal also has loading and unloading bays for UV Express shuttles, and public utility jeepney bays. Moreover, premium point-to-point bus operations, such as UBE Express, are offering rides from PITx to the Ninoy Aquino International Airport terminals. At the fourth (4th) floor of the terminal, there are eight hundred fifty-two (852) parking spaces for different vehicles and motorists. It also has the capacity to implement the proposed link to the LRT Line 1 Cavite extension and spur line of the Metro Manila Subway Line 9.

4. **A Solution to Decongesting Metro Manila**

The operations of PITx is designed to provide an efficient public transportation system and help decongest Metro Manila traffic in the long-run. Initially, the provisional and in-city transfers stationed in the terminal will limit the entry of buses from the Southwest into Metro Manila. In addition, the PITx mobile app, which currently provides daily trip schedules and initially offers advanced ticket reservations, enables the PITx team to gather and analyze critical data to better understand commuter behavior, which can be utilized for future PITx-like developments in other locations.

5. **Retail and Commercial Areas**

PITx has retail, commercial, and office spaces within its terminal area. On top of the terminal area sits four (4), five (5)-storey towers, with a leasable area of nineteen thousand two hundred twenty-six (19,226) square meters each. Within the terminal, retail spaces are available to offer services such as food, medicine, and other grocery items for travelling passengers. Meanwhile, the commercial/office towers will augment passenger volume and increase foot traffic to provide additional business to the retail tenants.

Customers

MWMTI operates the terminal without generating any revenue. Instead, the main source of revenue will come from leasing the retail/commercial and office spaces in the terminal, as discussed below:

1. **Contracts of Lease for Office Spaces** – MWMTI has existing contracts with companies which are primarily engaged in Philippine Offshore Gaming Operations (POGO). The contracts are for a period of five (5) years with an annual escalation rate of five percent (5%) on the monthly rent. The contracts require the payment of four (4) to six (6) months security deposit and three (3) months advance rent.

2. **Contracts of Lease for Retail/Commercial Spaces** – MWMTI has existing contracts with various tenants/concessionaires for a period of one (1) to eight (8) years. The monthly rent of some contracts are based on the monthly income of their business while others pay a fixed rate. All contracts have a provision on the payment of security deposit and advance rent. Examples of MWMTI’s tenants are: Alfamart, Miniso, Bench, Jollibee, Chowking, McDonalds, Mang Inasal, Yellow Cab, and Wendy’s.

Credit terms granted to customers are for a period of thirty (30) days from receipt of the billing. MWMTI also required post-dated checks to manage its credit risk exposures.

Competitors

MWMTI has no direct competitors since PITx is the first of its kind landport in the Philippines. Moreover, its business model is not similar to a mall or other transport terminals. However, there are nearby mall operators with mini-transport terminals such as Ayala Malls Manila Bay and SM Mall of Asia.

Employees

As of December 31, 2021, the manpower complement of MWMTI is as follows:

Division	Headcount
Administrative	25
Managerial	5
Technical	28
Total	58

Suppliers

The terminal segment has minimal purchases, consisting of materials and labor related purchases, to maintain the terminal facility, janitorial services, security services, professional and consultancy services and some utility services, which include internet, power, and utilities.

In selecting its suppliers, it considers quality, pricing, technical experience (for consultants and professionals) and efficient delivery of materials. It also does not depend on a limited number of suppliers. All purchases are done centrally at Megawide’s head office.

Business Risks

Below is a discussion of the major risks involved in the businesses of Megawide.

1. Megawide is exposed to the cyclical nature of a construction business coupled by risks associated with the Philippine’s property development market, including potential construction contract cancellations.

Megawide’s business is highly dependent on the ability of real estate developers to market, sell, and dispose of condominium units to potential customers. In the event of a weak property market, developers may hold and/or cancel construction contracts and orders. Megawide seeks to minimize the possible effects of a weak property market by gradually diversifying into mid-rise affordable housing and socialized housing and infrastructure projects.

Moreover, to ensure sustainable business growth and mitigate economic down cycles, Megawide has expanded and diversified into infrastructure development, an upstream integration that surely adds and creates greater value to Megawide in the short, medium, and long-term horizons. Not only will these infrastructure development projects provide construction revenues to its downstream business units, it will likewise become the source of future stable recurring income upon completion.

The existing Government administration is keen in developing and promoting infrastructure projects in the Philippines, giving Megawide new avenues to explore and win significant projects with the Government. In line with this, Megawide is managing the possible effects of a weak property market.

2. Significant competition in the construction industry could adversely affect Megawide's business.

Megawide believes that it has a competitive advantage over other construction companies due to its use of High Technology Building Systems, high quality construction equipment, value-added engineering services, technical competence, and innovative ability. Furthermore, its use of High Technology Building Systems has allowed it to price its projects competitively.

3. Megawide currently contracts with a limited number of developers and mostly located in Metro Manila, subjecting it to concentration risk.

Megawide has increased its pool of customers over the years because of its excellent reputation in the construction industry, achieved by providing quality service to its clients and being able to offer competitive pricing because of its High Technology Building System. Megawide manages its participation to client bids based on overall capacity and capability of the Company. As a matter of policy, management looks into its order book and ensures that no single customer contributes more than twenty five percent (25%) of the total revenue for a given year or of the order book. In addition, Megawide is also expanding to growth areas outside Metro Manila, like Cebu, Cavite and Clark in Pampanga, to diversify its portfolio geographically.

4. The volatility in the price of construction materials could affect Megawide's profitability.

Megawide employs a hedging program and facilities with a number of its suppliers to help mitigate the risk of price volatility. It enters into fixed purchase contracts with its suppliers, immediately upon award of contracts, which fix the unit cost of the materials. These contracts typically range from six (6) months to one (1) year. No price escalation is charged until the estimated quantities have been delivered within the agreed period.

5. Megawide's reputation will be adversely affected if its projects are not completed on time or fail to meet customer requirements.

Megawide has a proven track record with years of experience in the construction industry. It has a group of well-trained and experienced technical managers that implement measures to maintain the project's progress, schedules, and quality. In addition, contracts with suppliers and subcontractors contain warranties for quality and requirements for timely completion. These warranties are typically covered by a guarantee bond, surety bond, performance bond, or liability insurance.

6. Megawide may be exposed to liquidity risk from delayed payments of progress billings.

Megawide has a solid financial background and has established credit lines with several financial institutions from which it is able to easily obtain loans to finance its working capital requirements.

7. The availability of construction materials may affect Megawide's projects.

The principal raw materials utilized by Megawide in its projects are cement and steel, which are both readily available in the market from a number of sources, including Steel Asia Manufacturing Corporation, Peaksun Enterprises, and Pag-Asa Steel Corporation. Megawide also diversifies its sources of these raw materials so that it is not dependent on a limited number of suppliers.

8. Megawide is reliant on its High Technology Building Systems to maintain its competitive advantage over other contractors.

Megawide does not have an exclusive contract with any of its technology and equipment suppliers. As such, competitors may opt to, and will be able to, purchase the same technology and equipment from Megawide's suppliers. However, although its competitors may purchase similar technologies, Megawide has an advantage since it already has at least 10 years of experience in utilizing said High Technology Building Systems. New users of the High Technology Building Systems will need time to learn and adapt to the changes in the construction process. New users should also have significant project volumes in order to realize a return on its investment and to bring down construction cost. To ensure that Megawide maintains its technological advantage, Megawide has established a Research and Development Team to continuously adapt and respond to new inventions and standards in construction.

9. Injuries or damages to third parties could arise from construction accidents.

Megawide adopts the European Standard on Safety Scaffoldings. Under this standard, safety scaffoldings are built in accordance with the British Standard (BS 5973), which sets out performance requirements for working scaffolds and permissible stress design method. The working scaffold provides a safe workplace with access suitable for the work being done. Megawide utilizes German Scaffoldings such as MEVA Automatic Climbing Scaffold, Shoring Tower and other Folding Scaffoldings, which were built in accordance with BS 5973. It also strictly implements wearing of proper full body protection gear in accordance with the Zero Accident Safety Program. The program is adopted in all job sites to prevent worker injury under a Zero Injury or Accident Program, which means that accidents or serious injuries to workers can be successfully prevented. Moreover, as part of the safety program, a Safety Engineer is assigned to each construction site to ensure employee awareness.

10. Megawide is required to obtain various licenses for its construction business.

The revocation or non-renewal of these permits and licenses may have a material adverse effect on Megawide's operations. To avoid work stoppage or disruption, Megawide ensures that it is always compliant with the necessary permits required by various licensing authorities.

11. Megawide's brand equity and reputation will be adversely affected if the airport and terminal business is not able to meet the performance standards specified under the CA.

A group of well-trained and experienced technical managers have been employed to track the defined metrics on a periodic basis. The internal target that the airport has set is significantly higher than the minimum limit as defined under the CA. Fortnightly meetings are held where the management is appraised on performance against the specified metrics.

12. Significant competition from the upcoming regional airports and the international tourist destination could affect Megawide's airport business

The airport engages in extensive airlines and destination marketing initiatives to tie up with the airlines, tour operators, hotels Department of Tourism (DOT) to promote Cebu as a destination. Also, given that Cebu is relatively under penetrated market as compared to other key tourist destinations in the Southeast Asia region, we do not expect any significant impact in the international traffic in the medium term.

13. Megawide is exposed to credit risk on its receivables.

For on-going construction projects, Megawide is exposed to credit risk if project owners are unable to fully settle the unpaid balance of receivables under construction contracts, and other claims owed to Megawide. Credit risk is managed in accordance with Megawide's credit risk policy, which requires the evaluation of the creditworthiness of each project owner. Megawide can also enforce its contractor's lien over the project with varying degrees of effectiveness. Under Article 2242 (3) of the New Civil Code of the Philippines, a contractor's lien is the claim of a contractor engaged in the construction, reconstruction or repair of buildings, canals or other works, upon said buildings, canals or other works.

Meanwhile, airport and terminal businesses are exposed to credit risk if the concessionaires, lessors, and airlines are unable to fully settle the unpaid balance of its receivables. To manage this risk, careful evaluation of creditworthiness of its customers are being done with guidance from senior management of the Company.

14. A slowdown in the Philippine economy could adversely affect the Company.

This risk is beyond the control of Megawide but due to its infrastructure business segments, the effect of a weak economy is mitigated.

15. Megawide is exposed to the risk of industrial or labor disputes.

Megawide has maintained a harmonious relationship between management and staff. It provides employee benefits and strictly complies with labor standards and applicable labor laws. Megawide is also highly mechanized and is therefore not entirely dependent on manual labor for its production and structural works.

16. Risk on the separation of key employees

To mitigate this risk, Megawide gives attractive compensation packages that consist of: (a) basic wages; (b) high coverage in life and health insurance; (c) project completion bonus for project employees; and (d) performance bonus for project employees occupying key positions such as project managers and assistant project managers, depending on the position of the project employee. It has also entered into employment agreements with its key employees containing a “non-compete clause”, which prevents these key personnel from moving to its competitors for a certain number of years.

17. Political or social instability could adversely affect the financial results of Megawide.

This risk is beyond the control of Megawide.

18. Foreign Exchange Policy

Any foreign exchange policy that may be imposed by the Government has minimal financial effect to Megawide because it only operates in the Philippines.

19. Occurrence of Natural Catastrophes or Blackouts

Natural catastrophes may disrupt Megawide’s ability to deliver its services and impair the economic conditions in the affected areas, as well as the overall Philippine economy. The Philippines has also experienced power outages from power generation shortages and transmission problems, and from disruptions such as typhoons and floods. These types of events may materially disrupt and adversely affect Megawide’s business and operations. Prospective investors cannot be assured that the insurance coverage maintained by Megawide will adequately compensate for all damages and economic losses resulting from such natural catastrophes, blackouts or possible business interruptions.

20. Other Fortuitous Events and Government Restrictions

As the Philippines experienced one of the longest and strictest lockdowns in 2020, similar measures were imposed throughout the year 2021 leaving some operations, including construction, airports, and land terminals to be affected. However, due to the essential nature of Megawide’s businesses and its resiliency, it still managed to amass its second (2nd) largest orderbook by the end of the year.

Additionally, just before the year ended, the Philippines was severely hit by typhoon Odette, leaving the country devastated specifically in Visayas and Mindanao region. Cebu was also not spared from the destruction, with days without electricity, shortage of water and food, but GMCAC managed to stand tall despite the cancellation of flights and some operations. It even served as a temporary shelter for the passengers affected as it is the only establishment that can generate power at the time. In this critical time, Megawide conducted relief efforts to help affected Cebuanos, through its Operation Tindog.

Item 2. Properties

Purchased Properties

Megawide owns a ten thousand two hundred ninety-four (10,294)-square meter property located in Taytay, Rizal, which is being used as an equipment stockyard for its machineries, equipment, and items such as tower cranes, backhoes, and other earthmoving equipment. The same was acquired by Megawide for Twenty-One Million Pesos (PhP 21,000,000.00). Megawide owns this property and all the equipment, machineries, and items found therein, free of any mortgage, lien or encumbrance.

In 2011, Megawide acquired land in Ortigas Extension, Barangay San Isidro, Taytay, Rizal with a lot area of twenty-one thousand eighty-two (21,082) square meters for One Hundred Four Million Pesos (PhP 104,000,000.00). Megawide owns this property free of any mortgages, liens, or encumbrances.

In 2012, another lot was purchased by the Company in Taytay, adjacent to Megawide's pre-cast plant with a lot area of eight thousand five hundred five (8,505) square meters for Fifty Million Pesos (PhP 50,000,000.00). Additionally, a four thousand twenty-two (4,022) square meter lot adjacent to the stockyard of Megawide in Taytay was purchased for Nine Million Pesos (PhP 9,000,000.00). In the same year, Megawide bought a one hundred seventy-eight (178) square meter property located in the same municipality for a total amount of One Million One Hundred Fifty-Seven Thousand Pesos (PhP 1,157,000.00). Megawide owns these properties free of any mortgages, liens, or encumbrances.

In 2013, Megawide made additional land acquisitions totaling Sixty-Seven Million Pesos (PhP 67,000,000.00) in Taytay, Rizal, in relation to its pre-cast plant expansion. The property is free of any mortgages, liens, or encumbrances.

In 2015, Megawide also acquired an additional lot adjacent to the pre-cast plant in 2014 with an area of twenty-three thousand six hundred eighty-six (23,686) square meters for One Hundred Forty-Eight Million Pesos (PhP 148,000,000.00), and another lot with an area of sixteen thousand seventeen (16,017) square meters near the pre-cast plant for Seventeen Million Pesos (PhP 17,000,000.00) in 2015. Megawide also purchased parcels of land adjacent to its Taytay complex amounting to Eighty-Two Million Pesos (PhP 82,000,000.00) and One Hundred Fifty-Six Million Pesos (PhP 156,000,000.00) in 2017 and 2016, respectively. The Taytay complex is currently expanding to house the formworks rehabilitation factory and all the construction equipment of Megawide. The parcels of land provide a bigger stockyard for the precast plant since its annual production is consistently increasing. Thereafter, in 2019, the Company purchased the land and building where its head office is located in Quezon City, with an area of one thousand four hundred ninety-three (1,493) square meters.

To cater to its growing order book Megawide continues to invest on new construction equipment, which includes tower cranes, earth moving equipment, formworks, and pre-cast equipment and Transportation equipment, which includes service vehicles, truck mixers, light and medium duty trucks, and tractor trucks over the years.

Also, the Group purchased the following properties and equipment in relation to its airport and terminal segments:

Airport segment

Office and other equipment	MCIA	various	N/A
Transportation equipment	MCIA	various	N/A
Furniture and fixtures	MCIA	various	N/A
T2 Airport infrastructure	MCIA	2018	65,500 sq. m.
T1 Airport infrastructure	MCIA	2019	9,772 sq. m.

Terminal segment

Terminal infrastructure	PITx	2018	73,380 sq. m.
Tower & parking facility	PITx	2019	103,285 sq. m.
Office and other equipment	PITx	various	N/A
Transportation equipment	MCIA	various	N/A
Furniture and fixtures	MCIA	various	N/A

Leased Properties

Megawide also leases the properties needed for its operations, such as those covered by the following lease agreements, as of December 31, 2021:

Date of Execution	Lessor	Area	Location	Lease Period	Rental Fee
January 2018	Josefino V. Cabrera (Attorney-in-Fact of Leovigilda V. Cabrera, et al.)	2,317 sq.m.	Taguig City	Jan 01, 2018 – Dec 31, 2022	2 months deposit of PhP 372,148.58 Rate: PhP 165,044.54 per month with 6% yearly escalation, inc. of VAT
November 2018	Retailscapes, Inc.	10 th floor: 1974 sq.m. 11th floor: 1,337.82sq.m.	Santolan Town Plaza, Quezon City	10th floor: Nov 01, 2018 – Apr 30, 2022 11th floor: Mar 01, 2019 – Apr 30, 2022	PhP 1,395,100 per month
April 15, 2019	Aguacate Marketing Corporation	1,450 sq.m.	Tipas, Taguig City	Nov 01, 2018 – Oct 31, 2022	2 months deposit of PhP 638,000.00 and 1 month rental of PhP 319,000.00. Rate: PhP 220.00 per sq.m per month, inc. of VAT
December 27, 2019	L.V.N. Pictures, Inc.	2,000 sq.m.	Brgy. Kaunlaran, Cubao, Quezon City	Jan 27, 2020 – Jan 26, 2022	1st year: 280,000.00 per month, exc. of 5% withholding tax 2nd year: 308,000.00 per month, exc. of 5% withholding tax 10% escalation per renewal

December 27, 2019	L.V.N. Pictures, Inc.	2,000 sq.m	Brgy. Kaunlaran, Cubao, Quezon City	Jan 27, 2020 – Jan 26, 2022	1st year: 300,000.00 per month, exc. of all taxes 2nd year: 330,000.00 per month, exc. of all taxes 10% escalation per renewal
September 22, 2021	L.V.N. Pictures, Inc. - Addendum to the Contract of Lease dated 27 December 2019	1,000 sq.m	Brgy. Kaunlaran, Cubao, Quezon City	15 September 2021- 14 March 2022	200,000 per month, inclusive of the 5% withholding tax
February 05, 2020	L.V.N. Pictures, Inc.	2,000 sq.m	Brgy. Kaunlaran, Cubao, Quezon City	Feb 16, 2020 – Feb 15, 2022	1st year: PhP 300,000 per month, net of 5% withholding tax 2nd year: PhP 330,000 per month, net of 5% withholding tax 10% escalation per renewal
June 25, 2020	Capital Storage Facilities Corporation	850 sq.m.	Km 25, Ortigas Avenue Extension, Brgy. San Isidro, Taytay, Rizal	Oct 16, 2020 – Apr 15, 2022	1st-6th month: PhP 100,045.00 per month, inc. of VAT 7th-18th month: PhP 104,592.50 per month, inc. of VAT
February 22, 2021	Primex Domains, Inc.	Head Office Annex Parking	Aurora Blvd. cor. Broadway Ave., Quezon City	March 6, 2022 – March 5, 2023	PhP 206,416.37 per month, inc. of all taxes

All of the above leases are subject to renewal upon mutual agreement of the parties. In addition, the Company enters into operating and finance lease agreements for its construction equipment and transportation vehicles for periods of three (3) to five (5) years.

Item 3. Legal Proceedings

The following are the material cases Megawide is involved in as of December 31, 2021:

1. **Kuehne + Nagel, Inc. vs. Megawide**

This is a case for sum of money with damages filed with the Regional Trial Court of Parañaque City Branch 258 on October 15, 2012 by Kuehne + Nagel, Inc. (KNI) against Megawide, demanding payment of Seven Million Four Hundred Sixty Thousand Nine Hundred Sixty-Seven and 22/100 Pesos (PhP 7,460,967.22), representing the balance for the various freight, fees, and charges in transporting the defendant's shipment from Germany to the Philippines. Megawide filed its Answer on December 18, 2012, with Special and Affirmative Defenses and Counterclaims. Megawide's defense is primarily anchored in KNI's failure to secure the Load Port Survey (LPS) Report which resulted in the delay of the release of the shipment from the Bureau of Customs. Consequently, the Bureau of Customs imposed a penalty amounting to Four Million Twenty-Seven Thousand Forty-Three and 22/100 Pesos (PhP 4,027,043.22).

Megawide paid the said penalty and the amount of Three Hundred Fifty-Five Thousand Eight Hundred Ninety-Three and 75/100 Pesos (PhP 355,893.75) representing storage fees for more than two (2) months because KNI could not secure the immediate release of Megawide's shipment in view of the absence of the LPS Report.

On June 16, 2020, the Regional Trial Court rendered a decision in favor of Kuehne + Nagel. Megawide filed a Motion for Reconsideration but was denied in an Order dated September 17, 2020. Megawide filed its notice of appeal to the decision on October 23, 2020.

2. **Daisy Joy Rojallo Cervantes, et al. vs. H.E. Simeon Aquino III, Hon. Enrique T. Ona, Hon. Teodoro J. Herbosa et. al.**

On September 18, 2012, the National Economic and Development Authority (NEDA) approved the Modernization of the Philippine Orthopedic Center (MPOC). The MPOC is a Build-Operate-Transfer scheme pursuant to the Public-Private-Partnership program of the Aquino government. The MPOC Project involves the construction of a new hospital facility within the National Kidney and Transplant Institute Compound along East Avenue, Quezon City.

On January 31, 2014, the petitioners, composed of civil society groups, health workers, and patients of the Philippine Orthopedic Center (POC) who are opposed to the MPOC project filed a Petition for Certiorari and Prohibition before the Supreme Court against then President Benigno Simeon Aquino III, other government officials, and the consortium of Megawide Construction Corporation and World Citi Medical Center.

The petitioners prayed that the Supreme Court annul and set aside the MPOC project for being in violation of Article II, Section 15 of the Constitution and our treaty commitments recognizing the people's right to health. Petitioners argue that the government relinquished the duty and responsibility to provide and ensure a basic social service such as health to a private entity through privatization or commercialization of a government hospital (the POC). The petitioners further prayed that the court issue a writ of preliminary injunction or temporary restraining order to stop the implementation of the project.

On November 27, 2015, Respondents, represented by Manuel Louie B. Ferrer, filed a Manifestation that on November 10, 2015, respondents served their Notice of Termination to the Department of Health (DOH), which reads:

"In view of the foregoing, it is with deepest regret that we serve on your office this Notice of Termination of the BOT Agreement. Section 8.2 and 9.2 of the BOT Agreement provide that if the delay in the performance of the DOH exceeds one hundred eighty (180) days from Signing Date, the Project Proponent may opt to terminate the BOT Agreement. This one hundred eighty (180)-day period came and went over a year ago on September 2, 2014. Accordingly, the BOT Agreement will terminate on November 15, 2015 ('Termination Date')."

Due to this, Respondents asked for the dismissal of the Petition because it has been rendered moot and academic by the termination of the Project.

On 9 November 2020, the Supreme Court issued a Resolution requiring the parties to file their respective Memoranda. Megawide filed its Memorandum on 9 December 2020.

3. **MC Montgear Electromech Corp. (Montgear) vs. Megawide**

Montgear is a subcontractor of Megawide for several projects which filed a complaint against the latter for sum of money with the Regional Trial Court of Quezon City Branch 77 on October 12, 2017 seeking to recover its retention money amounting to Twenty-Two Million Six Two Thousand Twelve and 65/100 Pesos (PhP 22,062,012.65). In response, Megawide filed an Answer with Counterclaim amounting to Seventy-Seven Million Five Hundred Twenty-Two Thousand Three Hundred Thirty and 69/10 Pesos (PhP 77,522,330.69) corresponding to unpaid charges by Montgear. On February 04, 2020, Montgear filed a Reply with Answer to Counterclaim and Motion for Bill of Particulars. Upon Megawide's motion, the court expunged Montgear's filing due the latter's unreasonable delay in filing.

The trial is ongoing, and the next scheduled hearing for the presentation of Megawide's witnesses is on 20 April 2022.

4. **Megawide vs. Maynilad Water Services, Inc. (Maynilad)**

The case involves an application for an Interim Measure of Protection (Preliminary Injunction with Application for an Ex Parte twenty (20)-day Temporary Order of Protection [Temporary Restraining Order]) filed by Megawide against Maynilad with the Regional Trial Court of Quezon City Branch 84 on August 14, 2020 in order to prevent Maynilad from calling on the Performance Security and other securities submitted by the Megawide for the 88MLD Las Piñas Water Reclamation Facility Project.

The dispute arose from the Notice of Termination of the Project due to Force Majeure issued by Megawide, which Maynilad contested. After a series of hearings and submission of pleadings, the Regional Trial Court (RTC) granted the application for a twenty (20)-day Temporary Order of Protection on November 06, 2020 and ordered the return of the amounts acquired by Maynilad from its call on the securities. Maynilad submitted a Motion for Reconsideration of the said Order, and all parties submitted their respective Memoranda in relation to the Petition for Injunction. In a Decision dated April 05, 2021, the Court granted Megawide's application for Mandatory Injunction as an interim measure of protection in aid of arbitration.

5. **Asiatech Development and Builders Corp. (Asiatech) vs. Megawide**

Asiatech filed a disciplinary action against Megawide with the Philippine Contractors Accreditation Board (PCAB) on August 26, 2020 for Megawide's alleged fraudulent acts arising from its failure to pay Asiatech's receivables.

The PCAB ordered the parties to file their respective Memoranda, which order Megawide complied with by submitting its Memorandum on 9 December 2021.

6. **MHI Engine Systems Philippines, Inc. vs. Megawide**

MHI filed a case for sum of money claims against Megawide before the Muntinlupa City Regional Trial Court Branch 204 for the release of its retention money in the amount of Nine Million Five Hundred Seventy-Five Thousand Five Hundred Fifty-Four and 74/100 Pesos (PhP 9,575,554.74) as well as legal interest, attorney's fees and damages.

After the parties submitted their respective pleadings, the case was set for mediation before the Philippine Mediation Center – Muntinlupa on 5 April 2022. The pre-trial conference is also scheduled for 10 May 2022.

7. People of the Philippines vs. Manuel Louie B. Ferrer, et al.

On November 26, 2020, the National Bureau of Investigation filed a complaint before the Department of Justice (DOJ) for alleged violation of several laws, particularly, the Anti-Dummy Law against the following individuals:

- a. Steve Dicdican, General Manager of Mactan-Cebu International Airport Authority (MCIAA);
 - b. Manuel Louie Ferrer, President of GMR Megawide Cebu Airport Corporation (GMCAC);
 - c. Edgar Saavedra, Director of GMCAC;
 - d. Oliver Tan, Director of GMCAC;
 - e. Jez Dela Cruz, Director of GMCAC;
 - f. Srinivas Bommidala, Chairman of GMCAC;
 - g. P. Sripathy, Director of GMCAC;
 - h. Vivek Singhai, Director of GMCAC;
 - i. Andrew Acquaah-Harrison, Chief Executive Advisor of GMCAC;
 - j. Ravi Bhatnagar, Chief Finance Advisor of GMCAC;
 - k. Ravishankar Saravu, Chief Commercial Adviser of GMCAC;
 - l. Michael Lenane, Chief Operations Officer of GMCAC;
 - m. Sudarshan MD, Deputy Chief Commercial Adviser of GMCAC;
 - n. Kumar Gauray, Manager of GMCAC;
 - o. Magesh Nambiar, Deputy Human Resources Head of GMCAC;
 - p. Rajesh Madan, Head of Finance of GMCAC; and
 - q. other John and/or Jane Does
- (Respondents).

This case stemmed from a complaint filed by a certain Larry Iguidez, Jr. (Complainant) with the Anti-Fraud and Action Division of the NBI on September 07, 2020.

In a Subpoena dated December 18, 2020, Respondents were given until January 20, 2021 to obtain copies of the complaint, supporting affidavits, and other evidence filed against them. The Respondents were also given ten (10) days from January 20, 2021 to file their counter-affidavits.

After several submissions of pleadings, the DOJ, in a resolution dated October 08, 2021, found probable cause for the violation of Section 2-A of the Anti-Dummy Law. Ferrer, Saavedra, Tan, and Dela Cruz (Megawide Respondents) filed a Petition for Review with the Secretary of Justice on November 26, 2021, and is still pending.

On November 23, 2021, the DOJ filed an Information with the Regional Trial Court of Lapu-Lapu Branch 68 (RTC) for the Respondents' alleged violation of the Anti-Dummy Law. On the same day, Megawide Respondents filed an Omnibus Motion to quash the information, to defer the issuance of warrants of arrest and to dismiss the case. The RTC nevertheless issued warrants of arrest against the Respondents on November 25, 2021, and the Megawide Respondents and Respondent Acquaah-Harrison posted bail the following day, or on November 26, 2021.

The arraignment of the Respondents was conducted last March 28, 2022, wherein Respondents pleaded “not guilty” to the charges against them. Notwithstanding the arraignment, the Megawide Respondents filed on March 24, 2022 a Motion to Quash the Information on the ground that the Information does not allege an offense, given that the signing into law of Republic Act No. 11659, otherwise known as the Amended Public Service Act, has rendered the legal issue at hand moot and academic. The hearing for the Motion to Quash is set on April 25, 2022.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted to the vote of security holders during the fiscal year covered by this report.

PART II – OPERATIONAL AND FINANCIAL INFORMATION

Item 5. Market for Issuer’s Common Equity and Related Stockholder Matters

Market Price of and Dividends on Registrant’s Common Equity and Related Stockholder Matters

Market Information

Megawide’s common shares are traded in the PSE under the symbol “MWIDE.” The shares were listed on the PSE on February 18, 2011. The following table sets out the high and low prices for Megawide’s common shares as reported to the PSE:

2019	High	Low
First Quarter (January – March)	21.50	17.06
Second Quarter (April – June)	23.00	18.78
Third Quarter (July – September)	19.52	17.60
Fourth Quarter (October – December)	19.00	16.32
2020		
First Quarter (January – March)	16.80	5.35
Second Quarter (April – June)	8.36	4.54
Third Quarter (July – September)	8.10	6.05
Fourth Quarter (October – December)	10.90	6.69
2021		
First Quarter (January – March)	8.90	5.91
Second Quarter (April – June)	7.32	5.90
Third Quarter (July – September)	7.50	5.95
Fourth Quarter (October – December)	6.85	4.98

The closing price per share of Megawide’s common shares as of December 31, 2021 was Five Pesos and 18/100 (PhP 5.18).

As of December 31, 2021, there are **two billion thirteen million four hundred nine thousand seven hundred seventeen (2,013,409,717)** outstanding common shares registered in the names of the following:

	Stockholder	Number of Common Shares Held	Percentage of Total Shares

The beneficial owners of the shares registered in the name of the PCD Nominee Corporation (PCD) are the participants of PCD who hold the shares on behalf of their clients, including the top 20 shareholders. The list of the PCD Participants as of December 31, 2021 is attached herein as **Exhibit "1"**.

Dividends

On June 26, 2013, the Board adopted a dividend policy of declaring annual cash dividends equivalent to twenty percent (20%) of the prior year's income, subject to the Company's contractual obligations.

Thereafter, on April 03, 2019, the Board adopted a revised dividend policy increasing the maximum allowable annual dividend declaration from twenty percent (20%) to not exceeding thirty percent (30%) of the prior year's net income, subject to the approval of the Board and the Company's contractual obligations.

Megawide has entered into loan agreements restricting its ability to declare dividends unless certain conditions are met, such as all debt obligations are current and updated, availability of retained earnings while maintaining debt to equity ratios, and debt service cover ratios after dividend payments. As of date, Megawide's subsidiaries, many of which are newly established and not yet income generating, have not formulated or adopted a dividend policy. Megawide shall cause these subsidiaries to adopt the appropriate dividend policies with the intention that each subsidiary shall regularly declare dividends in favor of Megawide, subject to capital requirements and other existing covenants/restrictions with its creditors.

Under the Revised Corporation Code, Megawide's Board is authorized to declare cash, property, stock dividends, or a combination thereof. Cash and property dividend declarations require only the approval of the Board. Meanwhile, stock dividend declarations require the approval of the Board and the shareholders representing at least two-third (2/3) of Megawide's outstanding capital stock. Such approval may be given at a general or special meeting duly called for such purpose. The holders of outstanding shares on a dividend record date for such shares will be entitled to the full dividend declared without regard to any subsequent transfer of shares. Moreover, in accordance with the Revised Corporation Code, Megawide may only distribute dividends out of its unrestricted retained earnings.

During the past three (3) years, Megawide has consistently declared and paid out cash dividends as follows:

Date Approved	Record Date	Type	Amount	Date of Payment
January 08, 2019	February 13, 2019	Series 1 Preferred Shares	PhP 70,250,000.00	March 03, 2019

Recent Sales of Unregistered or Exempt Securities

Megawide has not sold any unregistered securities within the past three (3) years.

Item 6. Management's Discussion and Analysis or Plan of Operation

FY2021 vs FY2020

Results of Operations

Review of results for the year ended December 31, 2021 as compared with the results for the year ended December 31, 2020.

Revenues increased by 21% or PhP 2.72 billion

Consolidated revenues for the period amounted to PhP 15.64 billion, 21% or PhP 2.72 billion higher from the same period last year. The construction segment revenue amounted to PhP 14.33 billion, 32% or PhP 3.49 billion above from year ago levels and contributed 91% to the consolidated revenues. From quarantine restrictions imposed by the government last March 16, 2020, construction segment slowly transitioned to normal levels starting 3rd quarter of 2020. In 2021 operations of on-going projects started to normalize and continued to ramp up due to the start of newly awarded projects such as Suntrust Home Developers' Suncity West Side City project, Megaworld's Newport Link project, and the DOTr's Malolos Clark Railway Phase 1 Project 3 which is a joint venture project with Hyundai Engineering & Construction Co., Ltd., and Dongah Geological Engineering Company Ltd.

Airport segment continues to struggle with 10% of the pre-pandemic air traffic volume though remains optimistic of a turnaround once the global vaccination program has been effectively rolled out. Revenue during the period amounted to PhP 576 million, 48% or PhP 532 million lower than the same period last year and contributed 4% to the total consolidated revenue due to the effect of international and local travel restrictions, beginning March 16, 2020 and persisted until December 31, 2021, as a means to control the spread of COVID-19. International passenger arrivals from COVID-19 affected countries like China, Japan, and Korea are still down while domestic volumes declined as the government declared a state of public emergency and placed Luzon under ECQ, which persisted during the MECQ and general community quarantine (GCQ) periods. Airport merchandising segment, which is ancillary to airport operations, likewise experienced a slowdown in sales due to reduced passenger traffic translating to 67% decline in revenue.

Landport operations delivered revenue of PhP 715 million from office towers and commercial spaces during the period and contributed 5% to the total consolidated revenues. Due to the restrictions in foreign travel, Philippine Offshore Gaming Operators (POGO) experienced indefinite disruption on their operations, resulting in lower office occupancy levels and translated to 21% or PhP 187 million lower revenue from the same period last year. PITX continued to serve as a transportation convergence point during ECQ and ever since terminal operations reopened last June 08, 2020 after Manila was placed under GCQ by the government and resumed near normalcy in operations to serve commuters going to different places of work.

Direct Costs increased by 24% or PhP 2.5 billion

Direct costs amounted to PhP 12.9 billion and were higher by 24% or PhP 2.5 billion. The movement was consistent with the revenue performance across all three segments, taking in consideration fixed costs and depreciation expenses despite reduced passenger volumes and lower occupancy rate at the airport and landport terminals.

Gross Profit increased by 9% or PhP 222 million

Consolidated gross profit amounted to PhP 2.74 billion in 2021, translating to a consolidated gross profit margin of 18%. The construction business contributed PhP 2.2 billion or 80% of the Group's gross profit. Terminal operations contributed PhP 327 million or 12% while airport operations and merchandising segment accounted for PhP 207 million or 8% to the total gross profit.

Other Operating Expenses increased by 16% or PhP 247 million

Net Other Operating Expenses amounted to PhP 1.78 billion. The increase of PhP 247 million is mainly related to impairment losses recognized on receivables amounting to P204 million.

Other Income (Charges) increased by 6% or PhP 88 million

Other charges - net, which consists of finance cost, finance income and other income (expenses) amounted to PhP 1.68 billion, 6% lower from year-ago levels. The reduction is due mainly to the recognition of gain on loan modification amounting to PhP 208 million in 2021 and mark-to-market gain on the airport segment's interest rate swap recognized this year compared to market-to-market loss on IRS booked on the same period last year recorded under other income (expense). However, this is offset by the unrealized foreign exchange loss recognized in 2021 from the USD loans under the airport segment due to the higher peso to dollar exchange rate compared to the unrealized foreign exchange gain recognized on the same period last year.

Tax Expense decreased by PhP 95 million or 36%

Total tax expense decreased in 2021 due to the decrease in tax expense in the is directly related to the reduction in tax rate from 30% to 25% under the CREATE law.

Consolidated Net Loss decreased by 2% or PhP 19 million

Consolidated net loss amounted to PhP 893 million compared to consolidated net loss of PhP 875 million in 2020. Marginal improvement is related to improvement in construction operations which posted a profit of P401 million compared with last year's loss of P497 million, though was offset by airport segment as minimal revenues were generated from airport and travel-related segments due to disrupted operations arising from the global response to the COVID-19 crisis.

Financial Condition

Review of financial conditions as of December 31, 2021 as compared with financial conditions as of December 31, 2020

ASSETS

Current Assets increased by 9% or by PhP3.34 billion

The following discussion provides a detailed analysis of the increase in current assets:

Cash and Cash Equivalents decreased by 19% or PhP 1.38 billion

The decrease in cash and cash equivalents was due to payment of PhP 2.6 billion finance cost, PhP 595 million dividends on preferred shares and various acquisitions of precast and construction equipment to ramp up capacity. This is offset by proceeds from the down payments of clients for newly awarded projects during the period and increase in operating cash flow from construction segment.

Trade and Other Receivables increased by 11% or by PhP 1.67 billion

The increase in contract receivables by PhP 581 million is related to milestone payment contractual arrangement with customers, special payment arrangements to key clients and timing difference in collections as substantial portion of work accomplishment has been billed towards the end of the quarter and hence are being reviewed by the client whereas some recently billed receivables are not yet due. Interest receivable increased by P444 million while retention receivable increased by P76 million. Receivable from airport operations increased by P129 million due to the increase in revenue during the month of December as economies opened and our country relaxed travel policies. Meanwhile, receivables from Terminal operations increased by PhP 319 million due to relaxation of payment schedule with the tenants in support to Bayanihan to Heal as One Act. To minimize credit risk, PITx as a matter of policy, ensures that there is sufficient amount of security deposits and advance rentals to cover unpaid balances.

Inventory of Construction Materials increased by 19% or PhP 326 million

The increase in inventory levels during the period was due to the new projects started during the period, as well as to comply with the Company's business strategy to maintain buffer levels of inventory at site, considering longer procurement lead time during the quarantine period imposed by the government.

Contract assets increased by 13% or PhP 546 million

The increase in contract assets is attributed to timing difference on actual billing for portion of work-in-progress completed during the period, which can be billed and evaluated by the client upon completion of the said scope or activity.

Other Current Assets increased by 27% or by PhP 2.18 billion

The increase was mainly due to advances made by the Parent to its suppliers and subcontractors for its new projects to lock in prices for steel required for the structural construction of Sun City Project and the advances to supplier amounting to PhP 163 million for MCRP. The related input VAT also increased as a result of payments made to subcontractors. This is offset by the decrease in creditable withholding taxes under the construction segment that is directly related to the increase in tax expense.

Non-Current Assets increased by 1% or PhP 493 million

The following discussion provides a detailed analysis of the decrease in non-current assets:

Investments in Associates and Joint Ventures decreased by 7% or by PhP 68 million

The decrease is a result of share in the net losses taken up on the Group's investment in various joint ventures and associates.

Concession Assets increased by 2% or by PhP 575 million

The increase in Concession Assets was attributed to capital investments of GMCAC related to its obligations under the concession agreement. Meanwhile, amortization charges for the period amounted to PhP 50 million.

Property, Plant and Equipment decreased by 1% or by PhP 73 million

The Group recognized depreciation charges on property, plant and equipment amounting to PhP 1.47 billion and procured certain pre-cast equipment to expand capacity of construction support and service units and various specialized equipment to support specification requirement of the ongoing projects.

Investment Properties increased by 3% or by PhP 115 million

The increase is mainly related to the additions in the landport property amounting to P230 million representing additional improvements in the commercial and parking area. This was reduced by depreciation charges for the period amounting to PhP 86 million.

Deferred tax assets increased by 156% or PhP 15 million

The increase was due to the reversal of deferred tax assets recognized by a foreign subsidiary and the resulting net deferred tax asset from construction segment as compared with the previous years due to deferred taxes on impairment loss recognized during the year and increase in deferred tax on the effect of PFRS 15 on significant financing component.

Other Non-Current Assets decreased by 3% or PhP 71 million

The decrease in Other Non-Current Assets was mainly due to decrease of P 238 million in investment in trust fund, the cash waterfall account for the airport segment loan but was offset increase in the deferred input VAT balance of the Group amounting to P 107 million as well as higher refundable deposits under MWM amounting to P 51 million.

LIABILITIES AND EQUITY

Current Liabilities increased by 15% or PhP 3.61 billion

The following discussion provides a detailed analysis of the decrease in current liabilities:

Interest-Bearing Loans and Borrowings-Current increased by PhP 1.65 billion or 13%

The increase is mainly related to additional borrowings for the period to support mainly the capital asset requirement of the construction segment and reclassification to current portion of long term loan based on the scheduled payment for the next year. The increase was offset by loans of GMCAC were reclassified from current to non-current amounting to PhP 824 million. On May 4, 2021, GMCAC and the lenders executed the second amendment to the amended and restated Omnibus Loan and Security Agreement (OLSA), revising and pushing the schedule of the principal repayment to 2024. As a result, the current portion of long-term loan recognized in the previous year were reclassified to non-current.

Trade and Other Payables increased by 4% or by PhP 325million

The increase is mainly due to the additional infusion of the minority shareholder to the airport operations to comply with the restated OLSA amounting to P308 million. This was offset by the payment of accrued interest. Under the amended OLSA previously discussed, 20% of the accrued interest related to the period was paid in May 2021, while the balance shall be paid on June 15, 2023 together with the interest accrued. For interest incurred from March 31, 2021 to December 15, 2021, 37% of the accrued interest related to the period shall be paid monthly starting May 15, 2021 until December 15, 2021, the balance shall be paid on December 2023 together with the interest accrued.

Contract liabilities – current increased by 75% or PhP 1.59 billion

The increase is mainly related to reclassification from noncurrent portion as accomplishments is expected to be higher in the next year which will result to higher recoupment of downpayments from client.

Other Current Liabilities increased by 22% or by PhP 48 million

The increase is due to the increase in tax liabilities of the Group such as withholding taxes and output VAT.

Non-Current Liabilities increased by 4% or PhP 1.54 billion

The following discussion provides a detailed analysis of the increase in non-current liabilities:

Interest-Bearing Loans and Borrowings-Non-Current increased by 6% or PhP 1.93 billion

On May 4, 2021, GMCAC and the lenders executed the second amendment to the amended and restated Omnibus Loan and Security Agreement, which revised the schedule of the principal repayments to 2024. As a result of this arrangement, interest bearing loans for GMCAC were increased by P2.1 billion. Meanwhile, current portion of finance lease payables amounting to P 91 million were reclassified to current loans based on scheduled payments within one year horizon.

Contract liabilities –non current decreased by 17% or PhP 422 million

The increase is mainly related to downpayments received in 2021 for newly awarded contracts such as SunCity and share in MCRP.

Post employment defined benefit obligation decreased by 13% or by PhP 43 million

The post employment defined benefit obligation decrease due to experience adjustments and changes in demographic assumptions.

Deferred tax liabilities increased by 9% or by PhP 71 million

The decrease in deferred tax liabilities was mainly due to construction segment which had a net deferred tax asset position of P10 million at the end of the year compared to last year deferred tax liability position amounting to P26 million. Other decrease is arising from the adjustment of tax rate from 30% to 25%.

Other non-current liabilities increased by 1% or PhP 8 million

The increase is due to the net movement in security deposits and advanced rent from the landport and airport segments during the period arising from new lease contracts.

Equity attributable to Parent decreased by 4% or by PhP 774 million

The decrease in equity was mainly due to dividend payments of PhP 506 million to preferred stock shareholders and P342 million net loss attributable to Parent for the year.

Y2020 vs FY2019

Results of Operations

Review of results for the year ended December 31, 2020 as compared with the results for the year ended December 31, 2019

Revenues at PhP 12.92 billion or 35% lower than FY2019

Consolidated revenues for the period amounted to PhP 12.92 billion, 35% or PhP 6.96 billion lower from 2019 levels. The construction segment revenue amounted to PhP 10.84 billion, PhP 4.47 billion or 29% below from year ago levels and contributed 84% to the consolidated revenues. Since the government imposed the enhanced community quarantine (ECQ) last March 17, 2020, construction activities have been suspended. During the modified enhanced community quarantine (MECQ) beginning May 16, 2020, construction activities resumed but labor availability and supply chain has been disrupted, resulting in slow down and delayed ramp up of construction revenues. As government started to ease restrictions beginning June, operations started to improve during the second (2nd) half, though still lower than normal levels due to limited mobility and supply chain constraints.

Airport operations delivered PhP 1.11 billion in revenue in 2020, 70% or PhP 2.58 billion lower from full year 2019 due to travel restrictions imposed during the quarantine periods. International passenger arrivals from COVID-19 affected countries like China, Japan, and Korea went down beginning February while domestic volumes declined as the government declared a state of public emergency and placed Luzon under ECQ, which persisted during the MECQ and general community quarantine (GCQ) periods. Airport merchandising segment, which is ancillary to airport operations, likewise experienced a slowdown in sales beginning February due to reduced passenger throughput and generated revenue of PhP 70 million.

Landport operations, which started full operations in latter half of 2019, delivered revenue of PhP 902 million in 2020 and contributed 7% share to the consolidated revenues. Revenues mostly came from office tower and commercial space leases. Despite temporary suspension of terminal operations due to the ECQ beginning second (2nd) half of March 2020, PITx continued to serve as a transportation convergence point for healthcare workers and frontliners. Terminal operations reopened last June 8, 2020, after Manila was placed under GCQ by the government, and continued to operate near normalcy to serve commuters going to different places of work.

Direct Costs decreased by 32% or PhP 4.85 billion

Direct costs amounted to PhP 10.41 billion, lower by 32% or PhP 4.85 billion versus same period last year. The decline in costs was related to the decrease in construction activities and limited airport and landport operations and in line with the lower revenues for the year.

Gross Profit at PhP 2.52 billion

Consolidated gross profit amounted to PhP 2.52 billion, translating to a consolidated gross profit margin of 19%. Construction operations contributed the bulk at PhP 1.45 million or 58% to the consolidated gross profit. The landport and airport operations contributed PhP 547 million and PhP 474 million, respectively, comprising 22% and 19% shares, respectively. The balance came from the airport merchandising segment.

Other Operating Expenses lower by 16% or PhP 291 million

Net Other Operating Expenses for 2020 amounted to PhP 1.54 billion, PhP 291 million or 16% lower from 2019 levels. The decrease was mainly related to the cost cutting measures and process improvements implemented in 2020 in response to the COVID-19 pandemic.

Other Income (Charges) increased by 16% or PhP 224 million

Other income (charges), which consists of finance cost, finance income and other income (expenses), increased due to full year recognition of interest expense from PITx loans availed in the last quarter of 2019, additional interest from GMCAC from unamortized borrowing cost with the official completion of Terminal renovation in January 2020, and the reduction of other income for the year.

Tax Expense decreased by PhP 59 million or 18%

Tax expense for the year amounting to PhP 265 million mainly pertained to deferred tax expense of GMCAC due to the timing of recognition of amortization of concession asset for tax purposes and tax expense from net profit of landport and construction segment.

Consolidated Net Loss for the period amounted to PhP 875 million

The consolidated net loss of PhP 875 million for 2020 was mainly attributed to minimal revenues generated from construction and airport segments due to limited construction activities and travel restrictions, respectively, imposed by the government to mitigate increase of COVID-19 cases.

Financial Condition

Review of financial conditions as of December 31, 2020 as compared with financial conditions as of December 31, 2019

ASSETS

Current Assets increased by 3% or PhP 967 million

The following discussion provides a detailed analysis of the increase in current assets:

Cash and Cash Equivalents increased by 11% or PhP 708 million

The increase in cash and cash equivalents was due to proceeds from the preferred shares issued in November 2020, offset by the acquisition of shares, dividend payments for the 2019 declaration, and decrease in operating cash flow from its airport and PITx in 2020.

Trade and Other Receivables decreased by 12% or PhP 2.07 billion

The decrease in contract receivables was largely due to the PhP 3.50 billion collection from the Clark airport project representing the first (1st) and second (2nd) milestone payments. Lower receivables from airport segment is due to lower revenues. Meanwhile, receivables from terminal operations increased due to recognition of additional lease income of PhP 142 million in accordance with PFRS 16 and uncollected billings from tenants of PhP 385 million due to deferral of payments granted to tenants.

Inventory of Construction Materials increased by 34% or PhP 432 million

The increase towards the last quarter of the year is consistent to the Company's business strategy to keep enough levels of inventory at site considering longer procurement lead time during the quarantine period imposed by the government.

Contract assets increased by 6% or PhP 256 million

The increase in contract assets is attributed to costs to mobilize newly awarded projects and ramp-up costs arising from the quarantine periods as production capacity is still to reach normal levels.

Other Current Assets increased by 26% or PhP 1.65 billion

The increase was mainly due to advances made by the Parent to its suppliers and subcontractors for its new projects to lock in supply and cost of major raw materials. The related input VAT also increased as a result of payments made to subcontractors. Also, deferred fulfillment cost which refers to project cost of contracts awaiting signature or under evaluation increased due to various bidding and pre-construction activities.

Non-Current Assets decreased by 1% or PhP 387 million

The following discussion provides a detailed analysis of the decrease in non-current assets:

Investments in Associates and Joint Ventures decreased by 3% or PhP 30 million

The decrease was a result of the share in the net losses taken up on the Group's investment in various joint ventures and associates.

Concession Assets increased by 2% or PhP 492 million

The increase in Concession Assets was attributed to capital investments of GMCAC related to the renovation of Terminal 1 at the airport. Meanwhile, amortization charges for the year amounted to PhP 163 million.

Investment Properties decreased by 2% or PhP 66 million

The decrease was related to the amortization for the year amounting to PhP 106 million and additions to Land amounting to PhP 40 million.

Property, Plant and Equipment decreased by 2% or PhP 169 million

The decrease in the account resulted from the Group's recognition of depreciation charges on property, plant and equipment amounting to PhP 1.02 billion and procurement of certain construction equipment to support specific requirements of the ongoing projects.

Deferred tax assets decreased by PhP 35 million or 78%

The decrease was due to recognition of deferred tax liabilities of landport segment, hence, the net balance is now presented as part of deferred tax liabilities.

Other Non-Current Assets decreased by 19% or PhP 580 million

The decrease in Other Non-Current Assets was mainly due to the release of GMCAC's "Cash Flow Waterfall Accounts" as required under the Omnibus Loan and Security Agreement in payment for GMCAC's maturing loans.

LIABILITIES AND EQUITY

Current Liabilities decreased by 6% or PhP 1.79 billion

The following discussion provides a detailed analysis of the decrease in current liabilities:

Interest-Bearing Loans and Borrowings-Current decreased by 11% or PhP 1.57 million

The decrease in short-term loans and borrowings was related to the payment of short-term loans for the Clark Airport project upon collection of the portion of receivables from the said project. Payment was made in accordance with the terms of the loan agreement.

Trade and Other Payables increased by 2% or by PhP 124 million

The increase was mainly due to volume and timing of purchases and payments to suppliers and subcontractors. Some invoices pertaining to delivery of construction materials were received and processed by end of year.

Contract liabilities decreased by 7% or PhP 337 million

The decrease in contract liabilities was related to recoupment for ongoing projects.

Other Current Liabilities decreased by 1% or by PhP 2 million

The decrease in other current liabilities was attributed to the net decrease in VAT payable of the Group, particularly for the airport segment.

Non-Current Liabilities decreased by PhP 159 million

The following discussion provides a detailed analysis of the decrease in non-current liabilities:

Interest-Bearing Loans and Borrowings-Non-Current decreased by PhP 262 million or 1%

The decrease in long-term loans and borrowings was due to reclassification of current portion of both GMCAC and MWMTI's long-term debt to current.

Post-employment defined benefit obligation increased by 1% or PhP 3 million

The increase was mainly related to the recognition of current service cost of GMCAC.

Deferred tax liabilities increased by 31% or PhP 189 million

The increase in deferred tax liabilities was traced to the impact on taxes of the recognition of additional revenue and finance cost in accordance with PFRS 16 as well as the airport's depreciation policy.

Other non-current liabilities decreased by 12% or PhP 90 million

The decrease the account was mainly due to application of security deposits on expired or cancelled contracts for the landport and airport operations.

Equity attributable to shareholders of the Parent Company increased by 21% or PhP 3 billion

The increase in equity was mainly the function of the proceeds received from the issuance of preferred shares amounting to PhP 4.3 billion, partially offset by the share buyback program of the Parent amounting to PhP 703 million, dividend payments to preferred stock shareholders, and net loss for the period.

FY2019 vs FY2018

Results of Operations

Review of results for the year ended December 31, 2019 as compared with the results for the year ended December 31, 2018

Megawide generated consolidated revenues of PhP 19.88 billion for the year 2019, 23% higher than PhP 16.15 billion posted in 2018. Megawide also recorded consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) of PhP 4.81 billion, 9% more than the previous year. This was driven by airport operations, which recorded a 10% growth to PhP 2.33 billion and contributed 48% to total, and construction, which grew to PhP 2.25 billion from PhP 2.18 billion last year and comprised 47% of the total. The remaining 5% came from the combined terminal and merchandising operations. The Company's net profit came in at PhP 1.11 billion, of which 55% or PhP 609 million was delivered by airport operations and merchandising segments, while the remaining 45% was from the construction and terminal businesses. Overall, the 2019 results were fueled by the recovery in construction, sustained momentum from airport operations, and initial contribution from landport operations.

Revenues increased by 24% or by PhP 3.89 billion

The Company's consolidated revenues increased by Php 3.89 billion or 24% in 2019 due to improving contributions across all business segments.

Construction

The construction segment contributed 77% of the Group's total revenue, amounting to PhP 15.31 billion against PhP 12.69 billion in the previous year. Revenues for the year increased by PhP 2.62 billion or 21% as a result of ramp up in construction activities in 2019. Major projects undertaken during the year includes Clark International Airport, 8990's Housing Development's Ortigas and Tondo,

Araneta's Gateway Mall, Megaworld's Worldwide Plaza, Albany Luxury Residences, One Fintech, 8 Sunset Boulevard, International Finance Center and Double Dragon projects.

The new contracts secured in 2019 reached PhP 19.42 billion, which included Megaworld's Gentry Manor, One Fintech Tower, Eight Sunset District, Empire East Skymall, House Project, Suntrust Finance Center, Two Mcwest, Newport Link and La Victoria Project, 8990 Holdings' 8990 Cubao project, and Emerald Rich Properties' the Corner House Project.

At end of the year, order book remained very healthy and stood at PhP 52.40 billion which provides revenue visibility for the next 2 to 3 years. In terms of mix, residential projects comprised 50%, office and commercial at 47%, while infrastructure projects and facilities contributed the remaining 3%, mostly attributable to the Clark International Airport EPC contract.

Airport Operations

Airport operations delivered revenues of PhP 3.69 billion and contributed 19% to the total consolidated revenue in 2019. Revenues for the year increased by 23% or PhP 695 million compared with 2018, driven largely by the 10% growth in total passenger volume to 12.66 million passengers, with international and domestic passengers growing 11% and 9%, respectively. Domestic passengers comprised 66% of the total passenger mix while international passengers comprised 34%. Air traffic volume likewise increased by 6% with international traffic increasing by 12% and domestic traffic improving by 4%.

The over-all increase in passenger and air traffic was attributed to new airline partners as well as new routes in both international and domestic segments. Thirteen new international destinations such as China Southern's Guangzhou, Juneyao Airlines' Shanghai, Philippine AirAsia's Macau, Kaohsiung and Taipei, Philippine Airline PR's Nagoya, Cebu Pacific Air's Shanghai, Cathay Pacific's Hongkong, Xiamen Air's Chengdu and Quanzhou, Silk Air's Singapore, Jeju Air's Daegu and Air Busan's Incheon. Meanwhile, 6 new domestic destinations were added this year such as Royal Air Philippines' Manila, Davao, Puerto Princesa, Cagayan and Boracay, and Cebu Pacific's Busuanga.

Airport Merchandising

Meanwhile, airport merchandising contributed 2% to consolidated revenue last year with a year-on-year growth of 13% or PhP 36 million. The additional space from the partial completion of Terminal 1 and existing presence in Terminal 2 are expected to improve the airport merchandising contribution moving forward.

Terminal Operations

The terminal operations posted a revenue PhP 555 million from an almost insignificant amount of PhP 18 million in 2018. Revenue mainly came from leases received from concessioners in the terminal area and office tower tenants. As of end of 2019, 71% of the terminal space were leased out to concessionaires, of which 30% had already commenced operations. In 2019, PITx completed the construction of 4-tower, 5-storey office complex, each with a gross leasable area of 19,225 square meters, for a total of 76,903 square meters. All towers have been contracted for a period of five years. Since its opening last November 2018, passenger foot traffic in the terminal grew to an average of 67,968 passengers daily by the end of 2019 from less than 5,000 at the start of operations. In addition, the number of trips originating from the terminal increased from less than 500 daily in November 2018, which were limited only to buses, to almost 5,200 trips daily, now comprised of city, provincial and long-haul buses, modern and traditional jeepneys, and domestic shuttle services.

Direct Costs increased by 29% or by PhP 3.44 billion

The movement in direct cost was consistent with the movement in revenue across all 3 segments, taking into consideration the higher construction revenue and full year impact on the take up of depreciation on the opening of MCIAs Terminal 2 and additional costs to operate it.

Gross Profit increased by 7% or by PhP 296 million

Consolidated gross profit amounted to PhP 4.63 billion in 2019 and translated to a consolidated gross profit margin of 23%. Construction gross profit increased by PhP 113 million, or 6%, to PhP 2.02 billion. Airport operations grew by PhP 100 million, or 5%, to PhP 2.15 billion while airport merchandising grew by PhP 18 million, or 8%, to PhP 238 million. Terminal operations gross profit accelerated to PhP 244 million as revenue stream from concessionaires and office towers commenced last year.

Other Operating Expenses increased by 41% or PhP 531 million

Other operating expenses amounted to PhP 1.81 billion in 2019 and was largely attributable to overhead expenses associated with the full year of MCIAs Terminal 2 operations, which opened in July 2018, and the PITx terminal operation, which were consolidated beginning August 2018 only.

Other Income (Charges) increased by PhP 897 million or 175%

Other income (charges), which consists of finance cost, finance income, and other income (expenses), increased due to higher finance costs related to loan availments of the airport segment, which can no longer be capitalized after completion of Terminal 2 in 2018, and rehabilitation of Terminal 1 in 2019. In 2019, PITx and Clark Airport Project likewise made additional drawdowns totaling to PhP 6 billion. Also, the Company availed loans to finance its working capital and capital expenditure program.

Tax Expense decreased by PhP 169 million or 34%

Consolidated tax expenses declined primarily due to reversal of temporary difference in construction segment as a result of write-off of its receivables in which doubtful accounts expense were recognized in the previous years.

Financial Condition

Review of financial conditions as of December 31, 2019 as compared with financial conditions as of December 31, 2018

ASSETS

Current Assets increased by 43% or by PhP 10.68 billion

The following discussion provides a detailed analysis of the increase in current assets:

Cash and Cash Equivalents increased by 14% or PhP 784 million

The increase in cash and cash equivalents is due to higher operating cash inflow from the airport and terminal operations segments and financing availments during the period.

Trade and Other Receivables increased by 70% or by PhP 7.16 billion

The construction receivables increased by PhP 3.27 billion mainly related to the increase in Clark Airport project's receivable amounting to PhP 3 billion, which payment terms are based on milestones as indicated in the contract. Airport operations recorded an increase in receivables by PhP 293 million in line with the increase in revenue. Terminal operations posted higher receivables by PhP 524 million (of which PhP 382 million is related to Philippine Accounting Standard (PAS) 17 adjustment on leases). Advances to affiliates increased in 2019 to incubate new businesses and support the Group's overall

long-term growth programs and objectives, with related fees charged on and accrued to the outstanding advances.

Construction Materials increased by 49% or by PhP 422 million

The increase is due to work-in-progress materials in site that were released to subcontractors but were not yet installed as of the end of year.

Contract assets increased by 30% or PhP 915 million

The increase is in line with increased order book and typical of most projects considered at its early phase, which started in 2019.

Other Current Assets increased by 29% or by PhP 1.42 billion

The increase is mainly due to downpayments made to suppliers during the year for newly started projects and the increase in prepaid taxes of the Company due to application of PhP 406 million write-off of receivables against its taxable income. Deferred fulfillment costs decreased as contracts have been executed or partially fulfilled in 2019.

Non-Current Assets increased by 10% or by PhP 4.18 billion

The following discussion provides a detailed analysis of the increase in non-current assets:

Investments in Associates increased by 4% or by PhP 33 million

The increase is due to equity share in earnings on the Group's investment.

Concession Assets increased by 4% or PhP 1.15 billion

The increase is due to capital investments of GMCAC related to rehabilitation of the Terminal 1 of MCI.

Property, Plant and Equipment increased by 45% or by PhP 2.47 billion

The Group procured new construction equipment, mobilized new batching plants, and expanded precast capacity in 2019 to support the internal requirements of the construction segment and expand its external market in the future. In addition, the Company acquired the property lot where its N. Domingo head office is located.

Investment Properties increased by 12% or by PhP 427 million

The increase is mainly due to additional capital investment for commercial spaces in 2019 in PITx. MWMTI has a CA with the government to build and operate the PITx for thirty-five (35) years, which also allows for the construction and development of office buildings and commercial establishments recorded as investment in properties in the books of MWMTI. The terminal was inaugurated, and started operations in November 2018, with its commercial spaces and office towers completed in 2019.

Other Non-Current Assets increased by 2% or by PhP 60 million

The increase is due to the additional placement of unrestricted cash in the restricted funds of GMCAC's "Cash Flow Waterfall Accounts" as required under the Omnibus Loan and Security Agreement to match the new loan availments of GMCAC.

LIABILITIES AND EQUITY

Current Liabilities increased by 69% or by PhP 11.43 billion

The following discussion provides a detailed analysis of the increase in current liabilities:

Interest-Bearing Loans and Borrowings-Current increased by 129% or by PhP 8.27 billion

The increase is due to the availment of short-term loans of the Company and MGCJV, Inc. to support working capital expenditures and the construction of the Clark Airport project, respectively. MGCJV, Inc. is the joint venture of Megawide and GMR Group established to construct the new Clark International Airport. In addition, maturing portion of GMCAC's loan in 2020 amounting to PhP 544 million was reclassified to current loan from long term debt.

Trade and Other Payables increased by 56% or PhP 2.92 billion

The increase is mainly due to volume and timing of purchases and payments to suppliers and subcontractors as well as an increase in retention payable by the Company. Certain invoices, mostly related to steel, have been delivered, invoiced or were recently processed by end of year. In addition, dividends payable amounting to PhP 240 million were recorded upon declaration of cash dividends to common shareholders in December 2019.

Contract liabilities increased by 6% or PhP 261 million

The increase is mainly related to additional PhP 960 million net downpayments received by the Company for its new projects like Mandani Bay, Double Dragon tower, Gentry Manor and International Finance Center. This was reduced by the decrease from o the catch-up of cost billing of subcontractors for certain projects, which were completed in 2019. This includes One Manchester project, Delta Phase 2, and BGC Flats.

Other Current Liabilities decreased by 6% or by PhP 14 million

The decrease mainly relates to the decrease in withholding taxes.

Non-Current Liabilities increased by 11% or by PhP 3.43 billion

The following discussion provides a detailed analysis of the increase in non-current liabilities:

Interest-Bearing Loans and Borrowings-Non-Current increased by 9% or by PhP 2.70 billion

The increase is mainly due to loan availments of PITx to fund the construction of its terminal. This was reduced by reclassification of current portion of airport loans amounting to PhP 544 million.

Post-employment defined benefit obligation increased by PhP 163 million or 92%

The increase is due to the recognition of current service cost and interest cost amounting to PhP 49 million and the recognition of re-measurement on actuarial losses based on changes in financial assumptions of the actuary.

Deferred tax liabilities increased by 46% or by PhP 193 million

The increase is due to reversal of temporary difference on impairment losses on trade receivables and additional temporary differences for its post-employment defined benefit obligation, effect of significant financing component and amortization of concession assets.

Other non-current liabilities increased by 101% or by PhP 373 million

The increase pertains to security deposits and advance rentals received by PITx from its concessionaire and office towers tenants and was reduced by payment of retention payable of GMCAC related to the construction of the MCI Terminal 2.

Equity attributable to Company decreased by 1% or PhP 206 million

The decrease is the function of the Company's net profit attributable to the Company recognized for the period offset by the Company's share buyback program and dividend payments to common and preferred stock shareholders.

Material Events and Uncertainties

There are no other material changes in Megawide's financial position by five percent (5%) or more and no condition that will warrant a more detailed discussion. Further, there are no material events and uncertainties known to management that would impact or change the reported financial information and condition of Megawide.

Other than the impact of COVID-19 on the business which is disclosed in Note 1.3 of the consolidated audited financial statements or **Exhibit "2"**, there are no known trends or demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in increasing or decreasing Megawide's liquidity in any material way. Megawide does not anticipate having any cash flow or liquidity problems. It is not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring it to make payments.

There are no material off-balance transactions, arrangements, obligations (including contingent obligations), and other relationships of Megawide with unconsolidated entities or other persons created during the reporting period.

Megawide has a capital commitment to utilize the proceeds from the issuance of its preferred shares amounting to Two Billion Six Hundred Forty-Four Million Six Hundred Sixty-Six Thousand Four Hundred Sixty-Two Pesos (PhP 2,644,666,462.00) for various PPP projects. Other than that, there are no material commitments for capital expenditures, events or uncertainties that have had or that are reasonably expected to have a material impact on the continuing operations of Megawide.

There were no seasonal aspects that had a material effect on the financial condition or results of operations of Megawide.

There are no material events subsequent to December 31, 2021 that have not been reflected in the consolidated audited financial statements or **Exhibit "2"** of the Company.

Liquidity and Capital Resources

As regards internal and external sources of liquidity, the Company's funding is sourced from internally generated cash flows, and also from borrowings or available credit facilities from other local and international commercial banks.

There is no material commitment for capital expenditures other than those performed in the ordinary course of trade or business. Additionally, there is no significant element of income not arising from continuing operations.

There have not been any seasonal aspects that had a material effect on the financial condition or results of operations of Megawide.

Cash Flows

The following table sets forth information from Megawide's pro forma statements of cash flows for the period indicated:

(Amounts in PhP Millions)	For the years ended December 31		
	2021	2020	2019
Cash Flow			
Net cash provided by operating activities	1,356	2,735	1,110
Net cash used in investing activities	(1,829)	(1,515)	(5,037)
Net cash provided by financing activities	(895)	(509)	4,715

Key Performance Indicators (KPIs)

Megawide's KPIs are as follows:

Amounts in Php Billion, except Ratios and Earnings per Share	2021	2020	2019
Construction Order Backlog	PhP 60.01	PhP 68.44	PhP 52.40
Current Ratio ¹	1.45	1.53	1.27
Net Debt to Equity Ratio ²	2.27	1.89	2.29
Book Value Per Share ³	2.13	4.49	5.02

Return on Assets ⁵	-0.01	-0.01	0.02
Return on Equity ⁶	-0.04	-0.05	0.06
Gross Profit Margin ⁷	0.18	0.19	0.23

The KPIs were chosen to provide management with a measure of Megawide's sustainability on revenue growth (Construction Orders Backlog) financial strength (Current Ratio and Debt to Equity Ratio), and profitability (Earnings per Share, Return on Assets, Return on Equity, Gross Profit Margin).

Construction Orders Backlog corresponds to the value of any unfinished project phases. This provides a basis for near-term future sources of production and revenues for Megawide. Construction Order Backlog tends to increase when booked construction contracts or orders increase. A larger Construction Order Backlog is indicative of higher profits in the future.

Risk Management Objectives and Policies

Megawide is exposed to a variety of financial risks in relation to its financial instruments. Its risk management is coordinated with the Board of Directors and focuses on actively securing Megawide's short-to-medium term cash flows by minimizing the exposure to financial markets.

¹ Current Assets/Current Liabilities

² Interest bearing loans and borrowings less cash and cash equivalents and financial assets valued through profit or loss/Stockholder's Equity

³ Total Equity/Issued and Outstanding Shares

⁴ Net Profit/Issued and Outstanding Shares

⁵ Net Profit/Average Shares

⁶ Net Profit/Average Equity

⁷ Gross Profit/Revenue

Megawide does not engage in the trading of financial assets for speculative purposes nor does it write options. The most significant financial risks to which it is exposed to are market risk, credit risk and liquidity risk. The detailed discussion of the impact of these risks are discussed in Note 32 of the consolidated audited financial statements or **Exhibit “2”**.

Item 7. Financial Statements

Megawide’s audited financial statements and the supplementary schedules to the same, which were submitted to the Bureau of Internal Revenue are attached hereto as **Exhibit “2”**.

Item 8. Changes in and Disagreements with External Accountants on Accounting and Financial Disclosure

External Audit Fees and Services

The following table sets out the aggregate fees billed for each of the last three (3) fiscal years for professional services rendered by Megawide’s external auditors:

Particulars	Nature	Audit Fees (amounts in PhP) For the years ended December 31		
		2021	2020	2019
Punongbayan & Araullo	Audit of Financial Statements	3,535,000.00	3,346,250.00	2,875,000.00

Punongbayan & Araullo	Transfer Pricing Documentations and Review of Information Return	2,600,000.00	-	-
Punongbayan & Araullo	Agreed Upon Procedures (PCAB Renewal)	35,000.00	35,000.00	-
Punongbayan & Araullo	Benchmarking of Accounting Policies and Procedures	-	-	900,000.00
Punongbayan & Araullo	Q1 and Q2 Consolidated Financial Statements Review and Prospectus Circle-Up (for Preferred Shares Offering)	3,500,000.00	3,500,000.00	-
Punongbayan & Araullo	Quarterly Review of Financial Statements	-	-	300,000.00
Punongbayan & Araullo	Tax Opinion on Development Projects	100,000.00	250,000.00	580,000.00
SyCip Gorres Velayo & Co. (SGV)	Audit of Financial Statements of GMCAC	1,339,000.00	1,339,000.00	1,300,000.00

The Board’s Audit and Compliance Committee (ACC) Pre-Approval Policy

The ACC is composed of Mr. Celso P. Vivas, *Chairman of the ACC*, Mr. Leonilo G. Coronel, *Vice Chairman of the ACC*, former Chief Justice Hilario G. Davide, Jr., Mr. Alfredo E. Pascual, and Mr. Oliver Y. Tan.

The ACC is required to pre-approve all audit and non-audit services to be rendered by independent accountants and approve the engagement fee and any other compensation to be paid to such independent accountants. When deciding whether to approve these items, the ACC takes into account whether the provision of any non-audit service is compatible with the independence standards under the guidelines of the SEC. To assist in this undertaking, the ACC communicates with the external auditors with regard to any relationship or services that may impact their objectivity and independence and, if appropriate, recommends that the Board take the necessary action to ensure their independence.

Changes in and Disagreements with External Accountants on Accounting and Financial Disclosure

The name of the handling partner for the auditor of Megawide is as follows:

Auditor	Year	Handling Partner
Punongbayan & Araullo	2021 and 2020	2017 to 2021 – <i>Mailene Sigue-Bisnar</i>

Megawide did not have any disagreements with its internal auditors or independent accountants on any matter of accounting principles or practices, financial statements, disclosures, or auditing scope or procedures.

PART III – CONTROL AND COMPENSATION INFORMATION

Item 9. Directors and Executive Officers of Megawide

Directors and Executive Officers

As of December 31, 2021, Megawide is governed by a Board of seven (7) directors, composed of the following:

1. Mr. Edgar B. Saavedra, *Chairman of the Board, CEO, and President;*
2. Mr. Manuel Louie B. Ferrer, *Vice-Chairman of the Board, Executive Director of Infrastructure Development, and Chief Corporate Affairs and Branding Officer;*
3. Mr. Oliver Y. Tan, *Director;*
4. Mr. Ramon H. Diaz, *Executive Director and Group Chief Financial Officer;*
5. Former Chief Justice Hilario G. Davide, Jr., *Independent Director;*
6. Mr. Celso P. Vivas, *Independent Director;* and
7. Mr. Alfredo E. Pascual, *Independent Director.*

Moreover, Megawide’s management team is also headed by Mr. Edgar B. Saavedra, a licensed civil engineer, who has been practicing for over twenty (20) years.

The directors shall hold office for one (1) year or until their successors are elected and qualified. The first directors are also the incorporators. The annual meeting of the stockholders shall be held every June 30 of each year.

The Board is responsible for the direction and control of the business affairs and management of Megawide, and the preservation of its assets and properties. No person can be elected as director of Megawide unless he or she is a registered owner of at least 1 voting share of Megawide.

Pursuant to SEC Memorandum Circular (M.C.) No. 19, Series of 2016, the Company adopted its New Manual on Corporate Governance (Manual). In accordance with Section VI (5) (a) of the Manual, the Board shall have at least three (3) independent directors, or such number as to constitute at least one-third (1/3) of the members of the Board, whichever is higher. At present, four (4) members of the Board are independent directors.

Meanwhile, the Amended Articles of Incorporation and By-Laws of Megawide provide that the seven (7) directors shall include such number of independent directors as may be required by law.

Board of Directors

The following provides the information on each Member of Megawide's Board of Directors, as of December 31, 2021, including their current directorships and positions in other companies, previous business experience, and educational background:

Manuel Louie B. Ferrer	<i>Member</i>	4	4

Significant Employees

No single person is expected to make a significant contribution to the business, since Megawide considers the collective efforts of all its employees as instrumental to the overall success of its performance.

Family Relationships

None of the directors are related to each other.

Involvement in Certain Legal Proceedings

During the past five (5) years, Megawide is not aware of the occurrence of any of the following events that are material to the evaluation of the ability or integrity of any director or executive officer:

1. Any bankruptcy petition filed by or against any director, or any business of a director, nominee for election as director, or executive officer who was a director, general partner or executive officer of said business either at the time of the bankruptcy or within 2 years prior to that time;
2. Any director, nominee for election as director, or executive officer being convicted by final judgment in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses;
3. Any director, nominee for election as director, or executive officer being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and
4. Any director, nominee for election as director, or executive officer being found by a domestic or foreign court of competent jurisdiction (in a civil action), the SEC or comparable foreign body, or a domestic or foreign exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law or regulation, and the judgment has not been reversed, suspended, or vacated.

Item 10. Executive Compensation

All Directors and Officers as a Group

SUMMARY COMPENSATION TABLE

Edgar B. Saavedra Chairman, CEO, and President				
Manuel Louie B. Ferrer Chief Corporate Affairs and Branding Officer				
Markus Hennig EVP – Business Units				
Sean Farrel				

VP – Construction Operations Maria Belinda Morales Chief Human Resources Officer				
CEO & Aggregate compensation paid to all other officers and directors as a group unnamed	2021	177.63	20.49	7.24
	2020	210.47	24.81	4.58
	2019	199.83	6.72	10.28

Compensation of Directors

Under the By-Laws of Megawide, by resolution of the Board, each director, shall receive a reasonable per diem allowance for his attendance at each Board meeting. As compensation, the Board shall receive and allocate an amount of not more than ten percent (10%) of the net income before income tax of the Company during the preceding year. Such compensation shall be determined and apportioned among directors in such manner as the Board may deem proper, subject to the approval of stockholders representing at least majority of the outstanding capital stock at a regular or special meeting of the stockholders.

On November 4, 2011, the Board, upon recommendation of the Governance, Nominations, and Compensation Committee, approved the giving of Twenty Thousand Pesos (PhP 20,000.00) Director’s per diem, per Board meeting, and a Thirty Thousand Pesos (PhP 30,000.00) monthly allowance in the form of reimbursable expenses for each regular director.

Subsequently, on October 10, 2018, the Board resolved to increase the director’s per diem, per Board meeting, to Forty-Four Thousand Pesos (PhP 44,000.00) for Executive Directors, Sixty-Two Thousand Pesos (PhP 62,000.00) for Non-Executive Directors, and Fifty-Eight Thousand Pesos (PhP 58,000.00) for Independent Directors. The total per diem paid to Directors for the year ending December 31, 2021 was Four Million Four Hundred Ten Thousand Pesos (PhP 4,410,000.00).

Standard Arrangements and Other Arrangements

There are no other arrangements for compensation either by way of payments for committee participation or special assignments other than reasonable per diem. There are also no outstanding warrants or options held by Megawide’s CEO, other officers and/or directors.

Employment Contracts, Termination of Employment, Change-in-Control Arrangements

While the Company has no special retirement plans for its employees, it provides retirement benefits in accordance with R.A. No. 7641 or the “Retirement Pay Law”, and other applicable laws, rules and regulations. Also, there is no existing arrangement with regard to compensation to be received by any executive officer from Megawide in the event of a change in control of the Company. Aside from its employees, Megawide has also entered into employment contracts with its foreign experts. The contracts with foreign nationals usually include benefits, such as housing, medical and group life insurance, vacation leaves, and company vehicle. Further, employment contracts include provisions regarding Megawide’s ownership of any invention developed during the course of employment, liquidated damages in the event of contract pre-termination, and a non-compete clause prohibiting

the employee, for a period of one (1) year after the termination of the contract, from engaging, directly or indirectly, for himself or on behalf of or in conjunction with any person, corporation, partnership or other business entity that is connected with the business of Megawide.

Warrants and Options

There are no outstanding warrants and options held by any of Megawide’s directors and executive officers.

Item 11. Security Ownership of Certain Beneficial Owners and Management

Security Ownership of Certain Owners of Record and Beneficial Owners

Owners of record of more than five percent (5%) of Megawide’s shares of stock as of December 31, 2021 are as follows:

Title of Class	Name & Address of Record Owner & Relationship with Issuer	Name of Beneficial Owner & Relationship with Record Owner	Citizen ship	Number of Shares Held	Percent (%)
Common	Citicore Holdings Investment Inc. – Stockholder No. 20 N. Domingo Street, Barangay Valencia, Quezon City	Edgar B. Saavedra Mr. Saavedra is the majority stockholder of Citicore.	Filipino	712,925,501	35.41%

PART IV – CORPORATE GOVERNANCE

Item 13. Corporate Governance

It is the firm belief of Megawide that an organization that faithfully practices and implements the core principles of good corporate governance such as honesty, integrity, fairness, accountability, and transparency will, more often than not, outperform and outshine its competitors. Thus, Megawide is in full compliance with the rules and regulations of the SEC, the PSE, and all other relevant rules and regulations, especially those involving public-listed companies.

Below are some of the Company's policies and programs in relation to corporate governance:

1. In compliance with SEC M.C. No. 19, Series of 2016, Megawide adopted its New Manual and has taken several steps to apply its principles, such as constituting all the Board Committees required therein:
 - i. Executive Committee;
 - ii. Finance Committee;
 - iii. Audit and Compliance Committee;
 - iv. Risk Oversight Committee; and
 - v. Governance, Nomination, and Compensation Committee.

The charters and compositions of the foregoing Board Committees are in accordance with the Manual.

2. The Company has elected four (4) Independent Directors to ensure that the Board will protect, not only the interests of the Company, but its shareholders as well.
3. To further its corporate governance initiatives, Megawide, in 2018, implemented its Code of Business Conduct and Ethics, Code of Conduct and Ethical Standards for Suppliers, Insider Trading Policy, and Conflict of Interest Policy Supplemental Guidelines and Conflict of Interest Disclosure Form. Further, Megawide actively rolled out its Whistleblowing Policy to its

employees, suppliers, vendors, and clients, to encourage the disclosure of illegal and dishonest activities occurring within the Company.

4. In 2019, Megawide adopted its Anti-Fraud Policy, Board Self-Evaluation Policy, and introduced changes to its Related Party Transactions Policy in compliance with SEC M.C. No. 10 series of 2019. It also conducted an Annual Corporate Governance Training on November 13, 2019, with the assistance of the Institute of Corporate Directors, which was attended by the Company's Directors and key officers.
5. The Board revised the Company's vision, mission, and values, which it launched in 2019.
6. To reinforce the Megawide's adherence to good corporate governance, and in compliance with its Manual and SEC M.C. No. 04, Series of 2019, attached is the Company's Sustainability Report as **Exhibit "3"**.
7. The Company received the 2019 ASEAN Asset Class PLCs (Philippines) award in relation to its 2019 ASEAN Corporate Governance Scorecard (ACGS), where Megawide obtained a score of ninety-eight and 47/100 (98.47). The Company was also recognized by the Institute of Corporate Directors (ICD) with two (2) Golden Arrow Awards and was identified as the most improved publicly-listed Company in the Philippines in terms of corporate governance.
8. Meanwhile, for the 2020 ACGS, Megawide received a score of one hundred two and 22/100 (102.22), which represents an increase of three and 75/100 (3.75) points from 2019.
9. Additionally, for 2020, Megawide amended its governance structure and created several management committees, including their charters and procedures, for the proper management and control of the Company. Similarly, Megawide established the governance structures of its subsidiaries, such as MWMTI, Cebu2World, and Wide-Horizons. Moreover, the Company implemented an Enterprise Risk Management Framework and a Risk-Based Internal Audit approach.
10. On November 17, 2020, the Company conducted a seminar on the Data Privacy Act and its implementing rules and regulations, to remind its employees of their obligations and responsibilities therein.
11. Pursuant to its annual compliance procedures, the Company, in 2020, required its employees to complete the Conflict of Interest Disclosure Form to ensure that all conflicts of interest are disclosed.
12. The results of the annual Board self-evaluation for 2020 was discussed and deliberated during the Governance, Nominations, and Compensation Committee held last March 04, 2021. The said results shall remain confidential. Thereafter, the Board was informed that the annual self-evaluation forms for 2021 will be transmitted to them.
13. The Company conducted its Annual Corporate Governance Training for its Directors and key officers, with the Institute of Corporate Directors, last April 22, 2021. The topics discussed were: (a) Building Resilience in the Business Strategy; (b) Business Integrity and Corporate Culture; (c) Environmental, Social, and Governance; and (d) Digital Transformation. Moreover, the Company held an internal seminar on Corporate Governance on July 16, 2021, wherein its *Chief Legal Officer, Compliance Officer, and Data Protection Officer*, Atty Raymund Jay S. Gomez, was the instructor.

14. Megawide is committed to complying with Republic Act No. 10173 or the Data Privacy Act, its Implementing Rules and Regulations, and other related government issuances (the “Data Protection Laws”). As such, Megawide continues to regard data privacy seriously by conducting orientation for new hires on the Data Protection Laws to guarantee employee awareness. During the said orientation, the Legal Department informs the new employees of their rights and obligations under the Data Protection Laws, including the data privacy measures being implemented by Megawide.
15. The Company also adheres with the regulatory requirements on corporate governance through the timely submission of its Integrated Annual Corporate Governance Report with the SEC and the regular updating of its corporate website (www.megawide.com.ph).

A full discussion on the corporate governance practices of Megawide are also provided and explained in its Integrated Annual Corporate Governance Report (I-ACGR).

PART V – EXHIBITS AND SCHEDULES

Item 14. Exhibits and Reports on SEC Form 17-C

Exhibits

- | | |

| Exhibit “1” | List of PCD Participants as of December 31, 2021 |
| Exhibit “2” | Consolidated Audited Financial Statements and Schedules |
| Exhibit “3” | Sustainability Report |

Material Contracts

Megawide’s principal contracts generally consist of construction contracts for its projects, PPP contracts, operating and finance lease commitments, contract of the lease of its office spaces, motor pool and equipment yard, surety arrangement and guarantees, and joint venture agreements. Megawide also has existing loan agreements. Other than these, Megawide is not a party to any contract of any material importance and outside the usual course of business, and the directors do not know of any such contract involving Megawide.

Construction Contracts

Majority of Megawide’s contracts are general construction works and may be classified into several scopes, namely: site development, earthworks, structural and civil works, masonry works, architectural finishes, electrical works, plumbing and sanitary works, fire protection works, and mechanical works.

These construction contracts generally contain a warranty from Megawide that it shall be responsible for and shall indemnify and hold the customer free and harmless from and against all losses, expenses, judgments, court costs, attorney’s fees, demands, payments, suits, actions, recoveries, decrees, execution and claims of every nature and description brought about and/or recovered through the said contracts. Payment of liquidated damages, computed at one-tenth (1/10) of one percent (1%) of the total contract price, up to a maximum of ten percent (10%) of the total contract amount, per calendar day of delay, is also stipulated.

As for the manner of payment, the customer generally pays the downpayment upon submission of certain documents (e.g. bonds) while the balance is paid through monthly progress payments upon Megawide's submission of monthly progress billing. These monthly payments are subject to ten percent (10%) retention to be released upon the lapse of a certain amount of time after the completion and/or turn-over of the project.

Upon complete turn-over of the projects, Megawide, under the foregoing construction contracts, is required to post bonds to guarantee any defects, except those from the ordinary wear and tear or not attributable to Megawide, that may occur within one (1) year from acceptance.

PPP Contracts

Megawide, on its own and through its subsidiaries and affiliates, executed the following agreements relative to its PPP Projects:

1. Agreements executed by the Department of Education and CMCI for the PSIP I Projects

- a. Build Lease Transfer Agreement (for Package B) dated October 8, 2012 with a contract price of Five Billion Two Hundred Twenty-Nine Million Eight Hundred Ninety-Nine Thousand One Hundred Thirty-Six Pesos (Php 5,229,899,136.00) for the construction of school buildings in Region III; and
- b. Build Lease Transfer Agreement (for Package C) dated October 8, 2012 with a contract price of Seven Billion Two Hundred Twenty-Nine Million Eight Hundred Ninety-Nine Thousand One Hundred Thirty-Six Pesos (Php 7,229,899,136.00) for the construction of school buildings in Region IV-A.

The PSIP involves the construction, maintenance and lease of school buildings under a Build-Lease Transfer (BLT) framework. Under the BLT, CMCI will build over seven thousand (7,000) classrooms then lease the same to DEPED for ten (10) years before transferring the school buildings to DEPED. Megawide finished the construction of these classrooms in 2015.

2. Agreement executed by the Department of Education and Megawide for the PSIP II Projects

On October 17, 2013, Megawide executed a Build Transfer Agreement with the DEPED for the construction of school buildings in Regions I, II, III and CAR with contract price of Two Billion Two Hundred Fifty-Five Million Nine Hundred Twenty-Three Thousand Ninety-Six and 49/100 Pesos (Php 2,255,923,096.49).

3. Concession Agreement executed by GMCAC with DOTr and MCIAA

The Concession Agreement, dated April 21, 2014, refers to the agreement entered into by GMCAC with DOTr and MCIA by virtue of Revised Implementing Rules and Regulations of R.A. No. 6957, "An Act Authorizing the Financing, Construction, Operation and Maintenance of Infrastructure Projects by the Private Sector and for Other Purposes", as Amended by R.A. No. 7718 (BOT Law). Under the said agreement, GMCAC was granted by DOTr and MCIA an exclusive right to design, develop, and undertake the MCIA Project; and enjoy complete and uninterrupted possession of all movable and immovable assets for purposes of implementing the Project, whether tangible or intangible pertaining to concessionaire Operations and Maintenance (O&M) Facilities such as the existing assets, project land, assets produced, installed, built and created pursuant to the Concession Agreement, commercial assets, among

others, (collectively referred as Project Assets). The Concession Agreement is for a period of twenty-five (25) years commencing on O&M start date unless further extended pursuant to the Concession Agreement.

The MCIA Project is comprised of the following undertakings:

- Construction of Terminal 2 (T2), along with all Associated Facilities;
- Renovation and expansion, but not the demolition of Terminal 1 (T1) and Associated Facilities;
- Complete reconstruction of Terminal 2 Apron (T2 Apron);
- Capacity Augmentation;
- Development of Commercial Assets; and,
- Operation and Maintenance of the Concessionaire O&M Facilities and Commercial Assets.

4. Concession Agreement executed between MWMTI and DOTr

On April 24, 2015, MWMTI, entered into a BOT agreement with the DOTr to undertake the PITx project. Upon completion of the project, MWMTI shall operate and maintain the facility, which is divided into terminal and commercial areas, within the agreed concession period of thirty-five (35) years from the date of the completion of the construction, which is equivalent to eighteen (18) months. MWMTI shall then turnover the facility to the DOTr at the end of the concession period.

5. Joint Venture Agreement executed between Megawide and the City of Cebu

On January 11, 2021, Megawide entered into a JVA with the City of Cebu to undertake the redevelopment of the Cebu Carbon Market District. Under the JVA, Megawide shall develop the Cebu Carbon Market district and operate the commercial spaces, other than the public market, for a concession period of fifty (50) years from the execution of the JVA and renewable for another twenty-five (25) years. Upon completion of the concession period, Megawide shall transfer the assets to the City of Cebu.

Reports on SEC Form 17-C**

On March 17, 2020, the SEC issued a Notice for “Filing of Structured Reports, Current Reports and Communications with the Securities and Exchange Commission” dispensing the requirement of filing a separate SEC Form 17-C during the implementation of the community quarantine over the Philippines. Thus, all reports filed with the PSE during the community quarantine are considered as having been filed with the SEC.

All reports may be found on the PSE’s EDGE:

Consolidated Financial Statements and
Independent Auditors' Report

**Megawide Construction Corporation
and Subsidiaries**

December 31, 2021, 2020 and 2019
(With Corresponding Figures as of January 1, 2020)

April 8, 2022

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of **Megawide Construction Corp. and its subsidiaries** (the Group) is responsible for the preparation and fair presentation of the financial statements for the years ended December 31, 2021, 2020 and 2019, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

The Board of Directors reviews and approves the financial statements, including the schedules attached therein, and submits the same to the stockholders.

Punongbayan and Araullo, the independent auditors appointed by the stockholders, has audited the financial statements of the Group in accordance with Philippine Standards on Auditing, and in their report to the stockholders, have expressed their opinion on the fairness of presentation upon completion of such audit.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Megawide Construction Corporation and Subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2021 and 2020, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2021, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2021 in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 1 to the consolidated financial statements, which describes management's assessment of the continuing impact on the Group's consolidated financial statements of the business disruptions brought by the COVID-19 pandemic. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

(a) Revenue and Cost Recognition on Construction Contracts***Description of the Matter***

The Group's revenue from construction contracts and related cost of construction amounting to P14,329.5 million and P12,130.7 million, respectively, represents 92% of its total revenues and 94% of total direct costs in 2021. The Group uses the percentage of completion method to determine the appropriate amount of contract revenues to be recognized for the reporting period. It uses the input method (i.e., based on the Group's efforts or inputs to the satisfaction of a performance obligation) in determining the percentage-of-completion in accordance with PFRS 15, *Revenue from Contracts with Customers*.

In our view, the revenue and cost recognition of construction contracts is significant to our audit due to the materiality of the contract revenues to the total revenues of the Group, the complexity of the application of PFRS 15 in construction contracts, and the application of significant management judgment in determining when to recognize construction revenue and proper recognition of costs in estimating the stage of completion of the construction. An error in the application of the requirements of PFRS 15 and of management judgment and estimate could cause a material misstatement in the consolidated financial statements.

The basis of significant judgments and estimates are included in Notes 2 and 3 to the consolidated financial statements. In addition, the details of construction contract revenues and costs are disclosed in Notes 21 and 22 to the consolidated financial statements, respectively.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to revenue and cost recognition on construction contracts, which was considered to be a significant risk, included the following:

- Testing the design and operating effectiveness of the Group's processes and controls over the recognition and measurement of contract revenues and costs, including the related information technology general and application controls;
- Evaluating the appropriateness of the Group's revenue recognition on construction contracts based on the requirements of PFRS 15 which include the following:
 - reviewing significant construction contracts, including contractual terms and conditions to ensure these contracts are appropriately accounted for in accordance with PFRS 15;

- evaluating whether the methodology by which management determines the percentage of completion (i.e., input method) is appropriate and consistent with the Group's satisfaction of its performance obligation;
 - determining proper accounting for contract costs whether these are considered as incremental costs of obtaining a contract, costs to fulfil the contract or mobilization costs; and,
 - determining whether performance obligation is distinct for proper allocation of transaction price.
- Testing the schedules of contracts completed and on-going projects as of the end of the reporting period such as, but not limited to, verifying the mathematical accuracy of the schedules, agreeing beginning balances on a per project basis, recalculating ending balances based on incurred contract costs for the current period, and agreeing contract prices, on a sample basis, to construction contracts;
 - Testing completeness of contract costs by examining, on a sample basis, contract costs incurred during the period and tracing these costs to supporting documents such as bill of materials, billing invoices and receipts recognized and searching for unrecorded costs by examining subsequent disbursements related to the projects;
 - Comparing the percentage of completion used by the Group to the percentage of total costs incurred to date over the total estimated costs on the project and reconciling variances;
 - Recomputing total estimated cost as the product of total contract price and cost ratio derived from the examined contracts and comparing with project cost estimates certified by the Group's engineers;
 - Performing cut-off procedures to determine whether contract revenues and costs are recognized in the correct period by examining billing and supplier invoices near the end of the reporting period; and,
 - Performing analytical review procedures on contract revenues and costs, prior period estimates and consistency with the developments during the current period, stage of completion, and final forecast project results based on our expectations and investigating variances from our expectations.

(b) Impairment Assessment of Concession Assets

Description of the Matter

The Group identified that its Concession Agreement in relation to its Mactan Cebu International Airport (MCIA) Project is within the scope of IFRIC 12, *Service Concession Arrangements*, and shall be accounted under the intangible asset model as it receives the right (license) to charge users of the public service. As of December 31, 2021, the carrying value of the concession assets amounted to P30,503.8 million. As disclosed in Note 2 to the consolidated financial statements, the concession asset is recognized initially at cost and subsequently carried at cost less any accumulated amortization and accumulated impairment losses.

Under Philippine Accounting Standard (PAS) 36, *Impairment of Assets*, the Group is required to test for impairment of intangible assets when there is an indication that the asset maybe impaired while intangible assets not yet available for use are tested at least annually for impairment.

In our view, this matter is significant to our audit because the amount of concession assets is material to the consolidated financial statements, representing 36% of the Group's consolidated total assets, and the impact of COVID-19 to the Group's airport operations has been considered by management as an indicator of impairment of these assets. In addition, management's assessment process is highly judgmental and is based on significant assumptions, specifically in determining the recoverable amount of concession assets based on the value-in-use. The assumptions used by management are generally affected by expected future market and economic conditions.

The Group's accounting policies relating to the measurement of concession assets are disclosed in Note 2, while the carrying values of the concession assets are disclosed in Note 13 to the consolidated financial statements.

How the Matter was Addressed in the Audit

Our procedures related to the impairment assessment of Concession Assets included the following:

- Understanding the Group's process in making accounting estimates, including but not limited to, the foot traffic projections and the future net cash flows to be generated by the Concession Assets and evaluating the appropriateness of processes applied in making these estimates and testing the reasonableness of these accounting estimates;
- Involving the Firm's valuation specialist in testing the appropriateness of the assumptions and methodology used in determining the value-in-use of concession assets, which include the appropriateness of the pre-tax discount rate and growth rates, and reasonableness of the cash flow projections prepared by management with the assistance of third party consultants, including consideration of the impact of COVID-19;
- Evaluating the independence, qualification and competency of the third party consultants engaged by management to determine whether the results of their work can be relied upon; and,
- Performing sensitivity analysis on the calculation to determine whether a reasonably possible change in assumptions could cause the carrying amount of the concession assets to exceed the recoverable amount.

(c) *Expected Credit Loss Model and Recoverability of Contract and Retention Receivables and Receivable from Airport Operations, Advances to and Receivables from Related Parties and Contract Assets*

Description of the Matter

As at December 31, 2021, the carrying amount of the Group's contract and retention receivables and receivables from airport operations (collectively as trade receivables), advances to and receivables from related parties (including accrued interest) and contract assets amounted to P5,300.6 million, P10,114.8 million and P4,777.7 million, respectively. These financial assets totaling to P20,193.1 million which are disclosed in Notes 6 and 9, to the consolidated financial statements represent 24% of the total assets of the Group as at the end of the reporting period. The Group's management exercises significant judgment and makes estimates in determining when the trade receivables, advances to and receivables from related parties and contract assets are impaired and how much impairment losses need to be recognized in accordance with the expected credit loss (ECL) model under PFRS 9, *Financial Instruments*. The Group's significant accounting policies, management judgment and estimates, which are described in Notes 2 and 3 to the consolidated financial statements, while the disclosures relating to credit risk applicable to these financial assets are disclosed in Notes 28 and 32 to the consolidated financial statements.

Because of the complexity of the requirement of PFRS 9 in determining ECL and the high level of uncertainties involved in management's use of judgment and estimates, we identified the use of ECL model and recoverability of the Group's trade receivables, advances to and receivables from related parties and contract assets discussed above as a key audit matter.

How the Matter was Addressed in the Audit

Our audit procedures to determine the appropriateness of the ECL model adopted by the Group, and the recoverability of trade receivables, advances to related parties and contract assets, and the adequacy of the related allowance for credit losses on these assets included, among others, the following:

- Evaluating appropriateness of the Group's ECL model based on the requirements of the standard and the related policies and procedures of the Group;
- Identifying any customers, on a sample basis, with financial difficulty and/or breach of contract resulting in default on payments through discussion with management, inspecting the customers' payment history, and determining any related retention liability that can be recovered by the Group in settlement of the selected past due or delinquent customer's accounts;
- For advances to and receivables from related parties, evaluating the capacity of the related parties to pay by assessing their liquidity and whether there are any valid business purposes on which these advances are made;
- For contract assets, identifying whether such costs are recoverable and subsequently billable based on the terms of the specific contract;
- Evaluating the appropriateness and reasonableness of underlying assumptions, including forward-looking information and the sufficiency, reliability and relevance of the data used by the Group;
- Checking the mathematical accuracy of the provision matrix applicable to the ECL model, including testing of aging of trade receivables; and,
- Evaluating the sufficiency and appropriateness of disclosures in the Group's consolidated financial statements in accordance with PFRS 9.

(d) Performing Significant Portion of Audit Remotely

Description of the Matter

As disclosed in Note 1 of the financial statements, COVID-19 started to become widespread in the Philippines in early March 2020 wherein certain measures implemented by the government resulted in performing a significant portion of the engagement remotely.

The change in working conditions is relevant and significant to our audit since it creates an increased risk of error due to less visibility of the client personnel and lack of access to the original client records. Given the changes in how the audit was performed, the audit required exercising enhanced professional skepticism.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of performing the audit remotely included the following:

- Considering the nature of the engagement and the engagement team's knowledge of the entity and its environment when determining whether it is possible to perform a significant portion, if not all of the engagement remotely;
- Following the requirements of the PSA including providing proper supervision and review, even when working remotely;
- Obtaining information through electronic means, which includes sending and receiving of confirmation electronically, obtaining calculations in electronic form to check the mathematical accuracy, scanning of hard-copy items for review and using real-time inspection technology such as video and screen-sharing;
- Determining the reliability of audit evidence provided electronically using enhanced professional skepticism;
- Performing inquiries through video call in order to judge body language and other cues and to have a more interactive audit engagement;
- Reviewing of workpapers of component auditors remotely through share screen facility and constant communication; and,
- Examining critical hard copy documents (e.g., contracts, progress billings, billing invoices, purchases invoices and official receipts) physically in response to the risk in revenues and costs, which is considered to be significant.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Group's Securities and Exchange Commission (SEC) Form 20-IS (Definitive Information Statement), SEC Form 17-A, and Annual Report for the year ended December 31, 2021, but does not include the consolidated financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report for the year ended December 31, 2021 are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audits resulting in this independent auditors' report is Mailene Sigue-Bisnar.

Supplemental Information on Non-cash Investing and Financing Activities:

- 1) In 2021, 2020 and 2019, the Group recognized right-of-use assets and lease liabilities amounting to P187.3 million, P157.2 million, and P424.5 million, respectively (see Notes 16 and 34).
- 2) In 2021, the Group recognized premium on long-term debt amounting to P1,118.9 million arising from the modification of terms which formed part of the new carrying amount of the long-term debt (see Note 18.2)

See Notes to Consolidated Financial Statements.

MEGAWIDE CONSTRUCTION CORPORATION AND SUBSIDIARIES
(A Subsidiary of Citicore Holdings Investment, Inc.)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021, 2020 AND 2019
(Amounts in Philippine Pesos)

1. CORPORATE INFORMATION

1.1 Incorporation and Operations

Megawide Construction Corporation (the Parent Company) was incorporated in the Philippines on July 28, 2004 and is engaged in the general construction business, including constructing, enlarging, repairing, or engaging in any work upon buildings, houses and condominium, roads, plants, bridges, piers, waterworks, railroads and other structures. It performs other allied construction business like the construction and sale of precast items, concrete production, and purchase sale and/or lease of formworks system and construction equipment.

On January 28, 2011, the Philippine Stock Exchange (PSE) and the Securities Exchange Commission (SEC) approved the Parent Company's application for the listing of its common stock. The approval covered the initial public offering (IPO) of 292.0 million unissued common shares of the Parent Company at P7.84 offer price per share and the listing of those shares in PSE's main board on February 18, 2012. On December 3, 2014, the Parent Company made a primary offer of 40.0 million preferred shares at an offer price of P100.0 per share. These preferred shares are also listed in the PSE (see Note 27.1). Moreover, the Parent Company also made follow-on offerings in 2020 and 2021 (see Note 27.1)

The Parent Company remains a subsidiary of Citicore Holding Investment, Inc. (Citicore) which owns and controls 35.41% of the issued and outstanding capital stock of the Parent Company as of December 31, 2021 and 2020 because Citicore still directs the overall business operations of the Parent Company through its Chief Executive Officer and President, who is also the President of Citicore. Moreover, Citicore also appoints majority of the board members and remains as the single largest stockholder controlling the BOD.

Citicore is a company incorporated in the Philippines and is engaged in the business of a holding company through buying and holding shares of other companies. The registered address of Citicore and the Parent Company, which is also their principal place of business, is at 20 N. Domingo Street, Brgy. Valencia, Quezon City.

1.2 Subsidiaries, Associates and Joint Arrangements

a) GMCAC

GMCAC was incorporated in the Philippines and registered in the SEC in 2014. GMCAC's primary purpose is to construct, develop, operate and maintain the Mactan Cebu International Airport (MCIA), including the commercial assets thereof and all allied businesses for the operation and maintenance of said airport facility (MCIA Project). GMCAC started commercial operations on November 1, 2014.

GMCAC was established for the purpose of implementing the provisions of the Concession Agreement (see Note 13) that was signed on April 22, 2014 between the Parent Company and GMR Infrastructure Limited (GIL) or GMR, and the Department of Transportation and Communications (currently, the Philippine Department of Transportation or DOTr) and Mactan-Cebu International Airport Authority (MCIAA) (collectively, the Grantors).

GIL is an entity duly organized and registered in India. DOTr and MCIAA are the agencies of the Philippine Government vested with the power and authority to develop dependable and coordinated transportation systems and to principally undertake the economical, efficient, and effective control, management, and supervision of the MCIA Project. GMCAC's registered address, which is also its principal place of business, is located at Mactan-Cebu International Airport Passenger Terminal Building, Airport Terminal, Lapu-Lapu City.

b) MCEI

MCEI was incorporated in 2014 to engage in the development of clean or renewable energy sources for power generation. Its registered address, which is also its principal place of business, is located at 20 N. Domingo St. Brgy. Valencia, Quezon City. As of December 31, 2021, MCEI has not yet started operations.

c) GMI

GMI was incorporated in the Philippines in 2016 and is primarily engaged in general merchandise operations. GMI's registered address, which is also its principal place of business, is located at Mactan-Cebu International Airport Passenger Terminal Building, Airport Terminal, Lapu-Lapu City. GMI started its commercial operations in March 2017.

On March 15, 2017, the Parent Company sold 2,000,000 shares or 10% interest of GMI to GMR Holdings Overseas (Singapore) Pte. Ltd. (GHOSPL). As of December 31, 2017, GMI is 50% owned by the Parent Company. The Parent Company still consolidates its ownership in GMI after the sale as the management considers that the Group has de facto control over GMI even though it effectively holds 50% ownership interest [see Note 3.1(j)].

d) MLI

MLI was incorporated in 2016 primarily to engage in real estate and related business. MLI's registered address, which is also its principal place of business, is located at 20 N. Domingo St. Brgy. Valencia, Quezon City. MLI has not commenced its operations as of December 31, 2020.

MLI has a 60% ownership interest in MCLI, a company incorporated in the Philippines and was established to engage in cold and dry storage business. The registered office address of MCLI, which is also its principal place of business, is - oflocated at No. 20 N. Domingo Street, Brgy. Valencia, Quezon City.

e) MCBVI

On June 20, 2017, the Parent Company acquired 100% ownership interest in MCBVI, an entity incorporated in the territory of British Virgin Islands to primarily engage in buying and holding shares of other companies. MCBVI's registered address, which is also its principal place of business, is Marcy Building, 2nd floor, Purcell Estate, Road Town Tortola, British Virgin Islands. In 2018, MCBVI has commenced business operations.

MCBVI has wholly owned subsidiaries, DMCC and MW Infrastructure. DMCC, which was registered on December 10, 2017, is involved in infrastructure works. Its registered office is located at Unit 4401-05, Mazaya Business Avenue BB2, Jumeriah Lake Towers, Dubai UAE. MW Infrastructure was registered on September 30, 2020 as a turnkey project contracting and project development consultant. Its registered office is located at Unit 4501-009 Mazaya Business Avenue BB2 Plot No JLTE-PH2-BB2 Jumeirah Lake Towers, Dubai, UAE.

f) Altria

The Parent Company's acquisition of Altria is accounted for as an asset acquisition since it does not constitute an acquisition of business (see Note 11.2).

g) MWCCI and CMCI

The Group's investments in MWCCI and CMCI are accounted for as investments in associates despite the percentage of the Parent Company's ownership interest over these entities [see Notes 3.1(j), 3.1(m) and 11.1].

h) MIL

MIL, whose registered office is at Marcy Building, 2nd Floor, Purcell Estate, P.O. Box 2416, Road Town Tortola, British Virgin Islands, was incorporated on July 26, 2019. MIL has a 100% owned subsidiary, MC-SG, which was registered on March 1, 2019 as a general building engineering design and consultancy services. Its registered office is located at 8 Cross St. #24-03/04 Manulife Tower Singapore.

i) MTI

On August 9, 2018, the Parent Company acquired 344.5 million shares or 100% ownership interest in MTI from existing shareholders of MTI for P344.1 million. MTI owns 49% interest over MWMTI.

MTI (previously WM Property Management, Inc.) is an entity incorporated and registered on November 11, 2011 to establish, own, manage, administer, operate, maintain, and carry the business of providing property management services, either directly or through third parties, but not limited to the services of rent collection, tenant and lease management, marketing and advertising, repair and maintenance, liaison and other similar services. MTI's registered address and principal place of business is at 20 N. Domingo St. Brgy. Valencia, Quezon City.

j) MWMTI

MWMTI is a joint venture arrangement formed on February 10, 2015 by the Parent Company and MTI, both exercising joint control to direct the relevant activities of MWMTI. The joint venture undertakes the development and implementation of the Parañaque Integrated Terminal Exchange (PITX) Project (formerly Southwest Integrated Transport System Project) granted by the Philippine Government to MWMTI under a Build-Operate-Transfer Agreement (BOT Agreement) through the DOTr (see Note 29.3.2). In November 2018, MWMTI commenced commercial operations.

k) MGCJV

MGCJV is an unincorporated joint venture formed in 2014 by the Parent Company and GMR Infrastructure (Singapore) PTE Limited – Philippines Branch (GISPL) each owning 50% interest and exercising joint control. MGCJV was established to provide construction of works for the renovation and expansion of the MCIA Project and other airport related construction projects of the Group (see Note 11.4).

l) MGCJVI

MGCJVI is an incorporated joint arrangement formed in January 2018 by the Parent Company owning 50% interest and GISPL with 45% interest and GMR Holdings Overseas (Singapore) PTE Limited owning the remaining 5%. The Parent Company and GISPL both exercising joint control. MGCJVI was established to provide general construction business including construction, improvement and repair of Clark Airport project (see Note 11.4). MGCJVI began to operate in 2018.

m) MTRGC

MTRGC was incorporated and registered with the SEC on March 21, 2018 to develop, set-up, operate, maintain and manage the duty paid outlets at the locations in the Mactan Cebu International Airport (see Note 11.3). It started operations in 2018.

n) SSPPC

SSPPC was incorporated and registered under the laws of the Republic of the Philippines with the SEC on March 13, 2018 to develop, set-up, operate, maintain and manage food and beverage outlets at specified locations in Terminal 1 and Terminal 2 of Mactan Cebu International Airport and the provision of related services thereto (see Note 11.3). It started operations in 2018.

o) CDI

CDI, whose registered office is at Unit 1504 Ayala Life FGU Center Cebu, Mindanao Avenue corner Biliran Road, Cebu Business Park, Cebu City, was incorporated on November 3, 2020 to deal, engage, or otherwise acquire an interest in land or real estate business, without engaging in real estate investment trust. As of December 31, 2021, CDI has not yet started commercial operations.

p) WHI

WHI, whose registered office is at 20 N. Domingo Street, Brgy. Valencia, Quezon City., was incorporated on November 16, 2020 to invest in, purchase, or otherwise acquire and own, hold, use, sell, assign, transfer, mortgage, pledge, exchange or otherwise dispose of real and personal property of every kind and description. As of December 31, 2021, WHI has not yet started commercial operations.

q) TLH

Tiger Legends was incorporated on October 16, 2020 to primarily engage in buying and holding shares of other companies. Tiger Legend's registered address is at Vistra Corporate Services Centre, Wickhams Cay II, Road Town, Tortola, British Virgin Islands.

r) **HMDJV**

HMDJV is an unincorporated joint venture formed on October 27, 2020, by the Parent Company owning 35% and Hyundai Engineering & Construction Co., Ltd. And Dong-Ah Geological Engineering Company Ltd. Owning 57.5%, and 7.5% interest, respectively, and exercising joint control. HMDJV was established to provide construction works for the civil structures, viaducts, bridges, and stations of Malolos- Clark Railway Project (MCRP). HMDJV began to operate in 2021.

1.3 Continuing Impact of COVID-19 on the Group's Business

The COVID-19 pandemic started to become widespread in the Philippines in early March 2020 and its impact has been continuing until the date of the approval of these consolidated financial statements. The measures taken by the government to contain the virus have affected economic conditions and the Group's business operations.

In 2021 and 2020, the Group has taken the following measures to mitigate the adverse effects of the COVID-19 pandemic to the Group's business:

- implemented effective cost-reduction and cash preservation strategies, including recruitment freeze, deferral of some non-essential and capital expenditures, maximizing credit terms provided by suppliers and creditors and focus to collect outstanding receivables;
- comprehensive and regular monitoring of the Group's liquidity position and cash flow, including issuance of series 4 preferred shares with a lower coupon rate of 5.3% to redeem series 1 preferred shares with a higher coupon rate of 7.025%;
- for construction segment, implementation of physical distancing through work bubbles was the key to full recovery as workers were encouraged to stay in construction site to avoid disruption in business operations. Meanwhile, those with suspected COVID symptoms were isolated, as soon as practicable;
- for airport segment, negotiation with lenders to amend certain provisions of the Omnibus Loan Agreement which include, among others, changes in the timing of principal payments and changes in the debt covenant requirements for debt to equity ratio and debt service coverage ratio (see Note 18);
- review of insurance coverage to protect against potential risk;
- automation and digitization to improve processes, enhance operational efficiencies, and support remote work arrangements for back office support;
- regular information updates on health and safety protocols to all its employees;
- implemented flexible working arrangements like hybrid or full remote work setup, where applicable, to ensure employee safety but at the same time minimize operational disruptions; and,
- encouraged all employees and its eligible house household members to take any available COVID 19 vaccine, including the booster.

As a result of the actions taken by management, the Group's operations showed the following:

- full year recovery on construction activities in 2021 as the Group was able to adopt to various quarantine measures imposed by the government which resulted in an increase in the construction operation revenues of P3,487.3 million or 32%;
- decrease in occupancy rate in the landport segment due to work-from-home arrangements which affected the real estate industry;

- decrease in airport operations revenues by about 84% from pre-pandemic levels due to decrease in air traffic movement as a result of travel restrictions;
- decrease in airport trading sales by about 93% from pre-pandemic levels due to decrease in air traffic movement in the airport segment; and,
- administrative expenses were incurred to ensure health and safety of its employees, subcontractors and customers, although these are not considered substantial in amount.

Based on the above actions and measures taken by management to mitigate the adverse effect of the pandemic, it projects that the Group would still remain liquid to meet current obligations, as they fall due, and expects the gradual recovery of all of its segments in the subsequent reporting period. Accordingly, management has not determined any material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern.

1.4 Approval of the Consolidated Financial Statements

The consolidated financial statements of the Group as of and for the year ended December 31, 2021 (including the comparative consolidated financial statements as of December 31, 2020 and for the years ended December 31, 2020 and 2019 and the corresponding figures as of January 1, 2020) were authorized for issue by the Parent Company's BOD on April 8, 2022.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarized below and in the succeeding pages. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of Preparation of Consolidated Financial Statements

(a) Statement of Compliance with Philippine Financial Reporting Standards

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board and approved by the Philippine Board of Accountancy.

The consolidated financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. The measurement bases are fully described in the accounting policies that follow.

(b) Presentation of Consolidated Financial Statements

The consolidated financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The Group opted to present a separate consolidated statement of income and consolidated statement of comprehensive income.

The Group presents a third consolidated statement of financial position as at the beginning of the preceding period when it applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the consolidated statement of financial position at the beginning of the preceding period. The related notes to the third consolidated statement of financial position are not required to be disclosed. In 2021, the Group presented a statement of financial position as of January 1, 2020 to reflect the effect of prior period reclassifications discussed in item (d) below.

(c) *Functional and Presentation Currency*

These consolidated financial statements are presented in Philippine pesos, the Group's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the consolidated financial statements are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Group operates.

(d) *Prior Period Reclassification of Accounts*

The Group made certain prior period reclassifications to reflect the current and non-current classification and presentation of Contract Liabilities and to reflect the proper presentation of construction-in-progress account from Property, Plant and Equipment account to Investment Properties account. The effects of prior period reclassifications on the Group's consolidated statements of financial position as of December 31, 2020 and January 1, 2020 are presented below.

	<u>As Previously Reported</u>	<u>Prior Period Reclassifications</u>	<u>As Restated</u>
<u>December 31, 2020</u>			
<i>Changes in non-current assets :</i>			
Property, Plant and Equipment – net	P 7,497,348,324	(P 257,486,729)	P 7,239,861,595

The effects of these prior period reclassifications in the consolidated statements of cash flows for the year ended December 31, 2020 (nil for 2019) are summarized as follows:

	<u>As Previously Reported</u>	<u>Prior Period Adjustments</u>	<u>As Restated</u>
<i>Changes in Cash Flows from Investing Activities :</i>			
Acquisitions of property, plant and equipment and computer software	P 881,622,780	(P 215,508,412)	P 666,114,368
Acquisitions of investment properties	40,093,061	215,508,412	255,601,473

2.2 Adoption of Amended PFRS

(a) Effective in 2021 that are Relevant to the Group

The Group adopted the following amendments to existing standards, which are mandatorily effective for annual periods beginning on or after January 1, 2021:

PFRS 7, PFRS 9 and PFRS 16 (Amendments)	: Financial Instruments: Disclosures, Financial Instruments and Leases – Interest Rate Benchmark Reform Phase 2
PFRS 16 (Amendments)	: Leases – COVID-19-Related Rent Concessions beyond June 30, 2021

- (i) PFRS 7 (Amendments), *Financial Instruments: Disclosures*, PFRS 9 Amendments), *Financial Instruments*, and PFRS 16 (Amendments), *Leases - Interest Rate Benchmark Reform Phase 2*. The amendments address issues that may affect financial reporting during the interest rate benchmark reform, including the effect of changes to contractual cash flows or hedging relationships resulting from the replacement of the London Interbank Offered Rate (LIBOR) with alternative benchmark rates.

The Phase 2 amendments are relevant to the Group because it is exposed to the effects of the LIBOR reform on its interest-bearing loan and the designated hedging instruments that use LIBOR as interest benchmark rates [see Notes 7, 18.2(a) and 32.1(b)]. Management assessed that the exposure is minimal as the benchmark rate of the hedging instruments will likely follow the benchmark rate of the interest-bearing loans.

- (ii) The Group opted to early adopt the application of the amendments to PFRS 16, *Leases – COVID-19-Related Rent Concessions beyond June 30, 2021*, (effective from April 1, 2021). The amendment extends for one year the use of practical expedient of not assessing whether rent concessions reducing payments up until June 30, 2022 occurring as a direct consequence of the COVID-19 pandemic are lease modifications and instead to account for those rent concessions as if they are not lease modifications. The application of these amendments had no significant impact to the Group's consolidated financial statements as the Group did not receive any rent concession from its lessors as of December 31, 2021.

(b) *Effective Subsequent to 2021 but not Adopted Early*

There are amendments to existing standards effective for annual periods subsequent to 2021, which are adopted by the FRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, none of these are expected to have significant impact on the Group's consolidated financial statements:

- (i) PFRS 3 (Amendments), *Business Combination – Reference to the Conceptual Framework* (effective from January 1, 2022)
- (ii) PAS 16 (Amendments), *Property, Plant and Equipment – Proceeds Before Intended Use* (effective from January 1, 2022)
- (iii) PAS 37 (Amendments), *Provisions, Contingent Liabilities and Contingent Assets – Onerous Contracts – Cost of Fulfilling a Contract* (effective from January 1, 2022)
- (iv) Annual Improvements to PFRS 2018-2020 Cycle. Among the improvements, the following amendments, which are effective from January 1, 2022, are relevant to the Group:
 - a. PFRS 9 (Amendments), *Financial Instruments – Fees in the '10 percent' Test for Derecognition of Liabilities*
 - b. Illustrative Examples Accompanying PFRS 16, *Leases – Lease Incentives*
- (v) PAS 1 (Amendments), *Presentation of Financial Statements – Classification of Liabilities as Current or Non-current* (effective from January 1, 2023)
- (vi) PAS 1 (Amendments), *Presentation of Financial Statements – Disclosure of Accounting Policies* (effective from January 1, 2023)
- (vii) PAS 8 (Amendments), *Accounting Estimates – Definition of Accounting Estimates* (effective from January 1, 2023)
- (viii) PAS 12 (Amendments), *Income Taxes – Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction* (effective from January 1, 2023)
- (ix) PFRS 10 (Amendments), *Consolidated Financial Statements*, and PAS 28 (Amendments), *Investments in Associates and Joint Ventures – Sale or Contribution of Assets Between an Investor and its Associates or Joint Venture* (effective date deferred indefinitely)

2.3 Basis of Consolidation and Accounting for Investments in Subsidiaries, Investments in Subsidiaries and Associates, and Interests in Joint Arrangements

The Group's consolidated financial statements comprise the accounts of the Parent Company and its subsidiaries, as discussed in Note 1.2, after elimination of material intercompany transactions. All intercompany assets and liabilities, equity, income, expenses, and cash flows relating to transactions between entities under the Group, are eliminated in full on consolidation. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the consolidated financial statements. The financial statements of subsidiaries, associates and joint arrangements are prepared for the same reporting period as the Parent Company, using consistent accounting principles.

The Parent Company accounts for its investments in subsidiaries, associates, interests in joint arrangements and non-controlling interests as follows:

(a) Investments in Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it is exposed, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date the Parent Company obtains control.

The Parent Company reassesses whether or not it controls an entity if facts and circumstances indicate that there are changes to one or more of the three elements of controls indicated above. Accordingly, entities are deconsolidated from the date that control ceases.

Distributions from subsidiaries are accounted for as dividend income which are eliminated at consolidation.

i) Accounting for Business Combination Using the Acquisition Method

The acquisition method is applied to account for acquired subsidiaries. This requires recognizing and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group, if any. The consideration transferred also includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred and subsequent change in the fair value of contingent consideration is recognized directly in profit or loss.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognizes any non-controlling interest in the acquiree, either at fair value or at the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any existing equity interest in the acquiree over the acquisition-date fair value of identifiable net assets acquired is recognized as goodwill. If the consideration transferred is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly as gain in profit or loss (see Note 2.12).

ii) *Accounting for Business Combination Using the Pooling-of-interests Method*

Business combinations arising from transfers of interests in entities that are under the common control of the principal shareholder are accounted for under the pooling-of-interests method. Transfers of assets between commonly controlled entities are accounted for under historical cost accounting. Under this method, the financial information of the acquired entities is included as if the acquisition occurred in the earliest period presented. The assets and liabilities of the acquired entities are combined using their respective carrying values and any difference is accounted for and recognized in Other Reserves account presented under the consolidated statement of changes in equity.

(b) *Investments in Associates*

Associates are those entities over which the Parent Company is able to exert significant influence, but which are neither subsidiaries nor interests in a joint arrangement. Investments in associates are initially recognized at cost and subsequently accounted for using the equity method.

Acquired investment in associates is subject to the purchase method. The purchase method involves the recognition of the acquiree's identifiable assets and liabilities, including contingent liabilities, regardless of whether they were recorded in the financial statements prior to acquisition. Any goodwill that represents the excess of acquisition cost over the fair value of the Parent Company's share of the identifiable net assets of the acquiree at the date of acquisition or fair value adjustment attributable to the Parent Company's share in the associate is included in the amount recognized as investment in an associate.

All subsequent changes to the ownership interest in the equity of the associates are recognized in the Parent Company's carrying amount of the investments. Changes resulting from the profit or loss generated by the associates are credited or charged against the Equity in net profit (losses) of associates and joint venture as part of Others account under Other Income (Charges) section of the consolidated statement of income.

Impairment loss is provided when there is objective evidence that the investment in an associate will not be recovered (see Note 2.20).

Changes resulting from other comprehensive income of the associate or items recognized directly in the associate's equity are recognized in other comprehensive income or equity of the Parent Company, as applicable. However, when the Parent Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Parent Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

If the associate subsequently reports profits, the investor resumes recognizing its share of those profits only after its share of the profits exceeds the accumulated share of losses that has previously not been recognized.

Distributions received from the associates are accounted for as a reduction of the carrying value of the investment.

(c) *Interests in Joint Arrangements*

A joint control arises from a contractually agreed sharing of control in an arrangement, which exist only when decisions about the relevant activities require unanimous consent of the parties sharing control.

(i) *Joint Operation*

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. For interests in joint operation, the Group recognizes in its consolidated financial statements its assets including its share of any assets held jointly; its liabilities including its share of any liabilities incurred jointly; its revenue from sale of its share of the output arising from the joint operation; its expenses including its share of any expenses incurred jointly; and its share in the income from the sale of goods or services by the joint operation. The amounts of these related accounts are presented as part of the regular asset and liability accounts and income and expense accounts of the Group and are measured and recognized in accordance with the relevant financial reporting standards.

(ii) *Joint Venture*

A jointly controlled entity is a corporation, partnership, or other entity in which two or more venturers have an interest, under a contractual arrangement that establishes joint control over the entity. Each venturer usually contributes cash or other resources to the jointly controlled entity. Those contributions are included in the accounting records of the venturer and recognized in the venturer's financial statements as an investment in the jointly controlled entity.

Investments in joint venture are initially recognized at cost and subsequently accounted for using the equity method.

Acquired investment in a jointly controlled entity is subject to the purchase method. The purchase method involves the recognition of the jointly controlled entity's identifiable assets and liabilities, including contingent liabilities, regardless of whether they were recorded in the financial statements prior to acquisition. Any goodwill that represents the excess of acquisition cost over the fair value of the venturer's share of the identifiable net assets of the joint venture at the date of acquisition or fair value adjustment attributable to the venturer's share in the joint venture is included in the amount recognized as investment in joint venture.

All subsequent changes to the ownership interest in the equity of the joint venture are recognized in the venturer's carrying amount of the investments.

Changes resulting from the profit or loss generated by the joint venture are credited or charged against the Equity in net profit (losses) of associates and joint venture as part of Others – net account under Other Income (Charges) section of the consolidated statement of income.

Impairment loss is provided when there is objective evidence that the investments in joint venture will not be recovered (see Note 2.20).

Changes resulting from other comprehensive income of the jointly controlled entity or items recognized directly in the jointly controlled entity's equity are recognized in other comprehensive income or equity of the venturer, as applicable. However, when the venturer's share of losses in a joint venture equals or exceeds its interest in the joint venture, including any other unsecured receivables, the venturer does not recognize further losses, unless it has incurred obligations or made payments on behalf of the jointly controlled entity. If the jointly controlled entity subsequently reports profits, the venturer resumes recognizing its share of those profits only after its share of the profits exceeds the accumulated share of losses that has previously not been recognized.

Distributions received from the jointly controlled entity are accounted for as a reduction of the carrying value of the investments.

(d) *Transactions with Non-controlling Interests*

The Group's transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions, that is, as transaction with the owners of the Group in their capacity as owners. The difference between the fair value of any consideration paid and the relevant share acquired of the carrying value of the net assets of the subsidiary is recognized as Other Reserves in equity. Disposals of equity investments to non-controlling interests result in gains and losses for the Group that are also recognized in equity.

When the Group ceases to have control over a subsidiary, any retained interest in the entity is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purpose of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

The Parent Company holds interests in various subsidiaries, associates, and joint arrangements as presented in Notes 1.2 and 11.

2.4 Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual terms of the financial instrument. For purposes of classifying financial assets, an instrument is considered as an equity instrument if it is non-derivative and meets the definition of equity for the issuer in accordance with the criteria of PAS 32, *Financial Instruments: Presentation*. All other non-derivative financial instruments are treated as debt instruments.

(a) *Classification, Measurement and Reclassification of Financial Assets*

The classification and measurement of financial assets is driven by the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The classification and measurement of financial assets are described in the succeeding pages.

(i) *Financial Assets at Amortized Cost*

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Group's business model whose objective is to hold financial assets in order to collect contractual cash flows ("hold to collect"); and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Except for trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with PFRS 15, *Revenue from Contracts with Customers*, all financial assets meeting these criteria are measured initially at fair value plus transaction costs. These are subsequently measured at amortized cost using the effective interest method, less any impairment in value.

The Group's financial assets at amortized cost are presented as Cash and Cash Equivalents, Trade and Other Receivables (excluding Advances to officers and employees), Refundable security and bond deposits (presented under Other Current Assets account) and Investment in Trust fund (which pertains solely to cash) and Refundable security deposits (presented under Other Current and Non-current Assets account) in the consolidated statement of financial position.

Financial assets measured at amortized cost are included in current assets, except for those with maturities greater than 12 months after the end of reporting period, which are classified as non-current assets.

For purposes of cash flows reporting and presentation, cash and cash equivalents comprise accounts with original maturities of three months or less, including cash. These generally include cash on hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of the financial assets except for those that are subsequently identified as credit-impaired. For credit-impaired financial assets at amortized cost, the effective interest rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance). The interest earned is recognized in the consolidated statement of income as part of Finance Income.

(ii) *Financial Assets at Fair Value Through Other Comprehensive Income*

The Group accounts for financial assets at FVOCI if the assets meet the following conditions:

- they are held under a business model whose objective is to hold to collect the associated cash flows and sell (“hold to collect and sell”); and;
- the contractual terms of the financial assets give rise to cash flows that are SPPI on the principal amount outstanding.

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI; however, such designation is not permitted if the equity investment is held by the Group for trading or as mandatorily required to be classified as fair value through profit or loss (FVTPL). The Group has designated certain equity instruments as at FVOCI on initial recognition.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value are recognized in other comprehensive income, net of any effects arising from income taxes, and are reported as part of Revaluation Reserves account in equity. When the asset is disposed of, the cumulative gain or loss previously recognized in the Revaluation Reserves account is not reclassified to profit or loss but is reclassified directly to Retained Earnings account, except for those debt securities classified as FVOCI wherein cumulative fair value gains or losses are recycled to profit or loss.

Any dividends earned on holding equity instruments are recognized in profit or loss as part of Other Income (Charges) account, when the Group’s right to receive dividends is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and, the amount of the dividend can be measured reliably, unless the dividends clearly represent recovery of a part of the cost of the investment.

(iii) *Financial Assets at Fair Value Through Profit or Loss*

Financial assets that are held within a different business model other than “hold to collect” or “hold to collect and sell” are categorized at FVTPL. Further, irrespective of business model, financial assets whose contractual cash flows are not SPPI are accounted for at FVTPL. Also, equity securities are classified as financial assets at FVTPL, unless the Group designates an equity investment that is not held for trading as at FVOCI at initial recognition.

The Group’s financial assets at FVTPL pertains only to derivatives arising from interest rate swap entered by GMCAC (see Notes 2.16 and 7).

Financial assets at FVTPL are measured at fair value with gains or losses recognized in profit or loss as part of Finance Income in the consolidated statement of income. The fair values of these financial assets are determined by reference to active market transactions or using a valuation technique where no active market exists.

The Group can only reclassify financial assets if the objective of its business model for managing those financial assets changes. Accordingly, the Group is required to reclassify financial assets: (i) from amortized cost to FVTPL, if the objective of the business model changes so that the amortized cost criteria are no longer met; and, (ii) from FVTPL to amortized cost, if the objective of the business model changes so that the amortized cost criteria start to be met and the characteristic of the instrument's contractual cash flows meet the amortized cost criteria.

A change in the objective of the Group's business model will take effect only at the beginning of the next reporting period following the change in the business model.

(b) *Impairment of Financial Assets*

At the end of the reporting period, the Group assesses its ECL on a forward-looking basis associated with its financial assets carried at amortized cost. The measurement of ECL involves consideration of broader range of information that is available without undue cost or effort at the reporting date about past events, current conditions, and reasonable and supportable forecasts of future economic conditions (i.e., forward-looking information) that may affect the collectability of the future cash flows of the financial assets. Measurement of the ECL is determined by a probability-weighted estimate of credit losses over the expected life of the financial instruments evaluated based on a range of possible outcome.

The Group uses the simplified approach in measuring ECL, which uses a lifetime expected loss allowance for all trade and other receivables and contract assets. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial assets. To calculate the ECL, the Group uses its historical experience, external indicators and forward-looking information to calculate the ECL using a provision matrix. The Group also assesses impairment of trade receivables on a collective basis as they possess shared credit risk characteristics and have been grouped based on the days past due [see Note 32.2(b)].

On the other hand, the Group applies a general approach in relation to advances to and receivables from related parties. The maximum period over which ECL should be measured is the longest contractual period where an entity is exposed to credit risk. In the case of these receivables from related parties, which are repayable on demand, the contractual period is the very short period needed to transfer the cash once demanded.

Management determines possible impairment based on the sufficiency of the related parties' highly liquid assets in order to repay the Group's receivables if demanded at the reporting date taking into consideration the historical defaults of the related parties. If the Group cannot immediately collect its receivables, management considers the expected manner of recovery to measure ECL. If the recovery strategies indicate that the outstanding balance of advances to related parties can be collected, the ECL is limited to the effect of discounting the amount due over the period until cash is realized.

For financial assets other than trade and other receivables and contract assets, the Group determines whether there has been a significant increase in credit risk for financial asset since initial recognition by comparing the risk of default occurring over the expected life of the financial asset between the reporting date and the date of the initial recognition.

In making this assessment, the Group considers both quantitative and qualitative information that may indicate an actual or expected deterioration of the credit quality of the financial assets.

The key elements used in the calculation of ECL are as follows:

- *Probability of default* – It is an estimate of likelihood of a counterparty defaulting at its financial obligation over a given time horizon, either over the next 12 months or the remaining lifetime of the obligation.
- *Loss given default* – It is an estimate of loss arising in case where a default occurs at a given time. It is based on the difference between the contractual cash flows of a financial instrument due from a counterparty and those that the Group would expect to receive, including the realization of any collateral or effect of any credit enhancement.
- *Exposure at default* – It represents the gross carrying amount of the financial instruments in the event of default which pertains to its amortized cost.

The Group recognizes an impairment loss in profit or loss for all financial instruments subjected to impairment assessment with a corresponding adjustment to their carrying amount through a loss allowance account, except for debt instruments measured at FVOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in Revaluation Reserves account, and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

(c) *Derecognition of Financial Assets*

The financial assets (or where applicable, a part of a financial asset or part of a group of financial assets) are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

2.5 Construction Materials

Construction materials are valued at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of construction materials includes all costs directly attributable to acquisition such as the purchase price, import duties and other taxes that are not subsequently recoverable from taxing authorities.

The net realizable value of construction materials is the current replacement cost.

2.6 Other Assets

Other current assets pertain to other resources controlled by the Group as a result of past events. They are recognized in the consolidated financial statements when it is probable that the future economic benefits will flow to the Group and the asset has a cost or value that can be measured reliably.

Other recognized assets of similar nature, where future economic benefits are expected to flow to the Group beyond one year after the end of the reporting period, are classified as non-current assets.

2.7 Property, Plant and Equipment

Property, plant and equipment, except land and construction in progress, are carried at acquisition cost or construction cost less subsequent depreciation and any impairment losses. Land held for use in operations or administration is stated at cost less any impairment losses.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred.

Depreciation is computed on straight-line basis over the estimated useful lives of the assets as follows:

Building	25 years
Precast factory	25 years
Precast and construction equipment	3-15 years
Office furniture, fixtures and equipment	3-10 years
Transportation equipment	5-8 years

Construction in progress represents properties under construction and is stated at cost. This includes cost of construction of the Group's building, batching plant and precast factory, and any applicable borrowing costs (see Note 2.22). The account is not depreciated until such time that the assets are completed and available for use.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.20).

The residual values, estimated useful lives and method of depreciation of property, plant and equipment are reviewed, and adjusted if appropriate, at the end of each reporting period.

Fully depreciated assets are retained in the accounts until these are no longer in use and no further charge in depreciation is made in respect of these assets.

An item of property, plant and equipment, including the related accumulated depreciation and impairment losses, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the year the item is derecognized.

2.8 Acquisition of Assets

Acquisition of interest in an entity that holds investment property which does not constitute a business is accounted for as an asset acquisition. A business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends to investors or other owners, members, and participant. Under the asset purchase accounting, the purchase cost is allocated to identifiable assets and liabilities based on relative fair values of individual items; goodwill or gain on bargain purchase is not recognized; and transaction costs are capitalized.

2.9 Investment Properties

Investment properties are properties held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Pursuant to the Concession Agreement for the PITX Project, the Group is granted the exclusive right and obligation to construct and develop the commercial area of the PITX Project (see Notes 1.2 and 29.3.2), which shall be held for rentals and rendering of any incidental service or facility from the use of commercial areas. Accordingly, the Group accounts for the construction and development of commercial area as Investment Property.

Investment property comprising of asset under construction and development are measured initially at acquisition cost, including transaction costs. This includes cost of construction, any applicable borrowing costs (see Note 2.22) and other direct costs. The account is not depreciated until such time that the assets are completed and available for use.

Following initial recognition, investment properties are carried at cost less accumulated depreciation and any impairment in value (see Note 2.20).

In 2019, MWMTI started to depreciate the investment property using straight-line method as the asset become available for its intended use. Depreciation is computed over the remaining concession period of 33 years.

The Group's investment properties also include land which is carried at cost less any impairment in value.

The carrying value of the investment properties are reviewed for impairment when changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying value exceeds the estimated recoverable amount, the asset is written down to its recoverable amount and impairment losses are recognized in the consolidated statement of income.

Investment properties are derecognized upon disposal or when permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the consolidated statement of income in the year of retirement or disposal.

2.10 Intangible Assets

The Group's intangible assets currently include acquired software licenses and concession assets as described in more detail as follows:

(a) Concession Assets

The Group accounts for its Concession Agreement in relation to the MCIA Project [see Notes 1.2(a) and 13] under the intangible asset model as it receives the right (license) to charge users of the public service.

The concession asset is recognized initially at cost. It consists of:

- (i) Upfront fees payments on the Concession Agreement, including the related borrowing costs;
- (ii) Directly attributable costs related to the acquisition of the concession assets; and,
- (iii) Cost of infrastructure constructed and under construction in accordance with the terms and conditions of the Concession Agreement. These are not recognized as property, plant and equipment of the Group but as an intangible asset.

Following initial recognition, concession assets are carried at cost less any accumulated amortization and any accumulated impairment losses. The service concession asset is amortized using the unit-of-production method which reflects the asset's usage-based on passenger volume and usage of their airport activities over the concession period. Management believes that usage-based method best reflects the pattern of consumption of the concession asset.

The period and method of amortization are reviewed at least at the end of each financial reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates.

The amortization expense on the concession asset is recognized in the consolidated statement of income in the expense category consistent with the function of the concession asset.

Subsequent costs and expenditures related to infrastructures arising from the Group's commitments to the Concession Agreement are recognized as additions to the concession asset and are stated at cost. Capital expenditures necessary to support the Group's operation as a whole are recognized as property, plant and equipment and accounted for in accordance with the Group's accounting policy on Property, Plant and Equipment.

The concession asset will be derecognized upon turnover to the Grantors. There will be no gain or loss upon derecognition as the concession asset, which is expected to be fully amortized by then, and will be handed over to the Grantors with no consideration.

Concession assets not yet in use are initially recognized at cost and assessed for impairment at least annually based on the asset's value-in-use. Amortization of the assets will commence only when it becomes available for use.

The Group's concession assets not available for use are tested for impairment if there are any indications of impairment. The related carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.20).

(b) *Acquired Computer Software Licenses*

Acquired computer software license (shown as part of Other Non-current Assets) is accounted for under the cost model. The cost of the asset is the amount of cash or cash equivalents paid or the fair value of the other considerations given up to acquire an asset at the time of its acquisition or production. Capitalized costs are amortized on a straight-line basis over the estimated useful lives of three to five years as the lives of these intangible assets are considered finite. In addition, this is subject to impairment testing as described in Note 2.20.

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and install the specific software. Costs associated with maintaining computer software and those costs associated with research activities are recognized as expense in profit or loss as incurred.

Costs that are directly attributable to the development phase of new customized software for information technology are recognized as intangible assets if, and only if, the Group can demonstrate all of the following recognition requirements below:

- (i) technical feasibility of completing the prospective product for internal use or sale;
- (ii) the intangible asset will generate probable economic benefits through internal use or sale;
- (iii) intention and ability to complete, i.e., availability of sufficient technical, financial, and other resources necessary for completion, and use or sell the asset; and,
- (iv) ability to measure reliably the expenditure attributable to the intangible asset during development.

Acquired computer software license is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from derecognition of an intangible asset is determined as the difference between the net disposal proceeds and carrying value of the asset, and is charged to profit or loss for the period.

2.11 Financial Liabilities

Financial liabilities, which include interest-bearing loans and borrowings, trade and other payables [except output value-added tax (VAT) and other taxes payable], and other non-current liabilities (except unearned rent income) are recognized when the Group becomes a party to the contractual terms of the instrument. These are recognized initially at their fair values and subsequently measured at amortized cost, using the effective interest method for maturities beyond one year, less settlement payments. All interest-related charges incurred on a financial liability, except capitalized borrowings costs which is recognized as part of the related qualifying asset (see Note 2.22), are recognized as an expense in profit or loss under the caption Finance Costs in the statement of income.

Interest-bearing loans and borrowings are raised for support of short-term or long-term funding of operations. Finance charges, including direct costs, are charged to profit or loss on an accrual basis using the effective interest method and are added to the carrying amount of the instrument to the extent that these are not settled in the period in which they arise.

Trade and other payables are initially recognized at their fair value and subsequently measured at amortized cost, using effective interest method for maturities beyond one year, less settlement payments.

Dividend distributions to shareholders are recognized as financial liabilities upon declaration by the BOD.

Financial liabilities are classified as current liabilities if payment is due to be settled within one year or less after the end of the reporting period (or in the normal operating cycle of the business, if longer), or the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after end of the reporting period. Otherwise, these are presented as non-current liabilities.

Financial liabilities are derecognized from the consolidated statement of financial position only when the obligations are extinguished either through discharge, cancellation or expiration. The carrying amount of the financial liability derecognized and the consideration paid or payable is recognized in profit or loss. Where an existing liability is replaced by another from the same lender on substantially different terms, or if the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognized as gain or loss in profit or loss. If the modification is not considered substantial, the liability is restated to the net present value of revised cash flows discounted at the original effective interest rate, with the adjustment recognized as gain or loss in profit or loss.

2.12 Business Combinations

Business acquisitions are accounted for using the acquisition method of accounting.

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition, except for lease liabilities which are measured based on the present value of the remaining lease payments as if the acquired lease were a new lease at acquisition date and right-of-use assets which are measured at an amount equal to the recognized lease liability, adjusted to reflect favorable or unfavorable lease terms compared with market terms. Subsequent to initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed (see Note 2.20).

Negative goodwill which is the excess of the Group's interest in the net fair value of net identifiable assets acquired over acquisition cost is charged directly to income.

For the purpose of impairment testing, goodwill is allocated to cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The cash-generating units or groups of cash-generating units are identified according to operating segment.

Gains and losses on the disposal of an interest in a subsidiary include the carrying amount of goodwill relating to it.

If the business combination is achieved in stages, the acquirer is required to remeasure its previously held equity interest in the acquiree at its acquisition-date fair value and recognize the resulting gain or loss, if any, in profit or loss or other comprehensive income, as appropriate.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with PAS 37, either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

2.13 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Group's executive committee; its chief operating decision-maker. The executive committee is responsible for allocating resources and assessing performance of the operating segments.

In identifying its operating segments, management generally follows the Group's products and service lines as disclosed in Note 4, which represent the main products and services provided by the Group.

Each of these operating segments is managed separately as each of these service lines requires different technologies and other resources as well as marketing approaches. All inter-segment transfers are carried out at arm's length prices.

The measurement policies the Group uses for segment reporting under PFRS 8, *Operating Segments*, are the same as those used in its consolidated financial statements, except that the following are not included in arriving at the operating profit of the operating segments:

- post-employment benefit expenses;
- expenses relating to share-based payments, if any;
- research costs relating to new business activities; and,
- revenue, costs, and fair value gains from investment property, if any.

In addition, corporate assets which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

2.14 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the resulting net amount, considered as a single financial asset or financial liability, is reported in the consolidated statement of financial position when there is a legally enforceable right to set-off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously. The right of set-off must be available at the end of the reporting period, that is, it is not contingent on future event. It must also be enforceable in the normal course of business, in the event of default, and in the event of insolvency or bankruptcy; and must be legally enforceable for both entity and all counterparties to the financial instruments.

2.15 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. When time value of money is material, long-term provisions are discounted to their present values using a pretax rate that reflects market assessments and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases, where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements. Similarly, possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the consolidated financial statements. On the other hand, any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.16 Derivative Financial Instruments and Hedging

Derivative financial instruments are initially recognized at fair value on the date in which a derivative transaction is entered into, and are subsequently remeasured and accounted for in the consolidated statement of financial position at fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedge of an identified risk and qualifies for hedge accounting treatment or accounted for as derivative not designated for hedges.

The Group's derivative financial instruments are accounted for transactions not designated as hedges. Certain freestanding derivative instruments that provide economic hedges under the Group's policies either do not qualify for hedge accounting or are not designated as accounting hedges. Changes in the fair values of derivative instruments not designated as hedges are recognized immediately in the consolidated statement of income. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

2.17 Revenue and Expense Recognition

Revenue arises mainly from rendering of construction services, airport operations, trading operations and landport operations.

To determine whether to recognize revenue, the Group follows a five-step process described below:

- 1) identifying the contract with a customer;
- 2) identifying the performance obligation;
- 3) determining the transaction price;
- 4) allocating the transaction price to the performance obligations; and,
- 5) recognizing revenue when/as performance obligations are satisfied.

The Group determines whether a contract with customer exists by evaluating whether the following gating criteria are present:

- (a) the parties to the contract have approved the contract either in writing, orally or in accordance with other customary business practices;
- (b) each party's rights regarding the goods or services to be transferred or performed can be identified;
- (c) the payment terms for the goods or services to be transferred or performed can be identified;
- (d) the contract has commercial substance (i.e., the risk, timing, or amount of the future cash flows is expected to change as a result of the contract); and,
- (e) collection of the consideration in exchange of the goods and services is probable.

Revenue is recognized only when (or as) the Group satisfies a performance obligation by transferring control of the promised goods or services to a customer. The transfer of control can occur over time or at a point in time.

A performance obligation is satisfied at a point in time unless it meets one of the following criteria, in which case it is satisfied over time:

- (a) the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;

- (b) the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; and,
- (c) the Group's performance does not create an asset with an alternative use to the Group and the entity has an enforceable right to payment for performance completed to date.

The Group often enters into transactions involving construction services, airport operations, airport merchandising operations, landport operations, and other contracts containing performance obligations with counterparties. The significant judgments used in determining the transaction price and the amounts allocated to the performance obligations are disclosed in Note 3.1(c).

The transaction price allocated to performance obligations satisfied at a point in time is recognized as revenue when control of the asset or services transfers to the customer. If the performance obligation is satisfied over time, the transaction price allocated to that performance obligation is recognized as revenue as the performance obligation is satisfied. The Group's normal credit terms ranges from 35 to 60 days after billing.

In addition, the following specific recognition criteria for each identified performance obligation must also be met before revenue is recognized:

- (a) *Construction operations revenue* – This includes revenue from construction activities such as construction works, sale of construction materials, management fee and rental of construction equipment.
 - i. *Contract revenues* – This includes revenue from construction services and is recognized over time as the service is provided. The Group uses the percentage of completion method to determine the appropriate amount to recognize as contract revenue in a given period. The stage of completion is measured by reference to the contract costs incurred up to the end of the reporting period as a percentage of total estimated costs for each contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion.
 - ii. *Sale of construction materials* – Revenue from sale of ready mixed concrete and precast materials are recognized over time as goods are manufactured as there are no alternate use for these construction materials.
 - iii. *Consultancy and Management fees* – This is recognized on a time-and-materials basis as the services are provided. Customers are invoiced monthly as work progresses, which are due upon receipt by the customers. Any amounts remaining unbilled at the end of a reporting period are presented in the consolidated statement of financial position as receivables as only the passage of time is required before payment of these amounts will be due.
 - iv. *Rental revenue* – Revenue from rentals arising from the lease of its construction equipment is recognized on the straight-line basis over the lease term based on the provisions of the covering lease contracts, including any minimum rent-free period therein, plus additional rent free period as mutually agreed by the contracting parties [see Note 2.18(b)]. This is outside the scope of PFRS 15.

- (b) *Airport operations revenue* – Revenue from airport operations pertains to revenue from services related to aeronautical and non-aeronautical activities in the MCIA, which are further classified as follows:
- i. *Aeronautical revenue* – Aeronautical revenues pertain mainly to passenger service charges which are recognized as revenue over time when the related airport services have been rendered, the rates for such fees are provided under Administrative Order (AO) No. 2, Series of 2011, issued by MCIAA. On the other hand, revenues from ancillary services such as parking, tacking, and lighting services are recognized at a point in time upon availment of service.
 - ii. *Concession revenue* – Concession revenues are generated through landport concessionaires, tenants or airport service providers who pay monthly fees for the right to use or access airport facilities to offer their goods and services to the general public and air traveling community. Airport facilities and parking spaces are not specific in the license agreement and the Group still has control over which are available for rental. Payments are in accordance with the negotiated agreements with these parties, and are based on either a minimum monthly guarantee or on gross receipts as applicable. Concession revenue is recognized over time when the related sale of concessionaire is earned.
 - iii. *Commercial revenue* – Commercial revenues comprise advertising charges, car parking and car rental revenues. Car parking revenue comprises time-based charges from the operation of car parking services. Car rental revenue comprises concession charges from car rental companies. Revenue is recognized over time when the related services are provided.
- (c) *Trading operations revenue* – Airport merchandising operations revenues relates to sale of food and non-food items within the premise of MCIA. Airport merchandising operations revenues are recognized at a point in time when the control over the goods have passed to the buyer.
- (d) *Landport operations revenue* – Landport operations revenue is recognized under the cost-recovery method in accordance with PFRS 15. Rendering of operating services is one of the Group’s performance obligations under the Concession Agreement. After the recovery of construction costs, revenues are recognized based on the landport operations of the PITX Project up to the extent of the annual grantor payment (AGP).
- (e) *Check-in counter revenue* – This comprises rental of check-in counter charged to airline companies and space rental charged to tenants. The Group bills the airlines based on the number of passengers. The rate per passenger varies on the annual number of passengers reached by each airline per cycle. Revenue from check-in counters is recognized over the period when the related services have been rendered.
- (f) *Sale of food and non-food items* – This is recognized at a point in time upon transferring control of the promised goods or services to a customer.
- (g) *Common use service area (CUSA) charges* – CUSA is recognized over time when the performance of contractually agreed task has been rendered. Furthermore, recoveries from utility expenses are recognized net of related expenses as the Group acts only as an agent of the utility companies.

The Group presents a contract asset when it transfers control of goods or performs services before the customer pays consideration or before payment is due. A contract asset is the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer.

The Group presents a contract liability when a customer pays the consideration, or the Group has the right to an amount of consideration that is unconditional (i.e., a receivable), before the Group transfers goods or performs services to the customer. A contract liability is the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Contract liability also includes cash received from customers which are applied to subsequent progress billings for construction contracts. The Group considers the effect of significant financing component in the contract which is recognized as part of Construction Operation Revenues and Finance Cost in the consolidated statement of income [see Note 3.1(c)].

The Group assesses its revenue agreement against the specific criteria in order to determine if it is acting as a principal or an agent [see Note 3.1(o)]. Billing from common area, air conditioning and other dues are presented at gross amounts since the Group acts as a principal. Other revenues from electricity and water dues, in which the Group acts as an agent, are presented in excess of actual charges and consumption.

The Group incurs incremental costs in obtaining customer contracts (i.e., biddings costs on construction contracts). These costs are expensed when incurred as these are incurred regardless whether the contract is obtained.

The Group also incurs costs in fulfilling contracts with customers. These costs are divided into: (i) costs that give rise to an asset; and, (ii) costs that are expensed as incurred.

When determining the appropriate accounting treatment for such costs, the Group first considers any other applicable standards (see Notes 2.5 and 2.7). If other standards preclude capitalization of a particular cost, then an asset is not recognized under PFRS 15. If other standards are not applicable to deferred fulfilment costs, the Group applies the following criteria, which, if met, result in capitalization:

- (a) the costs directly relate to a contract or to a specifically identifiable anticipated contract;
- (b) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and,
- (c) the costs are expected to be recovered.

Deferred fulfilment costs recognized as part of Other Current Assets in the consolidated statement of financial position are subsequently included as part of construction costs and considered in determining the stage of completion of the project. Furthermore, these are derecognized either upon disposal or when no further economic benefits are expected to flow from its use or disposal.

At each reporting date, the Group determines whether there is an indication that deferred fulfilment costs may be impaired. An impairment loss is recognized when the carrying amount of the assets exceeds the remaining amount of consideration that the Group expects to receive under the relevant contract.

Costs and expenses are recognized in profit or loss upon utilization of goods or services or at the date they are incurred. All finance costs are reported in profit or loss on an accrual basis, except for capitalized borrowing costs which are included as part of the cost of the related qualifying asset.

2.18 Leases

The Group accounts for its leases as follows:

(a) Group as Lessee

For any new contracts entered into, the Group considers whether a contract is, or contains, a lease. A lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group;
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and,
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At lease commencement date, the Group recognizes a right-of-use asset and a lease liability in the consolidated statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received). Subsequently, the Group depreciates the right-of-use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist (see Note 2.20).

On the other hand, the Group measures the lease liability at the present value of the lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments include fixed payments (including in-substance fixed) less lease incentives receivable, if any, variable lease payments based on an index or rate, amounts expected to be payable under a residual value guarantee, and payments arising from options (either renewal or termination) reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss on a straight-line basis over the lease term.

On the consolidated statement of financial position, right-of-use assets and lease liabilities have been presented as part of Property, Plant and Equipment and Interest-bearing Loans and Borrowings accounts, respectively.

(b) Group as Lessor

Leases wherein the Group substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented as receivable at an amount equal to the Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Group's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized in profit or loss on a straight-line basis over the lease term.

Revenue from rentals also include revenue from lease of the Group's office and commercial spaces and various equipment which is recognized on the straight-line basis over the lease term based on the provision of the covering lease contracts, including any minimum rent free period therein, plus additional rent free period as mutually agreed by the contracting parties. Revenue from rentals also include variable rent income based on an index or rate.

The Group determines whether an arrangement is, or contains, a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

2.19 Foreign Currency Transactions and Translation

(a) Transactions and Balances

Foreign currency transactions during the year are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates. Foreign currency gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of income.

(b) Translation of Financial Statements of Foreign Subsidiaries

The consolidated operating results and financial position of offshore subsidiaries (see Note 1), which are measured using the United States (“U.S.”) dollar, are translated to Philippine pesos, the Parent Company’s functional currency, as follows:

- (i) Assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting period;
- (ii) Income and expenses for each profit or loss account are translated at the monthly average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and,
- (iii) All resulting translation adjustments are recognized in other comprehensive income and as part of Revaluation Reserves in the consolidated statement of changes in equity

When a foreign operation is partially disposed of or sold, such exchange differences are recognized in the consolidated statement of income as part of the Other Income (Charges).

The translation of the financial statements into Philippine peso should not be construed as a representation that the foreign currency amounts could be converted into Philippine peso amounts at the translation rates or at any other rates of exchange.

2.20 Impairment of Non-financial Assets

The Group’s investments in associates and joint ventures, property, plant and equipment, intangible assets, concession assets, investment properties, deferred fulfilment costs and other non-financial assets are subject to impairment testing. All non-financial assets, except intangible assets not yet available for use which are tested for impairment at least annually, are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, assets are tested for impairment either individually or at the cash-generating unit level.

Impairment loss is recognized for the amount by which the asset’s or cash-generating unit’s carrying amount exceeds its recoverable amount which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from each cash-generating unit and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group’s latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. Discount factors are determined individually for each cash-generating unit and reflect management’s assessment of respective risk profiles, such as market and asset-specific risk factors.

Except for intangible assets not yet available for use, all assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or cash generating unit's recoverable amount exceeds its carrying amount.

2.21 Employee Benefits

The Group provides post-employment benefits to employees through a defined benefit plan and defined contribution plans, and other employee benefits which are recognized as follows:

(a) Post-employment Defined Benefit Plan

A defined benefit plan is a post-employment plan that defines an amount of post-employment benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of post-employment plan remains with the Group, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Group's post-employment defined benefit plan covers all regular full-time employees. The pension plan is tax-qualified, non-contributory and administered by a trustee.

The liability recognized in the consolidated statement of financial position for a defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows for expected benefit payment using a discount rate derived from the interest rates of a zero coupon government bonds using the reference rates published by Bloomberg using its valuation technology, Bloomberg Valuation (BVAL) that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related post-employment liability. BVAL provides evaluated prices that are based on market observations from contributed sources.

Remeasurements, comprising of actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions and the return on plan assets (excluding amount included in net interest) are reflected immediately in the consolidated statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they arise.

Net interest is calculated by applying the discount rate at the beginning of the period, unless there is a plan amendment, curtailment or settlement during the reporting period. The calculation also takes into account any changes in the net defined benefit liability or asset during the period as a result of contributions to the plan or benefit payments. Net interest is reported as part of Finance Costs or Finance Income account in the consolidated statement of income.

Past service costs are recognized immediately in profit or loss in the period of a plan amendment or curtailment.

(b) *Short-term Employee Benefits*

The Group recognizes a liability, net of amounts already paid, and an expense for services rendered for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided.

(c) *Post-employment Defined Contribution Plans*

A defined contribution plan is a post-employment plan under which the Group pays fixed contributions into an independent entity. The Group has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due.

Liabilities or assets may be recognized if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short-term nature.

(d) *Bonus Plans*

The Group recognizes a liability and an expense for bonuses based on a formula that takes into consideration the employees' performance evaluation attributable to a calendar year. The Group recognizes a provision where it is contractually obliged to pay the benefits, or where there is a past practice that has created a constructive obligation.

(e) *Compensated Absences*

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of each reporting period. They are included in Trade and Other Payables account in the consolidated statement of financial position at the undiscounted amount that the Group expects to pay as a result of the unused entitlement.

2.22 Borrowing Costs

Borrowing costs are recognized as expenses in the period in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction, or production of a qualifying asset (i.e., an asset that takes a substantial period of time to get ready for its intended use or sale) are capitalized as part of cost of such asset. The capitalization of borrowing costs commences when expenditures for the asset and borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization ceases when substantially all such activities are complete.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

2.23 Income Taxes

Tax expense recognized in profit or loss comprises the sum of current tax and deferred tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of the reporting period. They are calculated using the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in profit or loss.

Deferred tax is accounted for, using the liability method, on temporary differences at the end of the reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes. Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carryforward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Unrecognized deferred tax assets are reassessed at the end of each reporting period and are recognized to the extent that it has become probable that future taxable profit will be available to allow such deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized, or the liability is settled provided such tax rates have been enacted or substantively enacted at the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in profit or loss. Only changes in deferred tax assets or liabilities that relate to items recognized in other comprehensive income or directly in equity are recognized in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if the Group has a legally enforceable right to set-off current tax assets against current tax liabilities and the deferred taxes relate to the same entity and the same taxation authority.

2.24 Related Party Relationships and Transactions

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless of whether a price is charged. Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates and joint ventures; (c) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group and close members of the family of any such individual; and, (d) the Group's funded retirement plan.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

All material related party transactions and related party transactions involving directors and/or officers shall be approved by at least two-thirds vote of the BOD, with at least a majority of the independent directors voting to approve the material related party transactions and related party transactions involving directors and/or officers. In case that a majority of the independent directors' vote is not secured, the material related party transactions and related party transactions involving directors and/or officers may be ratified by the vote of the stockholders representing at least two-third of the outstanding capital stock.

For aggregate related party transactions within a 12-month period that breaches the materiality threshold of 1% of the Group's total consolidated assets, the same BOD approval would be required for the transaction/s that meet and exceeds the materiality threshold covering the same related party. Under SEC Memorandum Circular No. 10, Series of 2019, *Rules on Material Related Party Transactions for Publicly-listed Companies*, the minimum threshold to be considered as a material related party transaction is 10% of the total assets based on the latest audited consolidated financial statements.

Directors with personal interest in a certain related party transaction should abstain from participating in the discussions and voting on the same. In case they refuse to abstain, their attendance shall not be counted for the purposes of assessing the quorum and their votes shall not be counted for purposes of determining approval.

2.25 Equity

Capital stock represents the nominal value of common and preferred shares that have been issued.

Additional paid-in capital includes any premium received on the issuance of capital stock or reissuance of treasury shares. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Treasury shares are stated at the cost of reacquiring such shares and are deducted from equity attributable to the Parent Company's equity holders until the shares are cancelled, reissued, or disposed of.

Revaluation reserves comprise actuarial gains and losses due to remeasurements of post-employment defined benefit plan, foreign currency translation of financial statements of foreign subsidiaries, and the mark-to-market valuation of its financial assets at FVOCI.

Other reserves represent GMCAC's equity transaction costs arising from the subscriptions to its shares of stock.

Retained earnings, the appropriated portion of which is not available for dividend declaration, represent all current and prior period results of operations as reported in the consolidated statement of income, reduced by the amounts of dividends declared.

2.26 Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net profit attributable to shareholders of the Parent Company by the weighted average number of common shares issued and outstanding, adjusted retroactively for any stock dividend, stock split or reverse stock split declared in the current year.

Diluted EPS is computed by adjusting the weighted average number of common shares outstanding to assume conversion of dilutive potential shares. Currently, the Group does not have dilutive potential shares outstanding, hence, the diluted EPS is equal to the basic EPS.

2.27 Events After the End of the Reporting Period

Any post-year-end event that provides additional information about the Group's consolidated financial position at the end of the reporting period (adjusting event) is reflected in the consolidated financial statements. Post-year-end events that are not adjusting events, if any, are disclosed when material to the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the consolidated financial statements in accordance with PFRS requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates.

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying the Group's accounting policies, management has made the judgments in the succeeding pages, apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements.

(a) Determination of Lease Term of Contracts with Renewal and Termination Options

In determining the lease term, management considers all relevant factors and circumstances that create an economic incentive to exercise a renewal option or not exercise a termination option. Renewal options and/or periods after termination options are only included in the lease term if the lease is reasonably certain to be extended or not terminated. If the renewal options and/or periods are not enforceable (i.e., if the lessee cannot enforce the extension without the agreement of the lessor), it would not be considered in determining the lease term.

For leases of construction and transportation equipment, the factors that are normally the most relevant are (a) if there are significant penalties should the Group pre-terminate the contract, and (b) if any leasehold improvements are expected to have a significant remaining value, the Group is reasonably certain to extend and not to terminate the lease contract. Otherwise, the Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

The Group included the renewal period as part of the lease term for of construction and transportation equipment, due to the significance of these assets to its operations. These leases have a short, non-cancellable lease period (i.e., four to ten years) and there will be a significant negative effect on production if a replacement is not readily available. However, the renewal options for leases of transportation equipment were not included as part of the lease term because the Group has historically exercises its option to buy these transportation equipment at the end of the lease term.

The lease term is reassessed if an option is actually exercised or not exercised or the Group becomes obliged to exercise or not exercise it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the Group.

(b) *Determination of Timing of Satisfaction of Performance Obligations*

(i) *Construction Operations Revenue*

The Group determined that its revenue from construction services shall be recognized over time in accordance with the percentage-of-completion method. In making its judgment, the Group considers the timing of receipt and consumption of benefits provided by the Group to the customers. The Group provides the construction services that create or enhance an asset that the customer controls as the asset is created or enhanced. This demonstrates that the customer obtains the benefits of the Group's rendering of construction service as it performs.

In determining the best method of measuring the progress of the Group's rendering of construction services, management considers the input method (i.e., based on the Group's inputs to the satisfaction of a performance obligation) under PFRS 15 because of the direct relationship between the Group's effort, in terms of incurred labor hours, and the transfer of service to the customer.

(ii) *Airport Operations Revenues*

The Group determined that its revenue from airport services shall be recognized over time as the services are being rendered and at a point in time for ancillary services (e.g., parking, tacking, and lighting services) that are provided for a short span of time. In making its judgment, the Group considers the timing of receipt and consumption of benefits provided by the Group to the customers. The Group provides the services without the need of reperformance of other entities. This demonstrates that the customers simultaneously receive and consume the benefits of the Group's rendering of aeronautical and non-aeronautical services as it performs.

(iii) *Trading Operations Revenues*

In determining the appropriate method to use in recognizing the Group's revenues from airport merchandising operation revenues, which include sale of food and non-food items in the premises of MCI A, management determines that revenue is recognized at a point in time when the control of the goods has passed to the customer, i.e. generally when the customer acknowledged delivery of goods.

(iv) *Landport Operation Revenues*

The Group has the control over the landport area and the right to collect concessionaire revenue. The Group determined that its revenue from landport operation services shall be recognized using the cost-recovery method in accordance with PFRS 15 since services rendered is one of the Group's performance obligations under Concession Agreement. After the recovery of construction costs, revenues are recognized based on the landport operations costs of the PITX Project (see Note 29.3.2) up to the extent of the AGP.

(c) *Determination of Transaction Price and Amounts Allocated to Performance Obligations*

The transaction price for a contract is allocated amongst the material right and other performance obligations identified in the contract based on their stand-alone contract prices. The transaction price for a contract excludes any amounts collected on behalf of third parties [e.g., defined in Note 2 (VAT)].

In determining the transaction price, the Group adjusts the amount of consideration for the effects of time value of money for payments received prior to rendering construction services when the construction period is more than one year. This circumstance indicates that the contract contains significant financing component. The Group uses the prevailing interest rate at the time of receipt of advance payments, which approximates the Group's borrowing rate.

(d) *Determination of ECL on Trade and Other Receivables, Refundable Security and Bond Deposits, and Contract Assets*

The Group uses a provision matrix to calculate ECL for trade and other receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., customer type and rating).

The provision matrix is based on the Group's historical observed default rates. The Group's management intends to regularly calibrate (i.e., on an annual basis) the matrix to consider the historical credit loss experience with forward-looking information (i.e., forecast economic conditions). Details about the ECL on the Group's trade and other receivables and contract assets are disclosed in Note 32.2.

With respect to refundable security and bond deposits, management does not expect significant risks of collectibility since the same can be applied to the last period rentals at the option of the Group.

(e) *Evaluation of Business Model Applied in Managing Financial Instruments*

The Group developed business models which reflect how it manages its portfolio of financial instruments. The Group's business models need not be assessed at entity level or as a whole but shall be applied at the level of a portfolio of financial instruments (i.e., group of financial instruments that are managed together by the Group) and not on an instrument-by-instrument basis (i.e., not based on intention or specific characteristics of individual financial instrument).

In determining the classification of a financial instrument under PFRS 9, the Group evaluates in which business model a financial instrument or a portfolio of financial instruments belong to taking into consideration the objectives of each business model established by the Group (e.g., held-for-trading, generating accrual income, direct matching to a specific liability) as those relate to the Group's investment and trading strategies.

(f) *Testing the Cash Flow Characteristics of Financial Assets and Continuing Evaluation of the Business Model*

In determining the classification of financial assets under PFRS 9, the Group assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are SPPI on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortized cost criteria.

In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Group assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Group considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

In addition, PFRS 9 emphasizes that if more than an infrequent sale is made out of a portfolio of financial assets carried at amortized cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Group considers certain circumstances documented in its business model manual to assess that an increase in the frequency or value of sales of financial instruments in a particular period is not necessarily inconsistent with a held-to-collect business model if the Group can explain the reasons for those sales and why those sales do not reflect a change in the Group's objective for the business model.

(g) *Distinction Between Business Acquisition and Asset Acquisition*

The Group determines whether the acquisition of an entity constitute a business acquisition or an asset acquisition. The accounting treatment for the acquisition is determined by assessing whether the transaction involved a purchase of a business, as defined in PFRS 3, taking into consideration the substance of the transaction. Failure to make the right judgment will result in misstatement of assets.

On the basis of the assessment made by management, the acquisition of ownership in Altria was accounted for as asset acquisition (see Note 11.2) since it does not constitute a purchase of business. Conversely, the equity ownership in GMCAC, MCEI, GMI, MLI, MCBVI, MIL, MWMTI, MTI, MC-SG, WHI, CDI, and TLH are accounted for as investments in subsidiaries.

(h) *Distinction Between Operating and Finance Leases for Contracts where the Group is the Lessor*

The Group has entered into various lease agreements for check-in counters and space rental. Critical judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer or retention of significant risks and rewards of ownership of the properties covered by the agreements. Failure to make the right judgment will result in either overstatement or understatement of assets and liabilities.

(i) *Recognition of Provisions and Contingencies*

Judgment is exercised by management to distinguish between provisions and contingencies. Accounting policies on recognition of provisions and contingencies are discussed in Note 2.15 and relevant disclosures are presented in Note 29.

(j) *Determination of Control, Joint Control and Significant Influence*

Judgment is exercised in determining whether the Group has joint control of an arrangement or significant influence over an entity. In assessing each interest over an entity, the Group considers voting rights, representation on the BOD or equivalent governing body of the investee, participation in policy-making process and all other facts and circumstances, including terms of any contractual arrangement.

Management considers that the Group has de facto control over GMI even though it effectively holds 50% of the ordinary shares. The Parent Company exercises control over the entity because major decisions involving entering and negotiating Supply and Delivery Agreements with Duty Free Philippines Corporation still rests with the Parent Company. In line with this, the Parent Company retains control over GMI's operations [see Note 1.2(c)].

Also, the Group believes to have significant influence over CMCI, due to the Group's ability to participate over the entity's relevant activities based on the rights and powers of the Parent Company over the management of CMCI exercised through a seat in the BOD of CMCI. Taking this into consideration, the Group concluded that it has significant influence over the investee; accordingly, the investment is accounted for as an investment in an associate. Hence, the investee is treated as an associate (see Note 11.1). In addition, the Group has determined that it does not have a significant influence, but has a joint control over MGCJV, MGCJVI, MTRGC, SSPPC and HMDJV due to the contractually agreed sharing of control over these investees wherein decision on relevant activities require unanimous consent between the Group and its co-venturers. GMCAC recognizes its interest in MTRGC and SSPPC as joint ventures, while the Parent Company's interests in MGCJV, MGCJVI and HMDJV are recognized as joint operations [see Notes 2.3(c) and 11.4]. On the other hand, the Parent Company has determined that its ownership interest in Silay Solar Power Inc. (SSPI) does not result in control or significant influence over SSPI (see Note 10).

(k) *Capitalization of Borrowing Costs*

The Group determines whether the amount of borrowing costs qualify for capitalization as part of the cost of the qualifying asset or expensed outright. The accounting treatment for the borrowing costs is determined by assessing whether the asset is a qualifying asset taking into consideration the period of time to get the asset ready for its intended use. Failure to make the right judgment will result in misstatement of assets and net profit.

(l) *Accounting for Service Concession Arrangement*

IFRIC 12, *Service Concession Arrangements*, outlines an approach to account for contractual arrangements arising from entities providing public services. It provides that the operator or concessionaire should not account for the infrastructure under PAS 16 as property, plant and equipment, but recognize a financial asset and/or an intangible asset if the conditions below are met:

- The Grantor controls or regulates what services the operator or concessionaire must provide with the infrastructure, to whom it must provide them, and at what price; and
- The Grantor controls through ownership, beneficial entitlement or otherwise, any significant residual interest in the infrastructure at the end of the term of the arrangement.

Mactan-Cebu International Airport Project

As discussed in Note 1.2(a), the Philippine Government, acting through the DOTr and MCIAA, executed a Concession Agreement with GMCAC whereby GMCAC was given an exclusive right to design, develop, and undertake the MCIA Project; and, enjoy complete and uninterrupted possession of the MCIA Project Assets for the purpose of implementing the MCIA Project.

At the end of the concession period, GMCAC shall hand-over the MCIA Project and the Project Assets to the Grantors without cost, free from any liens and encumbrances, including all improvements made to the airport facilities, commercial assets, works in progress, and right to receive revenues. In addition, GMCAC shall be entitled to collect and receive concession revenue consisting of revenues on account of passenger service charge, airport parking fees, and tacking fees; other apron charges; and, revenues from commercial charges. GMCAC may apply for an increase of such fees following the procedures as set forth in the Concession Agreement.

The Group has identified that the Concession Agreement is within the scope of IFRIC 12 and shall be accounted for using the intangible asset model, wherein the service concession asset is recognized as an intangible asset in accordance with PAS 38, *Intangible Assets*. The intangible asset is amortized using the usage-based method over the life of the concession agreement as management believes that straight-line method best reflects the pattern of consumption of the concession asset.

In April 2014, GMCAC paid upfront fees to the Philippine Government amounting to P14,404.6 million to undertake the implementation and operation of the MCIA Project in accordance with the Concession Agreement (see Note 13). The Group identified certain significant and key activities related to the MCIA Project, as also set forth in the Concession Agreement. As such, the upfront fees were allocated among these key activities using proportionate rates based on the expected construction/renovation costs as follows: (i) existing Terminal 1 infrastructure; (ii) construction of new passenger Terminal; (iii) renovation and expansion of Terminal; and, (iv) capacity augmentation. Subsequent project development costs shall be capitalized as incurred on the specific key activities related to the Project.

Parañaque Integrated Terminal Exchange Project

As discussed in Note 29.3.2, the Philippine Government acting through the DOTr executed a Concession Agreement on February 25, 2015 with MWMTI whereby the latter was given an exclusive right to design, develop, and undertake the PITX Project and enjoy complete and uninterrupted possession of the Project Assets for the purpose of implementing the PITX Project.

At the end of the concession period, MWMTI shall hand over the PITX Project and Project Assets to the Grantor without cost, free from any liens and encumbrances, including all improvements made to the landport facilities, commercial assets, works in progress, and right to receive revenue.

The PITX Project is composed of separately identifiable landport and commercial areas under a certain development plan with different degrees of control between the Grantor and MWMTI. The landport area is controlled by the Grantor while the commercial area is controlled by MWMTI. In addition, MWMTI shall be entitled to collect and receive the concessionaire revenue from the commercial area while it will be receiving fixed payments from the Grantor for the landport area in form of AGP.

MWMTI has identified that the Concession Arrangement with respect to the landport area of the PITX Project is within the scope of Philippine Interpretation IFRIC 12 and shall be accounted for using the financial asset model, wherein the concession asset arising from the component of landport area is recognized as financial asset in accordance with PFRS 9.

On the other hand, the Group determined that the component with respect to the commercial area of the PITX Project is not within the scope of IFRIC 12, and therefore, shall be accounted for using the applicable accounting standard based on the control and purpose of the operation, hence, PAS 40, *Investment Property* (see Notes 2.9 and 15).

The related concession asset accounted for under the financial asset model is presented as part of Contract Receivables in the consolidated statement of financial position, which includes the recoverable accumulated costs incurred for the development and construction of the PITX Project as determined in accordance with PFRS 15 and equivalent to the fair value of construction services and other considerations provided (see Note 2.4 and 6).

(m) Non-consolidation of Entities in which the Group Holds More than 50% Ownership

The Parent Company's ownership interest in MWCCI was accounted for as an associate even though it holds 51% ownership interest as the Parent Company has no control over the relevant activities of MWCCI. Management considers that Citicore has control since it entered into a management agreement with MWCCI, whereby Citicore shall provide management services to MWCCI for the administration of its activities under the Modernization of the Philippine Orthopedic Center (MPOC) Project [see Note 11.1(a)].

(n) Distinction Between Investment Property and Owner-occupied Property

The Group determines whether a property qualifies as investment property. In making its judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to the property but also to other assets used in the performance of the Group's construction activities and its supply process.

(o) Evaluating Principal Versus Agent Consideration

The Group exercises judgment to determine whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e., the Group is a principal) or to arrange for the other party to provide those goods or services (i.e., the Group is an agent). Failure to make the right judgment will result in misstatement of revenues and expenses accounts. The Group assessed that it is only acting as an agent for utility transactions of its tenants under operating leases. Moreover, the Group also assessed that it is the principal in its revenue arrangements pertaining to CUSA and air-conditioning charges in its office and retail spaces.

(p) *Determining Whether Loan Modifications are Substantial Modifications*

Judgment is exercised by management to determine whether changes in the terms of the financial liabilities constitute a substantial modification (extinguishment of debt) or not of the related financial liabilities. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or if the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of the new liability, and the difference in the respective carrying amounts is recognized as gain or loss in profit or loss. For non-substantial modifications, the existing liability is remeasured to the present value of future cash flows and any resulting gain or loss is recognized in profit or loss. Based on management's assessment, GMCAC's loan modification in 2021 does not represent a substantial modification of terms [see Note 18.2(a)].

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period:

(a) *Determination of Appropriate Discount Rate in Measuring Lease Liabilities*

The Group measures its lease liabilities at present value of the lease payments that are not paid at the commencement date of the lease contract. The lease payments were discounted using a reasonable rate deemed by management equal to the Group's incremental borrowing rate [see Note 2.18(a)]. In determining a reasonable discount rate, management considers the term of the leases, the underlying asset, and the economic environment. Actual results, however, may vary due to changes in estimates brought about by changes in such factors.

(b) *Estimation of Allowance for ECL*

The measurement of the allowance for ECL on financial assets at amortized cost is an area that requires the use of significant assumptions about the future economic conditions and credit behavior (e.g., likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 32.2.

(c) *Fair Value Measurement for Financial Instruments*

Management applies valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the end of the reporting period.

The carrying values of the Group's financial assets carried at FVTPL and FVOCI, and the amounts of applicable fair value changes recognized on those assets are disclosed in Notes 7 and 10, respectively.

(d) *Determination of Net Realizable Value of Construction Materials*

In determining the net realizable value of construction materials, management takes into account the most reliable evidence available at the time the estimates are made. The Group periodically reviews its construction materials for possible damaged and obsolete items. Items identified as obsolete are provided with impairment allowance.

Management has assessed that no allowance for obsolescence is required to be recognized on construction materials in 2021, 2020 and 2019.

(e) *Accounting for Business Combinations*

On initial recognition, the assets and liabilities of any acquired business and the consideration paid for them are included in the consolidated financial statements at their fair values. In measuring fair value, management uses estimates of future cash flows and discount rates. Any subsequent change in these estimates would affect the amount of goodwill if the change qualifies as a measurement period adjustment. Any other change would be recognized in profit or loss in the subsequent period.

(f) *Estimation of Useful Lives of Intangible Assets, Property, Plant and Equipment, and Investment Property*

The Group estimates the useful lives of computer software and property, plant and equipment based on the period over which the assets are expected to be available for use. The related estimated useful lives are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives is based on collective assessment of industry practice, internal technical evaluation, and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above.

There were no changes in the estimated useful lives of property, plant and equipment and intangible assets in 2021 and 2020.

The Group believes that the usage-based method based on passenger volume and usage of the airport activities over the concession period reflected the pattern in which the concession's future economic benefits are expected to be consumed by the Group and will be applied consistently from period to period, unless there is a change in the expected pattern of consumption of those future economic benefits [see Note 2.10(a)]. In 2021 and 2020, passenger volume significantly declined compared with pre-pandemic levels due to travel and quarantine restrictions imposed by the government. Although amortization expense reduced substantially during those years, management assessed that the reduced passenger volume is temporary as the quarantine restrictions started to ease up during the first quarter of 2022 and passenger volume showed improvements from December 2021 levels. The positive changes are estimated to continue until full recovery of pandemic losses by 2024, hence, amortization expense will eventually normalize. In 2021, 2020, and 2019, amortization expense recognized relating to concession assets amounted to P50.2 million, P163.5 million and P738.6 million, respectively.

The carrying amounts of intangible assets are analyzed in Notes 12.5 and 13. The carrying amount of property, plant and equipment is analyzed in Note 14.

(g) *Principal Assumption for Estimation of Fair Value of Investment Properties*

The Group's investment properties composed of land and commercial area of the PITX Project comprising of asset held for lease and are carried at cost less accumulated depreciation and any impairment in value. Although investment properties are measured using the cost model, the financial reporting standard requires the disclosure of its fair value.

The Group determined the fair value of the commercial area approximates its fair value as of December 31, 2020 as it was only newly constructed in March 2019. In 2021, the fair value of the commercial area was assessed using the discounted cash flows valuation technique. The Group uses assumptions that are mainly based on market conditions existing at the end of each reporting period, such as: receipt of contractual rentals; expected future market rentals; void periods; maintenance requirements; and, appropriate discount rates. These valuations are regularly compared to actual market yield data and actual transactions by the Group and those reported by the market. The expected future market rentals are determined on the basis of current market rentals for similar properties in the same location and condition.

On the other hand, the Group determines the fair value of the land through appraisals by independent external appraisers.

The fair value disclosures related to the investment properties are further discussed in Note 33.6.

(h) *Determination of Realizable Amount of Deferred Tax Assets*

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Management assessed that the deferred tax assets recognized as at December 31, 2021 and 2020 will be fully utilized in the coming years. The carrying value of deferred tax assets as of those dates is disclosed in Note 26.4.

(i) *Impairment of Non-financial Assets*

In assessing impairment, management estimates the recoverable amount of each asset, or a cash-generating unit based on expected future cash flows and uses an interest rate to calculate the present value of those cash flows. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate (see Note 2.20). Though management believes that the assumptions used in the estimation of fair values reflected in the consolidated financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

PFRS requires non-financial assets to be assessed for any indication of impairment annually, especially those that have not been brought into use. The recoverable amount of the concession assets, including those not yet in use, has been determined based on a value in use calculation using cash flow projections from financial model approved by senior management covering the remaining life of the concession period of 18 and 19 years as of December 31, 2021 and 2020, respectively.

The pre-tax discount rate applied to cash flow projections is 10.0% and 12.3% as of December 31, 2021 and 2020. Pre-tax discount rate is based on weighted average cost of capital, adjusted for company-specific risks and reflects prevailing or current market conditions at year-end.

The calculation of value in use of the concession assets is most sensitive to the following assumptions:

- Passenger traffic volume
- Discount rate
- Growth rates

Management assesses on an annual basis the impact of the current and future economic outlook to the abovementioned assumptions in making its cash flow projections. In 2021 and 2020, management has taken into consideration the continuing impact of the COVID-19 pandemic in its cash flow projections, including its effect on the abovementioned assumptions.

The carrying value of the concession assets not yet available for use amounted to P9,615.9 million and P9,007.9 million as at December 31, 2021 and 2020, respectively (see Note 13).

Management has assessed that no impairment losses are required to be recognized on the Group's non-financial assets in 2021, 2020 and 2019.

(j) Valuation of Post-employment Defined Benefit

The determination of the Group's obligation and cost of post-employment defined benefit is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, discount rates and salary rate increase. A significant change in any of these actuarial assumptions may generally affect the recognized expense and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment defined benefit obligation and expense and an analysis of the movements in the estimated present value of DBO, as well as the significant assumptions used in estimating such obligation are presented in Note 24.2.

4. SEGMENT REPORTING

The Group's operating businesses are recognized and managed separately according to the nature of services provided with a segment representing a strategic business unit. The Group's business segments follow:

4.1 *Business Segments*

- (a) *Construction Operations* – principally refers to general construction business, including constructing and sale of precast items and concrete production and rental of construction equipment.
- (b) *Airport Operations* – mainly relate to the business of building, rehabilitating, renovating, constructing, developing, operating, and maintaining the MCIA, including the commercial assets thereof and all allied businesses for the operation and maintenance of said airport facility. This segment also has merchandising operations of food and non-food items.
- (c) *Landport Operations* – principally relates to the development and implementation of the Southwest Integrated Transport System Project (ITS Project), now known as PITX.

Other operations of the Group comprise the operations and financial control groups. These segments are also the basis of the Group in reporting to its executive committee for its strategic decision-making activities. Transactions between segments are conducted at estimated market rates on an arm's length basis.

Segment revenues and expenses that are directly attributable to business segment and the relevant portions of the Group's revenues and expenses that can be allocated to that business segment are accordingly reflected as revenues and expenses of that business segment.

4.2 *Segment Assets and Liabilities*

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash, receivables, inventories and property, plant and equipment, net of allowances and provisions. Similar to segment assets, segment liabilities are also allocated based on their use or direct association with a specific segment. Segment liabilities include all operating liabilities and consist principally of accounts, wages, taxes currently payable and accrued liabilities. Segment assets and liabilities do not include deferred taxes.

4.3 Analysis of Segment Information

Presented below are the relevant operating segment information about the results of operations and financial position of the Group's business segments as of December 31, 2021, 2020 and 2019, and for the years ended December 31, 2021, 2020 and 2019 (amounts in thousands).

	Construction			Airport			Landport			Total		
	2021	2020	2019	2021	2020	2019	2021	2020	2019	2021	2020	2019

4.4 Reconciliation

Presented below is a reconciliation of the Group's segment information to the key financial information presented in its consolidated financial statements (amounts in thousands).

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Revenues			
Segment revenues	P 15,670,876	P 13,286,598	P 20,533,224
Intersegment sales	<u>(26,905)</u>	<u>(363,371)</u>	<u>(651,419)</u>
Revenues as reported in the consolidated statements of income	<u>P 15,643,971</u>	<u>P 12,923,227</u>	<u>P 19,881,805</u>
Profit or loss			
Segment net profit (loss)	(P 941,723)	(P 853,030)	P 1,240,917
Other unallocated income (expense)	<u>48,569</u>	<u>(21,566)</u>	<u>(129,882)</u>
Net profit (loss) as reported in the consolidated statements of income	<u>(P 893,154)</u>	<u>(P 874,596)</u>	<u>P 1,111,035</u>
Assets			
Total segment assets	P 90,696,097	P 87,510,283	P 87,263,189
Elimination of intercompany accounts	<u>(12,629,646)</u>	<u>(7,877,956)</u>	<u>(9,031,920)</u>
Other unallocated assets	<u>7,110,178</u>	<u>1,711,442</u>	<u>2,533,057</u>
Total assets as reported in the consolidated statements of financial position	<u>P 85,176,629</u>	<u>P 81,343,769</u>	<u>P 80,764,326</u>
Liabilities			
Total segment liabilities	P 65,277,758	P 61,611,694	P 64,973,208
Elimination of intercompany accounts	<u>(3,253,619)</u>	<u>(1,823,709)</u>	<u>(4,083,754)</u>
Other unallocated liabilities	<u>3,951,582</u>	<u>1,033,316</u>	<u>1,876,360</u>
Total liabilities as reported in the consolidated statements of financial position	<u>P 65,975,721</u>	<u>P 60,821,301</u>	<u>P 62,765,814</u>

4.5 Other Segment Information

The Group has not identified any segment based on geographical location since the Group's operation is concentrated in one country of location.

The revenues from three major customers in 2021, 2020 and 2019 accounted for 38%, 46%, and 17%, respectively, of the total construction revenues are as follows:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Customer A	P 2,084,313,919	P2,150,769,324	P 2,861,117,765
Customer B	1,767,782,385	1,227,659,023	1,608,179,056
Customer C	<u>1,586,261,904</u>	<u>1,595,766,503</u>	<u>1,128,109,032</u>
	<u>P 5,438,358,208</u>	<u>P4,974,194,850</u>	<u>P5,597,405,853</u>

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are as follows:

	<u>2021</u>	<u>2020</u>
Cash on hand	P 4,515,280	P 5,400,865
Cash in banks	2,889,408,586	2,165,007,181
Short-term placements	<u>2,952,164,164</u>	<u>5,055,741,866</u>
	<u>P 5,846,088,030</u>	<u>P7,226,149,912</u>

Cash in banks generally earn interest based on daily bank deposit rates.

Short-term placements are made for varying periods from 14 to 90 days and earn annual effective interest of 0.7% to 1.6% in 2021 and 2020. The interest income earned from these financial assets amounted to P32.6 million, P57.9 million and P110.6 million in 2021, 2020 and 2019, respectively, and are presented as part of Finance income under Other Income (Charges) account in the consolidated statements of income (see Note 25.2).

6. TRADE AND OTHER RECEIVABLES

This account consists of the following:

	Notes	<u>2021</u>	<u>2020</u>
Contract receivables:			
Third parties		P 2,911,018,409	P 2,840,546,754
Related parties	28.1	<u>1,454,980,969</u>	<u>944,337,644</u>
		<u>4,365,999,378</u>	<u>3,784,884,398</u>
Retention receivables:			
Third parties		1,689,943,587	1,534,199,721
Related parties	28.1	<u>788,840,503</u>	<u>868,788,166</u>
		<u>2,478,784,090</u>	<u>2,402,987,887</u>
Advances to:			
Related parties	28.4	6,418,877,754	6,410,689,673
Officers and employees	28.3	<u>85,798,075</u>	<u>74,481,307</u>
		<u>6,504,675,829</u>	<u>6,485,170,980</u>
Receivables from airport operations	18.2 (a), 21.2	<u>699,627,783</u>	<u>570,230,462</u>
Rental receivables:			
Lease receivable – per contract	21.3	703,189,750	385,466,377
Lease receivable – effect of straight-line method		<u>652,564,199</u>	<u>524,235,954</u>
		<u>1,355,753,949</u>	<u>909,702,331</u>
Receivables from sale of goods	21.4	-	766,766
Accrued interest receivables	28.4	1,452,075,646	1,011,075,646
Other receivables	28.2, 28.5	<u>345,402,891</u>	<u>172,164,286</u>
		17,202,319,566	15,336,982,756
Allowance for impairment		<u>(231,765,011)</u>	<u>(37,932,641)</u>
		<u>P16,970,554,555</u>	<u>P 15,299,050,115</u>

Retention receivables pertain to progress billings which are withheld by the project owners equivalent to 5.0% or 10.0% as provided in the respective construction contract of each project. These will only be collected after a certain period of time upon acceptance by project owners of the certificate of completion.

Receivables from airport operations pertain to the Group's accrual of aeronautical, concession, rental and commercial revenues as authorized under the Concession Agreement (see Note 21.2).

Rental receivables include those uncollected from third party tenants of the Group, and the related rent receivables arising from the difference between the cash basis rent income and the straight-line rent income of all lease contracts with fixed payments as of the end of the reporting period. As of December 31, 2021 and 2020, rent receivables arising from the effect of straight-lining method amounted to P652.6 million and P524.2 million, respectively (see Note 21.3).

Trade and other receivables except certain advances to related parties do not bear any interest.

All receivables, except advances to officers and employees which are subject to liquidation, are subject to credit risk exposure [see Note 32.2(b)].

All of the Group's trade and other receivables have been reviewed for impairment using the provision matrix as determined by the management [see Note 32.2(b)]. The total impairment losses recognized by the Group are presented in the succeeding paragraphs.

The total allowance for impairment for contract, retention and airport receivables provided by the Group amounted to P231.8 million and P37.9 million as of December 31, 2021 and 2020, respectively.

A reconciliation of the allowance for impairment at the beginning and end of 2021 and 2020 is shown below.

	<u>Note</u>	<u>2021</u>	<u>2020</u>
Balance at beginning of year		P 37,932,641	P 10,956,072
ECL	23	222,772,533	27,289,069
Reversal of impairment loss	23	(17,792,630)	-
Write-off		(11,147,533)	(312,500)
Balance at end of year		<u>P 231,765,011</u>	<u>P 37,932,641</u>

The amount of impairment losses, net of reversal of impairment loss, is presented separately under the Other Operating Expenses section of the statements of income (see Note 23).

7. FINANCIAL ASSETS/LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

In November 2015, GMCAC entered into an interest rate swap transaction to hedge the interest rate exposure on its floating rate US dollar-denominated loan maturing in June 2022 with start date on December 15, 2017. A notional amount of US\$75.0 million floating rate loan was swapped to fixed rate. Under the interest rate swap agreement, GMCAC pays annual fixed interest rate within a range of 1.79% to 2.65% plus margin ranging from 2.50% to 3.08% and receives floating rate and receives floating rate of nine-month US\$ LIBOR rate on Bloomberg Page on the notional amount.

As at December 31, 2021 and 2020, GMCAC recognized P54.9 million and P121.9 million derivative liability shown under Trade and Other Payables (see Note 17). GMCAC recognized in the consolidated statements of income under Other Income (Charges) unrealized gain from change in fair value of the interest rate swap amounting to US\$1.7 million or P78.6 million in 2021, unrealized loss of US\$1.0 million or P43.3 million in 2020, and US\$1.6 million or P104.8 million in 2019 (see Note 25.3). GMCAC entered into interest rate swap as economic hedges of underlying exposure arising from its foreign currency-denominated loan. Such interest swap agreement is accounted for as a derivative instrument not designated for hedges.

8. CONSTRUCTION MATERIALS

At the end of 2021 and 2020, construction materials were stated at cost which is lower than net realizable value. This account consists of the following:

	<u>2021</u>	<u>2020</u>
Work in progress	P 1,129,136,315	P 963,166,389
Consumables and spare parts	506,652,379	281,222,077
Mechanical electrical plumbing and fireproof materials	182,836,039	219,528,702
Precast	94,980,118	92,773,144
Hardware	59,488,080	60,728,374
Rebars	27,117,251	31,159,478
Others	<u>44,949,202</u>	<u>70,464,699</u>
	<u>P 2,045,159,384</u>	<u>P 1,719,042,863</u>

Work in progress inventories pertains to various construction materials delivered to project warehouses and are yet to be installed or used by its subcontractors.

Others pertain to construction materials which include painting materials, nails and adhesive items.

9. CONTRACT ASSETS

The significant changes in the contract assets balances during the reporting periods are as follows:

	<u>2021</u>	<u>2020</u>
Balance at beginning of year	P 4,231,600,246	P 3,975,734,097
Increase as a result of changes in measurement of progress	10,780,020,228	9,642,837,195
Decrease as a result of reversal to trade receivables	(10,233,915,616)	(9,386,971,046)
Balance at end of year	<u>P 4,777,704,858</u>	<u>P 4,231,600,246</u>

The balance of contract assets as of December 31, 2021 and 2020 is net of allowance for impairment amounting to P288.2 million (see Note 32.2).

Contract assets pertains to the gross amount due from customers for contract works of all contracts in progress which are not yet billed (see Note 2.17). Contract assets in 2021 and 2020 also include the cost of the landport area of the PITX Project amounting to P510.1 million which is to be recovered through the Grantor payments [see Notes 3.1(l) and 15].

The Group satisfies its performance obligation when the full completion of the project and benefit therefrom can be derived by the customers. Invoices are due once related accomplishments for the month is complete.

The Group recognizes contract assets, due to timing difference of billings and satisfaction of performance obligation, to the extent of satisfied performance obligation on all open contracts as of the end of the reporting period. Changes in the contract assets are recognized by the Group when a right to receive payment is already established.

10. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

The financial assets pertain to the Group's equity investment acquired in 2015 wherein the Parent Company does not exercise control or significant influence (designated as at FVOCI) and golf club shares [see Note 2.4(a)(ii)].

The details of the financial assets at FVOCI as of 2021 and 2020 is shown below.

Investment securities at FVOCI:

Investment in SSPI	P	2,500,000
Golf club shares		<u>1,044,472</u>
	P	<u><u>3,544,472</u></u>

The Group has equity interest of 1% in SSPI as of December 31, 2021 and 2020.

As of December 31, 2021 and 2020, the amounts of the Group's non-current financial assets approximate its fair values.

11. INVESTMENTS IN ASSOCIATES AND JOINT VENTURE AND ACQUISITION OF ASSETS

The carrying values of Investments in Associates and Joint Venture account are shown below:

	<u>Notes</u>	<u>2021</u>	<u>2020</u>
Investments in:			
Associates	11.1	P 813,793,409	P 824,426,033
Joint ventures	11.3	<u>47,719,774</u>	<u>104,769,953</u>
		<u><u>P 861,513,183</u></u>	<u><u>P 929,195,986</u></u>

The significant commitments related to the associates and joint venture are discussed in Note 29.

These associates and joint venture are not listed in the local stock exchange; hence, the fair value of the shares cannot be determined reliably. However, management believes that the carrying amounts of the investments are fully recoverable based on either the prospect of the business or the recoverable amount from the net assets of these associates and joint ventures.

11.1 Equity Advances and Investments in Associates

The components of the carrying values of this account are as follows:

	<u>Note</u>	<u>2021</u>	<u>2020</u>
Acquisition cost:			
MWCCI		P 580,890,000	P 580,890,000
CMCI		<u>200,000,000</u>	<u>200,000,000</u>
		<u>780,890,000</u>	<u>780,890,000</u>
Equity advances in MWCCI		<u>23,572,864</u>	<u>23,572,864</u>
Equity share in net profit (losses):			
Balance at beginning of year		19,963,169	9,308,698
Equity in net profit (loss) for the year	25.3	(<u>10,632,624</u>)	<u>10,654,471</u>
Balance at end of year		<u>9,330,545</u>	<u>19,963,169</u>
		<u>P 813,793,409</u>	<u>P 824,426,033</u>

The equity in net profit (loss) includes catch-up adjustments to reflect the audited balances of the associates, hence, might not be equal to the amount of the Group's share in net profit based on the financial information presented below.

These associates do not have any other comprehensive income or loss in 2021 and 2020.

(a) MWCCI

MWCCI was incorporated in the Philippines on January 16, 2014 and is primarily established to undertake and implement the construction of a 700-bed capacity super-specialty tertiary orthopedic hospital (New Hospital Facility), under the MPOC Project. MWCCI's registered office, which is also its principal place of business, is at 20 N. Domingo Street, 1112 Valencia, Quezon City.

As of December 31, 2021 and 2020, the Parent Company has 51% ownership interest in MWCCI.

MWCCI sent a Notice of termination of its BOT Agreement with the Department of Health (DOH), which was accepted by DOH in 2016. MWCCI is undertaking measures to recover compensation costs from DOH and believes that that it will ultimately recover in full the costs it incurred relative to the MPOC Project. Accordingly, the Parent Company has not recognized any impairment losses for its investment in MWCCI.

(b) CMCI

The Parent Company, together with Citicore, formed CMCI as a consortium for the construction of classrooms in Regions 3 and 4 under the build-lease-transfer Public Private Partnership (PPP) agreement with the Philippine Department of Education (DepEd) ownership interest (see Note 29.2). CMCI was incorporated in the Philippines on October 15, 2012 and is primarily engaged in general construction business. CMCI's registered address, which is also its principal place of business, is located at 20 N. Domingo Street, Brgy. Valencia, Quezon City.

As of December 31, 2021 and 2020, the Parent Company owns 10% interest in CMCI as a joint venture partner.

The table below presents the financial information of MWCCI and CMCI as of and for years ended December 31, 2021, 2020 and 2019 of the associates (amounts in thousands of PHP).

		<u>Current Assets</u>		<u>Non-current Assets</u>		<u>Current Liabilities</u>		<u>Non-current Liabilities</u>		<u>Revenues</u>		<u>Net Income (Loss)</u>
2021:												
MWCCI (Unaudited)	P	338,947	P	847,397	P	87,447	P	-	P	-	P	-
CMCI (Unaudited)		4,215,261		2,017,636		1,885,472		2,080,191		273,670		10,546
2020:												
MWCCI (Unaudited)	P	338,947	P	847,398	P	87,447	P	-	P	-	P	5,999
CMCI (Audited)		3,525,156		2,646,046		1,894,306		2,020,208		344,183		(13,849)
2019:												
MWCCI (Unaudited)	P	1,186,343	P	-	P	87,447	P	-	P	-	(P)	6,000
CMCI (Audited)		3,975,675		3,090,155		2,194,494		2,600,799		408,764		73,360

A reconciliation of the above summarized financial information to the carrying amount of the investments in associates is shown below (amounts in thousands of PHP).

	<u>Notes</u>	<u>% Interest Held</u>		<u>Net Asset Value</u>		<u>Share in Net Asset</u>		<u>Carrying Value of Investments</u>
2021								
MWCCI	a	51%	P	1,098,896	P	560,437	P	587,070
CMCI	b	10%		2,267,234		226,723		226,723
Total						<u>P 787,160</u>		<u>P 813,793</u>
2020								
MWCCI	a	51%	P	1,098,896	P	560,437	P	587,070
CMCI	b	10%		2,311,552		231,155		237,356
Total						<u>P 791,592</u>		<u>P 824,426</u>

Management determined that the difference between the respective share in the net assets of the associates and the carrying amount of the investment in CMCI is not material to the consolidated financial statements. The Group has not recognized any impairment of the investment in MWCCI as the associate expects to collect all its remaining receivables both from the Ultimate Parent Company and from DOH, a third party [see Note 11.1(a)].

As of December 31, 2021 and 2020, the Parent Company did not receive any dividends from its associates.

11.2 Acquisition of Assets of Altria

On December 26, 2012, pursuant to a memorandum of agreement dated December 17, 2012, the Parent Company acquired 100% ownership interest in Altria. Altria is a company incorporated in the Philippines and holds an investment property in the form of land. The registered office of Altria, which is also its principal place of business, is located at Coastal Road Bangiad, San Juan, Taytay, Rizal.

As of December 31, 2021 and 2020, Altria has no operations and its assets mainly pertain to the land where the Parent Company's precast and batching facilities are constructed (see Note 14). In accordance with Group's policy (see Note 2.8), the transaction is treated by the Group as an asset acquisition since the transaction does not constitute a business combination.

The purchase price upon acquisition was allocated among the following accounts based on their relative fair values:

Cash in bank	P	486,426
Bond deposits		1,500,958
Land		303,468,569
Accrued expenses		(<u>100,000</u>)
		<u>P 305,355,953</u>

Subsequent to the date of acquisition, any changes in the carrying value of the net assets acquired in the books of Altria, including the expenses incurred in administering the property (i.e, property taxes), shall be updated in the books of the Parent Company on a line-by-line basis, as if they are consolidated into a single entity. The difference shall be charged directly to profit or loss as part of Others – net account under the Other Income (Charges) section in the consolidated statements of income (see Note 25.3). The Parent Company charged P2.3 million, P0.5 million, P0.5 million in 2021, 2020, and 2019, respectively, to profit or loss to account for the expenses incurred by Altria, net of changes in cash in bank, bond deposits and accrued expenses.

11.3 Interest in Joint Ventures

This account includes the carrying values of the following components:

	Note	2021	2020
Acquisition costs:			
MTRGC		P 58,324,000	P 58,324,000
SSPPC		<u>58,324,000</u>	<u>58,324,000</u>
		<u>116,648,000</u>	<u>116,648,000</u>
Equity share in net losses:			
Balance at beginning of year		(11,878,047)	29,086,993
Equity in net loss for the year	25.3	(<u>57,050,179</u>)	(<u>40,965,040</u>)
Balance at end of year		(<u>68,928,226</u>)	(<u>11,878,047</u>)
		<u>P 47,719,774</u>	<u>P 104,769,953</u>

These joint ventures do not have any other comprehensive income or loss both in 2021 and 2020.

GMCAC has 42% interest in MTRGC and SSPPC, which are primarily engaged in the set-up, operation and management of duty paid retail, food and beverage outlets and provision of related services thereto in the airport terminals (T1 and T2).

The following are the summary of financial information related to the Group's interest in the joint ventures as of December 31, 2021 and 2020 (amounts in thousands of PHP):

	Current Assets	Non-current Assets	Current Liabilities	Non-current Liabilities	Revenues	Net Income/(Loss)
2021 (Unaudited):						
MTRGC	P 111,041	P 100,339	P 140,731	P 2,089	24,937	(P 32,076)
SSPPC	40,615	336,306	315,883	17,017	15,165	(6,027)
2020 (Audited):						
MTRGC	P 122,415	P 110,647	P 129,922	P 2,504	66,230	(P 38,419)
SSPPC	35,261	391,614	260,970	17,017	180,094	(62,719)
2019 (Audited):						
MTRGC	P 155,593	P 102,557	P 115,588	P 3,508	232,235	P 1,807
SSPPC	120,913	411,847	302,522	18,630	654,764	66,710

Additional financial information for these joint ventures are as follows:

	2021	2020	2019
MTRGC:			
Cash and cash equivalents	P 22,418,886	P 12,235,148	P 17,084,509
Depreciation and amortization	18,935,760	21,797,177	14,513,362
Interest income	6,857	21,948	75,970
Interest expense	4,840,500	5,092,877	1,986,846
Income tax expense	-	14,194,728	1,392,248
SSPPC:			
Cash and cash equivalents	P 9,336,123	P 22,863,451	P 107,221,042
Depreciation and amortization	4,531,221	59,934,709	40,391,372
Interest income	507	591,536	351,310
Interest expense	-	1,447,420	1,463,337
Income tax expense (income)	-	(26,863,886)	24,369,136

A reconciliation of the summarized financial information to the carrying amount of the investments in associates is shown below (amounts in thousands of PHP).

	Net Asset Value	Share in Net Assets	Carrying Value of Investments
2021			
MTRGC	P 68,560	P 28,562	P 28,562
SSPPC	45,985	19,158	19,158
Total		P 47,720	P 47,720
2020			
MTRGC	P 100,552	P 41,890	P 42,743
SSPPC	148,888	62,027	62,027
Total		P 103,917	P 104,770

Management determined that the difference between the respective share in the net assets of the joint ventures and the carrying amount of the investments is not material to the consolidated financial statements

11.4 Interest in Joint Operations

As discussed in Notes 1.2(k) and 1.2(l), MGCJV shall undertake the construction works for the renovation and expansion of the MCIA Project in Cebu, MGCJVI shall undertake the construction works of the Clark Airport, while HMDJV shall undertake the construction works of the Malolos-Clark Railway. Also, as discussed Note 2.3(c)(i), the Parent Company's interests in MGCJV, MGCJVI and HMDJV are accounted for as joint arrangement – joint operation and, as such, the Parent Company accounts for its interest in the relevant assets, liabilities, revenues, and expenses of MGCJV, MGCJVI and HMDJV.

The capital commitments of the joint operations are disclosed in Note 29.5.2.

As of and for the years ended December 31, 2021 and 2020, the relevant financial information of the Group's interest in MGCJV, MGCJVI, and HMDJV which are included in the appropriate accounts in the Group's interim condensed consolidated statements of financial position and interim condensed consolidated statements of income are as follows:

	<u>Before</u> <u>Elimination</u>	<u>Elimination</u>	<u>After</u> <u>Elimination</u>

Refundable security deposits	2.4	44,692,207	44,421,967
Computer software license – net	12.5	39,783,913	47,859,287
Advances to contractors and suppliers	12.1	7,999,946	7,999,946
Miscellaneous		<u>73,074,778</u>	<u>168,125</u>
		<u>2,350,475,048</u>	<u>2,421,844,626</u>
		<u>P12,483,435,520</u>	<u>P10,378,588,954</u>

12.1 Advances to Contractors and Suppliers

Current portion of advances to contractors and suppliers pertain to down payments made by the Group based on a certain percentage of the contract price. The initial payment will eventually be recouped or deducted from the amount payable of the Group either in a pro-rated basis or in full once billed by the contractors and supplier. These advances are classified as current since it would be applied as payments for subcontractors. This also includes materials and supplies provided by the Group to subcontractors which will be deducted to the progress billings of the subcontractors upon installation. The risk of loss on these materials and supplies are borne by the subcontractors.

Impairment of current portion of advances to contractors and suppliers was assessed through determining the position of the contractors and suppliers on their capacity to comply according to their performance obligation. Despite the impact of COVID-19, the Group deemed the advances to be recouped by qualifying contractors and suppliers through their work progress as well as using outstanding liability of the Group to the contractors and suppliers as leverage.

On the other hand, non-current portion of this is related to the down payments made by the Group for the construction of airport terminal building and acquisitions of property, plant and equipment.

12.2 Input VAT

Input VAT under other current assets pertains to the payment of VAT on purchases of services and goods that is recoverable within 12 months. Deferred input VAT pertains to the unamortized input VAT on purchases of capital goods exceeding P1.0 million. Deferred input VAT arising from purchase of capital goods exceeding P1.0 million is to be amortized and credited against output tax evenly over five years or the life of the asset, whichever is shorter.

Non-current portion of deferred input VAT amounting to P1,847.1 million and P1,729.3 million as of December 31, 2021 and 2020, respectively, represents GMCAC's deferred input VAT arising mainly from the acquisition of goods and equipment and payment of services in relation to the construction activities in the airport. The balance is to be transferred to input VAT under Other Current Assets systematically on the basis of the Group's projected output VAT payments over the term of the Concession Agreement (see Note 13).

12.3 Deposits for Condominium Units

Deposits for condominium units represent initial downpayments made for the purchase of condominium units. These will be reclassified to investment property upon execution of contract to sell and deed of sale.

12.4 Prepaid Taxes

Prepaid taxes pertain to the excess of quarterly income tax payments over the current tax due during the year and creditable withholding taxes.

12.5 Computer Software License

The details of this account are presented below.

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Cost	P 154,805,624	P 147,037,422	P 129,596,424
Accumulated amortization	(<u>115,021,711</u>)	(<u>99,178,135</u>)	(<u>82,280,584</u>)
	<u>P 39,783,913</u>	<u>P 47,859,287</u>	<u>P 47,315,840</u>

A reconciliation of the carrying amounts of computer software license at the beginning and end of the reporting periods is shown below.

	<u>Notes</u>	<u>2021</u>	<u>2020</u>
Balance at beginning of year		P 47,859,287	P 47,315,840
Additions	13	7,768,203	17,440,998
Amortization expense for the year	23	(<u>15,843,577</u>)	(<u>16,897,551</u>)
Balance at end of year		<u>P 39,783,913</u>	<u>P 47,859,287</u>

The related amortization charges were recorded as part of Depreciation and amortization under Other Operating Expenses account in the consolidated statements of income.

12.6 Investment in Trust Fund

On November 28, 2015, GMCAC's BOD authorized GMCAC to establish, maintain and operate trust and investment accounts with a local universal bank (Security Trustee). The investment in trust fund constitutes (i) Revenue Accounts; (ii) Future Major Maintenance Fund Account; (iii) Debt Service Reserve Accounts; (iv) Debt Service Payment Account; and, (v) Distribution Accounts, collectively referred to as "Cash Flow Waterfall Accounts" and Loan Disbursement Accounts under a certain Omnibus Loan and Security Agreement (OLSA) to ensure the prompt payment of the required amortization, interest and principal of the long-term loan. As of December 31, 2021 and 2020, the investment in trust fund is composed only of cash.

The OLSA provided that the Security Trustee shall invest and reinvest the monies in the collateral accounts [see Note 18.2(a)].

12.7 Deferred Fulfilment Costs

Deferred fulfilment costs pertain to costs that are directly related to a specific construction contract, generate or enhance resources that will be used to fulfill a performance obligation of the Group in the future, and are recoverable under the contract. Such costs include, but are not limited to, mobilization costs of equipment and labor, engineering and design costs, insurance and depreciation of equipment related to a specific contract.

The policy on initial and subsequent measurement of these deferred fulfilment costs is discussed in Note 2.17.

The movement of deferred fulfilment costs is shown below:

	<u>2021</u>	<u>2020</u>
Balance at beginning of year	P 787,283,237	P 579,089,321
Additions	66,734,247	430,684,262
Amortization	(110,069,634)	(222,490,346)
Balance at end of year	<u>P 743,947,850</u>	<u>P 787,283,237</u>

13. CONCESSION ASSETS

Concession Agreement refers to the agreement entered into by the Parent Company and GIL with DOTr and MCIA by virtue of Revised Implementing Rules and Regulations of Republic Act (R.A.) No. 6957, "*An Act Authorizing the Financing, Construction, Operation and Maintenance of Infrastructure Projects by the Private Sector and for Other Purposes*", as amended by R.A. No. 7718 (referred to as the "*BOT Law*"). Under the said agreement, GMCAC was granted by DOTr and MCIA an exclusive right to design, develop, and undertake the MCIA Project; and, enjoy complete and uninterrupted possession of all movable and immovable assets for purposes of implementing the Project, whether tangible or intangible pertaining to concessionaire Operations and Maintenance (O&M) Facilities such as the existing assets, project land, assets produced, installed, built and created pursuant to the Concession Agreement, commercial assets, among others, (collectively referred as Project Assets) [see Note 1.2(a)]. The Concession Agreement is for a period of 25 years commencing on O&M start date unless further extended pursuant to the Concession Agreement.

The MCIA Project comprises the following undertaking:

- Construction of Terminal 2 (T2), along with all Associated Facilities;
- Renovation and expansion, but not the demolition of Terminal 1 (T1) and Associated Facilities;
- Complete reconstruction of Terminal 2 Apron (T2 Apron);
- Capacity augmentation;
- Development of commercial assets; and,
- Operation and maintenance of the concessionaire O&M facilities and commercial assets.

As of December 31, the breakdown of the capitalized concession assets is as follows:

	<u>Airport Upfront Fees</u>	<u>Infrastructure</u>	<u>Total</u>
December 31, 2021

Net carrying amount	<u>P 17,564,379,223</u>	<u>P 11,872,207,247</u>	<u>P 29,436,586,470</u>

Upfront fees include P14,404.6 million bid premium paid by GMCAC to the Philippine Government for the MCIA Project. In addition, the capitalized borrowing costs amounted to P604.1 million and P610.5 million as at December 31, 2021 and 2020, respectively, at a capitalization rate of 4.99% to 9.69% in 2021 and 2020, respectively.

Cost of airport infrastructure pertains mainly to the design and renovation of passenger terminals and development works of the MCIA Project. Additions to airport infrastructure, include, among others, the rehabilitation of the existing T1, construction of the new T2 building, and structural design.

As of December 31, 2021, and 2020, the concession assets not yet available for use amounted to P9,615.9 million and P9,007.9 million, respectively. The breakdown of concession assets not yet available for use are shown below.

	<u>2021</u>	<u>2020</u>
Capacity augmentation	P 8,412,842,922	P 7,881,311,850

	<u>P 9,615,851,941</u>	<u>P 9,007,876,583</u>

Concession assets not yet available for use are not amortized but tested for impairment as at December 31, 2021 and 2020 in accordance with GMCAC's accounting policy. The recoverable amounts of these were determined based on a value in use calculation using cash flow from financial model approved by the management covering the remaining life of the concession of 18 and 19 years in 2021 and 2020, respectively.

The pre-tax discount rate applied to cash flow projections is 10.0% and 12.3% as of December 31, 2021 and 2020. As a result of this analysis, management assessed the no impairment loss is required to be recognized on the Group's concession assets in 2021, 2020 and 2019.

14. PROPERTY, PLANT AND EQUIPMENT

The gross carrying amounts and accumulated depreciation at the beginning and end of December 31, 2021 and 2020 are shown below.

	Land	Building	Precast Factory	Office Furniture, Fixture and Equipment	Transportation Equipment	Precast and Construction Equipment	Construction in Progress [as Restated - see Note 2.1(d)]	Right of Use Assets (See Note 16)	Total
December 31, 2021

Construction in progress pertains to accumulated costs incurred in constructing a new precast warehouse, workers' barracks and logistics department facility which are located in Taytay, Rizal.

In 2021, 2020 and 2019, certain property, plant and equipment were sold for P89.5 million, P4.3 million and P92.1 million, respectively. As a result, the Group recognized gains amounting to P24.3 million, P1.9 million, and P9.6 million in 2021, 2020 and 2019, respectively, and are presented as Gain (loss) on disposals of property and equipment as part of Others – net under Other Income (Charges) account in the consolidated statements of income (see Note 25.3).

As of December 31, 2021 and 2020, the gross carrying amounts of the Group's fully depreciated property, plant and equipment that are still in use are P1,131.9 million and P708.6 million, respectively. The Group has no idle properties in any of the years presented.

Depreciation expense is charged to the following accounts in the consolidated statements of income:

	Notes	2021	2020	2019
Contract costs	22.1	P 1,006,018,603	P 924,021,681	P 773,562,002
Cost of landport operations	22.3	105,768,446	104,800,106	56,627,495
Other operating expenses	23	177,993,409	158,507,064	130,351,293
		<u>P 1,289,780,458</u>	<u>P 1,187,328,851</u>	<u>P 960,540,790</u>

Investment properties account includes parcels of land that are not used by the Group for administrative and supply of goods or services of the business and only held for capital appreciation amounting to P530.9 million and P502.5 million as of December 31, 2021 and 2020, respectively. Based on management's assessment, the carrying amounts of these assets are fully recoverable, hence, no impairment loss is required in both years. The fair value these assets for 2021 and 2020 amounts to P1,897.9 million and P1,869.5 million, respectively (see Note 33.6).

As discussed in Note 3.1(l), MWMTI was granted an exclusive right and obligation under the Concession Agreement. Relative to the arrangement, MWMTI incurred costs necessary to construct the facility. The separately identifiable accumulated costs incurred in the development of the PITX Project are allocated based on development and implementation plan for the landport and commercial areas. Any change in the allocation arising from the necessary revisions in the implementation plan is accounted for prospectively in the consolidated financial statements. The Group determined that the component with respect to commercial area of PITX Project is not within the scope of Philippine Interpretation of IFRIC 12, and therefore shall be accounted for using the applicable accounting standard based on the purpose and current use of the assets; hence, were recognized under PAS 40, as these assets are held to earn rentals.

The allocation of cost as of the end of the reporting periods are as follows:

	<u>2021</u>	<u>2020</u>
Landport area (see Note 9)	P 510,141,518	P 510,141,518
Commercial area	<u>3,769,109,913</u>	<u>3,828,278,382</u>
	<u>P4,279,251,431</u>	<u>P4,338,419,900</u>

Costs incurred for the landport area are presented as unbilled receivables under Contract Assets account in the consolidated statements of financial position (see Note 9). Unbilled receivable is recognized to the extent of actual cost incurred for the period. Meanwhile, costs incurred for the commercial area are presented as part of Investment Properties in the consolidated statements of financial position.

In March 2019, the Group started to depreciate the investment property using straight-line method as the asset is already readily available for its intended use. Depreciation is computed over the concession period of 33 years.

Rental revenues recognized in 2021, 2020 and 2019 amounted to P715.0 million, P900.8 million and P528.7 million, respectively, and are presented as part of Landport Operations account under the Revenues section of the consolidated statements of comprehensive income (see Note 21.3). Depreciation charges substantially represent the direct costs in leasing these properties. Other operating costs in leasing these properties include Real property taxes amounting to P119.4 million, P128.9 million, and P39.0 million in 2021, 2020, and 2019, respectively, and Repairs and maintenance amounting to P14.7 million, P2.4 million, and P5.2 million in 2021, 2020, and 2019, respectively. Real property taxes is included as part of Taxes and licenses while Repairs and maintenance is presented under Repairs and maintenance account in the consolidated statements of comprehensive income(see Note 23).

As of December 31, 2021 and 2020, the fair value of the Commercial area amounted to P3,816.7 million and P3,618.4 million, respectively.

16. LEASES

The Group has leases for construction equipment and transportation equipment. With the exception of short-term leases and leases of low-value underlying assets, each right-of-use asset and lease liability from leases are reflected on the consolidated statements of financial position as part of property, plant and equipment and interest-bearing loans and borrowings, respectively. Variable lease payments which do not depend on an index or a rate are excluded from the initial measurement of the lease liability and asset.

Each lease generally imposes a restriction that, unless there is a contractual right for the Group to sublet the asset to another party, the right-of-use asset can only be used by the Group. Leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee. Some leases contain an option to purchase the underlying lease asset outright at the end of the lease, or to extend the lease for a further term. The Group is prohibited from selling or pledging the underlying leased assets as security. For leases over warehouses and offices, the Group must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Further, the Group must insure the leased assets and incur maintenance fees on such items in accordance with the lease contracts.

The table below describes the nature of the Group's leasing activities by type of right-of-use asset recognized in the consolidated statements of financial position.

	Number of right-of-use assets leased	Range of remaining term	Number of average remaining lease term	Number of leases with extension options	Number of leases with options to purchase	Number of leases with termination options
2021:						
Transportation equipment	186	1 – 5 years	3 years	-	49	-
Precast and construction equipment	168	1 – 5 years	4 years	-	54	-
Parcel of land	1	4 years	4 years	-	-	-
2020						
Transportation equipment	162	1 – 5 years	3 years	-	49	-
Precast and construction equipment	164	2 – 5 years	5 years	-	54	-

16.1 Right-of-use Assets

The carrying amounts of the Group's right-of-use assets (see Note 14) as at December 31, 2021, 2020, and 2019 and the movements during the period are shown below.

	Land	Precast and Construction Equipment	Transportation Equipment	Total
Balance as of January 1, 2021	P -	P 440,424,375	P 167,956,599	P 608,380,974
Additions	67,963,753	118,058,865	1,552,534	187,575,152
Disposals	-	-	(926,423)	(926,423)
Depreciation and amortization	(16,990,938)	(101,629,143)	(41,446,456)	(160,066,537)
Balance at December 31, 2021	<u>P 50,972,815</u>	<u>P 456,854,097</u>	<u>P 127,136,254</u>	<u>P 634,963,166</u>
Balance as of January 1, 2020	P -	P 376,631,729	P 191,812,743	P 568,444,472
Additions	-	121,647,009	35,536,960	157,183,969
Disposals	-	-	(1,236,705)	(1,236,705)
Reclassifications	-	(6,727,238)	(3,803,589)	(10,530,827)
Depreciation and amortization	-	(51,127,125)	(54,352,810)	(105,479,935)
Balance at December 31, 2020	<u>P -</u>	<u>P 440,424,375</u>	<u>P 167,956,599</u>	<u>P 608,380,974</u>
Balance as of January 1, 2019	P -	P 134,891,630	P 77,291,818	P 212,183,448
Additions	-	272,329,885	152,201,629	424,531,514
Depreciation and amortization	-	(30,859,786)	(37,680,704)	(68,270,490)
Balance at December 31, 2019	<u>P -</u>	<u>P 376,631,729</u>	<u>P 191,812,743</u>	<u>P 568,444,472</u>

In 2021 and 2020, ownership of certain transportation equipment was transferred to an employee of the Company amounting to P1.2 million and P0.9 million, respectively.

16.2 Lease Liabilities

Lease liabilities are presented in the consolidated statements of financial position as part of Interest-bearing Loans and Borrowings (see Note 18) as at December 31, 2021 and 2020 as follows:

	<u>2021</u>	<u>2020</u>
Current	P 219,483,607	P 195,172,595
Non-current	<u>246,214,092</u>	<u>337,495,382</u>
	<u>P 465,697,699</u>	<u>P 532,667,977</u>

The use of extension and termination options gives the Group added flexibility in the event it has identified more suitable premises in terms of cost and/or location or determined that it is advantageous to remain in a location beyond the original lease term. An option is only exercised when consistent with the Group's business strategy and the economic benefits of exercising the option exceeds the expected overall cost.

As of December 31, 2021, and 2020, the Group has not committed to any leases which had not commenced.

16.3 Lease Payments Not Recognized as Liabilities

The Group has elected not to recognize a lease liability for short-term leases or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. In addition, certain variable lease payments are not permitted to be recognized as lease liabilities and are expensed as incurred.

The expenses pertaining to short-term leases and low-value assets amounted to P57.0 million, P30.1 million and P47.4 million in 2021, 2020 and 2019, respectively, and is presented as Rentals as part of Administrative expenses under Other Operating Expenses (Income) in the consolidated statements of income (see Note 23).

16.4 Additional Profit or Loss and Cash Flow Information

The total cash outflow in respect of leases amounted to P254.5 million, P98.9 million and P142.4 million in 2021, 2020 and 2019, respectively, and is presented as part of Repayment of interest-bearing loans and borrowings in the statement of cash flows. Interest expense in relation to lease liabilities amounted to P45.4 million, P36.1 million and P22.1 million in 2021, 2020 and 2019, respectively, and is presented as part of Finance costs under Finance Income (Costs) in the consolidated statements of income (see Note 25.1).

The lease liabilities are secured by the related underlying assets. The maturity analysis of lease liabilities at December 31, 2021, 2020 and 2019 is as follows:

	<u>Within 1 year</u>	<u>1 to 2 years</u>	<u>2 to 3 years</u>	<u>3 to 4 years</u>	<u>4 to 5 years</u>	<u>Total</u>
<i>December 31, 2021</i>						
Lease payments	P 248,374,420	P 169,959,559	P 84,711,884	P 8,765,243	P -	P 511,811,106
Finance charges	(28,890,813)	(13,514,723)	(3,494,320)	(213,551)	-	(46,113,407)

Finance charges	(34,311,321)	(23,107,246)	(13,427,038)	(6,162,507)	(748,928)	(77,757,040)
Net present value	<u>P 139,443,656</u>	<u>P 131,703,773</u>	<u>P 105,084,152</u>	<u>P 65,342,696</u>	<u>P 32,776,372</u>	<u>P 474,350,703</u>

17. TRADE AND OTHER PAYABLES

This account consists of the following:

	<u>Notes</u>	<u>2021</u>	<u>2020</u>
Trade payables		P 5,036,078,936	P 4,002,239,479
Retention payable		2,180,081,529	2,195,156,203
Accrued expenses		506,190,339	749,582,769
Security deposits	20	235,216,916	119,723,716
Interest payable	18	195,323,314	920,315,247
Derivative liability	7	54,872,973	121,895,954
Due to related parties	28.4	328,685,322	20,000,000
Others		<u>80,266,018</u>	<u>163,037,855</u>
		<u>P 8,616,715,347</u>	<u>P 8,291,951,223</u>

Retention payable pertains to amounts withheld from payments made to subcontractors to ensure compliance and completion of contracted projects ranging from 5% to 10% of every billing made by the contractor. Upon completion of the subcontracted projects, the amounts are returned to the subcontractors.

Accrued expenses include mainly unpaid utilities.

Others include accrued salaries and other non-trade payables.

18. INTEREST-BEARING LOANS AND BORROWINGS

The details of short-term and long-term interest-bearing loans and borrowings are as follows:

	<u>Notes</u>	<u>2021</u>	<u>2020</u>
Current:			
Bank loans	18.2, 29.4	P 14,504,602,415	P 12,915,285,156
Lease liabilities	16.2	219,483,607	195,172,595
Notes payable	18.1, 29.4	<u>56,000,000</u>	<u>20,000,000</u>
		<u>14,780,086,022</u>	<u>13,130,457,751</u>
Non-current:			
Bank loans	18.2, 29.4	28,961,405,146	26,881,620,942
Notes payable	18.1, 29.4	5,513,791,232	5,570,791,232
Lease liabilities	16.2	<u>246,214,092</u>	<u>337,495,382</u>
		<u>34,721,410,470</u>	<u>32,789,907,556</u>
		<u>P 49,501,496,492</u>	<u>P 45,920,365,307</u>

The total unpaid interest from the foregoing interest-bearing loans and borrowings as of December 31, 2021 and 2020 amounted to P195.3 million and P920.3 million, respectively, and is presented as Interest payable under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

18.1 Notes Payable

(a) 2013 Notes Facility

On February 19, 2013, the Parent Company executed a notes facility agreement with a local universal bank. In this agreement, the Parent Company desired to offer and issue fixed-rate corporate notes in the aggregate principal amount of P4,000.0 million. The net proceeds of the notes after deducting direct issue costs, such as underwriting fees and commissions, documentary stamp tax and other expenses associated with the issuance, amounted to P3,957.3 million.

The notes constitute direct, unconditional, unsubordinated, general and unsecured obligation ranking at least pari passu with all other present and future direct, unconditional, unsubordinated and unsecured obligations of the Parent Company.

The notes are issued in three tranches with the following details:

	<u>Principal</u>	<u>Term in Years</u>	<u>Interest Rate</u>
Tranche A	P 650,000,000	5	5%
Tranche B	3,250,000,000	7	6%
Tranche C	<u>100,000,000</u>	10	6%
	<u>P 4,000,000,000</u>		

The nominal rates refer to the Philippine Dealing System Treasury (PDST) Fixing rates with respect to the term of each tranche plus an interest spread of 1.75% for Tranche A and B and 1.50% for Tranche C.

The notes, among other things, restrict the Parent Company's ability to:

- 1) incur any indebtedness to be secured by or to benefit from any lien, in favor of any creditor on, or in respect of any present or future assets or revenues or the right to receive income;
- 2) make any material change in the nature of its business from that being carried on as of the signing date;
- 3) enter into any merger or consolidation except if the issuer retains control of the surviving corporation, such merger or consolidation is required by law, and such merger does not result in material adverse effect;
- 4) amend its articles of incorporation and/or by-laws except as required by law or unless prior consent was obtained from the bank;
- 5) declare or pay any cash dividend to its stockholders (other than dividends payable solely in shares of its capital stock and cash dividends due on its outstanding preferred shares) or retain, retire, purchase or otherwise acquire any class of its capital stock, or make any other capital or other asset distribution to its stockholders, unless all payments due under the notes are current and updated and provided that any such payment is made out of retained earnings and the debt to equity ratio of 2:1 are maintained;
- 6) sell, assign, lease, transfer, and/or dispose all or substantially all of its properties;
- 7) assign, transfer or otherwise convey any right to receive any of its income or revenues;
- 8) voluntarily suspend its business operations in a manner that will result in a material adverse effect;
- 9) extend any loan, advance or subsidy to any person (other than to its subsidiaries or affiliates, or transactions in the ordinary course of business, or financing or guarantees for the direct or indirect purchase or sale of the assets of the issuer, its subsidiaries or affiliates). Neither shall the issuer make any deposit, credit to, or investment in, any person, except for bank deposit, credit placements, and other transactions in the ordinary course of business;
- 10) permit its financial debt to equity ratio to exceed 2:1; and,
- 11) voluntarily prepay any indebtedness.

The Parent Company has complied with all the debt covenants set forth in the notes facility agreement.

Tranche A and B has matured already, leaving Tranche C outstanding, with a carrying value of P69.8 million and P70.8 million, respectively, as at December 31, 2021 and 2020, respectively.

(b) 2016 Various Notes Facility

In 2016, the Parent Company entered into various notes facility arrangement with a local bank to refinance the corporate note issued in 2011 and to finance its capital expenditure and general corporate requirements.

The notes are issued with the following details:

<u>Date Issued</u>	<u>Principal</u>	<u>Term in years</u>	<u>Interest Rate</u>
September 16, 2016	P 650,000,000	10	5.50%
December 5, 2016	350,000,000	10	6.37%
December 16, 2016	<u>1,000,000,000</u>	10	6.37%
	<u>P 2,000,000,000</u>		

These 10-year corporate notes bear an interest rate based on the closing per annum rates of a ten (10)-year PDST-R2 rate on the PDS Group website plus a certain spread. The Parent Company has to maintain a debt-to-equity ratio of not more than 2.33 and a debt service coverage ratio of at least 1.1.

The notes, among other things, restrict the Parent Company's ability to:

- 1) Engage in any business or make or permit any material change in the character of its business from that authorized on its amended articles of incorporation and by-laws;
- 2) Amendment of articles of incorporation and by-laws which would cause a material adverse effect or except when prior consent is obtained from the bank;
- 3) Change of ownership and management if as a result the stockholdings of Citicore Investments Holdings Inc. will fall below 51% or enter into profit sharing, partnership or joint venture whereby its profits are shared with any other person that may have a material adverse effect;
- 4) Sale of asset, transfer or dispose of all or substantially all of its properties and assets except in the ordinary course of business;
- 5) Declaration of dividends or retirement of capital if the issuer shall not be in compliance with the financial covenants or would result to an event of default;
- 6) Loans and advances to its directors, officers, and stockholders (other than to its subsidiaries or affiliates, or transactions in the ordinary course of business, or financing or guarantees for the direct or indirect purchase or sale of the assets of the issuer, its subsidiaries or affiliates). Neither shall the issuer make any deposit, credit to, or investment in, any person, except for bank deposit, credit placements, and other transactions in the ordinary course of business;
- 7) Make a capital expenditure not in the ordinary course of business;
- 8) Incur additional debt or act as surety on behalf of third parties or incur monetary obligation which shall cause the issuer to breach the financial covenants;
- 9) Loans and advances to any person (other than to its subsidiaries or affiliates, or transactions in the ordinary course of business, or financing or guarantees for the direct or indirect purchase or sale of the assets of the issuer, its subsidiaries or affiliates). Neither shall the issuer make any deposit, credit to, or investment in, any person, except for bank deposit, credit placements, and other transactions in the ordinary course of business;
- 10) Directly or indirectly incur or suffer to exist any lien upon any assets and revenues, present and future of the issuer or enter into any loan facility agreement secured by or to be secured by a lien upon any assets and revenues, present and future whether registered or unregistered of the issuer;
- 11) Except for permitted investments, invest in or acquire any (i) share in or any security issued by any person, (ii) acquire directly or indirectly the business or going concern or all substantially all the properties and assets or business of any other corporation or entity or invest in a controlling entity therein; and,
- 12) It will not voluntarily suspend or discontinue its entire or a substantial portion of its business operation.

All of the three tranches of the second corporate note remained outstanding, with a carrying value of P1,900.0 million and P1,920.0 million as at December 31, 2021 and 2020, respectively.

On August 10, 2017, the Parent Company sent a letter to the bank requesting the waiver of one of the loan negative covenants that prohibits the stockholdings of Citicore in the Parent Company to fall below 51% or enter into profit sharing, partnership or joint venture whereby its profits are shared with any other person that may have a material adverse effect (see Note 1.1). In September 2017, the request was granted by the bank.

The Parent Company has complied with all the debt covenants set forth in the notes facility agreement.

(c) *2020 Various Notes Facility.*

On February 19, 2020, the Parent Company signed a P5,000.0 million corporate note facility, the proceeds of which will be used by the Parent Company to (a) retire maturing debt obligations, (b) to fund growth projects, and (c) for general corporate purposes.

The notes constitute direct, unconditional, unsubordinated, general and unsecured obligation ranking at least pari passu with all other present and future direct, unconditional, unsubordinated and unsecured obligations of the Company.

The notes will be issued in five tranches as follows:

	<u>Principal</u>
Tranche A	P 3,600,000,000
Tranche B	350,000,000
Tranche C	350,000,000
Tranche D	350,000,000
Tranche E	<u>350,000,000</u>
	<u>P 5,000,000,000</u>

These 4.5-year corporate notes bear an interest rate based on the closing per annum rates of a 4.5-year PHP BVAL reference rate on the PDS Group website plus a certain spread, subject to a floor rate of 5%. The Parent Company has to maintain a debt-to-equity ratio of not more than 2.33 and a debt service coverage ratio of at least 1.10. Debt pertains to all interest-bearing loans and borrowing.

The notes, among other things, restrict the Parent Company's ability to:

- 1) incur any indebtedness to be secured by or to benefit from any lien, in favor of any creditor on, or in respect of any present or future assets or revenues or the right to receive income;
- 2) make any material change in the nature of its business from that being carried on as of the signing date;
- 3) enter into any merger or consolidation except if the issuer retains control of the surviving corporation, such merger or consolidation is required by law, and such merger does not result in material adverse effect;
- 4) amend its articles of incorporation and/or by-laws except as required by law or where prior consent is obtained from the bank;
- 5) declare or pay any cash dividend to its stockholders (other than dividends payable solely in shares of its capital stock and cash dividends due on its outstanding preferred shares) or retain, retire, purchase or otherwise acquire any class of its capital stock, or make any other capital or other asset distribution to its stockholders, unless all payments due under the Notes are current and updated and provided that any such payment is made out of retained earnings and the debt to equity ratio of 70:30 is maintained. Debt pertains to all interest-bearing loans and borrowing.;
- 6) sell, assign, lease, transfer, and/or dispose all or substantially all of its properties;
- 7) assign, transfer or otherwise convey any right to receive any of its income or revenues;

- 8) purchase or repurchase the indebtedness, or assume, guarantee, endorse, or otherwise become directly contingently liable for or in connection with any person (other than to its subsidiaries or affiliates, or financing or guarantees for the direct or indirect purchase or sale of the assets of Company, its subsidiaries or affiliates).
- 9) voluntarily suspend its business operations in a manner that will result in a material adverse effect;
- 10) extend any loan, advance or subsidy to any person (other than to its subsidiaries or affiliates, or transactions in the ordinary course of business or financing or guarantees for the direct or indirect purchase or sale of the assets of Company, its subsidiaries or affiliates). Neither shall the issuer make any deposit, credit to, or investment in, any person, except for bank deposit, credit placements, and other transactions in the ordinary course of business; permit its financial debt to equity ratio to exceed 70:30 nor permit its debt service coverage ratio to fall below 1.10x. Debt pertains to all interest-bearing loans and borrowing.; and, voluntarily prepay any indebtedness.

In 2020, the Parent Company made its first drawdown on its third unsecured corporate note amounting to P3,600.0 million and remained outstanding as at December 31, 2021 and 2020.

As of December 31, 2021 and 2020, the carrying amount of all the corporate notes are P5,569.8 million and P5,590.8 million, respectively.

The total interest on these notes payable amounted to P328.5 million, P338.1 million and P304.8 million in 2021, 2020 and 2019, respectively, and is presented as part of Interest expense from notes payable under Finance Costs account (see Note 25.1). Unpaid interest as of December 31, 2021 and 2020 amounting to P31.3 million is presented as part of Interest payable under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

The Parent Company is in compliance with all other covenants required to be observed under the loan facility agreement as of December 31, 2021 and 2020.

18.2 Bank Loans

(a) Omnibus Loan and Security Agreement – December 17, 2014

On December 17, 2014, GMCAC entered into a P20,000.0 million (which at GMCAC's option may be increased up to P23,300.0 million) OLSA with various local universal banks, as onshore lenders. On January 26, 2015, the parties amended the facility to include another universal bank as offshore lender to contribute US \$75.0 million (or equivalent to P3,500.0 million) into the facility.

The facility has a term of 15 years, the repayment of which starts in 2019 and shall continue every year thereafter until 2030; and, interest requirements that are payable annually based on the following:

	First 7 Years	Last 8 Years
P20,000.0 million onshore loan	Sum of Base Rate 1 (PDST-R2 benchmark yield) and credit spread	Sum of Base Rate 2 (PDST-R2 benchmark yield) and credit spread
US\$75.0 million offshore loan	LIBOR plus credit spread	LIBOR plus credit spread

As security for timely payment of the loan and prompt observance of all provision of the Omnibus Agreement, the following are pledged as collateral on this loan:

- all monies deposited and from time to time standing in the Cash Flow Waterfall Accounts;
- the Project receivables;
- the proceeds of any asset and business insurance obtained;
- the Project Documents (Accession Agreement, Technical Service Agreement and Engineering and Procurement Contract); and,
- the 100% of the total issued and outstanding capital stock of GMCAC.

The carrying value of the Project receivables as of December 31, 2021 and 2020 amounted to P699.6 million and P570.2 million, respectively, net of allowance for ECL amounting to P4.9 million and P6.1 million as of December 31, 2021 and 2020, respectively. These are non-interest bearing and generally on a 30 to 60-day credit terms.

GMCAC's BOD authorized GMCAC to establish, maintain and operate trust and investment accounts with a Security Trustee to ensure the prompt payment of the required amortization, interest, and principal of the long-term loan, which was established and maintained by GMCAC during the reporting period. As of December 31, 2021 and 2020, the carrying amount of the assets pledged, in the form of a trust fund investment, as collateral amounted to P163.5 million and P401.5 million, respectively (see Note 12.6). These are composed of dollar deposit accounts which earns interest of 0.5% to 1.6% in 2021, 2020 and 2019 and peso deposit accounts which earns interest of .5% to 6.5% in 2021, 2020 and 2019.

In addition, the OLSA provides certain restrictions and requirements which include, among others, maintaining and preserving its corporate existence, complying with all of its material obligations under the project arrangements, restrictions on granting of loans or advances and disposal of major properties and restrictions on payment of dividends. The OLSA also provides financial covenants which include maintaining a maximum debt to equity ratio of 70:30 and a debt service coverage ratio of at least 1.1 times following the Project completion date. As at December 31, 2020, the GMCAC has debt-to-equity ratio of 67:33 and DSCR of 0.09, hence unable to comply with the financial covenants. GMCAC, therefore, made negotiations with the lenders as more fully discussed below and in the succeeding paragraphs. As there is no event of default yet based on the terms of the loan, the outstanding balance was not yet considered due and demandable [see Note 18.2(d)].

Pursuant to Schedule V of the OLSA, GMCAC has principal and interest payable due on December 15, 2020, with the principal payable equivalent to 1% of total loan and with the interest accrued payable covering the period from June 16, 2020 to December 15, 2020. On December 11, 2020, GMCAC requested from the Lenders through a formal letter request, for the deferment of the principal and interest that will fall due on December 15, 2020 to February 15, 2021. On December 15, 2020, GMCAC received a reply from the Lenders unanimously approving the deferment for principal and interest, of which interest on the outstanding principal shall continue to accrue until February 15, 2021, as if such date were an interest payment date.

On a letter dated February 14, 2021, GMCAC requested for further extension of payment date from February 15, 2021 to March 31, 2021. Interest on the outstanding principal shall continue to accrue until March 31, 2021, as if such date were an interest payment date and the current interest period shall be extended, and the succeeding interest period shall be shortened accordingly. The Lenders approved the request on February 15, 2021.

GMCAC has availed of certain reliefs and renegotiated the terms of its existing loan agreements with its lenders. As a result, on May 4, 2021, GMCAC and the lenders executed the second amendment to the amended and restated OLSA. The second amendment agreement include among others the following significant provisions:

- Changes in the principal repayment schedule as follows:

<u>Year</u>	<u>Percentage</u>
2020	1.00%
2024	8.00%
2025	9.40%
2026	12.04%
2027	11.00%
2028	11.28%
2029	16.78%
2030	30.00%

The remaining 0.50% pertains to principal repayment made on December 15, 2019 amounting to P104.4 million and US\$0.4 million on the onshore and offshore loan facility, respectively.

- Principal repayment date will start June 15, 2024 and every six months thereafter;
- Deferral of interest payment incurred from September 15, 2020 to March 31, 2021. 19.97% of the accrued interest related to the period shall be paid in May 2021, the balance or 80.03% shall be paid on June 15, 2023 together with the interest accrued;
- For interest incurred from March 31, 2021 to December 15, 2021, 37.12% of the accrued interest related to the period shall be paid monthly starting May 15, 2021 until December 15, 2021, the balance or 62.88% shall be paid on December 2023 together with the interest accrued;
- Shareholders' loan extension (subordinated debt) totaling P640.0 million which shall be deposited in the Debt Service Reserve account on or before June 15, 2021;
- Changes in certain financial covenants. For debt to equity ratio, maintain a maximum debt to equity ratio of 75:25 for the period commencing on January 1, 2021 and ending on December 31, 2023, and 70:30 for the period commencing on January 1, 2024 and ending on the date on which all indebtedness under the finance documents has been irrevocably paid in full. For debt service coverage ratio, maintain a debt service coverage ratio at all times of at least 1.1x until the maturity date from the project completion date other than during the period commencing on January 1, 2021 and ending on the date that the recovery conditions stated in sponsor's support section have been satisfied. As at December 31, 2021 and 2020, GMCAC was able to comply with the required debt to equity ratio;
- Debt service coverage ratio of at least 1.1x at all times during the period commencing on December 31, 2024 and ending on the date that the recovery conditions stated in the sponsor's support section have been satisfied; and,
- Changes in the composition of retained earnings during the relief period of January 1, 2021 to December 31, 2023 taking into consideration the impact of deferred interest.

The modifications in the contractual cash flows are not substantial and therefore did not result in the derecognition of the affected financial liabilities. Total modification gain recognized as a result of these modifications amounted to P207.8 million and is presented under Other Income (Charges) - net account in the 2021 consolidated statement of income (see Note 25.3).

As of December 31, 2021, GMCAC has unamortized premium on long-term debt amounting to P1.1 billion arising from the modification of terms. The amount is the result of recognizing the new carrying amount of the long-term debt based on the present value of the modified contractual cash flows discounted at the original effective interest rate. The premium on long-term debt is attributable to the deferred interests payable by GMCAC on June 15, 2023 and December 15, 2023 under the Second Amendment Agreement which formed part of the new carrying amount of the long-term debt under the modified terms.

Debt issuance costs incurred in relation to the amendment of the terms of the OLSA amounting to P22.8 million was recognized and formed part of the new carrying amount of the loans.

The movements of debt issuance costs relating to drawn amounts follows:

	<u>2021</u>	<u>2020</u>
Balance at the beginning of the year	P 240,664,623	P 266,359,488
Additional debt issuance costs	22,795,530	-
Amortization during the year	(35,395,100)	(25,694,865)
Balance at the end of the year	<u>P 228,065,053</u>	<u>P 240,664,623</u>

Provision in the loan indicates that the borrower shall pay to the lenders, a commitment fee equivalent to 0.3% per annum of the undrawn or uncanceled portion of the commitment that GMCAC does not draw in accordance with the drawdown schedule.

In order to hedge the interest rate exposure on this floating rate US dollar-denominated loan maturing in June 2022, GMCAC entered into an interest rate swap transaction. As at December 31, 2021 and 2020, GMCAC recognized P54.9 million and P121.9 million derivative liability arising from this interest rate swap transaction.

Total interest on these loans recognized as expense, including the amortization of debt issue costs, amounted to P1,059.0 million, P1,050.7 million and P946.2 million in 2021, 2020 and 2019, respectively, and is presented as part of Interest expense from bank loans under Finance costs under Other Income (Charges) account in the consolidated statements of income (see Note 25.1). Total accrued interest amounting to P97.7 million and P834.1 million as of December 31, 2021 and 2020, respectively, is presented as part of Interest payable under Trade and Other Payables in the consolidated statements of financial position (see Note 17). Capitalized borrowings amounted to P604.1 million and P610.5 million as at December 31, 2021 and 2020, respectively, at a capitalization rate of 4.99% to 9.69% in 2021 and 2020, respectively (see Note 13).

(b) OLSA for PITX project

In 2015, MWMTI entered into an Omnibus Loan and Security Agreement (OLSA) with a local universal bank for a loan facility amounting to P3,300.0 million to finance the construction of the ITS Project. In 2019, MWMTI requested the lender to increase the loan by P600.0 million making the total principal loan to P3,900.0 million.

In 2017, MWMTI made its first drawdown amounting to P825.0 million while the remaining loan facility was fully drawn in 2019 in tranches amounting to P3,075.0 million. The loan principal shall be amortized quarterly over 15 years and the first principal repayment is due on January 16, 2021. The interest-bearing loan is secured by the Joint Venturers and bears annual interest of 3.55%, 4.62%, and 6.89% in 2021, 2020, and 2019, respectively.

The interest-bearing loan requires the MWMTI to maintain a maximum debt-to-equity ratio of 70:30. In addition, the MWMTI is also required to observe at all times until full payment of the loan a debt service coverage ratio of at least 1.25.

In 2019, MWMTI exceeded the agreed debt-to-equity ratio and had lower than the stated debt service coverage ratio. Prior to December 31, 2019, MWMTI requested for the financial covenants not to be enforced during the grace period of 36 months from the initial drawdown date of the loan or from 2017, which was confirmed by one of the Bank's officers. MWMTI was also able to increase its credit line and drawdown and has been up to date in servicing of its loan. In addition, it has not received any written notice from the bank that the loan is already due and demandable, as required in the loan agreement to classify the loan as current as of the date of the issuance of the 2019 consolidated financial statements. Hence the loan was classified as non-current as of December 31, 2019. In 2021 and 2020, MWMTI has already complied with affirmative and negative covenants indicated in the OLSA.

Total interest expense on these loans, including the amortization of debt issue costs, amounted to P138.4 million and P173.5 million in 2021 and 2020, respectively, and is presented as part of Interest expense from bank loans under Finance costs under Other Income (Charges) account in the 2021 and 2020 consolidated statements of income (see Note 25.1). Total accrued interest amounting to P17.3 million and P17.5 million as of December 31, 2021 and 2020, respectively, is presented as part of Interest payable under Trade and Other Payables in the consolidated statements of financial position (see Note 17).

The total carrying value of bank loans of MWMTI as of December 31, 2021 and 2020 amounting to P117.0 million and P3,724.5 million, and P59.0 million and P3,841.5 million are presented under the current and non-current portion, respectively, of bank loans.

(c) Other Bank Loans

In addition, the Group also obtained various bank loans with total outstanding balance of P14,504.6 million and P12,915.3 million as of December 31, 2021 and 2020, respectively, representing unsecured short-term loans from other local banks. The loans bear fixed annual interest rates ranging from 5.10% to 7.5% in 2021 and 2020, and 5.13% to 7.0% in 2019. Total interest on these bank loans amounted to P635.4 million, P624.4 million and P629.9 million in 2021, 2020 and 2019, respectively, and is presented as part of Interest expense from bank loans under Finance costs under Other Income (Charges) account in the consolidated statements of income (see Note 25.1). The unpaid portion of these interest amounted to P49.0 million and P37.4 million as of December 31, 2021 and 2020, respectively, and is presented as part of Interest payable under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

(d) Finance Cost, Events of Default and Covenant Compliance

Total interest on interest bearing loans and borrowings amounted to P2,161.4 million, P2,186.6 million and P2,000.9 million in 2021, 2020 and 2019, respectively, and is presented as Interest expense from bank loans and notes payable under Finance Costs account in the statements of income (see Note 25.1). Unpaid interest as of December 31, 2021 and 2020 amounting to P31.3 million and is presented as Interest payable under Trade and Other Payables account in the statements of financial position (see Note 17).

The Group is in compliance with all other covenants required to be observed under the loan facility agreements, except for GMCAC which breached the loan covenant during 2020. However, the Group retained its loan as non-current, due to on-going negotiation with their syndicated loan with the banks as of December 31, 2020. As there is no event of default yet based on the terms of the loan as discussed in the succeeding paragraphs, the outstanding balance was not yet considered due and demandable. Such negotiation was finalized in May 2021.

In the event of a default, the loan and all interest accrued and unpaid shall be due and payable as instructed by the facility agent and all declared commitments terminated, then the Security Trustee and the Lenders may foreclose upon any of the Security pursuant to the terms of the Agreement and the proceeds of any sale, disposition or other realization or foreclosure shall be paid to the loan distributed in the manner stated in the Agreement.

Events of default constitutes default on loan payment due and payable, except due to technical or administrative error, material misrepresentation, non-remediable violation of the covenants in the Loan Document, revocation of the project documents, cross default, failure to observe material obligations in the Project Documents or it becomes unlawful resulting to a material adverse effect, suspension, insolvency, payment of decree or writ of garnishment, the assigned assets are substantially impaired or seized and any event resulting in a material adverse effect.

19. CONTRACT LIABILITIES

The significant changes in the contract liability balances during the reporting periods are as follows:

	<u>2021</u>	<u>2020</u>
Balance at beginning of year	P 4,593,930,101	P 4,931,269,957
Increase due to billings excluding amount recognized as revenue during the year	3,000,814,182	1,604,069,732
Revenue recognized that was included in contract liability at the beginning of the year	(1,955,644,394)	(2,049,952,403)
Effect of financing component	<u>120,291,431</u>	<u>108,542,815</u>
Balance at end of year	<u>P 5,759,391,320</u>	<u>P 4,593,930,101</u>

These are presented and classified in the consolidated statements of financial position as at December 31 as follows:

	<u>2021</u>	2020 [As Restated – see Note 2.1(d)]
Current	P 3,703,189,013	P2,115,256,611
Non-current	<u>2,056,202,307</u>	<u>2,478,673,490</u>
	<u>P 5,759,391,320</u>	<u>P 4,593,930,101</u>

20. OTHER LIABILITIES

The details of this account are as follows:

	<u>2021</u>	<u>2020</u>
Current:		
Deferred output VAT	P 139,255,223	P 82,996,745
Withholding taxes	67,137,365	54,023,865
Government liabilities	30,641,077	71,118,450
Deferred revenue	28,212,830	13,284,012
Others	<u>612,841</u>	<u>-</u>
	<u>P 265,859,336</u>	<u>P 221,423,072</u>
Non-current:		
Security deposits	P 471,258,850	P 464,587,591
Unearned rent income	<u>188,314,260</u>	<u>187,038,088</u>
	<u>P 659,573,110</u>	<u>P 651,625,679</u>

Deferred revenue represents advance payments from customers and concessionaires that are subject to refund or future billing applications within 12 months from the end of the reporting period.

As of December 31, 2021 and 2020, security deposits pertains mainly to the amounts received from lessees in relation to GMCAC's airport operations. In 2019, the Group received additional security deposits upon full operations of MWMTT's PITX. These deposits on lease agreements will be refunded at the end of the lease terms, which ranges from one to eight years. The resulting day one gain amounting to P0.05 million in 2021 and P79.1 million in 2019 (nil in 2020) are presented as part of Finance Income in statements of comprehensive income (see Note 25.2).

Interest expense, arising from the unwinding of discount on these deposits, amounted to P10.1 million, P40.7 million, and P2.2 million in 2021, 2020, and 2019, respectively, is presented as accretion of security deposits under Finance Costs in the statements of comprehensive income (see Note 25.1).

Unearned rent income pertains to the difference between the fair value and principal amount of security deposits received at the inception of the lease with concessionaires, which are amortized over the corresponding lease term.

21. REVENUES

When the Group prepares its investor presentations and when the Group's Executive Committee evaluates the financial performance of the operating segments, it disaggregates revenue similar to its segment reporting as presented in Notes 2.13 and 4.

The Group determines that the categories used in the investor presentations and financial reports used by the Group's management can be used to meet the objective of the disaggregation disclosure requirement of PFRS 15, which is to disaggregate revenue from contracts with customers and other counterparties into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

A summary of additional disaggregation from the segment revenues and other unallocated income are shown below.

	Notes	Point in time	Over time	Short-term	Long-term	Total

21.1 Construction Operation Revenues

The details of this account for the years ended December 31, 2021, 2020 and 2019 are composed of the revenues from:

	2021	2020	2019
Contracts in progress	P 12,413,132,561	P 9,821,566,592	P 15,140,197,972
Completed contracts	1,916,331,018	<u>1,020,633,353</u>	<u>168,871,411</u>
	<u>P 14,329,463,579</u>	<u>P 10,842,199,945</u>	<u>P 15,309,069,383</u>

Approximately 5%, 8%, and 7% of the contract revenues for 2021, 2020 and 2019, respectively, were earned from contracts with an associate and certain related party under common ownership (see Note 28.1).

21.2 Airport Operations Revenues

The details of this account are composed of the revenues from:

Note	2021	2020	2019
Aeronautical	P 190,468,401	P 487,465,797	P 2,017,492,164
Concession	102,599,621	175,215,890	606,495,158
Rental	29.1 62,709,047	140,209,403	514,492,251
Others	220,265,492	<u>305,776,625</u>	<u>552,632,886</u>
	<u>P 576,042,561</u>	<u>P 1,108,667,715</u>	<u>P 3,691,112,459</u>

Others include non-aero related services like taxi and bus ticket collection, service charges, advertising license and fees, and the likes.

21.3 Landport Operations Revenue

The PITX Project undertaken by the Group with the DOTr gives the Group the control over the landport area and the right to collect concessionaire revenue. As disclosed in Note 9, contract assets include unbilled receivable in 2019 which pertains to the cost of the landport area which is to be recovered through the Grantor payments.

The construction of the PITX Project was completed in 2019 and the Group has no unsatisfied performance obligations as of December 31, 2021 and 2020.

The details of landport operations revenue for the years ended December 31, 2021, 2020 and 2019 are composed of the revenues from:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Rental revenue – per contract	P 586,711,216	P 759,069,445	P 146,237,035
Rental revenue – effect of straight-line method	128,328,244	141,759,518	382,476,437
Construction revenue	<u>-</u>	<u>1,585,000</u>	<u>26,688,355</u>
	<u>P 715,039,460</u>	<u>P 902,413,963</u>	<u>P 555,401,827</u>

21.4 Trading Operations Revenue

The details of this account for the years ended December 31 are as follow:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Sale of food	P 21,540,063	P 40,763,655	P 143,559,337
Sale of non-food items	1,885,451	29,181,187	112,473,557
Consignment	<u>-</u>	<u>-</u>	<u>70,188,285</u>
	<u>P 23,425,514</u>	<u>P 69,944,842</u>	<u>P 326,221,179</u>

22. DIRECT COSTS

22.1 Cost of Construction Operations

The following is the breakdown of this account for the years ended December 31:

	<u>Notes</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>
Materials		P 4,487,949,063	P 3,589,871,892	P 5,522,579,742
Outside services		4,367,458,345	3,183,737,819	4,731,572,291
Salaries and employee benefits	24.1	1,354,772,256	1,243,034,290	1,424,719,436
Depreciation	14	1,006,018,603	924,021,681	773,562,002
Project overhead		<u>914,499,809</u>	<u>452,881,087</u>	<u>839,364,144</u>
	23	<u>P12,130,698,076</u>	<u>P 9,393,546,769</u>	<u>P 13,291,797,615</u>

Project overhead includes insurance, repairs and maintenance, gas and oil, travel and transportation, professional fees, utilities, municipal permits, taxes, security services, office supplies and various rental expenses of staging areas.

22.2 Costs of Airport Operations

The following is the breakdown of cost of airport operations:

	Notes	2021	2020	2019
Utilities	P	97,665,013	P 130,674,364	P 268,586,765
Repairs and maintenance		64,242,458	97,065,819	133,298,432
Amortization of concession asset	13	50,184,461	163,497,064	738,596,573
Salaries and employee benefits	24.1	47,843,471	53,714,354	65,635,177
Insurance		38,415,345	33,841,627	33,414,799
Outside services		31,778,939	74,646,023	147,038,962
Technical service charge		14,007,049	31,219,996	29,567,996
Airport operator's fee		7,462,095	14,264,771	47,585,582
Airline collection charges		7,132,347	20,278,680	44,826,143
Others		29,433,412	15,504,634	28,066,432
		P 388,164,590	P 634,707,332	P 1,536,616,861

22.3 Cost of Landport Operations

The following is the breakdown of cost of landport operations:

	Notes	2021	2020	2019
Depreciation and amortization	14, 15	P 220,033,741	P 210,719,258	P 100,176,498
Terminal costs		123,478,825	132,919,417	176,099,593
Construction cost		-	1,585,000	26,688,354
Others		25,961,107	10,671,844	31,190,581
	23	P 369,473,673	P 355,895,519	P 334,155,026

22.4 Costs of Trading Operations

The following is the breakdown of cost of airport merchandising operations for the years ended December 31:

	Note	2021	2020	2019
Cost of goods sold:				
Food	P	13,266,924	P 12,902,173	P 37,059,400
Non-food		2,702,274	8,442,905	16,474,013
Consignment		-	-	34,367,114
Spoilage and pilferages		-	-	348,442
Purchase discounts		-	(384,711)	(34,705)
	23	P 15,969,198	P 20,960,367	P 88,214,264

23. OPERATING EXPENSES BY NATURE

The details of operating expenses by nature are shown below.

	<u>Notes</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>
Materials, supplies				
Outside services and facilities		P 4,567,359,241	P 3,374,009,996	P 5,273,914,333
Salaries and employee benefits	24.1	1,832,333,609	1,854,709,508	1,991,316,155
Depreciation and amortization	12.5, 13, 14, 15	1,470,073,791	1,473,642,618	1,757,625,213
Project overhead		914,499,809	452,881,087	866,052,497
Taxes and licenses	15	360,515,975	366,303,578	276,163,672
Impairment losses on receivables	6	204,979,903	27,289,069	38,591
Utilities		178,027,932	192,945,464	363,250,340
Professional fees		139,906,808	127,678,354	146,976,840
Repairs and maintenance	15	103,885,603	137,452,380	195,120,440
Insurance		76,437,983	46,694,512	46,861,446
Rentals	16.3, 28.2, 29.1	56,957,720	30,137,601	47,439,832
Representation		24,939,878	13,839,364	30,074,308
Travel and transportation		18,204,673	28,713,738	48,771,300
Cost of trading operations	22.4	15,969,198	20,960,367	88,214,264
Security services		10,306,007	4,821,098	3,437,271
Airport operator's fee	22.2, 29.3.1(b)	7,462,095	14,264,771	47,585,582
Airline collection charges	22.2	7,132,347	20,278,680	44,826,143
Selling expense		6,208,188	17,482,839	85,147,602
Advertising		5,572,743	9,114,956	56,363,309
Gas and oil		701,985	1,040,848	859,601
Miscellaneous		186,395,487	127,102,869	156,670,229
		<u>P14,687,301,213</u>	<u>P11,940,816,671</u>	<u>P17,077,949,746</u>

Miscellaneous includes certain construction reworks and warranty cost for certain projects already completed.

These expenses are classified in the consolidated statements of income as follows:

	<u>Note</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>
Cost of construction operations	22.1	P 12,130,698,076	P9,393,546,769	P13,291,797,615
Costs of airport operations	22.2	388,164,590	634,707,332	1,536,616,861
Cost of landport operations	22.3	369,473,673	355,895,519	334,155,026
Impairment loss		204,979,902	27,289,069	38,591
Costs of airport trading operations	22.4	15,969,198	20,960,367	88,214,264
Other operating expenses		<u>1,578,015,774</u>	<u>1,508,417,615</u>	<u>1,827,127,389</u>
		<u>P 14,687,301,213</u>	<u>P11,940,816,671</u>	<u>P17,077,949,746</u>

24. SALARIES

24.1 Salaries and Employee Benefits Expense

Expenses recognized for salaries and employee benefits are presented below.

	<u>Notes</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>
Short-term employee benefits		P 1,780,225,574	P1,789,849,973	P1,954,902,308
Post-employment benefit	24.2	<u>52,108,035</u>	<u>64,859,535</u>	<u>36,413,847</u>
	23	<u>P 1,832,333,609</u>	<u>P1,854,709,508</u>	<u>P1,991,316,155</u>

The expenses are allocated in the consolidated statements of income as follows:

	<u>Notes</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>
Contract costs	22.1	P 1,354,772,256	P1,243,034,290	P1,424,719,436
Costs of airport operations	22.2	47,843,471	53,714,354	65,635,177
Other operating expenses		<u>429,717,882</u>	<u>557,960,864</u>	<u>500,961,542</u>
	23	<u>P 1,832,333,609</u>	<u>P1,854,709,508</u>	<u>P1,991,316,155</u>

24.2 Post-employment Benefit

(a) Characteristics of Defined Benefit Plan

The Group maintains a partially funded and noncontributory post-employment defined benefit plan covering all regular full-time employees. The Group conforms to the minimum regulatory benefit under the R.A. No. 7641, *Retirement Pay Law*, which is of the defined benefit type and provides a retirement benefit in lump sum equal to 22.5-day pay for every year of credited service. The regulatory benefit is paid in a lump sum upon retirement. The normal retirement age is 60 with a minimum of 5 years of credited service.

(b) Explanation of Amounts Presented in the Consolidated Financial Statements

Actuarial valuations are made annually to update the retirement benefit costs and the amount of contributions. All amounts presented below and in the succeeding pages are based on the actuarial valuation report obtained from an independent actuary in 2021, 2020 and 2019.

The amounts of post-employment DBO in the consolidated statements of financial position are determined as follows:

	<u>2021</u>	<u>2020</u>
Present value of the DBO	P 304,816,782	P 348,036,884
Fair value of plan assets	(4,691,732)	(4,634,679)
	<u>P 300,125,050</u>	<u>P 343,402,205</u>

The movements in the present value of the DBO are as follows:

	<u>2021</u>	<u>2020</u>
Balance at beginning of year	P 348,036,884	P 344,592,331
Current service cost	55,923,548	64,859,535
Interest cost	13,746,478	17,891,726
Past service cost	(3,815,513)	-
Benefits paid directly from book reserve	-	(1,785,008)
Remeasurement/actuarial losses (gains) arising from:		
Changes in demographic assumptions	(90,220,999)	(3,297,747)
Experience adjustments	(28,750,969)	(65,494,335)
Changes in financial assumptions	<u>9,897,354</u>	<u>(8,729,618)</u>
Balance at end of year	<u>P 304,816,783</u>	<u>P 348,036,884</u>

Actuarial losses arising from experience adjustments pertain to the net effect of differences between previous actuarial assumptions and what actually incurred.

The movements in the fair value of plan assets are presented below.

	<u>2021</u>		<u>2020</u>
Balance at beginning of year	P 4,634,679	P	4,384,701
Interest income	183,070		228,443
Gain (loss) on plan assets (excluding amounts included in net interest)	(126,017)		<u>21,535</u>
Balance at end of year	<u>P 4,691,732</u>	P	<u>4,634,679</u>

The plan assets as of December 31, 2021 and 2020 consist mainly of the Unit Investment Trust Fund (UITF) amounting to P4.7 million and P4.6 million, respectively. The Group has 2,070 participation units on UITF managed by the trust department of a certain universal bank [see Note 32.2(c)]. Actual gain or loss on plan assets amounted to P0.1 million loss in 2021 and P0.2 million gain in 2020.

The components of amounts recognized in consolidated income and in the consolidated comprehensive income (loss) in respect of the defined benefit post-employment plan are as follows:

	<u>2021</u>		<u>2020</u>		<u>2019</u>
<i>Recognized in consolidated profit or loss:</i>					
Current and past service cost	P 52,108,035	P	64,859,535	P	36,413,847
Net interest expense	<u>13,563,408</u>		<u>17,663,283</u>		<u>12,476,374</u>
	<u>P 65,671,443</u>	P	<u>82,522,818</u>	P	<u>48,890,221</u>
<i>Recognized in consolidated other comprehensive income (loss):</i>					
Actuarial gains (losses) arising from:					
Changes in demographic assumptions	P 90,220,999	P	3,297,747	P	-
Experience adjustments	28,750,969		65,494,335	(10,329,077)
Changes in financial assumptions	(9,897,354)		8,729,618	(104,497,013)
Return on plan assets (excluding amounts included in net interest)	(<u>126,017</u>)		<u>21,535</u>		<u>153,818</u>
	<u>P 108,948,597</u>	P	<u>77,543,235</u>	(P	<u>114,672,272)</u>

Current service costs are included as part of Salaries and employee benefits under Other Operating Expenses account in the consolidated statements of income. The net interest expense is included as part of Finance Costs account in the consolidated statements of income (see Note 25.1).

Amounts recognized in other comprehensive income (loss) are presented under item that will not be reclassified subsequently to profit or loss.

In determining the amounts of the post-employment DBO, the following significant actuarial assumptions were used:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Discount rate	5.17%	3.95%	5.20%
Expected return on plan assets	3.50%	5.00%	5.00%
Employee turn-over rate	3.00%	3.00%	3.00%
Salary increase rate	6.00%	4.50%	6.00%

Assumptions regarding future mortality experience are based on published statistics and mortality tables. The average remaining working lives of an individual retiring at the age of 60 is 24 years. These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of a zero coupon government bonds with terms to maturity approximating to the terms of the post-employment obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) *Risks Associated with the Defined Benefit Plan*

The plan exposes the Group to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.

(i) *Investment and Interest Risks*

The present value of the DBO is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bonds will increase the plan obligation. However, this will be partially offset by an increase in the return on the plan and if the return on plan asset falls below this rate, it will create a deficit in the plan. As of December 31, 2021 and 2020, the plan has short-term investments managed through UITF.

(ii) *Longevity and Salary Risks*

The present value of the DBO is calculated by reference to the best estimate of the mortality of the plan participants during their employment and to their future salaries. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the plan obligation.

(d) *Other Information*

The information on the sensitivity analysis for certain significant actuarial assumptions, the Group's asset-liability matching strategy, and the timing and uncertainty of future cash flows related to the post-employment defined benefit plan are described in the next page.

(i) *Sensitivity Analysis*

The following table summarizes the effects of changes in the significant actuarial assumptions used in the determination of the post-employment DBO as of December 31:

	Impact on Post-Employment Defined Benefit Obligation		
	<u>Change in Assumption</u>	<u>Increase in Assumption</u>	<u>Decrease in Assumption</u>
2021:			
Discount rate	+/- 1%	(P244,506,021)	P 329,543,645
Salary growth rate	+/- 1%	330,011,003	(243,445,519)
2020:			
Discount rate	+/- 1%	(P 46,651,074)	P 56,964,885
Salary growth rate	+/- 1%	56,040,280	(46,744,083)

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the DBO as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the DBO has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the post-employment DBO recognized in the consolidated statements of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous years.

(ii) *Funding Arrangements and Expected Contributions*

The retirement plan trustee has no specific matching strategy between the plan assets and the plan liabilities.

The Group is not required to pre-fund the future defined benefits payable under the plan assets before they become due. For this reason, the amount and timing of contributions to the plan assets are at the Group's discretion. However, in the event a benefit claim, the shortfall will be due and payable from the Group to the plan assets.

The maturity profile of undiscounted expected benefit payments within 10 years from the end of the reporting periods follows:

	<u>2021</u>	<u>2020</u>
More than 1 year to 5 years	P 60,165,280	P 44,463,455
More than 5 years to 10 years	<u>100,148,370</u>	<u>109,802,351</u>
	<u>P 160,313,650</u>	<u>P 154,265,806</u>

The weighted average duration of the DBO at the end of the reporting period is 23.1 years.

25. OTHER INCOME (CHARGES)

25.1 Finance Costs

The breakdown of this account in is as follows:

	Notes	2021	2020	2019
Interest expense from:				
Bank loans	18.2	P 1,832,843,352	P 1,848,485,140	P 1,696,106,457
Notes payable	18.1	328,542,199	338,071,478	304,778,086
Lease liabilities	16.2	45,382,314	36,104,890	22,133,682
Accretion of security deposit	20	10,056,267	40,688,625	2,164,623
		2,216,824,132	2,263,350,133	2,025,182,848
Finance cost – PFRS 15		285,376,165	221,797,799	258,346,364
Foreign currency losses – net		242,566,530	-	3,420,967
Bank charges		51,181,014	3,933,999	9,501,226
Interest expense on retirement obligation – net	24.2	13,563,408	17,663,283	12,476,374
		P 2,809,511,249	P 2,506,745,214	P 2,308,927,779

Finance cost – PFRS 15 pertains to the portion of the transaction price regarded as interest expense due to the significant financing components within contracts [see Notes 2.17 and 3.1(c)]. This is the adjustment to the transaction price due to the time value of money. A contract is considered to have a significant financing component if the timing of payments agreed to by the parties provides the customer or the entity with a significant benefit of financing the transfer of goods or services.

Foreign currency losses - net mainly resulted from the Group's foreign currency-denominated transactions especially its off-shore loan [see Note 18.2(a)].

25.2 Finance Income

The details of finance income are the following:

	Notes	2021	2020	2019
Interest income from:				
Advances to related parties	28.4	P 441,000,000	P 433,125,000	P 441,000,000
Cash in banks	5	23,394,086	39,741,791	105,406,640
Short-term placements	5	9,228,276	18,194,897	5,152,906
Foreign currency gains – net	18.2(a)	777,747	203,569,550	137,098,221
Day one gain	20	516,268	-	79,180,145
Other finance income		7,097,520	145,734	-
		P 482,013,897	P 694,776,972	P 767,837,912

Foreign currency gains – net mainly resulted from the Group's foreign currency-denominated transactions especially its off-shore loan [see Note 18.2(a)].

Day one gain is a result of a discounting the nominal amount of security deposits to its present value at initial recognition of an instrument. Subsequently, this is amortized as interest expense with corresponding credit to the security deposit account. The day one gain in 2021 and 2020 pertains to security deposits collected from leases recorded at amortized cost using effective interest method (see Note 20).

25.3 Others – Net

This consists of the following:

	Notes	2021	2020	2019
Gain on loan modification	18.2(a)	P 207,829,510	P -	P -
Common usage service area charges		109,916,695	109,477,445	34,506,436
Management and consultancy fee	28.5	103,280,955	29,603,415	102,906,182
Unrealized gain (loss) on interest rate swap	7	78,648,688 (43,343,700) (104,842,394)
Equity in net profit (losses) of associates and joint venture	11.1, 11.3	(67,682,803)	(30,310,530)	32,674,443
Gain on disposals of property and equipment	14	24,279,017	1,874,270	9,603,796
Utility recoveries		23,450,364	81,823,643	4,926,560
Income from scrap sales	8	-	1,682,895	7,294,766
Penalties and charges		-	8,208,087	5,567
Others - net	11.2, 28.2	167,323,268	60,733,847	85,396,945
		P 647,045,694	P 219,749,372	P 172,472,301

CUSA pertains to fees charged used to maintain the common areas such as restroom, lobby, and other shared spaces that can be used by all tenants of the building and its customer.

The recognition of CUSA was made by MWMTI by grossing up charges to reflect the income and expense arising from these transactions as management determined that the MWMTI is acting as a principal on transactions.

Income from contract turnover pertain to reimbursements of costs incurred on a contract that has been turn overed to another contractor.

Utility recoveries include aircon repair and maintenance charges which are charged based on leasable area for the month and other such utility recovery billings such as electricity, water, fuel and bioaugmentation.

Management and consultancy fee pertains to fees charged by the Group to its clients for the project management and engineering and design services rendered.

Others – net represent various technical, and management services provided by the Group arising from the execution of its contract with the customers. The amount also includes various other charges arising from settlement agreement with suppliers.

26. TAXES

26.1 Registration with the Board of Investments

On May 29, 2015, the BOI approved the Parent Company's application for registration of its projects as PPP for School Infrastructure Project Phase 2 – Contract Package A pursuant to Build-Lease-Transfer Agreement with the Philippine DepEd on a nonpioneer status under the Omnibus Investment Code of 1987. Under such registration, the Parent Company is entitled of the following incentives:

- (a) Income tax holiday (ITH) for a period of four years from May 30, 2015 or actual start of commercial operations, whichever is earlier;
- (b) Importation of capital equipment, spare parts and accessories at zero duty for a period of five years from May 30, 2015;
- (c) Additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment; and,
- (d) Employment of foreign nationals which will hold supervisory, technical or advisory positions for five years from May 30, 2015.

On June 13, 2019, the BOI has approved the Parent Company's request for extension of the ITH incentive from May 28, 2019 to February 28, 2021 in relation to its PPP for School Infrastructure Project Phase 2.

On September 22, 2020, the Parent Company filed another request for extension of the ITH incentive with the BOI until February 28, 2022, due to delays in obtaining ownership documents and necessary permits as condition for release of Certificate of Final Acceptance.

On February 22, 2019, the BOI approved the Parent Company's application for registration as New Producer of Housing Components (Hollow Core Precast Pre-Stressed Slab) on a Non-Pioneer Status under the Omnibus Investments Code of 1987 (Executive Order No. 226). As such, the Parent Company is entitled to the following incentives:

- (a) ITH for a period of four years from February 2019 or actual start of commercial operations, whichever is earlier;
- (b) Importation of capital equipment, spare parts and accessories at zero-duty under Executive Order No. 57 and its Implementing Rules and Regulations;
- (c) Additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment; and,
- (d) Employment of foreign nationals which will hold supervisory, technical or advisory positions for five years from the date of registration.

On June 20, 2016, GMCAC was registered with the BOI as a PPP Project for the GMCAC Phase 2 – Operation and maintenance of Terminal 2 (Phase 2 O&M of T2) under the Concession Agreement with the DOTr and MCIAA as an expansion Project on a Non-pioneer status under the Omnibus Investment Code of 1987 (Executive Order No. 226).

Under the registration, GMCAC is entitled, among others, to ITH incentives for three years from December 2018 and July 2018 for Phase 1 and Phase 2, respectively, or actual start of commercial operations, whichever is earlier but in no case earlier than the date of registration. GMCAC has informed the BOI that the actual start of commercial operations of Phase I is on January 1, 2016 for ITH purposes.

Also, GMCAC is entitled to additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor in the year of availment as against the previous year, if the project meets the prescribed ratio of capital equipment to the number of workers set by the Board. This may be availed for the first five years from date of registration but not simultaneously with ITH.

GMCAC voluntarily waived the ITH incentive for Phase 2 O&M of T2 for the taxable year 2020. For the period starting January 1, 2021 to June 30, 2021, the end of ITH period, GMCAC filed with the BOI a formal notice of its intention to waive the ITH incentive for Phase 2 O&M of T2 on April 16, 2021. The formal notice was acknowledged as received by the BOI on the same date. GMCAC subjected all revenues and expenses of Phase 2 to RCIT for the year ended December 31, 2021.

26.2 Registration with Clark Freeport Zone

MGCJVI was registered as Clark Freeport Zone (CFZ) enterprise on April 12, 2018 with registration number C2018-169. On April 26, 2007, R.A. 9400 or “An Act Amending R.A. 7227 as Amended, otherwise known as the Bases Conversion and Development Act of 1992 and for Other Purposes” was approved.

One of the major amendments to R.A. 7227, now embodied in R.A. 9400, is the official declaration of Clark, which used to be a Special Economic Zone, as a Freeport Zone that would cover 4,400 hectares of the former Clark Air Base. Under R.A. 9400, the CFZ shall be operated and managed as a separate customs territory ensuring free flow or movement of goods and capital equipment within, into and exported out of Clark, as well as provide incentives such as tax and duty-free importation of raw materials and capital equipment. However, exportation or removal of goods from the territory of Clark to other parts of the country will also be subjected to customs duties and taxes under the Tariff and Customs Code of the Philippines, as amended by the National Internal Revenue Code. As a CFZ-registered enterprise, in lieu of paying the regular corporate income tax rate of 30%, MGCJVI shall pay 5% tax on gross income earned, divided as follows: 3% to the national government and 2% to the municipality or city where the zone is located. In addition, it is exempt from other internal revenue tax dues for its registered activities within the Freeport Zone, such as business tax, VAT and excise tax.

Under Revenue Regulation No. 02-01, enterprises registered pursuant to the Bases Conversion and Development Act of 1992 under R.A. 7227, as well as other enterprises duly registered under special economic zones declared by law which enjoy payment of special tax rate on their registered operations or activities in lieu of other taxes, are not subject to improperly accumulated earnings tax.

26.3 CREATE Act

On March 26, 2021, Republic Act (R.A.) No. 11534, Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act, as amended, was signed into law and shall be effective beginning July 1, 2020. The following are the major changes brought about by the CREATE Act that are relevant to and considered by the Group:

- regular corporate income tax (RCIT) rate was reduced from 30% to 25% starting July 1, 2020;
- minimum corporate income tax (MCIT) rate was reduced from 2% to 1% starting July 1, 2020 until June 30, 2023; and,
- the allowable deduction for interest expense is reduced from 33% to 20% of the interest income subjected to final tax.

As a result of the application of the lower RCIT rate of 25% starting July 1, 2020, the current income tax expense and income tax payable would be lower by P6.2 million than the amount presented in the 2020 consolidated financial statements and such amount was charged to 2021 profit or loss. In 2021, the recognized net deferred tax liabilities as of December 31, 2020 was remeasured to 25%. This resulted in a decline in the recognized net deferred tax liabilities in 2020 by P139.7 million and such was recognized in the 2021 profit or loss amounting to P139.0 million and in other comprehensive income or loss amounting to P0.7 million

26.4 Current and Deferred Taxes

The components of tax expense as reported in profit or loss and other comprehensive income in the consolidated statements of income and consolidated statements of comprehensive income are presented in the below and in the succeeding page.

	<u>2021</u>	<u>2020</u>	<u>2019</u>
<i>Reported in consolidated profit or loss</i>			
Current tax expense:			
RCIT at 25% in 2021 and 30% in 2020 and 2019	P 126,817,360	P 35,073,613	P 34,250,758
Other corporate tax of foreign subsidiaries at 42% or 17%	8,329,060	1,760,064	18,719,686
MCIT at 2%	6,756,827	14,295,448	67,906,224
Effect of change in income tax rate	(6,227,434)	-	-
Final tax at 20% and 7.5%	2,901,949	4,909,100	3,872,695
Gross income tax (GIT) at 5%	<u>1,772,148</u>	<u>8,980,018</u>	<u>15,865,847</u>
	<u>140,349,910</u>	<u>65,018,243</u>	<u>140,615,210</u>
Deferred tax expense			
arising from origination and reversal of temporary differences	168,000,539	199,768,572	183,587,512
Effect of change in income tax rate	(138,977,787)	-	-
	<u>29,022,752</u>	<u>199,768,572</u>	<u>183,587,512</u>

	<u>2021</u>	<u>2020</u>	<u>2019</u>
<i>Reported in consolidated other comprehensive income (loss)</i>			
Deferred tax expense (income) relating to origination and reversal of temporary differences	P 27,395,223	P 23,262,970	(P 34,401,682)
Effect of change in income tax rate	(<u>675,667</u>)	-	-
	<u>P 26,719,556</u>	<u>P 23,262,970</u>	<u>(P 34,401,682)</u>

A reconciliation of tax on pretax profit (loss) computed at the applicable statutory rates to tax expense for the year ended December 31 is as follows:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Tax on pretax profit (loss) at 25% in 2021 and 30% in 2020 and 2019	(P 180,945,439)	(P 182,942,723)	P 430,571,261
Adjustment for income subjected to lower tax rates	(17,179,787)	(39,474,543)	(31,988,819)
Tax effects of:			
Unrecognized deferred tax asset from NOLCO	582,535,969	487,260,685	32,592,470
Effect of change in income tax rate due to CREATE	(145,205,221)	-	-
Non-taxable income	(69,340,538)	-	(128,453,670)
Non-taxable net profit Under ITH	(31,460,089)	(71,925,786)	(30,766,164)
Non-deductible expenses	27,415,987	60,742,970	52,247,644
MCIT applied	<u>3,551,780</u>	<u>11,126,212</u>	<u>-</u>
	<u>P 169,372,662</u>	<u>P 264,786,815</u>	<u>P 324,202,722</u>

The amount of deferred tax assets and deferred tax liabilities presented in the consolidated statements of financial position as at December 31, 2021 and 2020 are as follows:

	<u>2021</u>	<u>2020</u>
Deferred tax assets	P 24,595,138	P 9,626,113
Deferred tax liabilities	(<u>872,560,526</u>)	(<u>801,849,193</u>)
	<u>(P 847,965,388)</u>	<u>(P 792,223,080)</u>

In 2021, the Parent Company, GMI and BVI have reported net deferred tax assets while GMCAC and MWM have reported net deferred tax liabilities. In 2020, GMI and BVI have reported net deferred tax assets while the Parent Company, GMCAC and MWM have reported net deferred tax liabilities.

The details of net deferred tax assets (liabilities) as of December 31, 2021 and 2020 are as follows:

	<u>2021</u>	<u>2020</u>
Amortization of concession assets	(P) 923,983,080	(P) 761,999,676
Excess of estimated costs over actual costs	(225,033,138)	(227,139,057)
Rent received in advance	(119,250,906)	(105,749,321)
Effect of significant financing component	97,939,225	68,001,650
Impairment losses on trade receivables	97,534,307	52,791,561
Unrealized foreign currency losses (gains) – net	60,448,472	2,706,746
Post-employment defined benefit obligation	75,130,061	103,139,219
Accrued expenses with no withholding taxes	38,076,550	4,656,736
Excess MCIT	35,082,251	35,082,251
Uncollected non-taxable income*	25,207,474	30,248,969
Effect of PFRS 16	(14,343,293)	95,212
Net operating loss carry over	3,540,682	3,716,078
Deferred revenue	1,851,799	2,425,502
Fair value gains on financial assets at FVTPL	(165,792)	(198,950)
	(P) 847,965,388	(P) 792,223,080

*This pertains to the excess of revenue recognized under percentage of completion over collection of non-taxable revenues under ITH.

The deferred tax expense (income) recognized in the consolidated statements of income and consolidated statements of comprehensive income for December 31 relate to the following:

	<u>Profit or Loss</u>			<u>Other Comprehensive Income</u>		
	<u>2021</u>	<u>2020</u>	<u>2019</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>

On September 22, 2014, the SEC approved the Parent Company's amendment of articles of incorporation, which includes: (i) the Parent Company's power to extend corporate guarantees to its subsidiaries and affiliates; and, (ii) the increase in its authorized capital stock of P5,000.0 million divided into 4,930.0 million common shares and 70.0 million cumulative, non-voting, non-participating, non-convertible to common shares and redeemable, at the option of the Parent Company, perpetual preferred shares. Both common and preferred shares have a par value of P1.00 per share.

On August 16, 2017, Megacore Holdings, Inc. (Megacore) acquired 313,786,575 shares representing 14.7% ownership over the Parent Company from Citicore Holdings Investment, Inc. (Citicore). This resulted in a decrease in Citicore's ownership from 66.7% to 51.0%.

On December 20, 2017, the state-owned Social Security System acquired a total of 110,532,500 shares or equivalent to 5.2% interest of the Parent Company through purchase of 3.45% stake held by Megacore and the remaining interest from the public.

On December 22, 2017, Megacore further acquired additional shares from Citicore which resulted in an increase in Megacore's equity interest to the Parent Company equivalent to 28.9% or 617,709,197 as of December 31, 2017.

On September 22, 2020, the SEC has approved the increase of the authorized capital stock of the Parent Company increasing the total authorized capital stock of the Parent Company to P5,054,000,000, divided into the following classes:

- a. 4,930,000,000 voting common shares with the P1 par value; and
- b. 124,000,000 cumulative, non-voting, non-participating, non-convertible, perpetual preferred shares with the P1 par value

The Preferred Shares shall be issued in series, sub-series or in tranches as the BOD may determine, and authority is hereby expressly granted to the BOD, to establish and designate the series, sub-series or tranches of the Preferred Shares, fix the issue price and the number of shares in each sub-series or tranche, establish the specific terms and conditions of each sub-series or tranche and determine the manner by which the Preferred Shares will be subscribed and paid for, such as but not limited to, a private placement transaction or public offering.

Preferred shares of stock shall be cumulative, non-voting, non-participating, non-convertible, perpetual; Provided, that no share will be issued below par value. The preferred shares shall have the following features, rights and privileges:

- a. The issue value of shares shall be determined by the BOD at the time of the issuance of the shares;
- b. The BOD shall declare a dividend rate equivalent to the 7-year benchmark rate or any other rate determined by the BOD as of issue date, payable on a date to be set by the BOD in accordance with Philippine laws, rules and regulations;
- c. Preferred shares shall be non-convertible into common shares;
- d. Preference over holders of common stock in the distribution of the corporate assets in the event of dissolution and liquidation of the corporation and in the payment of the dividend at the rate specified at the time of issuance;
- e. Preferred shares shall be cumulative;
- f. Preferred shares shall be non-participating in any other or further dividends beyond that specifically payable on the shares;
- g. Holders of preferred shares shall have no pre-emptive rights to any issue of shares, common or preferred; and,
- h. The preferred shares may be redeemed by the corporation at the sole option of the BOD at the price to be determined by the BOD.

On September 30, 2020, the Parent Company entered into a Subscription Agreement with Citicore whereby Citicore subscribed to 13,500,000 preferred shares of the Parent Company at P1.00 each and paid 25% of such subscription in cash amounting to P3.4 million.

On November 5, 2020, the SEC has approved the Parent Company's offer and sale of Series 2 preferred shares which are to be issued in two subseries: Series 2A and Series 2B preferred shares, at a subscription price of P100.00. As of December 31, 2020, preferred shares of 26,220,130 and 17,405,880 for Series 2A and 2B, respectively, were subscribed and listed in the PSE. As a result, the Parent Company recognized additional paid in capital amounting to P4,281.4 million, arising from the excess of subscription price over par value of the issuance of Series 2A and 2B preferred shares. The Parent Company also recognized issuance-related costs amounting to P37.1 million which was charged against the additional paid in capital recorded from the issuance of Series 2A and 2B preferred shares.

On February 26, 2021, the Parent Company's BOD approved the resolution increasing the Parent Company's authorized capital stock on preferred shares by 26.0 million shares, to a total of 150.0 million cumulative, non-voting, non-participating, non-convertible, perpetual preferred shares at a par value of P1.00 per share, thereby increasing the Parent Company's total authorized capital stock to P5,080.0 million. At the same date, the BOD approved the offer and sale of up to 40.0 million preferred shares from the unissued authorized capital stock of the Company and the issuance of 6.5 million shares to Citicore. On September 9, 2021, the SEC has approved the increase in capital stock of preferred shares.

On July 23, 2021, the Parent Company filed with the SEC a registration statement and preliminary prospectus relating to its offer and sale of up to 40.0 million Series 4 preferred shares with a par value of P1.00 per share, composed of a base offer of 30.0 million shares and an oversubscription option of up to 10.0 million shares, at an offer price of P100.00 per share. On September 30, 2021, the SEC has approved the Parent Company's offer and sale of Series 4 preferred shares. As a result, the Parent Company recognized additional paid-in capital amounting to P3,930.1 million, arising from the excess of subscription price over par value related to the issuance of Series 4 preferred shares. Transaction costs from the issuance amounting to P29.9 million was charged against the additional paid in capital relating to this issuance. The proceeds from such issuance were used for the redemption of the outstanding Series 1 preferred shares as discussed in the succeeding paragraphs.

On September 10, 2021, Citicore subscribed to additional 6.5 million preferred shares at a price of P1.00 per share and paid P1.6 million in cash representing the 25% of such subscription. As of December 31, 2021, Citicore has subscribed to a total of 20.0 million preferred shares at a par value of P1.00 per share, and has paid 25% of such subscription.

On October 19, 2021, the BOD approved the redemption of the Parent Company's Series 1 Preferred Shares on December 3, 2021, at a redemption price of P100.00 per share, increasing the treasury shares by P4,000.0 million. The cost of the redemption was considered temporarily as part of treasury shares until such time that the SEC will approve the decrease in authorized capital stock of the Parent Company to reflect such redemption wherein the redemption price will be charged against the paid-up capital arising from the original issuance. The details of the redemption are as follows:

<i>Ex- date</i>	November 4, 2021
<i>Record date</i>	November 9, 2021
<i>Redemption date</i>	December 3, 2021

On September 22, 2020, the SEC has approved the Parent Company's increase in its authorized capital stock to P5,054.0 million, divided into the 4,930.0 million common shares and 124.0 million cumulative, non-voting, non-participating, non-convertible, perpetual preferred shares. Both common and preferred shares have a par value of P1.00 per share.

On September 30, 2020, the Parent Company entered into a Subscription Agreement with Citicore whereby Citicore subscribed to 13.5 million preferred shares of the Company at P1.00 each and paid 25% of such subscription in cash amounting to P3.4 million.

On November 5, 2020, the SEC has approved the Parent Company's offer and sale of Series 2 preferred shares which are to be issued in two subseries: Series 2A and Series 2B preferred shares, at a subscription price of P100.00 per share. As a result, the Parent Company recognized additional paid in capital amounting to P4.3 billion, arising from the excess of subscription price over par value of the issuance of Series 2A and 2B preferred shares. The Parent Company also recognized issuance-related costs amounting to P37.1 million which was charged against the additional paid in capital recorded from the issuance of Series 2A and 2B preferred shares.

As of December 31, 2021, and 2020, the Company has 33 and 26 holders of its common equity securities owning at least one board lot of 100 shares listed in the PSE, respectively, and its share price closed as of such dates at P5.18 and P7.94 per share in 2021 and 2020, respectively. The Company has 2,399.4 million common shares traded in the PSE as of December 31, 2021, and 2020.

As of December 31, 2021, and 2020, the Company has the following preferred shares traded in the PSE:

	2021		2020	
	No of Shares	Closing Price	No of Shares	Closing Price
Series 1	-	P -	40,000,000	P 100.5
Series 2A	26,220,130	100.0	26,220,130	100.0
Series 2B	17,405,880	100.4	17,405,880	100.9
Series 4	40,000,000	100.9	-	-

27.2 Retained Earnings

27.2.1 Common Shares Dividends

On December 26, 2019, the Parent Company's BOD approved the declaration of cash dividends for common shares in the amount of P0.12 per share or equivalent to P247.6 million to all stockholders of record as of January 15, 2020, payable on January 31, 2020. Outstanding dividend payable amounting to P239.9 million is presented as part of Dividend payable under the Trade and Other Payables account in the 2019 consolidated statement of financial position. The dividend payable was subsequently paid in January 2020. No dividends were paid to common stockholders in 2021 and 2020.

27.2.2 Preferred Shares Dividends

a) Series 1 Preferred Shares

In 2021, 2020 and 2019, the Parent Company's BOD approved the declaration of cash dividends of P1.76 per share or equivalent to P70.3 million per quarter (total of P281.0 million per year) to holders of Series 1 preferred shares, which were taken out of the unrestricted earnings of the Company as of December 31, 2021, 2020, and 2019, respectively. In 2021, the BOD approved the redemption of the Parent Company's Series 1 Preferred Shares (see Note 27.1)

The dividends on Series 1 preferred shares bear cumulative, non-participating cash dividends based on the issue price, payable quarterly in arrears every dividend payment date, at the fixed rate of 7.03% per annum from listing date.

b) Series 2A and Series 2B Preferred Shares

In 2021, the Parent Company's BOD approved the declaration of cash dividends of P1.2 per share and P1.4 per share or equivalent to P31.1 million and P25.0 million (total of P124.5 million and P100.1 million) to holders of Series 2A and Series 2B preferred shares, respectively, which were taken out of the unrestricted earnings of the Parent Company as of December 31, 2020.

The series of record dates and payments are as follows:

The Group's retained earnings are restricted up to the extent of the cost of its treasury shares, except those treasury shares acquired in the redemption of redeemable preferred shares amounting to P4,000.0 million as of December 31, 2021.

27.3 Treasury Shares

On July 20, 2016, the Parent Company's BOD approved the buy-back of 410.8 million common shares held by Sybase Equity Investment Corporation at a price equal to the seven-trading day volume weighted average price ending on July 28, 2016 or equivalent to P10.03 per share. Total purchase price of the treasury shares including incidental cost of the buy-back amounted P4,138.8 million.

On October 20, 2016, the Parent Company's BOD approved the sale of its 150.0 million treasury shares at P14.90 per share. Net proceeds of the sale of treasury share amounted to P2,181.7 million, net of incidental cost of the transaction. Outstanding balance of the treasury shares after the sale is 260.8 million treasury shares at cost of P2,627.7 million. On October 1, 2018, the Parent Company's BOD approved a share buyback program worth up to P2.0 billion over a period of two years. Total cost to acquire treasury shares in 2019 and 2018 amounted to P457.8 million and P827.1 million, respectively, which is equivalent to 26.1 million and 48.8 million shares, respectively.

On March 3, 2020, the Parent's BOD approved an additional P3.0 billion to its share buyback program, making it a total of P5.0 billion and removal of the period within which to execute the program, making it open-ended. Total cost of acquired treasury shares in 2020 amounted to P703.1 million, which is equivalent to 50.2 million shares. There are no buyback transactions in 2021 and 2020.

On October 19, 2021, the Parent's BOD approved the redemption of the Company's Series 1 Preferred Shares on December 3, 2021, at a redemption price of P100.00 per share, increasing the treasury shares by P4,000 million.

27.4 Non-controlling Interest

Noncontrolling interests pertain to the equity ownership of minority stockholders in GMCAC, GMI, MCLI, and MCEI as follows:

	Proportion of Ownership Interests And Voting Rights Held by NCI			Accumulated Equity of NCI		
	2021	2020	2019	2021	2020	2019
GMCAC	40%	40%	40%	P 2,612,024,719	P3,152,592,405	P3,626,345,966
GMI	50%	50%	50%	59,664,056	66,765,072	69,618,695
MCLI	40%	40%	40%	2,500,000	2,500,000	2,500,000
MCEI	40%	40%	40%	(712,295)	(703,547)	(703,547)
				<u>P 2,673,476,480</u>	<u>P3,221,153,930</u>	<u>P3,697,761,114</u>

Upon incorporation, the Parent Company acquired 15.0 million shares of GMCAC. The purchase of the shares is part of the shareholders' agreement to execute, undertake, and implement the Project in accordance with the concession agreement. The shares acquired represent 60% of the total issued and outstanding shares of GMCAC (see Note 1.2). The non-controlling interest represents 38.24% ownership of GMR Infrastructure (Singapore) Pte. Ltd. (GISPL) and 1.66% ownership of GIL in GMCAC.

In 2016, the Parent Company acquired 12.0 million shares of GMI representing 60% of the total issued and outstanding shares of GMI. On March 15, 2017, the Parent Company sold 2,000,000 shares or 10% interest of GMI to GHOSPL. As of December 31, 2017, GMI is 50% owned by the Parent Company. In 2019, GMI declared P50.0 million dividends to non-controlling shareholders which resulted to a decrease in the equity attributable to the non-controlling interests. Outstanding dividends payable of GMI amounting P25.0 million is presented as part of Non-trade payables under Trade and Other Payables in the 2019 consolidated statement of financial position and was subsequently distributed fully in 2020 (see Note 17). There was no similar transaction in 2021 and 2020.

Another non-controlling interest representing 30% ownership of Philcarbon, Inc. in MCEI.

The Group's controlling 60% ownership in MCLI resulted in 40% non-controlling interest of the other stockholder. The non-controlling interest represents 50% ownership of GHOSPL in GMI and 40% of other stockholder in MCLI.

As of December 31, 2021, 2020 and 2019, the non-controlling interests amounting to P2,673.5 million, P3,221.2 million, and P3,697.8 million, respectively, as presented in the consolidated statements of financial position.

The Group determined that only the minority interest in GMCAC is considered as a material non-controlling interest, and accordingly, presented the relevant financial information in the below.

	<u>2021</u>	<u>2020</u>	<u>2019</u>

Key Management Personnel – Compensation	28.6	320,043,868	-	On demand	Unsecured; Unimpaired

The summary of the Group's transactions with related parties for December 31, 2019 is as follows:

<u>Related Party Category</u>	<u>Notes</u>	<u>Amount of Transaction</u>	<u>Outstanding Receivable (Payable)</u>	<u>Terms</u>	<u>Conditions</u>
Ultimate Parent Company:					
Cash advance granted	28.4	P 2,923,049,503	P 3,069,371,725	Interest-bearing	Unsecured; Unimpaired
Interest receivable	25.2, 28.4	220,500,000	288,975,323	Normal credit terms	Unsecured; Unimpaired
Minority shareholders and their affiliates -					
Cash Granted	28.4	(841,103)	-	On demand; Noninterest-bearing	Unsecured; Unimpaired
Associate:					
Revenue from services	21.1, 28.1	313,577	905,413,727	On demand; Noninterest-bearing	Unsecured; Unimpaired
Cash advance granted	28.4	6,000,000	6,000,000	On demand; Noninterest-bearing	Unsecured; Unimpaired
Cash advance obtained	28.4	(20,000,000)	(20,000,000)	On demand; Noninterest-bearing	Unsecured; Unimpaired
Rent income	28.2	53,571	57,321	Normal credit terms	Unsecured; Unimpaired
Joint Arrangement:					
Revenue from services	21.1, 28.1	598,911,864	298,184,597	Normal credit terms	Unsecured; Unimpaired
Cash advance granted	28.4	4,329,601	5,404,267	On demand; Noninterest-bearing	Unsecured; Unimpaired
Cash advance obtained	17, 28.4	14,883,628	-	On demand; Noninterest-bearing	Unsecured; Unimpaired
Related Parties Under Common Ownership:					
Rent income	28.2	3,662,298	3,703,186	Normal credit terms	Unsecured; Unimpaired
Revenue from services	21.1, 28.1	187,922,352	130,204,606	Normal credit terms	Unsecured; Unimpaired
Rent expense	23, 28.2	1,766,433	-	Normal credit terms	Unsecured; Unimpaired
Cash advance granted	28.4	42,399,786	3,186,770,507	On demand; Interest-bearing and noninterest-bearing	Unsecured; Unimpaired
Cash advance obtained	28.4	44,683,199	-	On demand; Noninterest-bearing	Unsecured; Unimpaired
Interest receivable	25.2, 28.4	220,500,000	288,975,322	On demand; Noninterest-bearing	Unsecured; Unimpaired

Related Party Category	Notes	Amount of Transaction	Outstanding Receivable (Payable)	Terms	Conditions
Retirement fund		295,910	4,384,701	Upon retirement of beneficiaries	Partially funded; Unimpaired
Advances to Officers and Employees		17,232,250	51,503,789	Upon liquidation, Noninterest-bearing	Unsecured; Unimpaired
Key Management Personnel – Compensation		310,903,975	-	On demand	Unsecured; Unimpaired

28.1 Rendering of Services

In the normal course of business, the Group provides construction services to its associate, a certain previous shareholder, and other related parties. The related revenue from these transactions amounted to P735.2 million, P958.3 million and P787.1 million and in 2021, 2020 and 2019, respectively, and is recognized as part of Construction Operation Revenues account in the consolidated statements of income (see Note 21.1). Services rendered to the above related parties are based on normal terms similar to terms that would be available to non-related parties.

The outstanding contract receivables from these transactions, which are generally unsecured and settled through cash within three to six months, and the related retention receivables, which can only be collected after a certain period of time upon acceptance by project owners of the certificate of completion, are presented as part of Contract and Retention receivables under Trade and Other Receivables account in the consolidated statements of financial position (see Note 6).

Through application of the ECL model based on the lifetime expected credit loss wherein the Group used its historical experience, external indicators and forward-looking information to calculate the ECL using the provision matrix, no impairment losses was required to be recognized for the years ended December 31, 2021, 2020 and 2019.

28.2 Rental of Land and Building

The Group is a lessee of certain parcels of land and building owned by related parties under common ownership.

In 2019, the Group recognized rent expense amounting P1.8 million from the lease agreement with Megapolitan Realty and Development Corporation (Megapolitan) for the land where the Group's building is located (see Notes 23 and 29.1). The Group has no outstanding payables from the rental transaction with Megapolitan as of December 31, 2021 and 2020.

In 2019, Group also leases an office space where its registered address is located from Philwide Construction and Development Corporation (Philwide).

Megapolitan and Philwide are entities owned by the Group's stockholders and their close family members.

The Parent Company also leases out its office space to its associates and related parties under common ownership. As a result, the Group recognized rent income amounting to P3.8 million, P6.1 million, and P3.7 million in 2021, 2020 and 2019, respectively, from the lease of its office building to several related parties. This is recognized as part of Others under Other Income (Charges) - net account in the consolidated statements of income (see Note 25.3). The outstanding balances arising from these transactions are presented as part of Other receivables under the Trade and Other Receivables account in the consolidated statements of financial position (see Note 6).

28.3 Advances to Officers and Employees

Advances to officers and employees represent unsecured, noninterest-bearing cash advances for business-related expenditures that are to be liquidated 60 days from the date the cash advances were received. The outstanding receivables from these transactions are presented as part of Trade and Other Receivables (see Note 6).

No impairment losses were recognized in 2021, 2020 and 2019 for these advances.

28.4 Advances to and from Related Parties

In 2019, the Group obtained unsecured, noninterest-bearing cash advances from certain related parties to finance portion of its working capital requirement payable upon demand. In 2019, Advances obtained amounted to P20.0 million, while advances settled amounted to P59.6 million. The outstanding balance from these transactions is shown under Trade and Other Payables account in the consolidated statements of financial position (see Note 17).

The Group has provided unsecured, interest-bearing, and noninterest-bearing cash advances to its associates and certain related parties under common ownership for their working capital requirements. Interest income arising from advances to related parties amounted to P441.0 million, P433.1 million and P441.1 million in 2021, 2020 and 2019, respectively, are presented under finance income (see Note 25.2). Outstanding interest receivable relating to advances to related parties amounting to P1,452.1 million and P1,011.1 million in 2021 and 2020, are presented under trade and other receivables (see Note 6). In 2021 and 2020, the Parent Company also provided bridge financing to its parent and associates for the Group's business expansion and diversification program.

In 2021 and 2020, the Group granted advances to related parties under common ownership amounting to P8.9 million and P91.0 million, respectively. There were no collections in 2021 and 2020 from these related parties.

In 2020, the Group also granted advances to Citicore amounting to P19.9 million. There were no collections in 2021 and 2020 from Citicore and no additional advances were given in 2021.

In 2021, the Group collected advances to associates amounting to P0.02 million. No additional advances were given to the associates in 2021. In 2020, additional advances granted to associates amounted to P36.2 million while there were no collections in 2020.

In 2021 and 2020, the Group collected advances to its joint arrangements amounting to P0.7 million and P4.0 million, respectively. No additional advances were granted in 2021 and 2020.

The breakdown of these accounts are as follows

	<u>2021</u>	<u>2020</u>
<i>Due to related parties:</i>		
Associates	<u>P 20,000,000</u>	<u>P 20,000,000</u>
<i>Advances to related parties:</i>		
Related party under common ownership	P 3,286,782,246	P 3,277,832,242
Ultimate parent company	3,089,295,108	3,089,295,108
Associates	42,179,046	42,205,968
Joint arrangement	<u>621,354</u>	<u>1,356,355</u>
	<u>P 6,418,877,754</u>	<u>P 6,410,689,673</u>

Further, upon assessment of recoverability based on the capacity to pay and expected collectability of these advances, no impairment losses were recognized in 2021, 2020 and 2019.

The Group's outstanding receivables from and payables to the same related parties as presented can be potentially offset to the extent of their corresponding outstanding balances (see Note 33.2).

28.5 Others

The Parent Company's retirement plan is in the form of a bank-trustee managed account. The fair value of the retirement plan totalled P4.7 million and P4.6 million as of December 31, 2021 and 2020, respectively. The details of the retirement plan are presented in Note 24.2.

In 2021, the Parent Company provided certain project management and consultancy services to a related party under common ownership amounting to P103.3 million (see Note 25.3). The amount is outstanding as of December 31, 2021 and is presented as part of Other Receivables (see Note 6). There were no similar transactions in 2020 and 2019.

28.6 Key Management Compensation

The compensation of key management personnel is broken down as follows:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Short-term employee benefits	P 276,313,110	P 308,711,552	P 293,002,231
Post-employment benefits	<u>9,996,551</u>	<u>11,332,316</u>	<u>17,901,744</u>
	<u>P 286,309,661</u>	<u>P 320,043,868</u>	<u>P 310,903,975</u>

29. COMMITMENTS AND CONTINGENCIES

The following are the significant commitments and contingencies involving the Group:

29.1 Lease Commitments - Group as Lessor

The Group is a lessor under operating leases covering rentals from lease of office and commercial spaces presented in the consolidated statements of financial position as Investment Properties. Rental income earned amounted to P715.0 million, P900.8 million and P528.7 million in 2021, 2020 and 2019, respectively, which is recognized under Landport Operations Revenues in the consolidated statements of income.

The future minimum lease receivables under the non-cancellable operating leases as of the end of 2021 and 2020 are as follows:

	<u>2021</u>	<u>2020</u>
Within one year	P 805,287,019	P 896,772,705
After one year but not more than two years	759,041,887	895,774,372
After two years but not more than three years	725,026,482	905,056,337
After three years but not more than four years	30,328,800	945,869,663
After four years but not more than five years	17,852,040	10,210,671
More than five years	<u>2,160,000</u>	<u>5,672,295</u>
	<u>P 2,339,696,228</u>	<u>P 3,659,356,043</u>

Variable rent, which pertains to a certain percentage share in the lessees' sales, is included as part of total rent income amounting to P32.5 million and P36.7 million in 2021 and 2020, respectively.

The Group is subject to risks associated with the rights it retains in the properties it leases, such as alterations made by the lessee that may impair the value of the leased properties. To manage the exposure on such risks, the Group exercises strict control over the fit-out process through Construction and Fitout Guidelines and closure of construction punchlists prior to opening. No alterations are allowed to be made without prior approval of the Group. Approvals are accorded based on submission of Architectural, Mechanical, Electrical, Plumbing and Fire Protection Plans and as per guidelines of the regulatory authorities. Moreover, the Group retains its right to inspect the leased properties over the lease term and cite violations on the Houserules of the Complex. In case of expiration of lease term or early termination due to the default of the lessee, the Group is entitled to the improvements installed on the leased properties without any obligation to reimburse the lessee for the costs of improvements.

29.2 PPP with DepEd

On October 8, 2012, the Parent Company, together with Citicore (collectively referred to as proponent), executed a build-lease-transfer agreement with the Philippine Government, through DepEd under the PPP for school infrastructure project, which provides initiatives on the construction of classroom nationwide to address the current classroom backlog and future requirements for classrooms.

The agreement requires the construction, maintenance, and lease of school buildings, whereby, the project proponent is authorized to finance and construct the school facility within 16 months from the execution date and upon its completion turns it over to the government agency or local government unit concerned on a lease agreement for a period of 10 years from the issuance of certificate of completion. After which, ownership of the facility is automatically transferred to the government agency or local government unit concerned.

During the lease period, the proponent shall be responsible for the maintenance works, which shall be performed twice, the first time at any point between the fourth and fifth years, and the second time at any point between the eighth and ninth years. At the end of the 10-year term, the proponent shall bear all costs incurred in connection with the transfer of rights to the Philippine Government.

Pursuant to the above agreements, the Parent Company and Citicore established CMCI to handle the PPP school infrastructure project. In 2016, the construction of the school buildings has been maintained.

As of December 31, 2021 and 2020, the school infrastructure project is 100% complete for both Phases 1 and 2.

29.3 Build-Operate-Transfer Agreements

29.3.1 Mactan-Cebu International Airport Project

(a) BOT Agreement

In 2014, GMCAC entered into a BOT agreement with the Grantors relative to the MCI A Project. GMCAC was established to undertake the Project involving, among others, the construction of a world-class airport passenger terminal (along with associated infrastructure and facilities), the renovation and expansion of the existing airport terminal and the operation and maintenance of both airport passenger terminals for a period of 25 years.

On April 8, 2014, the Parent Company entered into Shareholders' Agreement with GMR setting forth the terms and conditions governing their participation in the share capital of GMCAC, their rights and obligations as shareholders in relation to GMCAC. Under the said Shareholders' Agreement, the parties defined the business of GMCAC, the required manpower support from each shareholder, the composition of the board, formation of committees and the management team for the orderly management of the Project, conduct of board and shareholder meetings as well as restrictions on the transfer rights of the stockholders and issuance of additional shares.

GMCAC is a pioneer in the privately operated airport space in the Philippines when it took over the Mactan Cebu International Airport on the scheduled take over date of November 1, 2014.

(b) Technical Service Agreement

On August 19, 2014, GMCAC entered into a Technical Services Agreement (the Agreement) with GIL to provide for the services in compliance with the Concession Agreement are described in the succeeding page.

- (i) The preparation of policies and procedures such as O&M Manual and the updating of such every January 30th of each calendar year, Fire Safety Manual, and any other additional systems, documentation, and manuals to meet the Performance Standards under the Concession Agreement;
- (ii) Provide training or technical services to key personnel of GMCAC so that GMCAC may undertake the O&M of the facilities;
- (iii) Provide qualified experts, on a permanent or long-term basis; and,
- (iv) Provide other staff on non-permanent basis either based on GIL's location or seconded to GMCAC.

As stated in the Agreement and as agreed by the parties, GIL may provide services through any of its offices, subsidiaries, or branches where the qualified experts may be located, which shall include GISPL and/or GISPL's or GIL's branch to be incorporated in the Philippines. GMCAC also agreed to pay the relevant fees upon the invoice raised, directly and under the instructions of GIL, by such office, subsidiary, or branch.

The service fee shall be 1.25% of the actual audited gross revenue. The Agreement is effective up to the expiry of the Concession Period unless terminated earlier upon mutual consent of the parties.

Airport operator's fee recognized for 2021, 2020 and 2019 amounted to P7.5 million, P14.3 million and P47.6 million, respectively.

29.3.2 Parañaque Integrated Terminal Exchange Project

On February 25, 2015, MWMTI entered into a BOT agreement with the DOTr to undertake the PITX Project. Upon completion of the project, MWMTI shall operate and maintain the facility, which is divided into landport and commercial areas, within the agreed concession period of 35 years from the date of the completion of the construction, which is equivalent to 18 months.

The development and implementation of the PITX Project is divided into landport and commercial areas and related developments therein for a total lot area of 193.4 hectares (the Project Assets). Specifically, the PITX Project to be undertaken by MWMTI, as the concessionaire, consists of the following:

- The design, engineering and construction of the PITX Terminal, access road and the pedestrian connections between the PITX Terminal and Asia World Station concourse within 18 months from the construction date;
- From its completion until the end of the concession period, the operation and maintenance of the PITX Terminal in accordance with the Concession Agreement;
- The collection and remittance to the Grantor of landport fee from users of the PITX Terminal;
- The financing of the above activities;
- The design, financing, engineering, and construction of commercial assets, carrying out of the commercial business, and collection of any commercial revenue at the concessionaire's option; and,
- Turn-over of the Project Assets to the Grantor at the end of the Concession Period.

Pursuant to the Concession Agreement, MWMTI shall be entitled to collect and receive the concessionaire revenue comprising of AGP, commercial revenue, and any applicable grantor compensation payments. The AGP is collectible from the Grantor at the end of every anniversary year from the construction completion date thereof. For commercial revenue, MWMTI is free to impose and collect commercial charges from the use of commercial areas. On the other hand, the Grantor shall be entitled to the landport fee revenue from the users of the public service and other charges.

At the end of the concession period, MWMTI shall hand-over the PITX Project Assets to the Grantor without cost, free from any liens and encumbrances, including all improvements made to the landport facilities, commercial assets, works in progress and right to receive commercial revenues.

On November 5, 2018, MWMTI opened the landport while the construction of commercial areas and related developments were completed in 2019.

29.4 Credit Lines and Guarantees

29.4.1 Credit Lines

The Group has existing credit lines with local banks totalling P43,770.0 million and \$75.0 million (P3,767.6 million) in 2021 and P45,885.7 million and \$75.0 million (P3,547.7 million) in 2020.

In 2021 and 2020, the Group has availed additional bank loans amounting P4,291.9 and P9,831.3 million, respectively (see Notes 18.2 and 34). Unused credit lines as of December 31, 2021 amounted to P2,923.1 million.

29.4.2 Guarantees and Others

On December 26, 2019 the BOD approved the issuance of corporate guaranty in the amount of P4.5 billion in favor of Citicore. Subsequently on March 28, 2020, the BOD of the Parent Company approved the reduction of the amount of corporate guaranty from P4.5 billion to P1.5 billion. The approval is part of the governance initiative of the Parent Company and is deemed a regular corporate transaction to provide assistance, as needed, to new and other businesses to help them mature and produce strong and predictable cash flows to become stable and consistent contributors to the Group. These include forward integration opportunities in real estate development such as affordable housing segment and mid to high-end residential developments as well as in high-growth potential and fast-growing industries to support Group's long-term goal of strengthening its portfolio to provide additional legs for next level of growth.

On March 23, 2015, CMCI, with the Parent Company as guarantor, executed an RPA with certain local commercial banks, whereby the CMCI shall offer an outstanding finance lease receivable arising from PPP school infrastructure project within the purchase period on a limited recourse basis such as upon the occurrence of certain repurchase event under the RPA. Pursuant to the continuing obligations of the CMCI under the RPA, CMCI has been in compliance with the RPA during the reporting periods.

MWMTI entered in to an OLSA with a local universal bank in 2015, with the Parent Company as guarantor, for a loan facility amounting to P3,300.0 million to finance the construction of the ITS Project. In 2019, the Company requested the lender to increase the loan facility by P600.0 million making the total principal loan to P3,900.0 million.

29.5 Capital Commitments on Use of Proceeds and Joint Operations

29.5.1 Use of Proceeds

The Parent Company has capital commitments to utilize the proceeds from the issuance of its preferred shares amounting to P4,362.6 million for various expansion of its facilities and construction of infrastructure projects as stated in the use of proceeds report. As of December 31, 2021 and 2020, the balance of the unutilized proceeds amounted to P2,644.7 million and P4,109.6 million, respectively.

29.5.2 Joint Operations

As of December 31, 2021, HMDJV has capital commitments to purchase equipment amounting P217.5 million for the construction works of the Malolos- Clark Railway Project which is expected to be fully utilized upon the completion of the project. There are no commitments pertaining to MGCJV and MGCJVI as the related projects are already completed.

29.6 Legal Claims

In a Resolution dated October 8, 2021, the Department of Justice (DOJ) found probable cause against the general manager of the MCIA Authority, including four (4) Filipino directors and officers (Filipino Respondents) and eleven (11) foreign advisors (Foreign Respondents) of GMCAC for allegedly allowing non-Filipino officers and employees to manage, operate, and control the MCIA in violation of the Section 2-A of Commonwealth Act No. 108, as amended by Presidential Decree No. 715, otherwise known as the "Anti-Dummy Law".

To assail and refute such finding of probable cause, the Filipino Respondents filed a Petition for Review with the Secretary of Justice on October 29, 2021, while the Foreign Respondents filed a Motion for Reconsideration with the DOJ on November 26, 2021, which are both pending resolution.

Pending the resolution of the foregoing, the GMCAC's directors, officers, and advisors continue to perform their duties and responsibilities, in accordance with their respective mandates under the Concession Agreement and applicable laws. Management believes that such will not have a significant impact on the Group's consolidated financial statements as there are no cases filed yet against the Group and that in the event that there should be any cases filed against GMCAC, management believes that it has reasonable basis to defend GMCAC's legality.

There are other pending claims, tax assessment, and other legal actions filed by the Group or against the Group arising from the normal course of business. There are no related provisions recognized in the consolidated financial statements as management believes that the Group has strong legal positions related to such claims. Moreover, management believes that the ultimate liability, if any, with respect to such litigations, claims and disputes will not materially affect the financial position and results of operations of the Group.

29.7 Others

Apart from the foregoing significant commitments, and the Group's construction commitments with various counterparties under the ordinary course of business, there are other commitments and contingent liabilities that arise in the normal course of the Group's operations which are not reflected in the consolidated financial statements. Management is of the opinion that losses, if any, from these commitments and contingencies will not have material effects on the Group's consolidated financial statements, taken as a whole.

30. EARNINGS (LOSS) PER SHARE

Earnings (loss) per share is calculated as Company's profit divided by the outstanding shares of its common stock (see Notes 2.26) and computed as follows:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Net profit (loss) attributable to shareholders of the Parent Company	(P 342,985,234)	(P 398,149,922)	P 859,487,439
Dividends on cumulative preferred shares	(<u>505,629,428</u>)	(<u>281,000,000</u>)	(<u>281,000,000</u>)
Net profit (loss) available to common shareholders of the Parent Company	(848,614,662)	(679,149,922)	578,487,439
Divided by weighted average number of outstanding common shares	<u>2,013,409,717</u>	<u>2,036,285,370</u>	<u>2,081,168,982</u>
Basic and diluted earnings (loss) per share	<u>(P 0.42)</u>	<u>(P 0.33)</u>	<u>P 0.28</u>

The Group does not have dilutive potential common shares outstanding as of December 31, 2021, 2020 and 2019; hence, diluted earnings (loss) per share is equal to the basic earnings (loss) per share.

31. EVENTS AFTER THE END OF THE REPORTING PERIOD

On January 18, 2022, the Parent Company's BOD approved the declaration of cash dividends of P1.19 per share and P1.44 per share or equivalent to P31.1 million and P25.0 million, respectively, to holders of Series 2A and Series 2B preferred shares, respectively, on record as of February 4, 2022. The dividends which is payable on February 28, 2022, shall be taken out of the unrestricted earnings of the Parent Company as of December 31, 2021.

32. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risks in relation to its financial instruments. The Group's financial assets and financial liabilities by category are summarized in Note 33. The main types of risk are market risk, credit risk and liquidity risk.

The Group's risk management is coordinated with the Group's Parent Company, in close cooperation with the BOD, and focuses on actively securing the Group's short-to-medium term cash flows by minimizing the exposure to financial markets.

The Group does not actively engage in the trading of financial assets for speculative purposes, nor does it write options. The relevant financial risks to which the Group is exposed to are described below and in the succeeding pages.

32.1 Market Risk

The Group is exposed to market risk through its use of financial instruments and specifically to foreign currency risk, interest rate risk and certain other price risk which result from its operating, investing, and financing activities.

(a) Foreign Currency Risk

Most of the Group's transactions are carried out in Philippine pesos, its functional currency. Exposures to currency exchange rates arise from intercompany advances to and from foreign related parties, which are denominated in US dollars. The Group also holds US dollar-denominated cash.

Significant US dollar-denominated financial assets (liabilities), translated into Philippine pesos at the closing rates, are as follows:

	<u>2021</u>	<u>2020</u>
Cash in banks	P 1,764,251,914	P 394,519,021
Investment in trust fund	163,541,216	401,525,300
Trade and other payables	(263,595,131)	(235,394,706)
Long-term debt	(3,767,551,000)	(3,436,885,000)
	<u>(P2,103,353,001)</u>	<u>(P 2,876,235,385)</u>

If the Philippine peso had strengthened by 11.30% and 9.51% in 2021 and 2020, respectively, against the US dollar, with all other variables held constant, loss before tax in 2021 and 2020 would have decreased by P237.7 million and P273.5 million, respectively. If the Philippine peso had weakened by the same percentages against the US dollar, then loss before tax in 2021 and 2020 would have increased by the same amounts, respectively.

These percentages have been determined based on the average market volatility in exchange rates, using standard deviation, in the previous 12 months, estimated at 99% level of confidence. The sensitivity analysis is based on the Group's foreign currency financial instruments held as at December 31, 2021 and 2020, with effect estimated from the beginning of the year.

Exposures to foreign exchange rates vary during the period depending on the volume of foreign currency transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

(b) *Interest Rate Risk*

The Group's policy is to minimize interest rate cash flow risk exposures on long-term financing.

In November 2015, the Company entered into an interest rate swap transaction to hedge the interest rate exposure on its floating rate US dollar-denominated loan maturing in June 2022, start date is on December 15, 2017. A notional amount of US\$75.0 million floating rate loan was swapped to fixed rate. Under the interest rate swap agreement, the Company pays annual fixed interest rate of a range of 1.79% to 2.65% and receives floating rate of nine-month US\$ LIBOR on Bloomberg Page on the notional amount.

As at December 31, 2021 and 2020 the Group recognized P54.9 million and P121.9 million derivative liability, respectively (see Notes 7 and 17). The Group recognized in the Group's consolidated statements of income under Other Income (Charges), unrealized gain from change in fair value of the interest rate swap amounting to US\$1.7 million or P78.6 million in 2021, unrealized loss from change in fair value of the interest rate swap US\$1.0 million or P43.3 million in 2020, and unrealized loss of US\$1.6 million or P104.8 million in 2019, respectively (see Notes 7 and 25.3).

The Company entered into interest rate swap as economic hedges of underlying exposure arising from its foreign currency-denominated loan. Such interest swap is accounted for as derivative not designated for hedges.

The following table shows the information about the Group's financial instruments that are exposed to cash flow (floating rate instrument) and fair value (fixed rate instrument) interest rate risks and presented by maturity profile (in thousands):

	<u>Within 1 year</u>	<u>1-2 years</u>	<u>More than 2 years</u>	<u>Total</u>	<u>Debt Issuance Cost</u>	<u>Carrying Value</u>

As at December 31, 2021 and 2020, the Group is exposed to changes in market rates through its cash in banks and short-term placements which are subject to monthly repricing intervals (see Note 5) and certain interest-bearing loans which is subject to variable interest rate (see Note 18). All other financial assets and financial liabilities have fixed rates or are noninterest bearing.

The sensitivity of the profit (loss) before tax is analyzed based on a reasonably possible change in interest rates of +/-156.0, +/-248.0 and +/-248.0 basis points in 2021, 2020 and 2019, respectively, based on observation of current market conditions with effect from the beginning of the year. The changes in interest rates have been determined based on the average market volatility in interest rates for each period using standard deviation and the financial instruments held at the end of each reporting period that are sensitive to changes in interest rates.

All other variables held constant, if the interest rates increased by 156.0 basis points, 248.0 basis points and 248.0 basis points in 2021, 2020 and 2019, respectively, loss before tax in 2021 and 2020 would have increased by P20.9 million and P174.0 million, respectively, and profit before tax in 2019 would have decreased by P194.4 million. Conversely, if the interest rates decreased by the same basis points, loss before tax in 2021 and 2020 would have been lower and profit before tax in 2019 would have been higher by the same amounts.

32.2 Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments, such as the granting of loans and receivables to customers and related parties and placing deposits with local banks.

The Group continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties.

The maximum credit risk exposure of financial assets and contract assets is the carrying amount of the related assets as shown in the consolidated statements of financial position or in the detailed analysis provided in the notes to the consolidated financial statements, as summarized in the below.

	Notes	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	5	P 5,846,088,030	P 7,226,149,912
Trade and other receivables – net	6	16,884,756,480	15,224,568,808
Refundable security and bond deposits	12	234,233,185	199,529,159
Investment in trust fund	12	163,541,216	401,525,300
Contract assets	9	<u>4,777,704,858</u>	<u>4,231,600,246</u>
		<u>P 27,906,323,769</u>	<u>P 27,283,373,425</u>

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash and cash equivalents, as described below and in the succeeding page.

(a) Cash and Cash Equivalents

The credit risk for cash and cash equivalents is considered negligible since the counterparties are reputable banks with high quality external credit ratings. Included in the cash and cash equivalents are cash in banks and short-term placements which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P0.5 million for every depositor per banking institution.

(b) *Trade and Other Receivables and Contract Assets*

The Group applies the PFRS 9 simplified approach in measuring ECL which uses a lifetime expected loss allowance for all trade receivables and other receivables and contract assets.

To measure the ECL, trade and other receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due (age buckets). The Group also concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the other receivables as it shares the same credit risk characteristics.

The expected loss rates are based on the payment and aging profiles over a period of 36 months before December 31, 2021 or 2020 respectively, and the corresponding historical credit losses experienced within such period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the inflation rate in the Philippines to be the most relevant factor, and accordingly adjusts the historical loss rates based on expected changes in this factor.

The Group identifies a default when the receivables become credit impaired or when the customer has not been able to settle the receivables when due, depending on the terms with customers or after completion and acceptance of the stage of completion as represented by the billings. In making the assessment, the Group considers the net position of the customer after advances and deposits received from the customer, reason for non-payment (i.e. dispute related to quality of work completed has been raised by the customer) and the credit standing of the customer. In addition, the Group considers qualitative assessment in determining default such as in instances where the customer is unlikely to pay its obligations and is deemed to be in significant financial difficulty. When customer is unlikely to pay a past due account in the next year due to financial difficulty, an ECL is recognized in the books. The Group has determined that the credit standing and liquidity of the significant portion of its receivables and customers from the construction segment are not affected severely by COVID-19 as these customers have reputable cash management strategies.

On that basis, the loss allowance as at December 31, 2021 and 2020 was determined based on months past due, as follows for both trade and other receivables:

	Not more than 3 months	More than 3 mos. but not more than 6 mos.	More than 6 mos. but not more than 1 year	More than 1 year	Total
December 31, 2021:					
<i>Expected credit loss rate</i>				22.2%	
Contract receivables	P 4,948,836	P 16,995,126	P 662,124,693	P 604,278,175	P1,288,346,830
Receivables from airport operations	23,790,888	23,338,160	115,454,532	375,303,869	537,887,449
Lease receivables	61,616,024	48,956,559	379,349,077	65,734,997	555,656,657
	<u>P 90,355,748</u>	<u>P 89,289,845</u>	<u>P 1,156,928,302</u>	<u>P1,045,317,041</u>	<u>P2,381,890,936</u>
Loss Allowance	<u>P -</u>	<u>P -</u>	<u>P -</u>	<u>P 231,765,011</u>	<u>P 231,765,011</u>
December 31, 2020:					
<i>Expected credit loss rate</i>				13.9%	
Contract receivables	P 46,986,891	P 77,268,346	P 244,848,922	P 154,784,121	P 523,888,280
Receivables from airport operations	39,522,219	18,873,677	299,744,561	94,095,611	452,236,068
Lease receivables	63,944,110	50,981,057	115,257,688	24,377,629	254,560,484
	<u>P 150,453,220</u>	<u>P 147,123,080</u>	<u>P 659,851,171</u>	<u>P 273,257,361</u>	<u>P1,230,684,832</u>
Loss Allowance	<u>P -</u>	<u>P -</u>	<u>P -</u>	<u>P 37,932,641</u>	<u>P 37,932,641</u>

For contract assets, the Group has recognized an allowance for ECL amounting to P288.2 million representing unbilled costs incurred by the Group and assessed to be not recoverable. No additional impairment losses on contract assets have been recognized in 2021 and 2020.

ECL for advances to and receivable from related parties are measured and recognized using the liquidity approach. Management determines possible impairment based on the counterparties' ability to repay the receivables upon demand at the reporting date taking into consideration the historical defaults from the counterparties. The Group does not consider any significant risks in the advances to and receivable from related parties since the related parties have enough capacity to pay the advances and receivables upon demand.

(c) *Investment in Trust Fund*

In 2021 and 2020, the Group is exposed to credit risk on its investments in trust fund. However, the Group has assessed that such risk is minimal since the counterparties are reputable listed leasing company and financial institutions with high quality external credit ratings.

(d) *Refundable Security and Bond Deposits*

The Group is not exposed to any significant credit risk exposures to its lessors as lease agreements were executed with reputable entities. The Group can negotiate, before the end of the lease term, to apply deposit to rentals due.

32.3 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring cash outflows due in day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for six-month and one-year periods are identified monthly.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash is invested in time deposits or short-term placements. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

	<u>Current</u>		<u>Non-current</u>
	<u>Within</u>	<u>6 to 12</u>	<u>1 to 5</u>
	<u>6 Months</u>	<u>Months</u>	<u>Years</u>
December 31, 2021:			
Interest-bearing loans and borrowings	P 15,750,563,082	P1,615,263,105	P 43,295,463,244
Trade and other payables	8,616,715,347	-	-
Security deposits (gross of unearned income)	-	-	471,258,850
	<u>P 24,367,278,429</u>	<u>P1,615,263,105</u>	<u>P 43,766,722,094</u>
December 31, 2020:			
Interest-bearing loans and borrowings	P 12,689,450,003	P1,070,381,301	P 34,171,924,687
Trade and other payables	8,291,951,223	-	-
Security deposits (gross of unearned income)	-	-	464,587,591
	<u>P 20,961,401,226</u>	<u>P1,070,381,301</u>	<u>P 34,656,512,278</u>

The above contractual maturities reflect the gross cash flows, which may differ from the carrying values of the financial liabilities at the end of reporting periods.

33. CATEGORIES, OFFSETTING AND FAIR VALUES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

33.1 Carrying Amounts and Fair Values by Category

The carrying amounts and fair values of the categories of financial assets and financial liabilities presented in the consolidated statements of financial position are shown below.

	Notes	2021		2020	
		Carrying Values	Fair Values	Carrying Values	Fair Values
Financial Assets

*Under Other Non-Current Liabilities

See Notes 2.4 and 2.11 for a description of the accounting policies for each category of financial instrument. A description of the Group's risk management objectives and policies for financial instruments is provided in Note 32.

33.2 Offsetting of Financial Assets and Financial Liabilities

Currently, all other financial assets and financial liabilities are settled on a gross basis and no offsetting of financial instruments has been made in 2021 and 2020. However, each party to the financial instrument (particularly related parties) will have the option to settle amounts on a net basis in the event of default of the other party through approval by both parties' BOD and stockholders. As such, the Group's outstanding receivables from and payables to the same related parties as presented in Note 28 can be potentially offset to the extent of their corresponding outstanding balances.

In addition, the Group's investment in trust fund account (see Note 12) can be offset against the Group's outstanding interest-bearing loans and borrowings [see Note 18.2(a)] in the event of default in payments.

33.3 Fair Value Hierarchy

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and financial liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Group uses valuation technique, it maximizes the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

33.4 Financial Instruments Measured at Fair Value

Since the fair value of the Group's financial assets through FVOCI approximates the cost amounting to P3.5 million as of December 31, 2021 and 2020, the fair value change is deemed immaterial (see Note 10). The Company's financial assets through FVOCI are under Level 2 of the fair value hierarchy.

The table below shows the fair value hierarchy of the Group's classes of financial assets and financial liabilities measured at fair value in the statements of financial position on a recurring basis as of December 31, 2021 and 2020.

	<u>Notes</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>December 31, 2021</u>					
<i>Financial assets:</i>					
Equity securities:

	<u>Notes</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>December 31, 2020</u>					
<i>Financial assets:</i>					
Equity securities:					
SSPI	10	P -	P -	P 2,500,000	P 2,500,000
Golf club shares	10	-	1,044,472	-	1,044,472
		<u>P -</u>	<u>P 1,044,472</u>	<u>P 2,500,000</u>	<u>P 3,544,472</u>
<i>Financial liabilities:</i>					
Derivative liability	17	<u>P -</u>	<u>P 121,895,964</u>	<u>P -</u>	<u>P 121,895,954</u>

There were neither transfers between Levels 1 and 2 nor changes in Level 3 instruments in both years.

Described below is the information about how the fair values of the Group's classes of financial assets are determined.

(a) *Equity Securities*

As of December 31, 2021, and 2020, instrument included in Level 2 comprise equity securities classified as financial assets at FVOCI. These securities were valued based on their fair market values by reference on published share prices of golf club shares and as at December 31, 2021 and 2020, respectively. These are included in Level 2 as their prices are not derived from market considered as active due to lack of trading activities among market participants at the end or close to the end of the reporting period.

The Group has equity interest of 1% in SSPI as of December 31, 2021 and 2020. These securities were valued based on entity specific estimate, thus included in Level 3.

(b) *Derivative Liability*

The fair value of the Group's derivative liability are measured under Level 2. As of December 31, 2021 and 2020, the fair values of the Group's derivative financial instruments classified as financial liabilities at FVTPL, were valued using pricing models whose inputs, such as foreign exchange rates and interest rates, are observable for substantially the full term of the asset or liability (examples include most over-the-counter derivatives, including forward contracts and swaps) or are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

33.5 Financial Instruments Measured at Amortized Cost

The table below summarizes the fair value hierarchy of the Group's financial assets and financial liabilities which are not measured at fair value in the consolidated statements of financial position but for which fair value is disclosed.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

33.6 Fair Value Measurement for Investment Property Carried at Cost

The table below shows the fair value of the Group's investment property measured at cost but for which fair value is disclosed and determined under the Level 3 fair value hierarchy.

	<u>Note</u>	<u>2021</u>	<u>2020</u>
Building for lease	15	P 3,962,447,034	P 3,875,971,923
Land	15	<u>1,897,868,396</u>	<u>1,869,480,787</u>
		<u>P 5,860,315,430</u>	<u>P 5,745,452,710</u>

The fair value of certain parcels of land are determined on the basis of the appraisals performed by an independent appraiser with appropriate qualifications and recent experience in the valuation of similar properties in the relevant locations. To some extent, the valuation process was conducted by the appraiser in discussion with the Group's management with respect to the determination of the inputs such as the size, age, and condition of the land and buildings, and the comparable prices in the corresponding property location. On the other hand, the fair value of other parcels of land was derived using the market comparable approach that reflects the recent transaction prices for similar properties in nearby locations. Both valuation process was applied as sale comparable method.

In estimating the fair value of investment property, management takes into account the market participant's ability to generate economic benefits by using the assets in their highest and best use. Based on management assessment, the best use of the Group's non-financial assets indicated above is their current use. In 2020, the Group determined the fair value of the building approximates its fair value as of December 31, 2020 as it was only newly constructed in March 2019. In 2021, the Level 3 fair value of commercial area under investment properties was determined using the income approach which utilized discounted cash flow method to convert future cash flows to be generated by the non-financial assets in reference to the value of expected income, net of cost of services, other operating expenses and income taxes. The significant unobservable inputs used in the valuation of the property were future annual free cash flows ranging from P520.0 million to P2,400.0 million for average period of 29 years. The discount rates applied in determining the present value of future annual free cash flows is 12%. The management has determined that a reasonably possible change in the unobservable inputs to a different amounts or rates would not cause the fair values of the non-financial assets to be increase or decrease significantly.

There has been no other change to the valuation techniques used by the Group for its non-financial assets. Also, there were no transfers into or out of Level 3 fair value hierarchy in 2021 and 2020.

34. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

Presented below and in the succeeding page is the reconciliation of the Group's liabilities arising from financing activities, which includes both cash and non-cash changes.

35. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return to shareholders by pricing services commensurate with the level of risk.

The Group monitors capital on the basis of the carrying amount of equity as presented on the consolidated statements of financial position.

The Group sets the amount of capital in proportion to its overall financing structure, equity and liabilities. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares, re-issuance of treasury shares or sell assets to reduce debt.

We have audited, in accordance with Philippine Standards on Auditing, the consolidated financial statements of Megawide Construction Corporation and Subsidiaries (the Group) for the year ended December 31, 2021, on which we have rendered our report dated April 8, 2022. Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The applicable supplementary information (see List of Supplementary Information) is presented for purposes of additional analysis in compliance with the requirements of the Revised Securities Regulation Code Rule 68 of the Philippine Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with Philippine Financial Reporting Standards. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

MEGAWIDE CONSTRUCTION CORPORATION AND SUBSIDIARIES
 MAP SHOWING THE RELATIONSHIP BETWEEN THE COMPANY AND ITS RELATED ENTITIES
 December 31, 2021

Supplementary information:

- (i) The rights and powers of Megawide over the management and control of the CMCI are exercised through a seat in the Board of Directors (BOD). Taking this into consideration, the Megawide concluded that it has significant influence over the investee; accordingly the investment is accounted for as an investment in associate.
- (ii) Megawide acquired 51% ownership interest in MWCCI, but accounted for the investment as an associate since it does not have control over MWCCI's relevant activities. Citicore acquired 68% effective ownership interest over MWCCI, hence, obtained the control over MWCCI.
- (iii) In March 2015, CHI acquired 100% ownership to CIHI. CIHI was established primarily to engage in buying and holding shares of other companies, either by subscribing to unissued shares of capital stock in public or private offering or by purchasing the shares of other stockholders by way of assignment in private sale.
- (iv) In January 2012, upon execution of Deed of assignment between CHI and Ph1's stockholders, the 100% ownership of Ph1 was transferred to CHI.
- (v) Globalcore is a foreign registered and domiciled in Hong Kong, which is primarily engaged in buying, selling, importing, and exporting of general equipment.

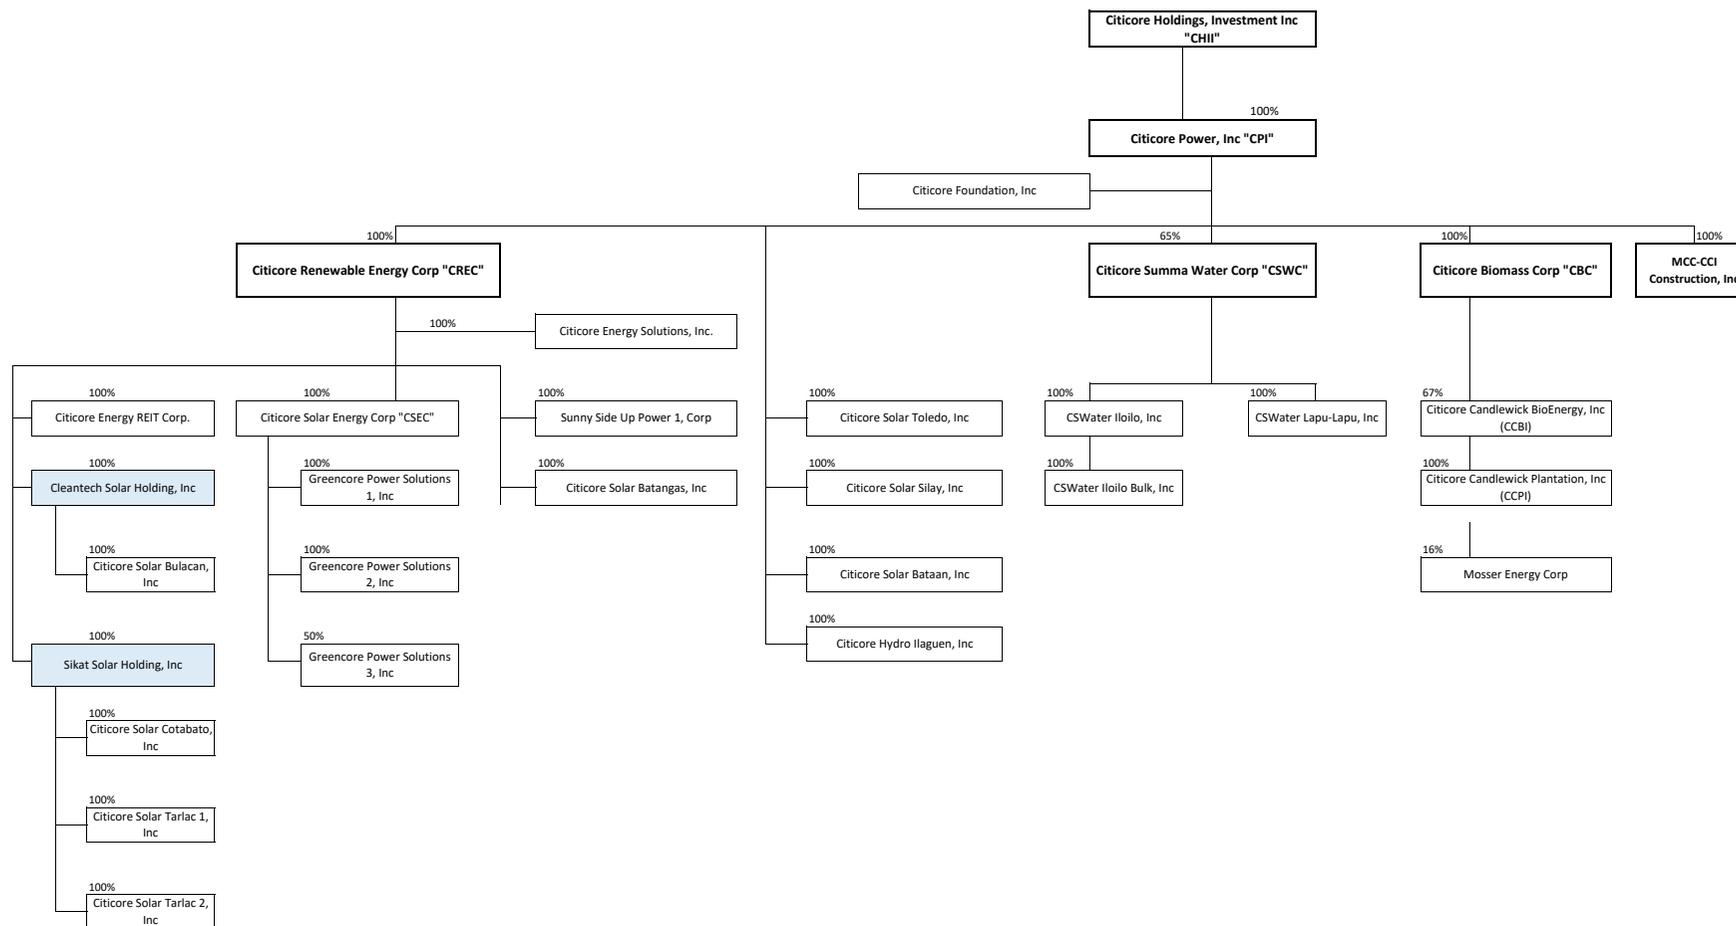

MEGAWIDE CONSTRUCTION CORPORATION AND SUBSIDIARIES
 MAP SHOWING THE RELATIONSHIP BETWEEN THE COMPANY AND ITS RELATED ENTITIES
 Schedule I: Megawide Construction Corporation and Subsidiaries
 December 31, 2021

Supplementary information:

- (i) Megawide's acquisition of Altria is treated as an acquisition of asset and not a business acquisition. Hence, Altria is not considered a subsidiary of the Megawide.
- (ii) Megawide acquired 15.0 million shares of stock of GMCAC which represent 60% of GMCAC's issued and outstanding capital stock, giving Megawide control over the financial and operations of GMCAC.
- (iii) On September 4, 2014, the Company acquired 70% of the issued and outstanding capital stock of MCEI. The investment in MCEI is accounted for as an investment in subsidiary.
- (iv) MWMTI was accounted for as a subsidiary due to the acquisition of 100% ownership in MTI, resulting to the increase in effective ownership of Megawide in MWMTI from 51% to 100%.
- (v) On October 28, 2016, the Parent Company acquired a 100% ownership interest in MLI, an entity incorporated in the Philippines. MLI is incorporated primarily to engage in real estate and related business.
- (vi) On May 5, 2016, the Parent Company acquired a 60% ownership interest in Globemercants, a company incorporated in the Philippines, primarily engaged in exporting, buying, selling, distributing, marketing at a wholesale in so far as may be permitted by law all kinds of goods, wares and merchandise of every kind and description. As of December 31, 2020, the Parent Company's ownership interest in Globemercants, Inc. is 50%.
- (vii) In February 2016, SSPI's unissued shares of stock were acquired by CPI resulting in a 75% equity interest over SSPI and diluting Megawide's equity interest over SSPI from 100% to 25%. Hence, SSPI ultimately became a subsidiary of CPI. In 2016, the Megawide's equity interest was reduced from 100% to 1% upon acquisition of a related party under common ownership.
- (viii) In August 2018, Megawide acquired the outstanding shares of MTI representing 100% ownership, making it a wholly owned subsidiary of Megawide.
- (ix) On June 20, 2017, the Parent Company acquired a 100% ownership interest in MCBVI, an entity incorporated in the territory of British Virgin Islands, a primarily engage in buying and holding shares of other companies.
- (x) MLI, whose registered office is at Mary Building, 2nd Floor, Parcill Estate, P.O. Box 2416, Road Town Tortola, British Virgin Islands, was incorporated on July 26, 2019.
- (xi) Cebu2World, whose registered office is at Unit 1504 Ayala Ljfe FGU Center Cebu, Mindanao Avenue corner Biliran Road, Cebu Business Park, Cebu City, was incorporated on November 3, 2020.
- (xii) Wide-Horizons, whose registered office is at 20 N. Domingo Street, Brgy. Valencia, Quezon City, was incorporated on November 16, 2020.
- (xiii) Tiger Legends was incorporated on October 16, 2020 to primarily engage in buying and holding shares of other companies. Tiger Legend's registered address is at Vistra Corporate Services Centre, Wickhams Cay II, Road Town, Tortola, British Virgin Islands.

MEGAWIDE CONSTRUCTION CORPORATION AND SUBSIDIARIES
 MAP SHOWING THE RELATIONSHIP BETWEEN THE COMPANY AND ITS RELATED ENTITIES
 Schedule 2: Citicore Power Inc. and Subsidiaries
 December 31, 2021

Supplementary information:

(i) In February 2016, SSPI's unissued shares of stock were acquired by CPI resulting in a 75% equity interest over SSPI and diluting Megawide's equity interest over SSPI from 100% to 25%. Hence, SSPI ultimately became a subsidiary of CPI. In 2016, the Megawide's equity interest was reduced from 100% to 1% upon acquisition of a related party under common ownership.

(ii) In 2016, the following newly incorporated entities: HBPI, CESI, BGESSI, NGESSI, LGESSI and CGESSI, become wholly owned subsidiaries of the CPI upon subscription on their common shares.

In 2015, CPI acquired NGPTC. CPI acquired additional shares of NGPTC through conversion of advances to equity investments.

In November 2015, CPI entered into a share purchase agreement (SPA) for the acquisition of FTSEC for \$12.0 million. CPI paid the former stockholder of FTSEC amounting to P40.1 million. The agreement was subsequently amended and reduced the purchased price to \$9.6 million. CPI gained control on FTSEC in May 2016 upon significant compliance of the parties to the SPA. CPI then recognized FTSEC as its subsidiary.

We have audited, in accordance with Philippine Standards on Auditing, the consolidated financial statements of Megawide Construction Corporation and Subsidiaries (the Group) for the year ended December 31, 2021 and 2020, on which we have rendered our report dated April 8, 2022. Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purposes of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with PFRS. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at December 31, 2021 and 2020 and for the years then ended and no material exceptions were noted.

<p>Business Model, including Primary Activities, Brands, Products, and Services</p>	<p>Since its inception, Megawide Construction Corporation (referred herein as Megawide) has pursued revolutionary construction and engineering solutions. Megawide started as a general construction business and grew its order book in Engineering, Procurement, and Construction (EPC) through a range of projects, from low- to high-rise condominiums, office buildings, hotels, and casinos, and works for clients such as Megaworld Corporation, Double Dragon Properties, 8990 Holdings, Rockwell Land, and Araneta Properties.</p> <p>The company also diversified its portfolio into transport-oriented infrastructure development, through their participation in the government’s Public-Private Partnership (PPP) programs, which enabled them to secure projects like the Parañaque Integrated Terminal Exchange (PITX) and the Mactan-Cebu International Airport (MCIA).</p> <p>Currently, the business is managed along the following segments: Construction, Airport, and Landport (Terminal) Operations.</p> <p>Construction covers the construction, enlargement, repair, or other work on buildings, houses and condominiums, roads, plants, bridges, piers, waterworks, railroads, and other structures. This segment also includes the ownership, use, improvement, and development of various types of real estate.</p> <p>The Airport Operation segment is focused on building, rehabilitating, renovating, constructing, developing, operating, and maintaining airports, such as the MCIA, as well as the commercial assets and all allied businesses for the operation and maintenance of the airport facility.</p>

	Meanwhile, the Landport Operation segment operates a multimodal transport terminal, as well as commercial leasing properties – office and retail areas – within PITX.

Highest Ranking Person responsible for this report	Edgar B. Saavedra, Chairman and Chief Executive Officer

**If you are a holding company, you could have an option whether to report on the holding company only or include the subsidiaries. However, please consider the principle of materiality when defining your report boundary.*

Materiality Process

Megawide rolled out their Sustainability Policy Framework in 2018, anchored on three pillars: Environmental Stewardship, Good Governance, and Social Responsibility. The company's strategic business units take guidance and direction from this policy and align their projects and programs with these sustainability goals.

Megawide abides by the sustainability reporting requirements of the Security and Exchange Commission (SEC), as well as the reporting principles of the GRI Standards. They report on critical topics (high and medium) that are most relevant to their business and stakeholders.

To determine these topics, they conducted a materiality assessment in 2018, which included an engagement process with internal and external stakeholders to understand their issues and concerns. For 2021, Megawide did a review of stakeholder concerns with their business units to understand the specific issues raised during the period covered. With that, topics that were covered in the previous year have been considered as material for 2021 as well.

Alignment of Material Topics to GRI Standards and UN SDGs

Criticality	Material Topic	Relevant GRI Standard	Contribution to SDGs

Megawide's Management Approach for Economic Performance

A strong economic performance provides Megawide with the resources to ensure long-term enterprise sustainability. It also enables the company to pursue and fund a broader and more inclusive social and environmental sustainability program. Having a robust economic performance boosts the value chain and facilitates a healthy wealth distribution across the company. Megawide mostly encounters external risks which affect the conduct of the business thus it can impact its economic performance. Necessary risk mitigation measures are implemented despite external factors being largely beyond the company's control.

Guided by their vision and mission, Megawide pursues a long-term and sustainable growth agenda. These objectives are translated and measured through Key Result Areas (KRAs), which are developed from the bottom up. These KRAs not only serve as the financial and operational targets on an annual basis, but also provide the basis for performance evaluation of each employee and the company as a whole. Megawide has various grievance mechanisms in place such as Whistle-Blowing Policy and institutionalized internal programs (S.A.P.A.K). These mechanisms encourage anonymous reporting of perceived anomalies and irregularities, which are then subject to investigation.

Management regularly assesses company accomplishments with reference to their long-term roadmap. This is done through the KRAs or balance scorecard that is agreed upon by all members of the company. This sets the benchmark for measuring how effective each one is in achieving the individual and shared goals. The results are then collected and form part of the planning process for the succeeding year. Areas for improvement and other growth opportunities to further strengthen long-term economic performance are also considered after reviewing the results.

Procurement Practices

Proportion of spending on local suppliers

Disclosure	HoldCo	BU	EPC	MWMTI	GMCAC
Percentage of procurement budget used for significant locations of operations that is spent on local suppliers (%)	N/A	90	85	100	90

Megawide's Management Approach for Procurement Practices

Megawide adopts a local procurement strategy and engages with vendors, suppliers, and subcontractors within their project sites to boost the indigenous economy and contribute to nation-building. This allows for easier communication and enables an efficient evaluation of supplier accreditation credentials versus actual capacities. It also ensures on-time and quality delivery as well as facilitates the payment method. Moreover, working with local suppliers allows the company to conduct plant visits and background checks to validate suppliers' compliance with standards and regulations as well as their minimum financial capacity. Engaging with homegrown businesses also helps establish prioritization and strengthen the local supply chain.

To mitigate risks such as price volatility and supply availability, the Procurement Team partners with various suppliers to ensure price equity and broader sourcing scope. Local traders also deal with foreign counterparties for imported items, which can cause longer lead times and higher costs. In response, the Procurement Department establishes direct sourcing agreements with authorized distributors, importers, and manufacturers to secure the most favorable terms and deals.

BU

Challenges experienced in terms of the supply and demand of raw materials include price increases and delivery delays. The supply chain of Megawide continuously engages with suppliers who can support the demand and are located within the radius of site locations. The BUs enter partnerships and contract agreements with local suppliers to lock in the prices and to secure supplies that will readily be available to them. Management evaluates whether they are successful in managing this topic by assessing if there have been any shortages in suppliers for all BUs.

GMCAC

GMCAC's airport operations tap locals to ensure on-time and high-quality delivery of products and services. Strong business partnerships with suppliers facilitate the entire procurement process, from ordering, production planning, to maintenance scheduling. These are essential in achieving an efficient working relationship with partners to ensure that product and service requirements are always met.

*On 05 November 2021, the following Directors and Officers of Megawide Construction Corporation, in their capacity as Directors of GMR Megawide Cebu Airport Corporation, received a Joint Resolution of the Office of the Ombudsman (the "Resolution"):

a. Mr. Manuel Louie B. Ferrer – Executive Director, Infrastructure Development and Chief Corporate Affairs and Branding Officer of Megawide;

- b. Mr. Jez G. Dela Cruz – AVP-Corporate Finance and Planning of Megawide;
- c. Mr. Edgar B. Saavedra - President and CEO of Megawide; and
- d. Mr. Oliver Y. Tan - Director of Megawide.

(the “Megawide Respondents”)

The Resolution, issued on 20 July 2021, found probable cause against Steve Y. Dicdican (“Public Respondent”), Manuel Louie B. Ferrer, Edgar B. Saavedra, Oliver Y. Tan, Jez Dela Cruz, Srinivas Bommidala, P. Sripathy, Vivek Singhai, Andrew Acquaah-Harrison, Ravi Bhatnagar, Ravishankar Saravu, Michael Lenane, Sudarshan MD, Kumar Gaurav, Magesh Nambiar, and Rajesh Mandan (“Private Respondents”) (collectively, the “Respondents”), who all allegedly acted in conspiracy with one another, for violation of Section 3(e) of Republic Act No. 3019 or the Anti-Graft and Corrupt Practices Act. The Respondents allegedly acted with a common purpose and intention to allow foreign nationals to perform executive functions, particularly to manage and operate the Mactan Cebu International Airport in violation of the Anti-Dummy Law.

Prior to receiving the Resolution, none of the Private Respondents obtained or received any subpoena or order from the Office of the Ombudsman directing the submission of their respective counter-affidavits. As a result, the Private Respondents were not given the opportunity to present their defenses and participate in the preliminary investigation.

Subsequently, the Megawide Respondents filed a Petition for Review with the Department of Justice assailing the finding of probable cause.

Megawide, its Directors, and Officers maintain that they exercise good corporate governance and adhere to all applicable laws, rules, and regulations in all its dealings.

Megawide’s Management Approach for Anti-corruption

As a publicly-listed Company, Megawide acknowledges their responsibility to comply with relevant laws and regulations. As such, they adopt and are guided by the highest legal, ethical, and moral standards. Megawide is committed to promoting a strong culture of ethics, compliance, and enforcement across its operations. In compliance with its Manual on Corporate Governance, the Board of Directors has instituted various policies against corruption where it is consistently stated that it does not condone dishonest, unethical, or unprofessional behavior regardless of the level of authority of the other individual. Any violations or suspected violations shall be reported to the Compliance Officer, Chief Human Resources Officer, or Chief Audit Executive.

The nature of the business involves transactions with third party organizations which may or may not be tracked accordingly by Megawide, despite diligent measures in place. This elevates the exposure of Megawide to any suspicious activity related to corruption and similar to such that is considered to be unacceptable. In this regard, on 3 April 2019, Megawide implemented a Code of Conduct and Ethical Standards for Suppliers to guide third parties on the standards, virtues, and values they must uphold and practice in all their dealings with Megawide. Furthermore, Megawide endeavors to regularly conduct orientation seminars for its directors, senior management, and employees where the Manual on Corporate

Governance, Code of Business Conduct and Ethics, Employee Code of Discipline, and Code of Conduct and Ethical Standards for Suppliers, Whistleblowing Policy, and Anti-Fraud Policy are discussed and explained thoroughly. Such directors, officers, and employees have also been informed that the said codes are accessible through Megawide's website.

As provided in Megawide's Code of Business Conduct and Ethics, the acceptance of kickbacks or secret commissions from contractors, suppliers, and other service providers is strictly prohibited; and a breach of this rule may result in termination of professional relationship and/or termination of employment with Megawide, as well as prosecution of criminal cases arising therefrom to the fullest extent of the law. Megawide's Code of Business Conduct and Ethics, Employee Code of Discipline, Code of Conduct and Ethical Standards for Suppliers, Whistleblowing Policy, Anti-Fraud Policy, and other relevant rules and regulations provide for the clear and stringent policies on curbing and penalizing employee involvement in offering, paying, and receiving bribes. Furthermore, Megawide's Whistleblowing Policy and Anti-Fraud Policy establish the guidelines, procedures, and controls that will facilitate the prevention, detection, reporting, investigation, and punishment of all fraudulent activities within the organization.

For EPC and BUs, concerned parties who suspect the occurrence of any fraudulent activity within the Company must immediately report this following the policies and procedures of the Company. These include reporting the matter to the Internal Audit Department, Legal Department, Human Resources Department, and/or through the Whistleblowing Policy and Sumbong Anomalya Para sa Kompanya (SAPAK) campaign of the Company. All fraudulent activities reported that could affect the Company's financial statements shall be coordinated by the Chief Audit Executive with the Chief Finance Officer and Compliance Officer, who shall refer the matter to the appropriate Board Committees.

In compliance with Megawide Code of Business Conduct and Ethics, all supervisors, managers, officers, directors, and employees of Megawide that have any form of control in directing the business operations of Megawide, or deal directly with suppliers and contractors, are required to fill out a Conflict of Interest Disclosure Form before hiring and at least annually (or as often as necessary when there is a need to disclose certain conflicts of interest) to help Megawide identify and resolve conflicts of interest within the organization.

Megawide strives to continue developing and maintaining a culture of outstanding corporate governance and accountability to avoid incidents of corruption. It is firmly committed to conduct its business with the highest ideals of integrity and ethical and moral value; and to strictly comply with all applicable laws and regulations. The Manual on Corporate Governance, Code of Business Conduct and Ethics, Employee Code of Discipline, and Code of Conduct and Ethical Standards for Supplier, Whistleblowing Policy, and Anti-Fraud Policy are regularly promoted and enforced consistently throughout the organization.

In addition, Megawide endeavors to further strengthen compliance with the Code of Corporate Governance of the Securities and Exchange Commission (SEC), and other applicable laws and regulations as well as develop initiatives to embed ethical behavior into the culture of the organization. It aims to further increase the awareness of all employees on the governance policies promulgated by the Board of Directors through periodic seminars and communications.

Finally, the Compliance Officer ensures that Megawide is in full compliance with all laws and regulations, including those that pertain to corporate governance, as well as professional standards, accepted business practices, and internal standards. Megawide operations also undergo in-depth assessments in the form of internal audits. The internal audit group periodically monitors compliance with the anti-corruption policies of Megawide and identifies the existence of potential and actual incidents of corruption.

Megawide's Management Approach for Energy Consumption

HoldCo

Power interruptions will disrupt business operations and result in delays. To mitigate this, the company ensures that their businesses are equipped with the necessary backup equipment and servers to ensure business continuity. For HoldCo office operations, they coordinate closely with the Santolan Town Plaza building administration to maintain the generator sets of the building, which are used for backup power. Electricity requirements were predetermined and considered in the decision-making on office equipment and backup power requirements. HoldCo also practices energy conservation by shutting down appliances and lights when not in use, especially lighting during daytime when natural light can be utilized.

BUs

For 2021, energy consumption for both the Taytay complex and head office building increased since operations went back to normal for all business units. Energy became more critical to the business units since there is always a need to hit the production target and supply the needs of the daily operations of each building. As part of the energy management in 2021, Facility Management Department (FMD) practiced energy conservation by turning-off appliances, lights, and other equipment when not in use. They also took the opportunity to use solar energy to power certain areas through the replacement of normal flood lights with solar-powered LED lights. FMD also started switching to LED for all their lights which resulted in a 75% completion of their targets.

BU Batching Plant has set a standard allowable range with regards to their energy usage to improve the operations and to contribute to the preservation of its environment. They use electricity as its main source and utilize a generator set as a backup source for emergency purposes. BU Batching Plant's energy consumption is based on its production output. They continue to adopt energy conservation by shutting down equipment, lights, and air conditioning units after office hours. Their generator set is only utilized in terms of power outage. BU Batching Plant ensures that their energy consumption is within the standard range through monthly monitoring.

EPC

In the MCC Head Office, certain efforts are made to monitor and manage energy usage as return-to-office is now mandated and most employees are now working on-site. Such efforts include imposing a schedule on air conditioning systems and elevators, reminding employees to turn off the lights and computers when not in use, and having a generator to back up energy supply that is tested monthly for at most 1 hour. Responsible energy usage is acknowledged as a responsibility to the environment by improving office practices. In 2021, there is almost a 15% increase in energy consumption compared to the 2020 energy consumption data. This was associated with more employees coming into the office versus 2020 which was the peak of the pandemic. Since COVID-19 regulations became much more lenient in 2021, offices were opened and employees used office facilities more. However, the company recognizes the need to implement bigger and more consistent efforts on energy consumption monitoring and management. More strategies would be developed in the coming years to improve energy management practices and to further reduce energy usage of the company as a commitment to climate change action.

In the Head Office, efforts for energy management are being imposed in different Megawide businesses. Efforts such as scheduling of usage of the air conditioning system, elevators, equipment, and lights are being implemented. Generator sets are also being used as a stand-by in case of power outage. The monitoring of energy consumption is done monthly.

MWMTI

MWMTI's energy consumption was still low in 2021, due to a decrease in the occupancy rate of the office towers caused by COVID-19 restrictions. In general, however, the Terminal adopts energy-efficient practices to manage its consumption. This includes the shift to LED lighting, using only 50% of lighting during non-peak and idle hours, and shutting down escalators and elevators at midnight. MWMTI also has generators on standby to ensure continuous operations, even during power interruptions.

GMCAC

GMCAC has significant energy requirements and recognizes the importance of monitoring and managing their energy usage to improve their operations, carry out their responsibility to the environment, and participate in the climate change agenda. In 2021, GMCAC continued to experience a decrease in energy consumption due to the consequences of the COVID-19 pandemic. For GMCAC, power costs through the local power utility in Cebu are quite high, which poses a risk to financial stability. This resulted in a strategy to source power through the open market for Terminals 1 and 2. For its part, GMCAC is moving towards expanding their use of renewable energy sources. In 2021, the company was able to reduce its energy consumption by 565,779.04 kWh due to the use of solar power. The partial utilization of renewable energy also enabled GMCAC to provide power to surrounding areas and stranded passengers at the airport even in the aftermath of Typhoon Odette last December 2021, when power was out.

Megawide's Management Approach for Water and Effluents

Water is a basic resource utilized by all of Megawide's businesses, although they may have varying requirements. Managing water consumption is a priority given the frequency of water shortages in Metro Manila and other cities in the Philippines. Megawide sources water from third-party water concessionaires and does not operate any deep wells.

HoldCo and EPC

The water usage of HoldCo and EPC Head Office is primarily for domestic purposes, such as washing, cleaning, and maintenance. A regular and reliable water supply is necessary for these offices to ensure that employees are able to maintain a clean, safe, and healthy workplace. Water-efficient fixtures in washrooms, such as faucets with sensors, are installed to control water consumption and prevent wastage. HoldCo is a tenant in the Santolan Town Plaza, but Facilities Management monitors daily operations and coordinates with the building administrator to implement water supply and water quality initiatives. HoldCo also abides by the requirements set by the building administrator with respect to water use and management. The Santolan Town Plaza building also has a sewage treatment plant (STP), which treats all water discharge from the offices in the building. With that, management of water discharge-related data and impacts is within the scope of the landlord. As for EPC's project sites, water is a requirement both for construction and domestic use in the barracks, canteen, washrooms, and offices. Since EPC project sites utilize water primarily for cement mixing, there is minimal water discharge. Portlets used by the project sites are managed and maintained by the third-party provider. For the head office, FMD has rehabilitated their cooling tower which previously had a leakage problem, in order to lessen the water consumption of the building.

BUs

Water is an essential part of the operations of each business unit and the head office building. Each BU utilizes their water consumption in relation to their production rate which gradually increased in 2021 compared to 2020. Water comes from Manila Water and is one of the raw materials for the production of Precast and the

refurbishment of Formworks. It is also usually used in the daily operations of each office and other maintenance activities.

In Taytay, the Precast plant uses recycled water to maximize their resources for some activities. Water is later on discharged into a small creek leading to Laguna Lake. For water discharge, FMD ensures that this is in line with the standards set by the LLDA and the local government.

Similar to energy, the Batching Plant also sets a standard allowable range for water consumption to lessen negative impacts on the environment. Water is withdrawn from a water storage tank for the production of ready-mix concrete and domestic use. The BU recognizes that a high production target requires more water to be used thus lack of water may impact the business and slow down activities and services. The consumption of water by the Batching Plant may also affect the depletion of natural resources. To address this, the plant maximizes the usage of water by reusing or recycling water. They use recycled water for dedusting to attain minimal to zero water discharge which would contribute to the conservation of the environment. The Batching Plant also ensures that water consumption is monitored on a monthly basis. For water discharge, the Batching Plant follows the Water Effluent Standards for Class C Water Body according to DAO 2016-08 and as mandated by DENR and LLDA.

EPC

In the Head Office, water is primarily used for domestic purposes. STP is installed to treat effluents and is maintained regularly to comply with the standards set by the LLDA. Offices are required to provide a safe and regular water supply to its employees for a healthy working environment. Clean water is provided by a third-party. Facilities regularly monitor daily water supply and the third-party ensures that their effluents discharged into the city drainage of San Juan River are in line with the standard set by the regulatory bodies. The EPC Head Office sets goals towards the reduction of consumption, establishment of baseline data, and installation of water efficient faucets.

MWMTI

MWMTI uses water for its domestic and commercial use in washrooms, as well as for cleaning, landscaping, and maintenance activities. A water conservation strategy is in place to ensure the proper use of water and the reduction of wastewater. Water flow from sinks in the washrooms was monitored and adjusted from 15-second intervals to 5-second intervals to reduce water consumption. The Terminals have cistern tanks that are cleaned annually for both potable and non-potable water. These tanks are separate from the main water supply system to ascertain continuous water supply and prevent inconvenience to passengers and tenants. MWMTI is also exploring water-related opportunities such as optimizing water use in washrooms, adjusting water pressure for both potable and non-potable water systems, and implementing rainwater harvesting. An STP is located at the Terminals to treat wastewater before it is discharged to public drainage systems. In coordination with an accredited contractor, MWMTI monitors the volume and quality of effluents to prevent negative impacts on water bodies where water is discharged to.

GMCAC

Water is one of the basic necessities needed for a business to operate. It is withdrawn from MCIAA for Terminal 1 while water for Terminal 2 is supplied by Mactan Rock Industries. Water is mainly used for the following purposes: domestic, landscape, dust suppression, cooling tower, drinking fountain, and equipment washing. With the use of water comes the generation of wastewater which is discharged into the Mactan Channel after being treated at the Sewage Treatment Plant. GMCAC monitors its water consumption through internal metering. While the monitoring of water usage will help determine losses, part of the management directive is to combine the water source of both Terminals to maximize the better price supplied in Terminal 2. GMCAC also engages with its stakeholders through the implementation of Information and Education

Campaigns (IEC) on Water and Energy Conservation. In addition, management is exploring the use of recycled water or greywater from the MCIAA STP for landscaping as well as a cooling tower water replenishment. It is also looking into rainwater harvesting to further mitigate water-related impacts. MCIA Management handles the treatment and disposal of domestic wastewater and monthly monitoring of effluents is carried out to ensure that it is within the standards set by the DENR, with a conscious effort to minimize wastage and enhance recycling year in and year out.

Megawide's Management Approach for Materials

Megawide abides by both local and international standards, including the Philippine National Standards (PNS), American Society for Testing and Materials (ASTM), American National Standards Institute (ANSI), American Concrete Institute (ACI), Construction Specifications Institute (CSI), American Association of State Highway and Transportation Officials (AASHTO), and ISO standard on Quality, Environmental, Safety, and Health. The company enters partnership agreements with suppliers to help reduce the risk of price fluctuations, material shortage, and delays.

BUs

FMD focuses on providing facility management services to clients such as other business units and Megawide groups. Since the department provides services, the main resources utilized are office supplies and energy resources due to heavy use of computers and laptops. To be able to reduce the waste generation of the department, the following initiatives were implemented in 2021:

1. Gradual transition to digitalization to reduce office wastes
2. "Last one out switches off" policy to preserve energy

BU Batching Plant supplies only high quality and the right volume of ready-mix concrete to ensure that customers are happy and satisfied with their product and services. To ensure high quality product, the team

consistently carries out a routine quality check of raw materials to be used. All equipment in the Batching Plant is calibrated to ensure the accurate value of each raw material to be batched. Inspection and approval of raw materials is properly communicated with the Procurement and Supply Chain Department. To ensure that raw materials used in their production are within the standard specification of the product, there is an existing policy that the plant follows during the process of inspection and approval which is "*Approving of Raw Materials for Use in Concrete.*" The Procurement team is responsible for negotiating the pricing while the Quality Control Department is tasked to check the consistency of product quality. The Research and Development Department is responsible for conducting verification and validation. With this process, the Batching Plant is also able to ensure that anti-corruption and anti-bribery are being practiced. Since there is an existing policy for inspection and approval of raw materials, the responsible personnel ensure that all processes are documented properly and cascaded accordingly with all the concerned departments of BU Batching Plant. In addition, all end products are accepted by the client and there have been no recorded instances of failed testing.

EPC

Raw materials are sourced through trusted external providers in the construction industry, using a thorough selection process by the procurement team. Raw material inputs are primarily steel, cement, and aggregates. Suppliers are selected based on their quality, pricing, availability, and efficiency in delivering the raw materials. Delays are avoided as much as possible therefore establishing a partnership with different suppliers is a must as well as maintaining the quality of the products procured. Material testing is done by specialized laboratories to verify its compliance to the standards set by the authorities.

MWMTI and GMCAC

MWMTI and GMCAC mainly transact with local service providers and vendors for services such as maintenance, marketing, and other operations. Furthermore, both MWMTI and GMCAC encourage local partnering for raw materials sourcing, subject to vendor accreditation guidelines, to reduce handling costs, especially in light of volatile fuel prices, and to maintain efficient turnaround times.

Megawide's Management Approach for Air Emissions

Megawide seeks to manage emissions associated with their operations and acknowledges their responsibility to comply with national environmental standards and regulations governing air emissions.

At present, HoldCo, EPC, and MWM Terminals do not have a testing device to monitor emissions.

BU's

Since the Batching Plant is involved in the manufacturing of ready-mix concrete which imminently generates emissions, they ensure that the plant complies with the government standards surrounding the national air emission policy. Any failure to comply may result in DENR-EMB monetary penalties and the stoppage of their daily operations until compliance is ensured. To manage emissions, the plant minimizes the use of generator sets which produce high volumes of air pollutants. The generator sets are only used during the installation of the plant. Safety Officers regularly monitor air emissions and report to Maintenance for the immediate action of unusual or high emissions by replacing damaged silo filters. The plant also ensures that new Pollution Control Officers (PCOs) are properly trained so that they can effectively carry out quarterly monitoring reports and secure all necessary environmental permits from the DENR-EMB for the following year. To evaluate whether they are successful in managing this topic, the Maintenance team conducts a regular inspection of silos and the Safety Officer accomplishes an internal audit of the plant's air emissions.

EPC

At present, EPC has no testing device to monitor emissions.

MWMTI

MWMTI conducted an Emission Testing for the Air Pollution Sources Installations (Generator Sets) 2021 to have an overview of the company's environmental impact in terms of air pollutant emission. Results have shown that the facility is able to pass the criteria and parameters of the testing. This was done by a third-party vendor specialized in Air Emission Testing for all kinds of equipment.

GMCAC

There are several sources that contribute to carbon emissions in GMCAC as such it is imperative for the company to acknowledge and comply with the national regulations governing air emissions. The level of carbon footprint emitted remains a challenge to GMCAC. For GMCAC, the number of flights that pass through the airport influences emissions and noise pollution levels. GMCAC has an approved Environmental Management Plan, which provides for the monitoring of ambient air quality and noise quality in specific areas surrounding the airport complex. This is in line with the requirements of the Philippine Clean Air Act (RA 8749).

GMCAC conducts Ambient Air Quality monitoring in six areas, while Noise Quality Monitoring is implemented in four areas surrounding the airport:

Ambient Air Quality Monitoring Sites	Noise Quality Monitoring Sites

Carbo Bay Area (MCIA Gate)	STEC – Science & Technology Education Center
Bangkal Brgy. Hall	St. Augustine International School
STEC – Science & Technology Education Center	MCIAA General Aviation Building
Pusok National High school	Carmelite EMD Foundation School
Terminal 1 and 2 Ramp area	

GMCAC’s motorized ground support equipment (GSEs) are also tested for hydrocarbon emissions to reduce pollution. GMCAC also recognizes its responsibility to inform nearby communities about emissions and their effects, as well as provide them with updates on how GMCAC is managing its emissions.

**Data includes FMD and Batching Plant only*

Megawide's Management Approach for Solid and Hazardous Wastes

Megawide's compliance is monitored by relevant regulatory agencies, including the DENR and Laguna Lake Development Authority (LLDA). The company engages with accredited third-party contractors to haul and dispose of their solid and hazardous waste.

HoldCo

For HoldCo, solid waste is generated primarily by office activities. Bins are provided for proper waste segregation in the common office and meeting rooms. As part of the arrangement with the building administration, waste is disposed of in the building's MRF. Hazardous waste generated by HoldCo is transferred to the EPC Head Office for handling by the DENR-accredited and contracted third-party hauler.

BUs

Being a part of Megawide, the Batching Plant has the commitment to ensure an environmentally friendly work area. The plant ensures that no mixed concrete waste will be disposed directly to the environment by using a reclaimer or settling pond and availing the services of an accredited hauler. Failure to do so may result in environmental and sanitation issues and penalties. Solid waste generated by the Batching Plant is picked

up by the same DENR-accredited contractors who also deliver the raw materials, resulting in significant disposal cost savings. The plant carefully monitors concrete waste to minimize losses and takes measures to recycle concrete waste by diverting it to other project sites, making beton blocks, or discharging the waste to the settling pond. The plant also ensures that there are assigned Pollution Control Officers for all plants to monitor waste segregation in coordination with Safety Officers on site. For domestic waste, they dispose of this to the Materials Recovery Facility of the project site. In the Taytay Industrial Complex, the Precast Plant generates the most waste, although the actual amounts fluctuate depending on their production levels. Some precast waste is recyclable while the accumulated scraps are scheduled for hauling. For Styrofoam waste, this is crushed into smaller pieces and collected weekly by a third-party contractor, CEMEX. The Precast Plant also has a temporary MRF for the storage and segregation of waste prior to disposal. All BUs strictly implement a “no proper segregation, no collection” policy to promote the separation of residual and recyclable waste. Plastic bottles are handled by a separate collector.

EPC

In the EPC Head Office, efforts in waste segregation are duly implemented to maximize material usability that would aid in EPC’s commitment to climate change action. Waste, when not properly segregated, may cause harmful effects to the employees or to the utilities handling it. For example, pest infestation may occur when food wastes are not properly disposed of. Land pollution is also a possible impact when waste is not properly managed. Proper waste segregation was disseminated to the employees by providing the appropriate trash bins for different kinds of waste. Information containing photos on waste types were also attached to these trash bins. In addition to waste segregation, EPC also promotes the non-usage of single use plastics which could reduce the amount of waste directed to the landfill. Furthermore, a Material Recovery Facility (MRF) is established to further segregate waste. Waste and scraps are hauled by the local government with proper arrangements. Third-party haulers are audited and waste is monitored daily. Waste management procedures are also being disseminated to project sites by conducting an online training or seminar.

Megawide, as a whole, practices and implements proper solid waste management and disposal in compliance with the standard imposed by the regulatory bodies such as Department of Environment and Natural Resources (DENR), Laguna Lake Development Authority (LLDA), and Department of Labor and Employment (DOLE). The company always makes sure that every activity that they engage in with regards to solid waste management is in line with the standards imposed. The company partners up with accredited third-party waste haulers for disposal and the submission of appropriate documents to the regulatory bodies.

MWMTI

The volume of passengers and tenants in the facility influences the amount of waste generated at the Terminals. In compliance with national laws, the Terminals operate an MRF and have made plans to expand the capacity of the MRF. This would allow them to accommodate the increased volume of waste generated in the facility. MWMTI handles residual wastes, as well as food waste from tenants belonging to the food industry. Food waste management is enhanced through daily inspection and close monitoring of food service tenants to ensure that such wastes are properly handled and disposed of.

GMCAC

Continuous generation of waste contributes to land and water pollution which remains to be a challenge in the airport. As such, GMCAC is obliged to abide by the relevant government regulations on solid and

hazardous waste management and disposal. GMCAC extends this environmental responsibility to their stakeholders and concessionaires through a Management Information Notice (MIN) which allows the company to work with its partners to manage solid waste and ensure compliance with regulations. Infographics are also disseminated throughout the company to communicate the different ways on how the generation of waste can be minimized. An accredited contractor is tasked to haul solid waste generated by the terminal, as well as waste from the aircraft.

Waste is segregated at source to reduce the amount disposed of in landfills. A Central Waste Storage Facility is established as a temporary holding area of the collected wastes prior to final disposal. Moreover, hazardous waste is handled by an accredited transporter and treater who works in accordance with the DENR-Environmental Management Bureau (EMB) guidelines.

In terms of hauling and treating solid and hazardous waste, the management continued to partner with the ABS-CBN Bantay Langis Program for the treatment and disposal of used cooking oil. GMCAC is also exploring the implementation of a no-plastic policy, recognizing the negative impact of plastics on the environment. It is also looking into improving the process of waste segregation at MRFs. GMCAC already enforces a no single-use plastic policy for all employees in order to minimize plastic waste. Furthermore, the company plans to develop communication materials and organize seminars to communicate the best practices in waste management.

Megawide's Management Approach for Environmental Compliance

HoldCo

Megawide aligns their operations with Philippine environmental laws, rules, and regulations, as well as international benchmarks and standards. They aim to uphold full compliance to set the bar for Philippine industry practice that can meet first-world standards. The compliance team of the company tracks these requirements to monitor and ensure that these are constantly updated. The same team is also in charge of keeping an eye out for any new environmental regulations that may be applicable to their businesses. In 2021, Megawide launched its Regulatory Requirements Electronic Management and Monitoring System,

which contributed to a significant improvement in the company's compliance with applicable legal and regulatory requirements. The diligent monitoring of permit renewals and applications ahead of stipulated dates and deadlines resulted in a reduction of penalties from PhP 1,943,956.00 in 2019 to PhP 0.00 in 2020.

BUs

Since the Batching Plant is involved in the manufacturing of ready-mix concrete where emissions and wastewater are a part of their daily operation, they ensure that they are compliant with government environmental regulations and standards. Any failure to comply may result in monetary penalties and the possible suspension of business activities. As part of compliance with environmental regulations, specifically for air emissions and water discharge, the Management Department ensures that all BUs have a registered Pollution Control Officer and Managing Head that will understand the environmental standards through the necessary training. The Admin Department together with the Health & Safety Department monitors the compliance of the BUs to environmental standards by conducting internal audits.

EPC

Ensuring compliance to environmental rules and standards imposed by the government can help the company by having a good standing with the regulatory bodies and avoiding fines and penalties that may be imposed for non-compliance. Conditions in every permit secured for environmental compliance are being met continually. Operations are aligned mainly and with high regards to the five main environmental laws imposed in the Philippines, namely, RA 9275 (Philippine Clean Water Act), RA 8749 (Philippine Clean Air Act), RA 9003 (Ecological Solid Waste Management Act), RA 6969 (Toxic Substance and Hazardous and Nuclear Waste Control Act), and PD 1586 (Philippine Environmental Impact Statement System). Compliance is monitored regularly and periodically depending on the requirement. Compliance to these regulations are also being improved periodically to keep up with updated standards.

GMCAC

With the release of ECC to GMCAC, conditions were also set by DENR for the compliance of GMCAC. Reporting of compliance and monitoring is to be submitted to DENR-EMB to ensure that environmental management plans and activities by GMCAC are in line with the environmental regulations set upon by the government. Valid permits are secured and the company diligently reports to the DENR quarterly for SMR and semi-annually for CMR.

Megawide's Management Approach for Employee Management

HoldCo

Megawide requires engineering professionals, project managers, and technical personnel for their operations and project sites. Competition is tight for these types of skilled workers and the company must maintain high standards of human resource management for it to continue to be an employer of choice among engineering and construction firms. Part of the company's efforts is to provide employees with attractive and competitive compensation as well as benefits packages. Project employees receive a basic wage, allowances, performance bonuses, and project completion bonuses

HoldCo must manage and ensure productivity, especially when there are executive-level vacancies. To avoid a decrease in productivity, an officer-in-charge is assigned to keep operations running without interruption. Holdco plans to implement a talent acquisition strategy and manpower planning system to proactively address business requirements. HR manages a talent pipeline, especially for critical positions, to attract new hires and manage the risk of attrition. To ensure that employees are properly oriented and understand their scope of work, HR implements Megawide's Onboarding Program for all levels and its Employer Branding program.

HoldCo adopted Work-from-Home arrangements for all its employees, subject to key deliverables on a timely basis. Depending on and in compliance with government guidelines, Megawide implemented special work arrangements to allow employees to productively work away from the office or to use a blended approach, combining both work from home and work on site. The strategy is aimed at maintaining the company's productivity without losing out its market competitiveness.

BUs

In terms of employee management, the company's focus is on attracting, hiring, and retaining qualified and high-potential employees who can meet and deliver the quality of work our clients and customers expect. The company upholds high standards of talent management and retention to remain an employer of choice among engineering and construction firms. This should include an attractive and competitive compensation and benefits package and opportunities for career growth. Recruitment processes across their different BUs depend on manpower requirements of each department. The BUs also recognize the importance of recruitment and hiring the right people for the job.

To address issues in supplying skilled workers, BUs enroll their existing non-skilled employees in training and certification programs to equip them with the right skills rather than acquiring from the external market. With this, they are able to ensure sufficient manpower in the pipeline. The BUs also established partnerships with different TESDA-accredited training centers for all workers to be properly assessed and certified. The BU

HR department maintains a Key Performance Indicator (KPI) Tracker which measures the performance of the HR team in real time. Through this, they are able to track their recruitment and other HR targets.

To align with HR objectives and boost manpower quality, a Recruitment Referral Program is continuously implemented. The BUs also take part in job fairs, post in online job portals, collaborate with the Public Employment Service Office, LGUs, and reach out to the academe to expand their potential pool of new hires. The HR department ensures that all online job platforms to which they are subscribed to are fully utilized. They also collaborate with the Public Employment Service Office (PESO) to reach out to target applicants. On-site recruitment is also conducted at their project sites. The BUs acknowledge the need for employees to air out their grievances. They provide tools such as the Employee Suggestion Box while conducting Employee Hour, Kamustahan, and UMAGAHAN sessions. The Employee Hour is held every month for HR to disseminate new policies, updates, and scheduled activities while Kamustahan is an interactive meeting where employee needs and concerns are discussed. UMAGAHAN sessions and “Mornings with the Bossing’s” are conducted quarterly to inform employees of the latest developments on Megawide’s performance, plans, and directions.

In addition, Employee Engagement Surveys to check the level of engagement of the employees. The following factors are considered when the survey was developed:

1. Job satisfaction
2. Feedback
3. Teamwork
4. Workplace and resources
5. Purpose and direction
6. Opportunities for growth
7. Compensation and benefits
8. Work-life balance
9. Stress and work pace
10. Fairness
11. Respect for management and employees
12. Personal expression and diversity
13. Communication

Through this survey, employees are also able to provide suggestions and comments related to their overall employee experience with the company.

EPC

Similar to other entities in the construction industry, EPC’s workforce has a high percentage of project-based employees. Due to the nature of construction work, EPC experiences high turnover rates and employees frequently transfer across different project sites. In response to this, EPC has adopted a more streamlined approach to recruitment and strengthened its hiring strategies through academic linkages, provincial recruitment, and increased exposure in social media.

The HR department also looks at their internal manpower and prioritizes current project-based employees from ending projects to augment manpower needs for other EPC projects. This allows them to provide employees with continued opportunities and avoid project delays. EPC also has cadetship training programs to build its manpower. EPC’s HR department conducts manpower forecasting and planning to ensure that it is able to meet its requirements. Additionally, it utilizes dashboards to monitor and manage employee transfers.

On a long-term perspective, EPC is also shifting to long-duration and high value projects to keep talent within

the company and at the same time address business sustainability.

MWMTI

A strong recruitment process is a strategy of MWMTI in hiring the right people who can help achieve the company's objectives. Changes in the organizational structure were made to further strengthen collaboration among departments. New positions were also created to ensure that critical functions would be performed. MWMTI is compliant with all statutory benefits such as overtime pay, holiday pay, night shift differential, leave credits, and 13th month pay. MWM operates Paranaque Integrated Terminal Exchange (PITX), a public terminal for land transport with Metro Manila and nearby provinces.

The COVID-19 safety and health protocols were put in place and strictly enforced to keep the workplace safe. COVID-19 webinars and regular reminders of the protocols were done to ensure employees are updated and remain vigilant. To reduce exposure to COVID-19, selected employees who can perform their tasks remotely were allowed to have a hybrid work arrangement wherein they could work from home on some days of the week. MWMTI also strongly encouraged employees and third-party workers to be vaccinated. A vaccination drive in PITX was conducted in cooperation with DOTr, DOH and the Paranaque LGU to benefit employees, workers, and stakeholders. By the fourth quarter of 2021, 100% of PITX employees and workers have been vaccinated as a show of commitment to protecting customers and stakeholders.

GMCAC

GMCAC offers their employees carefully-planned benefits that are relevant to their needs. For those part of the skeletal workforce, GMCAC provided accommodations, meals, and transportation during the implementation of the lockdown, including any COVID-19 testing required due to exposure at work. The company also regularly reviews its compensation and benefits packages, recognizing the importance to employees, yet acknowledges that a competitive salary is not the only factor that determines employee satisfaction and retention. The review allows them to design appropriate packages that will attract new talents and satisfy current employees, without incurring unnecessary expenditures.

**in hours/employees

HoldCo

Learning and development is vital in ensuring that the company grows. In 2021, HoldCo took a step back to identify the competencies required from its people so that the company can continue to be successful in its endeavors. The knowledge, skills, and behaviors have been described and communicated to raise awareness of what is expected from each employee. These competencies, categorized as Behavioral, Leadership and Functional, or Technical, have been used as basis for Learning and Development Programs. It also served as the foundation for the Learning and Development Curriculum.

In the middle of 2021, Megawide rolled out its Leadership Initiative, a 12-hour webinar entitled "Lead to Drive Business Results," as well as a 360-Degree Feedback using the MLEAD Effectiveness Scale. These programs were attended by and conducted among Executives and selected Managers. Moving forward, the intent is for these programs to be cascaded to the rest of the Managers and Supervisors to ensure a common understanding of Management and Leadership essentials.

"Lead to Drive Business Results" is a 4-module program that covers topics such as Fundamentals of Management, Creating Accountability and Delegation, Leader as a Communicator, and Leader as a Coach. The program included lectures, tailored case studies, and breakout sessions to provide more opportunities for discussions.

"MLEAD Effectiveness" is a statistically validated tool that covers the following factors:

- Communicates a Shared Vision & Monitors Progress
- Inspires & Develops Others
- Leads with Presence
- Thinks on Strategy & Focuses on Results

Using the MLEAD Tool, attendees of the leadership webinar underwent self-assessment and were given feedback by their Immediate Superior, Peers, and Subordinates. These results aim to raise self-awareness which could also become a point of discussion and coaching during executive sessions later on.

BUs

Constant training and development are essential for the BUs, especially in the industries they operate in. The provision of skills enhancement and capacity building programs to employees improves their quality of work and performance as well as promotes employees' satisfaction with the company. The BUs prioritize training and development for their employees by investing in capacity-building to improve job satisfaction and boost talent retention. They utilize training needs analysis, SWOT analysis, and strategic planning to create the appropriate packages for their employees. The BUs conduct performance evaluations and Individual Development Plans that serve as guides in implementing effective skills enhancement and development programs for workers. Furthermore, they refer to a Competency Gap Matrix in identifying the needed training of each employee. Based on the identified gaps, the BUs design or outsource training programs to address the skill or knowledge gap. They also partner with their health and safety department in designing training programs based on the DOLE OSH requirements.

Since not all employees have the same learning style and may or may not respond well to a single training approach, a range of learning and development modalities for their employees is utilized. The BU HR taps and invites potential resource persons or subject matter experts within the company who can help in carrying out the programs. Both external sources and internal experts are considered as trainers who can share their learnings and competencies to the rest of the team. Free webinars were proven to be a cost-effective

method, especially during the pandemic where face-to-face events were limited. In 2021, FMD conducted Leadership Skills Training, Train the Trainer, and Project Management Training. Batching Plant and Precast employees were offered training programs to develop both technical and soft skills and increase effectiveness in performing their respective duties and responsibilities. Precast ensures that all training materials and equipment needed are prepared before the actual training. For employees who are from project sites and would have to stay overnight, barracks or dormitories are provided. Formworks and CELS employees were provided with Forklift Training, SMAW Training, GMAW Training, GTAW Training, Rigger Training, Leadership Skills Training, Train-the-trainer training, Project Management Training, 5S Training, COSH Training, SSS In-depth Training, ISO Awareness Training, Lead Auditor Training, and Internal Auditor Training. Employees are endorsed to TESDA Accredited Assessment Centers for certification and are certified with NCII which they can use in their future employment.

Performance Reviews are conducted every six months. Employees who do not meet their targets and KPIs undergo the proper training and are reevaluated together with the Learning and Development Department after another six months to check if they are able to apply their learnings to the actual job. Employees are also given projects that will allow them to fully utilize the knowledge and skills that they learned from the training they attended.

EPC

Despite the ongoing pandemic and restrictions to conduct face-to-face training in 2021, providing training and development to employees is still one of the priorities of EPC. Continuous provision of learnings to improve skills and competencies of EPC employees will not only support their career and personal growth, but will also support the attainment of company goals.

EPC enhances its strategic approach in determining learning, competency, and performance gaps by introducing a more comprehensive process in conducting Training Needs Analysis, Competency Assessments, and Performance Management. The processes involved in these activities are improved and tailor-fitted to the requirements of the different groups in the company to better analyze and acquire data that will be used in recommending targeted learning programs and performance development or improvement plans.

EPC is continuously improving its procedures by integrating its various systems to align and connect processes and provide readily available data. This would also allow them to have a holistic overview of the overall results of its initiatives. EPC conducts effectiveness evaluations through regular monitoring, audit, feedback surveys, assessments, and check-back to determine areas for improvement in their programs. These will help enhance the delivery of the programs and better address and resolve any learning, competency, or performance gaps of employees. EPC believes that placing the right approach and interventions will lead to enhanced competency and higher performance results.

To help upgrade employee skills, EPC provides the following programs:

- Leadership, Technical, Behavioral, Developmental Programs (Project Management, ISO and Regulatory, Health and Safety Trainings, Cadetship, Communication, Training of Trainers, Awareness, Business Support Programs, Skills Training, Awareness Programs)

They also provide other assistance such as:

- Enrollment to Certification Trainings;
- Support to gain CPD points or renewal of required licenses;
- Participation to Technical Conventions;
- Assistance on accreditations and certifications;
- Internal Talent Building (Cross-posting/internal mobility/secondments)

For project-based employees whose contracts are terminated due to project phase completion, EPC offers rehiring for new and ongoing projects. For employees who have reached retirement age, they may request for consultancy arrangements for technical positions.

MWMTI

For MWMTI, training and development allows for the enhancement of employee performance and efficiency. Talent development efforts of the company focused on upgrading leadership skills, acquiring coping skills to deal with COVID-19 and mental health issues, and keeping the workplace safe. People Managers received training on the Mega-PEAK Performance Management System which was cascaded to all employees. A few face-to-face trainings with small class sizes were conducted in 2021, however most training programs were conducted online due to the COVID-19 restrictions. By June 2021, monthly leadership learning sessions were held online with managers and supervisors. Employees were provided with webinars on COVID-19, caring for one's mental health, building emotional resilience, physical wellness, and occupational safety and health, including basic life support and first-aid, and bomb awareness. The Code of Discipline lecture which included topics on anti-bullying, anti-harassment, and anti-discrimination, was a regular activity during the onboarding of all new hires. MWMTI provided other assistance in the form of coaching and counseling as well.

GMCAC

GMCAC identified employee attrition as a training risk, given the highly specialized and service-oriented the airline and tourism industry is – if employees resign, GMCAC would not be able to capitalize on the employees they trained. While cognizant of this risk, GMCAC does not implement training bonds as a strategy to maximize its investment in training. Rather, it focuses on strong employee engagement and welfare programs to retain employees and attract new ones. GMCAC implements various employee engagement programs and conducts regular talent review and succession planning as an effort to maximize the training they provide. The company also has plans to develop internal subject matter experts, covering strategic planning and performance management. Investing in employee training and development is in line with GMCAC’s vision to be the leading airport operator in the Philippines.

Labor-Management Relations

Megawide’s Management Approach for Labor-Management Relations

BUs

Maintaining good relations between management and its workforce helps build business continuity and operational sustainability. The BUs promote and cultivate strong labor-management relations for protection against the risk of labor disputes that might result in work stoppages or operational disruptions. They also ensure that all the minimum requirements set forth by the Department of Labor and Employment (DOLE) are followed at all times. In addition, employee engagement programs are conducted regularly despite the pandemic. Virtual kamustahan, virtual heroes’ day, and a Halloween session are some of the programs

conducted. The BUs strictly implement the company’s Code of Conduct by administering due process for violators and recognizing employees for exemplary performance. Members of Megawide also promote a harmonious labor-management relationship to avoid incurring fines, prevent damage to the brand reputation, and ensure business continuity. The BUs implement effective employee commitment strategies and comply with relevant labor laws in order to prevent the risk of industrial or labor conflict. They are also supported by the Legal Department, which helps resolve concerns or disputes amicably. Social media and online platforms such as MS Teams are continuously used and enhanced for communications. Regular site visits are also conducted to gather concerns from workers. An employee engagement survey is also carried out to measure the effectiveness of the different HR programs in improving the level of engagement of the employees.

EPC

EPC implements various Employee Listening Strategies in order to understand the concerns and issues of its employees, enabling it to manage concerns before they escalate into more serious problems by being proactive about employee engagement and addressing any feedback they might have. Through quarterly employee hours, the HR department conducts site visits to update employees, facilitate values formation, and solicit feedback from employees. EPC also manages an online tool called Share Your Concern, where employees can communicate work-related concerns anonymously. HR also conducts a regular Employee Engagement Survey to gauge the level of employee engagement in company activities and decision-making. Managers are provided continuous education on handling discipline and management of project employees to ensure that they stay involved in maintaining good relations with employees. EPC has identified common employee concerns through the implementation of listening strategies. They have a key performance indicator (KPI) for the formulation of action plans on these identified issues. HR is committed to providing responses and action plans in relation to concerns raised.

MWMTI

MWMTI believes that open and honest communication with employees is instrumental in building employee trust and loyalty. The first MWMTI employee survey was rolled out and subsequent focus group discussions were conducted to gather information about the level of employee engagement and to listen to the issues and concerns affecting employees. Employees expressed appreciation for being heard and feeling valued. The information gathered were reported to Management and action plans were developed to address these issues and concerns. The company complies with applicable labor laws and standards, and follows due process in resolving disciplinary cases. Policies and guidelines are communicated and disseminated to employees through alignment meetings and memoranda to ensure clear understanding. Employee engagement programs include an employee bonding activity held every month to bond, unwind, relieve stress, and build camaraderie.

GMCAC

Employees of GMCAC are provided with channels to air their grievances to management. These venues are found to be successful at addressing employee concerns and grievances through effective engagement processes with the relevant departments, resulting in harmonious labor-management relations.

Diversity and Equal Opportunity

Disclosure	MCC			MWMTI	GMCAC
	HoldCo	BU	EPC		
% of female workers in the workforce	52%	18%	21%	53%	44%

**Vulnerable sector includes, elderly, persons with disabilities, vulnerable women, refugees, migrants, internally displaced persons, people living with HIV and other diseases, solo parents, and the poor or the base of the pyramid (BOP; Class D and E).*

Megawide's Management Approach for Diversity and Equal Opportunity

Across the business, Megawide upholds the value of diversity and equal opportunity and maintains a work environment that respects the dignity of all. The company promotes equal opportunity and does not discriminate against company personnel, officers, directors, or even applicants on the basis of race, color, religion, sex, national origin, age, sexual orientation, or disability. They uphold policies that protect people regardless of their age or gender: The Anti-Age Discrimination in Employment Act (RA No. 10911), The Solo Parents' Welfare Act (RA No. 8972), The Magna Carta of Women (RA No. 9710), The Magna Carta for Persons with Disability (RA No. 7277, as amended). Megawide is a multicultural company thus they value the beliefs and cultures of their expatriates. They also celebrate Mother's Day and Father's Day within the company. Employees from different levels of the company are encouraged to voice out their thoughts and to share ideas regarding inclusivity and equal opportunity. This allows them to incorporate other best practices related to these matters.

BU

The BUs believe that having a diverse workforce provides fresh perspectives, giving the company the opportunity to bring forth innovation. With regards to diversity and equal opportunity, there is minimal risk in this area since the BUs comply with government rules in their HR processes. The BUs also provide students opportunities for on-the-job (OJT) training, where any risks posed by this are mitigated by requiring documentation from the participating schools. The OJT program is office-based for graduating students only and is in coordination with the school.

MWMTI

Achieving diversity within MWMTI provides a perception of fairness which would increase the employees' morale. The company upholds the principle of equal opportunity when it comes to hiring, promotion, rewards and recognition, and other career development opportunities by not discriminating people in terms of age, race, gender, religion sexual orientation, civil status, health conditions, and disabilities. All employees were given sensitivity training aimed at eliminating incidents of bullying, harassment, and discrimination.

GMCAC

GMCAC implements a recruitment strategy that is fair and inclusive, having no prejudice over gender and civil status, as the company aims to uphold equal male and female representation across all job levels. The company also provides equal leave benefits to all employees, with additional benefits for employees from the vulnerable sector, while currently strengthening women empowerment in the workplace. As there is a significant number of female leaders in the company, this program will hopefully encourage other women to take on greater responsibilities and participate more actively in the business. In the long run, a high female representation in the company-promotes gender fairness and equality.

Megawide's Management Approach for Occupational Health and Safety

BU's

Being a major player in the construction and engineering industry, the health and safety of workers is of utmost importance to Megawide. The company adopts high standards of safety in all operations and maintains an Occupational Health and Safety (OHS) certification across business units to manage related concerns. Megawide also implements the Philippine Occupational Safety and Health (OSH) Standards, which are monitored by the Department of Labor and Employment (DOLE).

The BUs have a strict OHS management that covers all workers, areas, and activities. Work-related hazards are identified through a regular routine inspection of the site after which recommendations are communicated to workers to eliminate hazards, mitigate risks, and apply the hierarchy of controls. The BUs also ensure that the worker is certified to work on each activity. The results of the routine inspections are used for auditing and taken into consideration when evaluating the OHS management system for improvement.

During hazard and risk orientation and training, workers are informed on how to report on hazardous situations and are also instructed to proceed to the medical department for an assessment of any injury sustained. Work-related incidents are investigated with all parties involved and corrective actions are carried out later on.

For occupational health services, BUs ensure that there is a secured stock of medicines and that equipment is thoroughly inspected for the safety of employees. They also conduct health awareness and orientation for all workers. HMO is already provided and any personal health-related information of the workers are kept confidential. For OHS related concerns, workers are encouraged to participate through capacity building activities such as toolbox meetings and drills. A safety committee is also established where all workers are represented. In terms of OHS-related training, all employees are required to undergo an 8-hour seminar on safety awareness and other work-specific training.

Although the COVID-19 pandemic affected everyone including the industry, companies slowly transitioned and established a new normal in 2021. Megawide continues to follow health and safety guidelines mandated

by the government where workers and subcontractors are encouraged to undergo COVID-19 vaccination. All BU workers and subcontractors practice a bubble system in which workers are prohibited from going outside the premises to avoid contamination of the virus. The company constantly ensures that safety and health protocols are strictly implemented within the company such as social distancing, wearing of masks, checking of body temperature, and monitoring of COVID-19 related symptoms. Antigen Testing Kits are also readily available for all BUs in the case that workers exhibit signs and symptoms of COVID-19. For COVID-positive workers or workers exposed to positive cases, isolation facilities are provided to all BUs.

EPC

EPC has an Occupational Health and Safety (OHS) system that is in accordance with national laws, guided by the Philippine Occupational Safety and Health (OSH) standards by the Department of Labor and Employment (DOLE) and complies with the guidelines under OHSAS 18001 certification, which is the international standard for OHS procedures, policies, forms, and methodologies. Their OHS system includes the necessary controls to ensure that all tasks within project sites and various departments are accomplished safely and efficiently. In addition, EPC conducts a Hazard Risk Assessment and Control (HIRAC), which provides an additional basis for controls and actions to take. With all employees abiding by the OHS system, this safeguards against possible violation of government policies.

Prior to employment, workers are required to undergo physical and medical examinations to determine their fitness to work. They also undergo an Environmental, Health, and Safety Orientation before working onsite which equips workers with the basic safety knowledge related to their jobs. Toolbox and health talks are regularly held at the beginning of each shift to go over health and safety protocols. The company also provides a dedicated staff nurse on-site to monitor worker health and provide immediate care in cases of emergency. An approved method statement and Job Hazard and Risk Assessment are required prior to the start of each project task to guarantee that proper health and safety controls are implemented on site. Controls are regularly monitored for compliance and project sites conduct safety inspections and audits where results are later on communicated to the persons-in-charge for immediate corrective action and resolution. The risk of injury is inherent to the construction and engineering industry. As such, EPC emphasizes compliance with highest construction safety standards. For instance, the company has adopted the European Standard on Safety Scaffoldings which makes use of safety scaffoldings as a requirement to provide safe access in the workplace. They also have a Zero Accident Safety Program that focuses on the prevention of accidents or serious injuries to workers. In line with this, EPC strictly enforces the use of personal protective equipment (PPE). A Safety Engineer is also stationed in each construction site to oversee all safety protocols.

When an incident occurs, an investigation team is formed consisting of Site Supervisors, Foremen, a Safety Advisor, a Safety Officer, and Nurse. Statements are collected from witnesses and persons involved to support the investigation. EPC conducts a root cause analysis and implements corrective and preventive actions to ensure that such incidents will not be repeated. Learnings and recommendations from the incident investigation are disseminated to all employees through toolbox meetings, health and safety committee meetings, and project safety alerts. EPC also has a company policy to provide all projects with a Contractors' All Risk Insurance to cover risks of possible injuries, death, or property damage.

MWMTI

In 2021, MWMTI focused on improving its own OSH Management System. The company developed programs and plans for the improvement of health and wellness of their employees. They also engaged in wellness activities for employees to reduce their BMIs and improve their lifestyle. Despite local COVID-19 restrictions, employees were still eager to learn the importance of OSH in the workplace. The company conducted virtual training for the continual improvement of employees and raised awareness for OSH. The participation of employees in these programs allows them to learn more details on OSH, therefore ensuring compliance

within the workplace.

An Occupational Safety and Health Program was submitted in 2021 for DOLE approval. However, there will be some revisions made and additional programs will be implemented. The OSH Program covers all organic and inorganic employees at PITX. However, some employees may not be able to participate due to their work schedules and availability. MWMTI makes use of Hazard Identification, Risk Assessment and Risk Control, and Job Hazards Analysis to identify how exposed workers are to hazards that are present in their work area. This process is overseen by personnel who are well-aware and trained for the task they are assigned to. Evaluated results from these processes will identify residual risk that could still be present in the workplace. The company will then use the results to continue to improve the OSH Management System. Workers can report any work-related hazards through any means necessary such as through the clinic, Information Counter, Viber and MS Teams Chat, and other related applications. To prevent accidents or injuries in the workplace, each employee is required to undergo the Mandatory Eight-Hours OSH Orientation which will also raise their awareness in identifying hazards in the workplace. Any work-related incident undergoes thorough investigation from the team, the clinic, and security. This is then approved by their immediate superiors for the implementation of proper controls.

In terms of occupational health services, PITX engages with Clinic Management to ensure manning on the facility's clinic. Clinic Management was supervised and monitored by the Health and Safety Specialist to ensure the quality of services being provided. The clinic was also evaluated through KPIs on a monthly basis. Employees are welcome to go to the clinic for their immediate health concerns as it is open 24/7. Clinic records are kept with utmost confidentiality and requesting consent is done prior to the release of information to others, if necessary. PITX also has a joint management-worker health and safety committee in place. Besides the Mandatory Eight-Hour Orientation on OSH, Fire Safety Seminar and Health Talks are conducted for workers. Health promotion is done through a consultation program with the company's physician.

GMCAC

The GMCAC occupational health and safety (OHS) management system is an integrated set of work practices, beliefs, and procedures for monitoring and improving the safety and well-being of all aspects of the company. GMCAC promotes an OHS management system for safety policy, safety risk management, safety assurance, and safety promotions. An OHS Performance Indicator is used by the company to evaluate its own management system.

An OHS management system has been implemented to abide by legal requirements and as part of the GMCAC's commitment to promoting a safe and healthy culture within the company. This management system covers all GMCAC employees, airport terminal operations, and activities such as customer service, engineering activities, aerobridge operations, office works, and conduct inspection. However, the OHS management system does not cover other stakeholders such as government agencies, airline operators, and ground service providers. Several controls are in place to ensure the health and safety of employees and other stakeholders. The company has switched to water-based paint from thinner-based and established engineering controls such as the provision of table guarding (plexiglass barrier), machine guarding, and an exhaust system. GMCAC also had administrative controls such as the permit to a work system, implementation of safety orientation and safety signages, and training and certification. PPEs such as protective clothing and safety shoes are also provided. In terms of evaluating and improving the OHS management system, GMCAC conducts a risk assessment regularly. Workers are also encouraged to report any work-related hazards to the safety team or during their shift. They are also expected to utilize the safety management manual as their guide in removing themselves from work situations that they believe could cause injury or ill-health. For work-related incidents, these are investigated through daily shift inspections and walkthroughs.

As part of their medical surveillance program, health insurance is provided and there is a designated clinic for Terminals 1 and 2, an ambulance on standby, as well as doctors and nurses who are on duty 24/7. The company does not disclose any personal health-related information to other parties as these are only accessed by key personnel to maintain the confidentiality of the worker's health status. In terms of worker participation, safety reporting is implemented and an Environment, Health, and Safety (EHS) Committee is selected and established based on the identified safety program. Worker training includes an on-boarding EHS orientation program for new employees, certification for designated safety officers, and process certification for passenger boarding bridge operators. In terms of work-related injuries, first-aid cases were the most common in 2021. Although there were no cases of work-related ill health, COVID-19 was still determined to be a risk. This was addressed through the implementation of various safety and health controls.

The main initiatives of GMCAC for OHS include the provision of PPEs and the implementation of information education campaigns (IECs) on health and safety to prevent the occurrence of accidents in the workplace and to ensure the good health of employees. GMCAC conducts hazard identification and risk assessment, and provides recommendations for controls.

For instance, the spread of communicable diseases and viruses, including COVID-19, from infected passengers was identified to be a risk of the business. These can be easily transmitted due to the number of employees, personnel, and customers that go to the airport. Infected employees may be absent from work which leads to the disruption of operations. In response, GMCAC has adjusted its operations to prevent the potential spread of disease or viruses such as COVID-19.

GMCAC is committed to the improvement of its OHS initiatives and programs by setting aside a budget for health facilities which includes the provision of an emergency treatment/isolation room and a clinic. The company has also partnered with health providers to provide medical surveillance at the workplace and maintain close communications with the Department of Health, Bureau of Quarantine, and the local government unit.

In terms of COVID-19 response, GMCAC implemented several measures, focused on four main aspects:

1. To increase physical and mental resilience, through:
 - a. Provision of psychosocial support in the form of HR email blasts on COVID-19 information and guidance
 - b. Access to telemedicine or online consultations
 - c. Health advisory posters
 - d. Conduct of orientations
 - e. Provision of guidelines
2. To reduce transmission of COVID-19 in the workplace, through:
 - a. Provision of online health declaration checklist. This is also to prevent the entrance area from being crowded with the number of people entering, as well as to avoid the need for a pen to fill up physical forms
 - b. Provision of standalone thermal checker to maintain physical distancing
 - c. Provision of PPEs (e.g. facemask, face shields, protective clothing, etc.)
 - d. Provision of alcohol at different strategic locations
 - e. Provision of disinfection mats at the entrances
 - f. Disinfection of all work areas and frequently handled objects, such as door knobs and handles
 - g. Provision of sufficient clean water and soap at washroom and toilet facilities
3. To minimize contact rate, through:

- a. Implementation of alternate office reporting or work from home during ECQ
 - b. Use of the Zoom online meeting platform. The Company promoted the use of videoconferencing to discourage face-to-face interaction with clients. If videoconferencing was not possible, measures were taken to limit the number of attendees inside the meeting room.
 - c. Rearrangement of offices and tables to maintain social distancing
 - d. Provision of footpaths in the office hallways, aisles, corridors, and stairwells
 - e. Provision of Plexiglass barriers at counter stations
 - f. Encouraging employees to eat their meals at their work stations and practicing frequent sanitation of tables
4. To reduce the risk of COVID-19 infection, through
- a. Provision of Restart guidelines
 - b. Provision of isolation room
 - c. Regular reporting to the Department of Health
 - d. Provision of return-to-work protocols to determine employees' fitness to work

Labor Laws and Human Rights

Disclosure	MCC	MWMTI	GMCAC

MWMTI		
Topic	Y/N	If Yes, cite reference in the company policy
Forced labor	N	
Child labor	N	
Human rights assessment	Y	Code of Discipline

Megawide strictly complies with labor and human rights laws which has led to zero legal actions or employee grievances involving forced or child labor.

Megawide's Code of Business Conduct and Ethics contains the following provisions in relation to labor laws and human rights:

“Non-Discriminatory Environment: The Company fosters a work environment in which all individuals are treated with respect and dignity. The Company promotes equal opportunity and does not discriminate against Company Personnel, potential employees, officers or directors on the basis of race, color, religion, sex, national origin, age, sexual orientation, or disability. The Company will only make reasonable accommodations for its Company Personnel in compliance with applicable laws, rules and regulations. The Company is committed to actions and policies to assure fair employment, including equal treatment in hiring, promotion, training, compensation, termination and corrective action, and will not tolerate discrimination by Company Personnel. This policy also applies equally to the treatment of the Company's customers/clients.

Harassment-Free Workplace: The Company will not tolerate any form of harassment of Company Personnel, customers or suppliers, which shall include sexual harassment. Sexual harassment is illegal and Company Personnel are prohibited from engaging in any form of sexually harassing behavior. Sexual harassment means unwelcome sexual conduct, either visual, verbal or physical, and may include, but is not limited to, unwanted sexual advances, unwanted and/or suggestive touching, language of a sexual nature, telling sexual jokes, innuendoes, suggestions, suggestive looks and displaying sexually suggestive visual materials.

Workplace Violence: It is the policy of the Company to ensure that all inter-relationships among persons in the workplace will be professional and free from bias, harassment, and/or violence. Thus, the workplace must be free from any kind of violent behavior. Threatening, intimidating, or aggressive behavior, as well as bullying, subjecting to ridicule, or other similar behavior toward fellow Company Personnel or others in the workplace will not be tolerated.

Any form of violent misconduct, discrimination, harassment, retaliation, and/or other forms of violent behavior, even if not unlawful, will be subject to disciplinary action. Additionally, any misconduct that is also unlawful may be subject to civil and criminal liability.”

Megawide secures and conducts an annual reorientation of the company's Code of Business Conduct and Ethics to instill in the minds of employees the policies that pertains to human rights. In 2021, all BU employees underwent a total of 109 hours of training on human rights policies and procedures. The company is aggressive in preventing incidents related to labor laws or human rights by ensuring that all immediate superiors are well-informed of these policies and are able to manage any incidents reported.

MWMTI

MWMTI believes in measuring corporate excellence, based not only on the attainment of its goals, but also on the general welfare of its employees, customers and stakeholders. MWMTI continues to place a premium on the value of its employees, the satisfaction of its customers, the respect for its suppliers, and the satisfaction of its investors. They seek to conduct their business with the highest regard for human rights and always with honesty, integrity, and in good faith, while respecting the legitimate interests of those it conducts

business with. Its employees interact lawfully, decently, and professionally with its colleagues, suppliers, customers, and investors.

MWMTI is compliant with all national labor laws and regulations, and all local ordinances that pertain to wages, labor standards, workplace conditions, compensation, benefits, due process, and the discipline and severance of employment. The company recognizes the relevance of abiding by corporate policies on inclusion and diversity, anti-discrimination, anti-harassment, anti-corruption, workplace safety, data privacy, single parenthood, violence against women, mental health, and corporate sustainability. For MWMTI, the business can only thrive in an environment where human rights are protected and respected and where labor laws are strictly complied with. In 2021, 60% of all employees underwent a total of 22.5 hours of training on human rights policies and procedures.

GMCAC

GMCAC is compliant with labor laws and human rights requirements which creates a positive impact on team dynamics, work culture, and stakeholder relations. It ensures proper compliance with these laws and regulations through the implementation of the Organizational Climate Survey, Employee Engagement Survey, HR Buddy System, and Department Coordination Meetings. GMCAC has also organized the Banwag and Employee Engagement Committees.

GMCAC has identified the following as risks due to non-compliance to labor laws: labor unrest, labor cases, and termination of concession agreements with the Government. The company prevents these by implementing strict labor compliance measures to protect all employee rights and ensure that all labor concerns are addressed. GMCAC automatically prevents child labor by registering all its personnel with SSS, Pag-Ibig, PhilHealth, and BIR among others, which require registrants to be at least 18 years of age. Furthermore, GMCAC does not accept child labor employed by contractors in any of its projects. Apart from this being a violation of the labor laws, it also poses a safety concern to the business.

GMCAC improves its compliance with labor laws by benchmarking the best practices, reflecting on their core values, and defining a positive and engaging work culture/environment. They have also looked into investing in employee training, employee engagement activities, and continuous communication with employees for updates and concerns.

Megawide's Management Approach for Supply Chain Management

Megawide maintains contract agreements with their suppliers. These serve as the basis for the suppliers' commitment to the company. Megawide's contracts require compliance with all applicable laws, rules, and regulations. Contractors, suppliers, and service providers are required to undergo an assessment and accreditation process. This includes the submission of documentary requirements that prove the supplier's good legal standing. The various BUs also consider environmental performance, risks of bribery and corruption, forced labor, child labor, and human rights concerns when accrediting suppliers.

BUs

It is important to assess suppliers based on their environmental performance and governance. This allows the company to learn their capabilities in supplying products or services while not negatively impacting the company's operations and reputation. Suppliers are assessed and evaluated through the submission of their documents, plant visits, and through compliance to Environmental Certificates, especially if the supplier has ownership over quarries. The Accreditation Team conducts a thorough verification of the supplier's records, including an assessment for any pending cases. The management approach is evaluated through the total number of approved and accredited suppliers.

EPC

EPC's procurement includes anti-fraud and whistleblowing policies in its supplier accreditation process. However, it is also considering the inclusion of an environmental and social criteria in accrediting and approving suppliers to further strengthen the process.

GMCAC

GMCAC's legal team reviews permits, while the finance team monitors and manages the supplier accreditation and payment processing. This includes the submission of compliance certifications, documentation, and remittances from stakeholders and process owners. GMCAC also has a feedback mechanism in its engagements with suppliers. External stakeholders, such as third-party suppliers, as well as members of internal departments are expected to comply with company processes and checklists. Megawide and GMCAC also conduct regular internal and external audits to ensure compliance and to check for possible improvements in the process.

As of 2021, the SBUs have no environmental and social criteria for the accreditation of suppliers. Their

respective procurement departments select suppliers based on the legitimacy of its operations through requirements such as business registration and other governmental licenses and permits. Because of this, GMCAC considers to dig deeper into the responsibility of assuring the individual responsibilities of their suppliers to the environment and society. Hence, the procurement policy will be further reviewed to incorporate provisions for both environmental and social criteria. Continuous conduct of supplier audits will help identify additional criteria that can enhance the current procurement process.

Relationship with Community

Significant Impacts on Local Communities

GMCAC

Operations with significant (positive or negative) impacts on local communities (exclude CSR projects; this has to be business operations)	Location	Vulnerable groups (if applicable) *	Does the particular operation have impacts on indigenous people (Y/N)?	Collective or individual rights that have been identified that or particular concern for the community	Mitigating measures (if negative) or enhancement measures (if positive)
Airport operations	Lapu-Lapu City, Cebu	Children and youth, elderly, PWDs, urban poor	N		Community consultation, relief operations, communication campaigns

**Vulnerable sector includes children and youth, elderly, persons with disabilities, vulnerable women, refugees, migrants, internally displaced persons, people living with HIV and other diseases, solo parents, and the poor or the base of the pyramid (BOP; Class D and E)*

For operations that are affecting IPs, indicate the total number of Free and Prior Informed Consent (FPIC) undergoing consultations and Certification Preconditions (CPs) secured and still operational and provide a copy or link to the certificates if available: _____

Certificates	Quantity	Units
FPIC process is still undergoing	N/A	#
CP secured	N/A	#

Megawide operations are strategically situated in areas that allow the company to optimize efficiency. These operations may, however, result in direct and indirect negative impacts on neighboring communities and the local environment.

Construction activities in project sites, as well as in the Taytay Industrial Complex generate dust and waste, contribute to noise pollution, produce dust and waste, and may cause traffic congestion. Megawide carries out strategies to manage these negative impacts, including the installation of technology and equipment to reduce noise and dust. They also invest in the formulation of traffic management plans to ease the congestion caused by operations and activities.

BU

The Batching Plant has been working in coordination with Megawide Foundation for CSR activities. It has contributed to responding to the needs of the local communities since 2012. Megawide Foundation serves as the company's CSR arm, tapping into the company's available First-World solutions such as technical training and sustainable infrastructure. This will support and achieve the organization's goal of building more resilient communities. In response to the events of 2021, the Batching Plant made plans for a blood donation activity with their partner local communities. However, this was rescheduled to 2022 due to the COVID-19 lockdown. This activity was initiated to address the needs of employees and the local community where mobile plants are located.

MWMTI

MWMTI upgraded their facilities to accommodate increasing passenger traffic and tenants in the facility. The company recognizes that their activities and operations can result in environmental impact, such as air pollution, solid waste, and increased traffic congestion. MWMTI ensures the proper implementation of waste management procedures to mitigate these impacts, as well as traffic management schemes to manage the vehicular flow.

GMCAC

Given the wide scope of airport operations that encompass several local communities, GMCAC works closely with its neighboring communities. GMCAC acknowledges that its operations can give rise to impacts such as traffic congestion, noise and air pollution due to airside operations (i.e. refueling, aircraft emissions, and more), and waste generation from terminal operations. Furthermore, there is the presence of health risks due to the COVID-19 pandemic.

Guided by its 10-year CSR Roadmap, GMCAC ensures the implementation of its social programs for its local communities such as livelihood and education initiatives through donation of school supplies for distance and modular learning, community relief operations, donation of basic PPEs to health workers, compliance to local and national health protocols, and consultation sessions with stakeholders particularly its host communities in Ibo and Pusok. In 2021, GMCAC continued to implement initiatives in ways that can help the community given the available resources. GMCAC remained committed to its local communities through the provision of school supplies to Pusok Elementary School to support its teachers and students in distant modular learning. GMCAC also donated basic PPEs to local health workers and sanitary and hygiene kits to Barangay Mambaling where around 1,000 households were affected by a fire incident. In addition, the company supported the Department of Health (DOH) by holding its own mobile blood donation program to contribute to the DOH National Voluntary Blood Services Program.

In order to ensure the viability of each program, these are annually evaluated and aligned with the core values

and annual goals of the company. After-Action Reports are also submitted to various stakeholders such as grantors and lenders.

Megawide's Management Approach for Customer Management

MWMTI

Customer satisfaction is MWMTI's top priority. MWMTI has a 24-hour feedback center which caters to all customer concerns. Training is provided to customer-facing employees to ensure high standards of service. In 2019, the facility came up with baseline measures of customer satisfaction for its facilities and amenities. The Parañaque Integrated Terminal Exchange (PITX), the country's first land port, continues to enhance customer experience by promoting PITX as a friendly terminal and developing a culture of exceptional customer service across the entire PITX community. The goal is to have all PITX front liner staff provide consistently high levels of customer service. The Customer Service Culture land port continues to measure customer satisfaction by monitoring Customer Satisfaction (CSAT) scores through the Landport Service Quality (LSQ) Survey. PITX defines and builds their Customer-Centric strategy by putting customers' needs at the core of their business. The PITX LSQ Survey also provides more in-depth data analysis between Overall Satisfaction Score and Passenger Stated Importance.

MWMTI implemented safety and health protocols for the well-being of customers. PITX continues to conduct

sanitation efforts at the landport multiple times daily. Landport staff have developed and deployed misters to rapidly sanitize and disinfect high-traffic areas. All entrances to the terminals are equipped with body temperature scanners and information counters and ticketing booths were installed with acrylic barriers. Stickers have also been strategically placed around the facility to remind guests about social distancing. The landport also has public announcements about safety protocols. PITX has designated line overflow locations at ticketing and boarding gates, to ensure that social distancing is maintained even during peak travel times. In addition, the landport has implemented the PITX COVID Ambassador Program as an effort to make travel safer during the ongoing COVID-19 pandemic. Through the program, PITX deploys travel safety ambassadors at the landport to make sure that all passengers follow the seven commandments for public transport passengers, stakeholders, visitors, and commercial establishments.

The 7 Commandments for Public Transportation

1. Wear proper face mask
2. Wear face shield
3. No talking, no eating
4. Adequate ventilation
5. Frequent and proper disinfection
6. No symptomatic passengers
7. Observe physical distancing

GMCAC

The Mactan-Cebu International Airport Authority (MCIA) measures quality and customer satisfaction through the Airport Service Quality (ASQ) survey which considers 33 service parameters. There is an established process for managing customer complaints based on the Minimum Performance Specifications and Standards (MPSS). MCIA has a target of acknowledging complaints within two days and resolving cases within five days.

In 2021, the ASQ survey was temporarily suspended from January to April due to low turn-out and restriction on face-to-face interaction. From May to mid-September, the survey resumed using a QR code, which yielded a minimum acceptable rating of 3.5 but falling short of the minimum 1,400 number of respondents. In 2020, the ASQ Survey was suspended as the decline in air travel caused the drop in passenger volumes passing through the terminals and would not reflect ASQ parameters and results accurately.

2021 GMCAC Traffic Statistics

	Domestic		International

GMCAC continues to invest in the improvement of its services and facilities. GMCAC conducts regular data collection and reporting activities to determine the needed improvements. They also carry out audits and process monitoring programs. The IMS Certification process was still put on hold in 2021 due to the COVID-19 pandemic.

Physical manning of information counters at GMCAC is terminally suspended. Instead, Virtual Passenger Service Agents were set up to attend to customer-related concerns. This initiative was implemented to comply with the DOH, DOLE, and DOTr health control measures during the pandemic.

Since health and safety were an operational priority for airport terminals, MCIA ReStart Guidelines were established and implemented in response to the pandemic. These guidelines contain health control measures to reduce the risk of COVID-19 transmission and infection.

Marketing and Labeling

No. of substantiated complaints on marketing and labeling*	0	0	0
No. of complaints addressed	0	0	0

**Substantiated complaints include complaints from customers that went through the organization's formal communication channels and grievance mechanisms as well as complaints that were lodged to and acted upon by government agencies.*

Megawide's Management Approach for Marketing and Labeling

Megawide has an established portfolio in the construction industry, given their strong brand name and proven track record of providing quality construction services and of managing the airport and terminal operations. They have participated in biddings for large infrastructure projects due to their Large B

classification for government registration. Properties and future developments aim to obtain ISO and LEED certification as a commitment to provide quality work to clients and to advocate for responsibility in their operations. Megawide secures their equipment in different business segments with the necessary certifications and licenses. They also apply for and renew the proper environmental and safety licenses and permits.

In their transport and airport operations, they engage with different stakeholders, especially passengers in providing information on PITX and MCIA services. MWMTI distributes flyers that contain the vicinity map, route map, and terminal guide. It is expanding its partnerships with different organizations to increase the marketability of the Landport. GMCAC protects its reputation by accommodating stakeholder feedback through social media channels and giving the appropriate responses. These avenues also allow the company to improve its processes and services based on customer perception.

Any internal or external factors that influence the success of marketing strategies and activities may affect the company’s reputation. Corporate plans and strategies are aimed to provide a greater advantage over their competitors in the industry.

Megawide is exposed to the risk that their name or marks, or those confusingly similar to them, will be used, copied, reproduced, imitated, or infringed by an unauthorized third party. Moreover, such risk includes the use of the Megawide name or marks for projects, goods, or services which they are not a part of, have not produced, or are not offered by the company. This leads to the unfair and illegal appropriation of the goodwill associated with Megawide's name and marks. To minimize or address the marketing and labeling related risks faced by Megawide, their name and marks are registered with the Intellectual Property Office of the Philippines (IPO). Particularly, the IPO has issued Certificates of Registration for Megawide's typeface, logo, and logo with typeface. Meanwhile, Megawide has received a Notice of Allowance for their tagline from the IPO and has paid the required fees for the issuance of the Certificate of Registration.

By registering their name and marks with the IPO, Megawide is protected against the unauthorized use or infringement of its name and marks, or those confusingly similar to them. Additionally, Megawide is assured that they are the owner of such name and marks and have the exclusive right to utilize the same. As a fair competitor in the industry, Megawide continues to uphold their accreditation and certifications from regulatory and voluntary codes. Aside from maintaining the uniqueness of their brand and trademark, processes across the SBUs are also being managed to maintain quality and timely delivery of work that are true to all accreditations and certifications of the company. They market construction products and services, as well as the Terminal and Airport operations through various platforms and media. The Branding Team continues to develop its marketing strategies to effectively communicate their products and services to wider audiences.

Data Security

Disclosure	MCC	MWMTI	GMCAC
No. of data breaches, including leaks, thefts and losses of data	0	0	0

Megawide’s Management Approach for Customer Privacy and Data Security

Megawide recognizes that there may be instances when protection and security of personal data can get destroyed, lost, altered, or disclosed, accessed, and processed without consent. To prevent cases of digital identity theft, fraud, and file corruption, the company implements reasonable and appropriate organizational, physical, and technical measures intended for the protection of personal data against any accidental or unlawful destruction, alteration and disclosure, as well as against any other unlawful processing. These include the implementation of safeguards to protect their computer network and regular monitoring for security breaches.

The Megawide Group is firmly committed to ensuring that all personal data collected from data subjects – clients, employees, suppliers, stakeholders, and other relevant external parties, are processed in compliance with Republic Act No. 10173 or “An Act Protecting Individual Personal Information in Information and Communication Systems in the Government and the Private Sector, Creating for this Purpose a National Privacy Commission, and for Other Purposes” (the “Data Privacy Act”), its Implementing Rules and Regulations, and other relevant policies and issuances of the National Privacy Commission (“NPC”).

On 03 September 2018, Megawide adopted a Data Privacy Manual (the “Data Privacy Manual”) in compliance with the Data Privacy Act. In adherence to the general principles of transparency, legitimate purpose, and proportionality under the Data Privacy Act, Megawide abides by the Data Privacy Manual in carrying out its principal business. This is to ensure that personal data under its control remain safe and secured while being processed in the course of its key operations and processes. The Data Privacy Manual aims to inform clients, employees, partners, and stakeholders of Megawide’s data protection and security measures, and guide them in the exercise of their rights under the Data Privacy Act and other relevant regulations and policies.

Moreover, they recognize that robust information technology (“IT”) management systems are critical to protecting personal data. Thus, in addition to the Data Privacy Manual, they have also adopted IT data protection policies and procedures, such as hard disk drive low-level formatting and firewall configuration management and monitoring systems.

In compliance with the preventive and control measures imposed by the government in response to COVID-19, the company implemented work-from-home arrangements in 2020 and 2021, which created security challenges. However, to ensure that the data privacy of data subjects remains protected, the IT Department initiated the following measures in the new remote work reality: (i) migration of all working documents and resources in the cloud services of Microsoft Office; (ii) installation of antivirus software for end-point security with data loss prevention features for all users; (iii) continuous monitoring of firewall logs for any security breaches; and (iv) setting up of alert mechanisms for any unauthorized attempt to the IT system of Megawide.

UN SUSTAINABLE DEVELOPMENT GOALS

Product or Service Contribution to UN SDGs

Key products and services and its contribution to sustainable development.

Key Products and Services	Societal Value / Contribution to UN SDGs	Potential Negative Impact of Contribution	Management Approach to Negative Impact
Construction and Manufacturing Operations	SDG 8: Decent Work and Economic Growth SDG 9: Industry, Innovation, and Infrastructure	- Air pollution and dust generation -High risk of accidents due to the nature of works in the construction	- Compliance to DENR policies and procedures in minimizing contribution to pollution - Compliance with DOLE safety standards for construction and manufacturing activities
Transport-oriented Operation	SDG 8: Decent Work and Economic Growth SDG 9: Industry, Innovation, and Infrastructure SDG 11: Sustainable Cities and Communities	Traffic congestion in surrounding areas	Traffic management plan
Social Responsibility Activities	SDG 3: Good Health and Well-Being SDG 11: Sustainable Cities and Communities SDG 13: Climate Action SDG 15: Life on Land	None since these activities aim to contribute to the betterment of beneficiaries.
